

UNCLE SAMUEL, BOSS INTERVENER

HE HAS STEPPED INTO ALL KINDS OF SCRAPS

RECORD DATES BACK TO DAYS OF 1801

Has Intervened Eleven Times in For- ty-Six Years for One Country Alone, Colombia

United Press Service.

WASHINGTON, March 27.—Mexico will be the latest in a lengthy intervention list if the army crosses the Rio Grande. The United States has been an accomplished intervener, martial or diplomatic, since almost the beginning of the republic.

The most imposing and bloody intervention was in behalf of Cuba and against Spain, causing the war of 1898.

The United States troops took part in war service in 1900, when the powers intervened in China to put down the Boxer uprising and save the diplomats in Peking from slaughter.

Eleven interventions from 1856 to 1902 marked the relation of the United States with Colombia, while the Isthmus of Panama was a part of that republic. Sailors and marines were landed by request of Colombia to preserve neutrality. The cession of Panama and the selection of the first president of the infant republic were largely due to a quiet sort of diplomatic intervention.

The very first intervention was in 1801. The Pasha Tripoli, hearing that the United States navy had been reduced to six ships, began seizing American merchant vessels in the Mediterranean.

In 1865, a detail of sailors from the Wateree, an American warship, quelled an insurrection of Chinese coolies in the middle China islands. In the same year United States naval forces landed at La Union, San Salvador, to protect American interests during a revolution.

An American merchant vessel, the General Sherman, ventured up a river in Korea in 1867. The ship grounded, the crew was massacred and the cargo stolen. In 1871 a fleet went over to get satisfaction, but all they got was several days of sharp fighting, in which they destroyed several forts and killed a lot of Koreans.

In 1888 one of the fleeing presidents of Hayti, with his navy of two armed tug boats, was captured by several American vessels.

Great Britain proposed in 1895 to seize disputed territory between Venezuela and British Guiana. President Cleveland wrote a letter to Great Britain that so aroused the war spirit in this country in support of the Monroe Doctrine that the British agreed, after having refused at first, to submit the matter to arbitration.

United States influence was a factor in the overthrow of Liloalalani, the queen of Hawaii, and the annexation of those islands to this country in 1898.

Incidentally the United States has been connected with "intervening" President Castro out of Venezuela; President Zelaya out of Nicaragua; in adjusting a squabble between the Dominican republic and its creditors, and in settling the recent disturbances in Honduras.

DR. LYTLE IS AGAIN NAMED AS STATE SHEEP INSPECTOR

Sheep Commissioners at Pendleton Decide to Retain Well Known Veterinarian

PENDLETON, March 24.—Dr. W. H. Lytle of this city, state veterinarian, has been reappointed state sheep inspector by the state board of sheep commissioners at their annual meeting here.

The full membership of the board, President Charles Cleveland of Gresham, Secretary Herbert Boylen of Pilot Rock and H. C. Cooper of Antelope, was in attendance.

Aside from the appointment of Lytle no action was taken, but considerable discussion on sheep conditions was held.

Dr. Lytle has held the office of sheep inspector ever since the creation of that office four years ago by the legislature. In speaking of the condition of Oregon sheep this morning he stated that no cases of scab have been reported this year, but that there is still time for the dreaded disease to develop. However, he does not anticipate any great prevalence of it, and thinks he can handle all the cases easily. The winter was not a severe one, and has left the sheep in fine condition, he says.

KLAMATH AD CO. COMPILES IN- FORMATION FOR 1911

A 1911 city directory of Klamath

Falls, compiled by the Klamath Ad Company, is just off the press, and is being distributed among our residents. The directory is an attractive volume this year, being finished in board covers, and in it, in addition to an alphabetical list of names and addresses of the town's residents, are copyrighted street and avenue guide, a splendid article descriptive of Klamath Falls, and a classified business directory, a complete list of names, addresses and occupations of all the legal voters in Klamath county, together with their voting precincts. Under the caption "Miscellaneous Information" is given information relating to city, county and state government and their different departments, banks, cemeteries, the churches, schools, newspapers, railroads, steamboat lines, lodges, etc., and other matters of interest.

