

COUNTERFEITERS ARE ARRESTED

PASSED BOGUS DOLLARS AND HALF DOLLARS

HAD A NUMBER OF COINS WITH THEM

Are Locked in the County Jail, and Will Be Taken to Portland by Federal Officers

Two counterfeiters were caught in this city Friday night by Officers Townsend, Hall and Walker, and are now locked in the county jail. The two persons under arrest are a man about 45 years of age, who says his name is Duffy, and a boy apparently 17 or 18 years old. They were arrested at the Maaten house, and in the room they occupied were found the molds and a quantity of solder with which they manufactured the bogus coins. The two have been here for several weeks, and passed several pieces of the manufactured coins. They passed \$1 at the Iris theater three or four days ago, but at the time the one who presented the coin was not noticed. A day or two later the same man called there again and laid a dollar silver piece on the counter, but this time it was seen and passed back to him. But what led to their detection was when they attempted to pay their room rent at the Maaten House, and made the coins out of solder, several strips of which they had with them. They had three or four \$1 coins and nearly \$20 worth of 50 cent pieces. The bogus coins are very crude, and could be easily detected if one were looking for them, but in a dimly-lighted place some of them might be taken if they were not picked up, when their lightness would at once be detected. They melted the solder in a large iron spoon which they held in the stove, and then poured the metal into the mold. At first the boy said the older man was his uncle, but now he denies that they are related. Counterfeiting is a federal crime, and the two will probably be taken to Portland, where they will be tried in the United States court.

LAND OPEN FOR ENTRY IN SILVER LAKE DISTRICT

In a Rich District, and Offers Many Advantages—Under Irrigation Project and Railroad Survey

LAKEVIEW, Nov. 26.—The lands in the Silver Lake irrigation project that were withdrawn from all forms of entry some years ago are to be thrown open to entry and settlement next week. These lands comprise some that are specially adapted to agriculture, as the soil is very deep, fertile and productive when properly handled. Good water is to be had at depths of from ten to twenty-four feet, and there is an abundance of fuel and fencing material within a short distance from a portion of the lands thrown open. The survey of the Oregon Eastern will run within twenty miles of the tracts, and there is a town of 500 people, schools, stores, etc., within six miles of some of the land. One thing that makes it attractive is the fact that there are thousands of geese on the lake and marsh close to the agricultural land every day in the year, while ducks abound. Good fishing is at hand and with a delightful climate there is an opening for the man that desires a good home where he is able to make a living. People coming this way can either come by Klamath Falls or Alturas, Calif., and can take the stage from either place to this point. It will also be possible to come by auto from either place.

Origin of the "Black Hand."

According to the United States Secret Service, the "Black Hand" is a handy name for a brand of crime peculiar to Italian criminals, who are successful because of the temperament of the foreign immigrants and their inborn dread of the extortionists. Whether the central government which guides the "Black Hand Society" is located in the United States or in Italy is something which neither the Italian nor the United States authorities can discover. United States officers say the name of the American "Black Hand" emanated from Chicago about ten years ago, when one of the first of many mysterious murders in the Italian quarters remained unsolved. The victim had received a warning that death would follow his failure to contribute a specified sum of money. The letter was embellished with a crude

drawing, representing a fist clutching a dagger. The fist and dagger gave the name "Black Hand."

BANKER WALSH WILL NOT GAIN HIS FREEDOM

Wickersham Says Freedom for the Bank Wrecker Is Out of the Question

CHICAGO, Nov. 26.—A special dispatch from Washington says: John R. Walsh will not be liberated from the federal penitentiary at Leavenworth, Kans., where he is serving a five-year sentence for the wrecking of the Chicago National bank and allied institutions. Attorney General Wickersham has concluded his study of the reports on the Walsh case made by District Attorney Sims of Chicago and Federal Judge Anderson of Indiana. He has reached the conclusion that the pardon of Mr. Walsh by the president is out of the question on showing of facts. The attorney general has also concluded that a commutation of Walsh's sentence would be unwarranted unless it should be shown by further examination that the prisoner is in failing health.

