REBELS ARE SECURELY ENCAMPED

SITUATION AROUND JUAREZ REMAINS UNCHANGED

Pending the Arrival of Navarro's Forces, But Little Activity Is Expected

EL PASO, Feb. 9.—The situation at Juarez remains unchanged. If, as reported, Navarro is en route north, nothing has been seen nor heard of him.

The federal telegraph line is down, but couriers keep up the communication.

It is reported that Navarro commands about 2,000 troops. Generals Blanco, Salches and Casillas, insurrecto commanders, are believed to be southward from here, preparing to attack Navarro's approach. General Orozco is encamped in the hills west of Juarez, opposite the El Paso smelter.

Rebels Reinforced by Americans
HUACHUCA, Ariz., Feb. 9.—Eluding the border patrol, sixty armed Americans, it is reported, crossed the line into Mexico today to join the forces of General Orozco.

THINKS THE WHIPPING POST WOULD FILL REQUIREMENTS

Governor West Claims That Method of Punishment for Wife-Beaters Is Just the Thing

SALEM, Feb. 14.—Asserting that though the whipping post penalty for wife beaters might be a relic of barbarism as a punishment, it is nevertheless quite in keeping with barbarism of the crime which it is intended to ameliorate, Governor West has returned to the house with his veto the Buchanan bill seeking to abolish the whipping post penalty for wife beaters.

"The brute who becomes so low as to strike and abuse his wife is entitled to no sympathy or relief at your hands, and I assure you he will get none from me," reads the governor's message. "Any and all success I may have met with in my life I owe to the happiness and encouragement I have received from my mother, my wife and other good women, and I cannot see my way clear to give my approval to any measure framed to favor their common enemy.

"It is said the whipping post law should be repealed because it is a relic of barbarism," continued the governor in his veto message. "Perhaps the whipping of wife beaters is, in a manner, a barbarous practice, but you should remember that the wife beater is also a relic of barbarism, and it seems to me that it is fitting that we retain upon our statute books at least one such barbarous punishment for these barbarians."

FORCED TO DO HEAVY MANUAL WORK BY HUSBAND

SAN JOSE, Feb. 9.—Alleging that her husband, Charles J. Toal, made her do heavy manual labor in an orchard near Gilroy, Mrs. Annie Toal today asked Judge Richards in the superior court for a divorce. The wife avers that habitation under the same roof with her husband is no longer a possibility.

Fearing that her husband may dispose of their community property, which the wife says is valued at not less than \$12,000, an order restraining the husband from encumbering the land or making disposition of it is prayed for. The wife asks for \$100 a month alimony, pending the trial of the case. There are two children, a girl of 12 years and a boy of 9, whose custody the mother seeks.

BURNING OIL WELL ENDANGERS PROPERTY

BAKERSFIELD, Feb. 9.—Steam lines from a battery fed by ten boilers will be turned on the blazing Honolulu Oil company's gusher in the Elk Hills district tomorrow in an effort to extinguish the flames.

The gusher has been blazing for two days, and is threatening to destroy much surrounding property.

To Aid Plague Victims
OLYMPIA, Feb. 9.—The state legislature has appropriated the sum of \$5,000 for the relief of the famine sufferers in China. The money will be paid out under the direction of the Seattle Commercial Club and Governor M. E. Hay.

MARRIAGE BILL AIMS TO END HASTY UNIONS

Measure Drawn Up by Bishop Moreland to Be Introduced in the Assembly Soon

SACRAMENTO, Feb. 9.—The new marriage license law is ready. Bishop William H. Moreland of Sacramento and his assistants in the work of preparing a bill that will eliminate run-away marriages and marriages by parties who have not the proper consent will have their measure presented to the court this week. It is probable that Assemblyman Herbert Slater of Santa Rosa will introduce the bill.

Licenses can be issued only upon the showing that one or both of the parties lived in the county where the license is to be issued for at least seven days prior to the filing of the application. The application for a marriage license must contain the identity and full names of the contracting parties, the residence seven days before the application, age and place of birth of each, race, relation to each other if any, exact details of every previous marriage, stating the time of divorce from the first spouse or the date and place of his or her death, in addition to the questions at present asked.

The application for a license must be posted in a conspicuous place in the office of the clerk for five days, after which, if there is no objection, the license shall be issued.

There is a provision in Bishop Moreland's bill that in case of an emergency, determined to be such by a judge of the superior court, the posting for five days of the application may be waived by the county clerk, and the license may be issued after proper showing upon an order from the superior court.

At any time within five days after the marriage license is posted any one may file objections to the contemplated marriage, and those objections must be considered before the license is issued.

AIRSHIPS MAY NOW GET A CHANCE AT REAL THING

The Fighting in Mexico May Furnish an Opportunity for Practical Demonstration

WASHINGTON, D. C., Feb. 9.—Whether experiments with aeroplanes along the Mexican border, where fighting is now going on, shall be conducted by the signal corps of the United States army will be determined by Brigadier General James Allen, chief of that branch of the service, and General Leonard Wood, chief of staff of the army.

General Allen said today that General Wood and himself thought the fighting just across the Mexican border would afford an excellent opportunity to see how much information a scout could gather which might help to outwit an enemy. Secretary Dickinson also is favorable to such tests. Half a dozen or more members of the reserves will start full speed for El Paso if it is decided to use the aeroplanes.