In the alphabetical list is given the names of 3,063 persons, all of whom are over the age of 16 years, and following the methods used by directory compilers, that of multiplying this number by one and three-quarters, the compiler, William H. Shaw, gives Klamath Falls a population of 5,360.

HIS DADDY TOOK AWAY ONE ACRE HE HAD CLEARED

But He Cleared Another and Raised Eighty-Five Bushels of Corn to His Dad's Eighteen

Dr. S. A. Knapp, the representative of the Department of Agriculture, who has had in charge the work of the boys' corn clubs, tells some interesting stories of the pluck and perseverance of the prize winners, says a writer in Leslie's.

In nine Southern states last year there were 46,225 contestants. It was no easy task in many instances to overcome parental indifference or even opposition. Dr. Knapp tells of one boy who was very anxious to raise some corn, but had no ground. So his father said:

"Well, you can have an acre over there on the hillside if you will clear the stumps and logs off."

The little fellow worked hard, and cleared the land, and then his father took it away from him. The little chap was not discouraged. When the farm demonstrator came around the boy appealed to him, and he in turn appealed to the father, who said:

"Well, I will let him have another acre over there on the same hillside provided he clears off the logs and stumps."

He cleared them, worked as vigorously as he could, and produced 85 bushels of corn on that acre, while the old man, who cultivated by the old method on the acre that the boy had first cleared, made only 18 bushels.

RIVERAS SAVES HERMOSILLO FROM ATTACK BY INSURGENTS

AGUA PRIETA, March 24.—A complete rout by Jose Riveras of a wing of the insurrectos band that planned an attack on Hermosillo saved that city today. The rebels left thirty-four dead and two score wounded on the field.

After nine hours of fighting at La Colorado Wednesday, Riveras caused the revolutionists to abandon their entrenched position at La Colorado, and it is reported that they have fallen back in disorder, with the federals pursuing.

OFFICERS OF THE LAW RETURN FROM PORTLAND

Chief of Police Townsend, Patrolmen Walker and Hall and Deputy Sheriff John G. Schallock returned to this city Thursday from a short sojourn in Portland. The policemen were witnesses in a counterfeiter's trial in Portland, and Schallock, who took James Davis to the penitentiary at Salem, went on to the metropolis for a short visit. They all report a fine trip and pleasant weather prevailing in the north.

ROOSEVELT ADDRESSES THE STUDENTS AT STANFORD

SAN FRANCISCO, March 24.—Ex-President Roosevelt left for Palo Alto at 9 o'clock this morning. Arriving at 10 o'clock, he made a ten-minute speech at the depot, and then rushed to Stanford University to address the students. Later on in the day he autographed Berkeley, where at 4 o'clock he began the first of a series of four lectures at the Greek theater. His topic today was "Realized Ideals."

BANDITS BLOW EXPRESS SAFE; GET TWENTY THOUSAND

COFFEYVILLE Kans., March 24.—Five bandits held up the Missouri Pacific express between Lanapas, Okla., and Coffeyville this morning. They blew open the express safe, rifled the registered mail and escaped. It is reported that they got \$20,000. The quintet boarded the train at Lanapas, overpowered the train crew and committed the robbery. A posse is in pursuit.

LONG PENDING SUIT WILL BE TRIED IN COURT THIS WEEK

Case of Bowne vs. Carroll for Money on Promissory Note Is Up For Trial

Settlement of the case of F. J. Bowne vs. John D. Carroll for a promissory note of \$1800 will in all probabilities be finally completed this week, as the empanelling of a jury was commenced last Monday. The venire was exhausted and a special venire was brought in Tuesday morning.

This case has been pending for the past four years without coming to a trial. It was taken to the supreme court once by the defense, but this higher tribunal sustained the ruling of Judge Benson, so it is now up for trial.