GEN. MADERO REPORTED WOUNDED

REVOLUTIONISTS LOSE THEIR STRUGGLE

Failure of Rebels to Prevent Looting Chief Cause for Their Loss of the Conflict

EL PASO, Texas, Nov. 26.—A canvass of the situation this morning practically removes all doubt but what the revolution is over. The Mexican officials assert that Madero lost the struggle because he could not prevent the looting thereby alienating many who had sympathized with his cause. Railroad officials deny that any bridges have been burned or dynamited. It develops that the second American shot at Parral was an International Correspondence school agent named Story, who was struck in the stomach by a stray bullet, and is not expected to live.

TRAINS ARE RUNNING ON MEXICAN RAILROADS

Conditions Throughout the Country Are Improving and Few Americans Are Leaving

WASHINGTON, D. C., Nov. 26.—Consul Edwards at Juarez, Mexico, telegraphs the state department that the excitement is decreasing and that trains north from Chihuahua are maintaining their schedules. Few Americans are leaving the country. Reports from Torreon, Gomez Palacio, Parral, Durango and Zacatecas say that conditions are improving. Ambassador Wilson telegraphs that Mexico City is calm.

LEADER OF REVOLUTIONISTS SAID TO BE WOUNDED

Reported That General Madero Is at Ranch in Texas, and That Physicians Were Summoned

CARRISO SPRINGS, Texas, Nov. 26.—It is reported that a band of revolutionists crossed into Texas this morning, thirty miles below here, with General Madero, who is said to be wounded and it is reported that Madero was left at a ranch and that messengers were sent to Eagle Pass to summon physicians. It is reported that Madero was wounded yesterday in a battle at Guerrero. There is no confirmation of the report.

CONSUMER GETS THE WORST OF IT, ALWAYS

Compelled to Pay the Cost of Every Increase Made in the Freight Rates

WASHINGTON, D. C., Nov. 26.—The consumer is the victim of the rate increases, according to S. C. Barlow, traffic director of the Chicago Association of Commerce, who is a witness before the Interstate Commerce commission today. He said the railroads charged 85 percent increase against class rates and only 15 per cent against commodities. The class rates directly affect the retailer and the consumer, and he asserted that the proposed increase on shoes amounts to three mills per pair. As a result the manufacturers increase the price 15 cents a pair and retailers raised them 40 cents. He asserted that the public not only paid the increases, but everyone handling goods would add to the increase.

MUTINEERS NOT PUNISHED

REBELS IN BRAZILIAN NAVY GO FREE

Sailors Who Seized the Warships Return the Vessels to the Government

RIO JANEIRO, Nov. 26.—The mutineers on the warships, flying the red flag, which left the harbor Wednesday night, despite the crews' promise to surrender, returned yesterday morning. The government sent an embassy to arrange for the return of the vessels to the government. The officials assert the mutiny was directly due to the influence of the Portuguese revolution. The crew of the Sao Paulo, witnessing the easy Portuguese victory in Lisbon Harbor, perfected the mutiny plans during a voyage to this port. Arriving here they learned the soldiers thought the sailors were poorly treated. It is believed that because congress had knowledge that the army was disloyal was the cause of the amnesty. The Brazilian senate had already granted the pardon of the mutineers on the warship Rio Janerio harbor, and it is believed the chamber of deputies will follow suit. The terms of the sailors' surrender of the battleships which they commanded was that they were to go unpunished. The action is arousing much unfavorable comment and the consensus of belief is that the mutineers should be severely punished. The deputies held an extraordinary session, and granted the amnesty. The government representative had a flag of truce sent to the warship and advised the sailors of the deputies' action, and the sailors surrendered.

BEN SELLING WILL BE PRESIDENT OF SENATE

Multnomah Delegation Pledges Its Support to Portland

Senator Ben Selling of Multnomah county is to be the next president of the state senate. At a meeting of the senate delegation of Multnomah held recently Senator Selling was made the unanimous choice of the delegation for the position at the head of the senate. This gives Senator Selling seven votes from this county which added to those already pledged to him from outside the county raises his nucleus close to the needed majority of 16 votes. Now that the choice of the delegation has been given to Senator Selling and both the house and senate members stand back of him, there is no doubt about his election. At the meeting just held Senator Dan J. Malarky renounced any intention he might have had of being a candidate for president of the senate and pledged both his vote and his effort to securing the honor for his colleague. He said that he had been a tentative candidate, that he would have considered it an honor had the delegation chosen him as its candidate, but that he did not desire to enter into a contest for the place and that he pledged his support to Senator Selling.