FREEWATER BEGINS WORK ON MUNICIPAL PLANT

FREEWATER, Ore., Feb. 9.—Beginning the operations on the new city water works system of Freewater the city council has let a contract to Seigel Eaton for a well six feet in diameter, the first of a series that is to supply Freewater. With the completion of the wells the city will pump its water and supply its residents from the new source.

The first well is being dug on the premises of H. D. Lamb, where it is hoped to secure water in less than fifty feet. The contract price is \$18 per foot for the first twenty feet, \$20 for the next ten, and \$22 a foot for the next ten feet.

FIVE WOMEN ARE KNOWN TO BE DROWNED AS RESULT

SHEBOYGAN, Wis., Feb. 8.—A street car plunged through an open drawbridge into the Sheboygan River this morning, and five women are known to be dead.

The conductor and motorman escaped by jumping from the car, and thus saved their own lives, but five women passengers were drowned.

Three bodies have been recovered, and one of them has been identified as Anna Mathis, a well known music teacher of this city.

WIFE MURDERER WILL HAVE AID IN FIGHT FOR LIFE

Will Try to Prove Hereditary Insanity By Introducing Photograph of Insane Father

PORTLAND, Feb. 14.—The sisters of William J. Haasing, who is soon to be tried on a charge of murder in the first degree for the killing of his wife at Fourteenth and Columbia streets, in November, are preparing to show by means of a photograph of their father, showing by the similarity of his appearance to that of his son that their brother was by heredity insane when he committed the deed. Haasing's father went insane, it is claimed, and to prove his son was like him and therefore of the same temperament, the photograph will be introduced.

One of the sisters is the wife of an army officer, and has come from the Philippine islands to work in behalf of her brother. Another sister is here from Denver, Colo. The names of the sisters who are planning a determined campaign to prove that their brother was insane are being withheld by the attorneys for the defense.

At the time Haasing committed the crime it was believed by the police that he was suffering from mental trouble. He had previously threatened to kill his wife, and after he was taken into custody the woman appeared in his behalf and told the police that he might be released, as she was no longer afraid of him. Haasing, however, made good his threat, and after following his wife for some distance he came up behind her on the street and shot her. Then he turned the gun on himself, but the bullet only went through his neck, and he recovered.

SPEAKING OF GUM CHEWING—LISTEN TO THIS, BY GUM

LOS ANGELES, Feb. 9.—Yelling at the top of his voice that he is the original chewing gum man, Edward Panlin, supposedly unbalanced or intoxicated, was arrested here the other day. He made good his claim to being a chewing gum man, if not the original, for he was loaded with gum. He was chewing a wad as large as he could get in his mouth, he had chunks of it in his ears, all his pockets bulged with packages of it, and under his coat he carried a slot machine full of gum. To cap the climax he had stuck gobs of chewed gum on the buttons of his coat and about his hat band. The detectives think he became demented over gum, and stole the slot machine. He is still chewing. The police surgeons will examine him thoroughly.

CHICAGO TYPOS MAKE BIG OBJECTION

SENATORS AND CONGRESSMEN DELUGED WITH REQUESTS

Declare That the Measure Would Effect Thousands of Tradesmen in That City Alone

WASHINGTON, D. C., Feb. 14.—Congressmen and senators are being deluged with protests against the proposed increase in postal rates. Speaking of the matter, Senator Ciapp said: "I have never before encountered a measure so unjust, so fraught with much prospects of destruction."

The Federation of Labor, through Secretary Morrison, states that it "wants no penalty placed upon reading matter of such far reaching educational value."

N. M. Madden, representing the Chicago Typographical union, declares: "The increase affects 50,000 printers, 35,000 pressmen, 10,000 feeders, 22,000 binders and 24,000 mailers."

AROUND THE WORLD IN 37 DAYS

Development of a Japanese Port Makes Fast Trip Possible

SEATTLE, Wash., Feb. 13.—Development of the Japanese port of Tsuruga has made it possible to go around the world in 37 days, according to officers of the steamship Hallamshire, who came ashore to-day.

Leaving Seattle or Vancouver by steamer, a traveller may land in Yokohama in twelve days. By taking a train to Tsuruga and steamer to the

trans-Siberian railroad terminus and continuing by the fastest train to London he may cover the distance from Yokohama in sixteen days. By the fastest steamers and trains he may travel from London to Seattle in a little more than 9 days.

3,802 PERSONS WERE INJURED IN THREE MONTHS

WASHINGTON, D. C., Feb. 14.—During the months of July August and September last the number of persons killed in train accidents was 321, while 3,892 were injured. These facts are disclosed in a bulletin issued this week by the Interstate Commerce Commission, the first bulletin issued under the revised accident law. It includes many accidents not heretofore included in accident bulletins.

The total number of casualties of all kinds for the quarter was 23,328—2,948 killed and 19,380 injured on steam operated railways. The totals are largely increased over corresponding periods in previous years because of the inclusion of highway crossing accidents and those to trespassers on the tracks, etc.

At the same time, the totals of certain classes of accidents to employees are diminished by the exclusion of accidents (formerly included) which are not peculiar, to railway operation. For the quarter in question, this total is 21,134—132 killed and 21,002 injured.

The accidents statistics of those electric lines on which interstate traffic is carried show 146 persons killed and 1,070 injured.