MUCH EXCITEMENT AT SAN ANTONIO

JUNTA ISSUES STATEMENT IN THE MATTER

General Carter Receiving Code Mes- sages From Capital—March- ing Orders Expected

WASHINGTON, D. C., March 25.—The revolutionary junta has officially made the statement that the resignation of the Diaz cabinet will not stop the insurrection.

"This is the beginning of the end of tyranny in Mexico," said Dr. Vasquez Gomez. "The insurgents' battle is half won. I say 'half,' because as long as Diaz is president it is possible that another system may be built up as terrible as the one which is now disrupting the nation."

Startling Developments Expected

SAN ANTONIO, March 25.—It is believed that startling developments will follow the resignation of the Mexican cabinet. Army officers admit that they expect marching orders. They think the resignations will be taken as a sign of Diaz's weakness, encouraging the insurgents to more serious outbreaks, and compelling intervention. The war department is flooding General Carter with code telegrams.

Casasus to Succeed Corral

MONTEREY, Mex., March 25.—Private advices say that Joaquin Casasus, ex-ambassador to America, has been selected to succeed Corral as vice president and minister of the interior. Corral, who resigns, soon sails for Europe. It is said that on April 12th Reyes will be probably minister of war.

RACE FOR MAYOR WILL BE HOT- LY CONTESTED

Sanderson, Summers and Stone Being Talked of By Supporters—Oth- ers Being Whispered

Though it is still early in the game, the political pot is beginning to bubble, and from all indications Klamath Falls will soon be in one of the hottest municipal scraps in her history. There are a number of well known men being mentioned for various offices, and they have all kinds of encouragement from their friends.

Mayor F. T. Sanderson, it is said, will be a candidate for a third term as the city's executive, and he is picked by many as a winner, as his course during his two years of service has been to their liking. The Good Government League members, report says, will support the present mayor in a fight for re-election.

S. T. Summers, who is at present a member of the council, is being urged by many to enter the race for the mayoralty, and although he has made no statement in regard to the matter, it is conceded by his friends that his name will appear on the ballot. In addition to being a member of the council, Summers is one of the county commissioners, is a director of the Klamath Water Users' association, and vice president of the Hydraulic Brick and Stone company, so he is well known in Klamath Falls.

A third factor in the race for mayor is C. F. Stone, also a member of the council, whom voters in his ward are seeking to recall because he voted in favor of granting franchises to the Klamath Falls Light and Power company. Mr. Stone, a well known local attorney, had been asked by many friends to become a candidate for mayor at the May election, but he has steadfastly refused. As soon as the suggestion had been made that he should be recalled, Stone, who likes nothing better than a good, hard political scrap, resolved not only to fight recall proceedings, but also to become a candidate for mayor.

With these three in sight and others being mentioned, prospects for surprises every minute during the campaign are exceedingly good.

MODOC NORTHERN'S APPROVED MAP FILED AT LAND OFFICE

Road, After Entering State, Follows Line of Tule Lake to Merrill, Thence to This City

The approved map of the definite location of the Modoc Northern Railway was filed in the United States Land office a few days since. This is the same line referred to in the Examiner last week as building from Wadsworth to Klamath Falls with a possible branch to Lakeview. The survey after crossing the state line at a point just east of Tule Lake, skirts the shores of the lake to Merrill, after which it turns and runs in almost a direct line to Klamath Falls. —Lake County Examiner.

PAPERS GIVE DISPLAY GOOD MENTION

GOOD REPORTS ARE COMING FROM THE SOUTHLAND

Secretary Oliver Was Fortunate in Securing Ideal Display Site On the Main Floor

Commenting on the exhibits at the Pacific Land and Products Exposition, the Los Angeles Examiner has the following concerning Klamath Falls:

"Klamath Falls, Ore., the exhibit that was brought a thousand miles and put up in three days, is in charge of C. T. Oliver, who is called in the rainy belt 'the Prince of Hoosters.' Mr. Oliver asked that his appreciation of the Los Angeles people and everything connected therewith be recorded, for, he said, 'I've run a lot of exhibits, but this is certainly the town that "does things."'"