INJUNCTION ASKED BY RAILROAD IS DENIED

Federal Circuit Court Holds the Rates Set by the Commission Are Not Confiscatory

SAN FRANCISCO, Nov. 26.—The federal circuit court, sitting on Bank, denied the petition of the twenty-two Western railroads who asked for an injunction to restrain the interstate commerce commission from enforcing the reduced intermountain rates. The court held that the rates were not confiscatory as the railroads claimed them to be. The case may be taken before the new court of commerce in January.

A Splendid Picture of Klamath Falls

F. W. Sheeler of this city has taken two of the finest views of Klamath Falls that has ever been shown here. One of them was taken from the top of the flour mill, and displays each business house in the city and in the center of the picture the High school is so plainly shown that every detail of the building can be distinguished. The other view was taken from the top of the High school, and shows the business section of the city and the entire Klamath Basin. They are both splendid specimens of the photographers' art.

JAPAN WILL BUILD SHIP OF DREADNAUGHT TYPE

NEW YORK, Nov. 25.—Shipping firms here have received advices from London to the effect that Japan has placed orders there for a Dreadnaught bigger than any other under construction. The ship will be of a tonnage of 28,000, and will cost about \$12,250,000.

FIRE CAUSES LOSS OF LIFE

FIFTEEN ARE KNOWN TO BE DEAD

New Jersey Paper Box Factory Destroyed by Flames—Life Nets Save Many

NEWARK, N. J., Nov. 26.—Fire destroyed the factory of the Newark Paper Box company today. Fifteen are known to be dead, all girls. Three priests of St. Patrick's cathedral, Fathers Kernan, Dillon and Brennan, who entered the factory despite the protests of the spectators to give absolution to the injured, narrowly escaped death. When ladders were placed against the walls they were instantly burned by the fierce heat. Immediately after the fire started the windows were filled with hysterical men and girls. Life nets were spread and many leaped into them. Half a dozen missed the nets and struck the pavement and were instantly killed. Some of the firemen were killed by being struck by the falling bodies. Many of the 150 employes have not been accounted for. Eighteen are known to be dead in the box factory fire, and those who are searching the ruins believe many more will be found. The identified dead at 2 o'clock this afternoon are Mrs. Frances Krathia, Abbe Washington, Alice Melson, Mrs. Bessie Rosin and Mrs. Mary Labierre.

DEPARTMENT OFFICERS ARE HERE

An Enthusiastic Corps Is Expected to Be Formed in Klamath Falls

A local branch of the Women's Relief Corps was organized in this city last Saturday, and it is the expectation that one of the most enthusiastic corps in the state will be established in Klamath Falls before many weeks. Mrs. Lizzie Smith of Salem, department president of the Women's Relief Corps of Oregon, arrived in the city Thursday night and began preparations toward organizing a corps in Klamath Falls. With Mrs. Smith is Mrs. M. C. Hildreth of Grants Pass, past president of the order in Oregon. The name of the new corps will be the F. B. Sprague corps, taking the same name as the G. A. R. corps in this city, but selecting what number they wish. The ritualistic work of the corps is very beautiful, being done with flags and there is also a Memorial Day service that is very impressive. Membership in the corps is not confined to relatives of G. A. R. members, but any good woman in sympathy with the objects of the organization is privileged to join. The object of the corps is to teach patriotism to the youth of the land, to have an organized institution for the care of those who fought for the freedom of their country and to keep glowing the fire of love for their country in the breasts of the rising generation. They give medals and prizes for orations on patriotism given by the students in the schools and have presented many of the schools of the country with United States flags. Since any good woman can become a member it is expected that the corps here will be one of the strongest in this part of the state before very long, as the Klamath Falls residents are enthusiastic lot of mortals when they once get interested in any movement.
