

# TEAMSTERS TO GO OUT TUESDAY

WILL DEMORALIZE BUSINESS IN NEW YORK

## A FUEL FAMINE IS THREATENED

Thousand Taxicab Drivers Strike, and It Is Expected That Not a Wheel Will Be Turned Tomorrow

NEW YORK, Nov. 7.—The teamsters' strike which will tie up every wheel in New York and vicinity will probably be called tomorrow. A thousand taxicab drivers struck this morning. Samuel P. Gompers is directing the fight.

It is feared the strike will first tie up the coal yards, and a fuel famine will cause much suffering. The next to go out will be the deliverymen, then the mail, garbage and ash wagon drivers. Vice President Hoffman was stricken with paralysis this morning as a result of overwork. His condition is serious.

## COMMANDER OF ENGLISH CRUISER IS WOUNDED

England and Russia Will Eventually Divide the Country Between Them

TEHERAN, Persia, Nov. 4.—The British invasion of Persia begun today with a pitched battle, in which it is reported that the commander of the British cruiser Proserpine was wounded. According to the latest advices the Proserpine landed marines at Litgah, on the Persian gulf, a few days ago. When the blue jackets were landed this morning the Persians attacked them. The result of the battle and the number of casualties is unknown.

England's action is ostensible to "preserve order in the British sphere of influence in Persia," but it is generally believed that Russia and England have agreed on a program to divide Persia between them. The czar's reward is to be a seaport and England's compensation will be a further safeguarding of India.

Germany, Austria, Turkey and France are known to be opposed to England's actions. It would not be surprising if they go to any length to prevent the partition of Persia. Seeing that the Gulf of Oman ports were "Russianized" Persia by establishing Russian schools, banks, commerce, railroads and churches. England, fearing the Indian frontier would be menaced began "Anglicizing" that part of Persia which is within the British sphere of influence.

The result of the present struggle may change the face of the map of Europe.

## HOPE OF SAVING ENTOMBED MINERS HAS BEEN ABANDONED

Fourteen Men Are Caught in Lowest Level of Coal Pit—Timbers Hurt by Explosion

BLACK DIAMOND, Wash., Nov. 7.—All hope of saving the fourteen miners who are entombed in the Lawson coal mine was given up today and it is believed that all are dead. They were caught after the explosion yesterday five minutes after the fire boss, coming to the surface, had reported that "All is well." The mine is one of the deepest in America, and the men met their death on the lowest level. The force of the explosion hurled timbers out of the pit mouth, injuring bystanders.

## EXECUTION OF DR. CRIPPEN HAS BEEN POSTPONED

No Definite Date Has Been Set, But He Will Probably Die on November 23d

LONDON, Nov. 7.—The execution of Dr. Hawley H. Crippen, which was scheduled for tomorrow, has been postponed for two weeks more. No definite date has been set, but it is probable that Dr. Crippen will die on November 23d. The home office ordered the postponement of the execution. Dr. Crippen is overjoyed, and said: "I believe something yet will intervene to prove my innocence."

## STICKS TO THE TRUTH AND GOES TO JAIL

Newspaper Reporter Refuses to Betray a Confidence, and Is Locked Up for Contempt of Court

Charles J. Hamilton, a newspaper reporter of Augusta, Ga., commands our admiration for his courage in declining to break his word and violate

the confidence of a friend, says the Montgomery Advertiser. For this he has been jailed for five days and must pay a fine of \$50. The charge against him is contempt of the police commission.

A mysterious murder occurred in Augusta some time ago. Pledging his word of honor not to divulge under any circumstances the source of his information, a friend of Hamilton on the police force, gave the newspaper man some first hand information respecting the case in point, whereupon the reporter was brought before the police commission and a demand was made of him that he tell where and how he got his information. The police department from the start had declined to give the young man any information on the story, so he set about upon his own initiative to get his facts. He consulted his friend, and got his story.

This constitutes a case of contempt and the outcome of it all will be watched with interest by the newspaper fraternity.

The information he got was legitimate news, says the Savannah Morning News, and he had a right to print it. Our contemporary says that the inquiry which has followed will probably result in "establishing whether or not there is any such thing as a privileged communication to a newspaper reporter," as in the case of the lawyer and his client, the physician and his patient.

It would seem to be a grossly unjust ruling which forces a man to tell a lie in order to escape punishment and such is true of the Augusta case. The reporter would have broken his word and violated the confidence of a friend had he yielded to the demands of a prejudiced police commission and divulged the source of legitimate information which he printed.

It takes a man to do as Charles J. Hamilton has, and we trust he will win out.