Speaking on the exposition as a whole, the same paper says in part:

"The Pacific Land and Products Exposition is open, with exhibits in position, bands playing, and thousands of interested visitors seeing for themselves what has been described as the most comprehensive exposition of land and land products of the Western states, The Pacific coast and Southern California, which has ever been shown to the world.

"The range of the exhibits covers the products of practically all the Western hemisphere this side of the Rocky mountains. Every exhibit is not only a work of enthusiasm on the part of the exhibitors, but in most cases, pride in the particular exhibit has outstripped economy, and the natural products of the soil are beautified by most lavish decorations.

"The whole exposition combines so many different lines of human endeavor that nothing but a bird's eye view is possible. Details only bewilder. From the panorama of the greatest water supply system ever undertaken by any city in the world, down to the dainty little booth which shows where most of the piano makers of the country are made, it is a succession of surprises. From the longest breakerwater, that at San Pedro harbor, which the United States or any other government has yet constructed, down to the tiny Tangerine orange of the foothills, is only a step or two on the floor of the exposition."

Klamath county is fortunate on account of Mr. Oliver's having secured a splendid booth location on the main floor of the pavilion. This, combined with Mr. Oliver's successful boosting propensities, should make the advantages of Klamath county even better known than they are now, and that will sure be going some.

THERE IS GREAT DEMAND FOR PROF. BEXELL'S LATEST BOOK

Second Edition of Text on Farm Business Methods Is Just Off the Press

CORVALLIS, March 23.—That thousands are studying farm accounting and business methods as taught by Dean J. A. Bexell of the Oregon Agricultural College school of commerce is demonstrated beyond doubt by the fact that the first edition of 2,000 volumes of his text on the subject was exhausted a short time after it came from the press, and a new edition of 4,000 copies more than made necessary, to supply the demand.

From every state in the Union and from six foreign countries requests for copies have been received, several hundred still unsatisfied. A large number of the agricultural colleges of the country and the farm journals have written Mr. Bexell of their appreciation of the value of the work. Already several high schools and colleges have adopted it as the text book to be used in instruction in farm business methods and accounts.

"My aim," said Mr. Bexell, in discussing the book, "has been to make the exercises in it as practical as pos-

sible, but no attempt has been made to limit the illustrations to actual experience on any particular farm. For this reason both prices and results will vary considerably from actual practice. This will not, however, reduce their illustrative value. I have introduced many new labor saving devices conforming with the best business methods.

"The increasing interest shown in farm accounting and business methods would warrant a belief that it will shortly be introduced in the high schools of the country as one of the regular subjects for instruction. Surely there is no other more sadly neglected, and none more worthy of attention. I shall be grateful for any suggestions or criticisms from farmers or teachers who become acquainted with my book, as they will greatly aid me in the preparation of future editions."

Mrs. W. O. Hudson as a German comedienne will offer the Klamath Falls public, with which she is a favorite, a new song entitled, "Hugo, If You Go, Why, I'm Going, Too." Houston's opera house, March 31 and April 1.

JURY WILL DIG SCHEDULE 1

INTERIOR DEPARTMENT AWARDS HIM THE CONTRACT

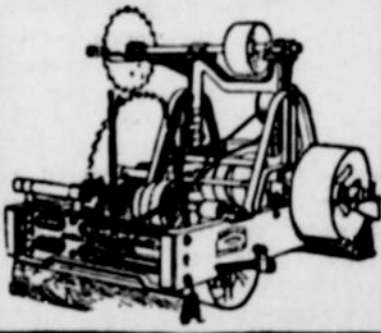

Work on This Section of the Channel Will Begin About the Middle of Next Month

A dispatch from Washington, D. C., states that the secretary of the interior has awarded the contract for the construction of Schedule 1 of the Lost River diversion channel to Jas. W. Jory of Midland. The bids for this work were opened at the reclamation service headquarters here on March 10th, and Jory's figures, \$7,600, were the lower of the two bids sent in.