## TELEGRAMS AND LETTERS CENSORED

GARRISONS BEING REINFORCED IN MANY TOWNS

General Strike Ordered Among the Workmen, and It Is Being Generally Obeyed

LONDON, Nov. 3.—A crisis is approaching in the affairs of Spain, and it is realized that a revolution is imminent. The government is reinforcing the garrisons at Barcelona, Saragossa and Sabadel. At Madrid the garrison has been increased to 20,000. A general strike has been ordered among the workmen, and it is being obeyed in many places. The military authorities at Saragossa and Sabadel are censoring outgoing telegrams and letters.

A Madrid dispatch declares that the revolutionists have tampered with the Badajose garrison, and that government officials are implicated in the plot. Mayor Santos has been arrested. Senor Blaquez, president of the federation of the young socialists, was arrested for making an anti-military speech at a mass meeting protesting against the arrest of Professor Ovepero of the University of Madrid. It is believed this morning that alarming happenings in Spain are frightening the government, but it is impossible to ascertain what is the cause.

## CHINESE CONSUL GENERAL AMPUTATES HIS QUEUE

Obeys the Edict Issued by the Emperor—Others to Follow His Example Soon

SAN FRANCISCO, Nov. 3.—Consul General Li Wing Yew today officially amputated his queue, following the official edict from the Chinese throne yesterday. The other diplomats are following his example. The progressive Chinese here are rejoicing over the occurrence, and the entire quarter is expected to imitate them as soon as the resident Chinese recover from the shock.

## CHINESE REPRESENTATIVES MUST SEVER QUEUES

Edict of the Emperor Affects All Members of the Diplomatic and Consular Service

PEKIN, Nov. 3.—An edict was issued by the emperor yesterday commanding all representatives of the Chinese government stationed outside the country to sever their queues. The edict affects especially the diplomatic and consular service, and is to be immediately effective.

## SMALL CHANCE OF ESCAPING

DEFAULTER'S OPPORTUNITY TO GET AWAY NARROWING

Extradition Treaties Make Capture Almost a Certainty, and Tracing Is Reduced to a Fine Art

How many men holding positions of financial responsibility are there, I wonder, who, reading in the evening paper of the capture of a criminal in some far land, have not thought, "Ah, but I am cleverer than that. How easy it would be for me to fill a valise with these banknotes and slip away from cares and worries to the shelter of some easier-going land," writes E. Alexander Powell in Adventure magazine.

But it is not worth while, my friends. Men as brainy and as brilliant as you have tried it, and a neglected grave south of the line or a convict's number in a Northern prison marks their ends.

Given the opportunity, a man of coolness and resource and daring may succeed in getting out of the country with almost any sum. But it is only then the real pursuit begins. From that day until he is in a casket or a cell the hunt never halts nor flags. The submarine cables and the wireless dash-dot his crime and his description to the uttermost ends of the earth; the Mauretania may not dock at Liverpool on an ocean tramp may not unload cargo at Port Limon that come quiet, keen-eyed man is not beside the gang-plank as the passengers come ashore, scrutinizing each in turn; his picture and his description hang on the walls of every consulate and shipping office from Pernambuco around to Shanghai.

Let us suppose that he succeeds in making his way to some one of those few semi-civilized countries with which we have no definite arrangements for the surrender of fugitives—Morocco, perhaps, or Abyssinia, Afghanistan or Persia, one of the Central Asian khanates of the Central American republics. It will be only a matter of weeks, at most, before his presence becomes known and the news of it is flashed to the detective bureaus of the world. The United States may have no treaty with the ruler in whose dominion he has taken refuge, but the department of state makes a polite request through its minister resident or consul general for the fugitive's surrender, promising, perhaps, to reciprocate should opportunity offer, and the shah, sultan or President, as the case may be, preferring the good will of the great republic to the gratitude of an escaped criminal, promptly lays rude hands upon him and sends him in, under escort, to the consul at the nearest port.

Communication with Solomon is lost, and it is feared the town has been washed away. Barges and schooners were cast adrift, and rescuers are endeavoring to recover them, as the surf is now abating. Nyal's Vegetable Prescription is indicated in all ordinary diseases of women. This remedy never disappoints, its good effects being perceptible from the very first. It is composed of the purest and the most reliable drugs: mercury, opiate and other harmful drugs being excluded. The many discerning influences to which woman is constantly subjected render her liable to many functional disorders that not only tend to destroy her comfort and happiness, but which gradually merge into chronic and serious diseases.

Nyal's Vegetable Prescription is without a peer for the successful treatment of female weakness, painful and disordered menstruation, hysteria, cramps, "bearing down" pains, inflammation and falling of the womb. This is a remedy of sterling worth.