The contract awarded Jory calls for the construction of about seven-tenths of a mile of drainage canal, and about 35,000 cubic yards of dirt will be moved in excavation and embankment. It will be about the middle of April before all papers between the department of the interior and Mr. Jory are signed, and he expects to begin the work as soon after that as possible.

WANTED—A RIDER AGENT IN EACH TOWN
and district in
and district in
making money fast. Write for full particulars and special offer at once.
NO MORE TRIP TO THE FACTORY. You receive and approve of your bicycle. We ship to anyone, anywhere in the U. S. without a cent deposit in advance. Prepay freight, and allow THREE DAYS FREE TRIAL during which time you may ride the bicycle and put it to any test you wish. If you are then not perfectly satisfied or do not wish to keep the bicycle ship it back to us at our expense and you will not be out one cent.
FACTORY PRICES—We furnish the highest grade bicycles it is possible to make at any price until you receive our catalogue and learn our unheard of factory prices and remarkable special offers to rider agents.
YOU WILL BE ASTONISHED—Study our beautiful catalogue and the wonderful low prices we can make you. We sell the highest grade bicycles for less money than any other factory. We are satisfied with \$5.00 profit above factory cost.
BICYCLE DEALERS—You can sell our bicycles under your own name plate at double our prices. Orders filled the day received.
SECOND HAND BICYCLES—We do not regularly handle second hand bicycles, but usually have a number on hand taken in trade by our Chicago retail stores. These we clear out promptly at prices ranging from \$3 to \$15. Descriptive list mailed free.
COASTER-BRAKES, single wheels, imported roller chains and peddals, parts, repairs and equipment of all kinds at half the usual retail price.

8 50 HEDGETHORN PUNCTURE-PROOF 8 50
SELF-HEALING TIRES A SAMPLE PAIR \$4 50
NO MORE TROUBLE FROM PUNCTURES
NAILS, Tacks or Glass will not let the air out. Sixty thousand pairs sold last year. Over two hundred thousand pairs now in use.
DESCRIPTION: Made in all sizes. It is lively and buoyant, very durable and lined inside with a special quality of rubber, which never becomes porous and which closes up small punctures without allowing the air to escape. We have hundreds of letters from satisfied customers stating that their tires have only been pumped up once or twice in a whole season. They weigh no more than an ordinary tire, the puncture resisting qualities being given by several layers of this, specially prepared fabric on the tread. The regular price of these tires is \$5.50 per pair, but for advertising purposes we are making a special factory price to the rider of only \$4.50 per pair. All orders shipped same day letter is received. We ship C. O. D. on approval. You do not pay a cent until you have examined and found them strictly as represented. We will allow a cash discount of a per cent (thereby making the price \$4.05 per pair) if you send FULL CASH WITH ORDER and enclose this advertisement. You run no risk in sending us an order as the tires may be returned at OUR expense if for any reason they are not satisfactory on examination. We are perfectly reliable and money sent to us is as safe as in a bank. If you order a pair of these tires, you will find that they will ride easier, run faster, wear better, last longer than any tire you have ever used or seen at any price. We know that you will be so well pleased that when you want a bicycle you will give us your order. We want you to send us a trial order at once, hence this remarkable tire offer.
IF YOU NEED TIRES—Hedgehorn Puncture-Proof tires on approval and trial at the special introductory price quoted above, or write for our big Tire and Sundry Catalogue which describes and quotes all makes and kinds of tires at about half the usual prices. But write us a postal today. **DO NOT THINK OF BUYING A BICYCLE DO NOT WAIT**—or a pair of tires from anyone until you know the new and wonderful offers we are making. It only costs a postal to learn everything. Write it NOW.
J. L. MEAD CYCLE COMPANY, CHICAGO, ILL.
