

DEATH SUMMONS CARRIE NATION

FAMOUS SALOON WRECKER AND TEMPERANCE FANATIC DIES IN A SANITARIUM AT LEAVEN- WORTH, KANSAS

LEAVENWORTH, Kans., April 10.—Carrie Nation is no more. She passed away at 11:30 this morning in a sanitarium in this city, where she had been confined for some time.

As a temperance worker of the most forceful character, Mrs. Nation attained world wide notoriety between 1900 and 1902 by gathering a following, armed with hatchets, swooping down on saloons in the Middle Western states, and smashing windows, glasses, bottles, fixtures, etc., leaving the grog shops looking as though a full cyclone had used them for a playhouse.

Several times after this insanity proceedings were brought against the Kansas woman. She had been alling for a long time, and her death was expected.

PUSHES A HELPLESS CRIPPLE FORM CAR

RED BLUFF, April 6.—Instead of getting the money that he went to collect from a brakeman, Emil Setzer, who is crippled with rheumatism, received a fall in which he sustained a fracture of the right hip and thigh bone. Setzer alleges that Conductor Lindsay shoved him off the platform of the car, and that he fell down the steps and into the gutter. Lindsay was arrested on the complaint of Setzer, and released on bonds in the sum of \$1,000.

Setzer alleges that he went to the caboose to collect a bill owed him by a brakeman who was said to be in the car. He knocked at the door of the caboose. Lindsay opened the door, and when Setzer asked for the debtor a controversy followed. Lindsay, so Setzer says, hit him on the jaw, and he fell into the gutter, where his cries for help brought Engineer McGraw and Chris Schaffer to his assistance, and they took him to his home.

Dr. Owen and Dr. Fife, who were summoned, say that Setzer's injuries are serious.

Lindsay denies striking Setzer, and claims that he only gave him a shove and Setzer fell down the steps.

NO STREET SPRINKLING IN REDDING FOR A WHILE

REDDING, April 6.—All Redding street employees were ordered laid off for an indefinite time at the meeting of the city board of trustees. This has become necessary because \$15,000, practically all of the city's funds, was in the defunct Bank of Shasta county. The condition is trying and serious, and means that Redding will neither have street sprinkling, street cleaning nor repairing until such time as relief may be obtained or a part of the money is recovered. The \$15,000 is mainly license and tax money collected by the marshal last year.

The blow is a heavy one, and will be felt alike by all. Without municipal progress the city will be unable to hold its own with its less unfortunate neighbors.

The trustees are frank in being unable to present a solution of the problem at this time. They will wait developments in the banking situation as others are doing. Voting city bonds may be the only means to tide over the city's financial loss.

LAKE COUNTY TACKLES GOOD ROADS PROBLEM

LAKEVIEW, April 6.—The Lake county court has issued a call for a good roads meeting at the court house here for April 11th, and it is believed there will be a large attendance from all portions of the county, which is newly awakened to the necessity for improving the arteries of trade. One factor in the work of road education is the Lake County Automobile Club, which is working for the betterment of the roads of Lake, which, though not so badly in need of it as those of some Oregon counties, are still far from being first class at all times of the year.

At present Lakeview claims more automobiles than any place in the West, considering the population, and a large number has been ordered from dealers for the spring delivery. This gives the automobile club a great leverage in the movement for road betterment.

ASKS ABRIGATION OF TREATY WITH RUSSIA

WASHINGTON, D. C., April 6.—Congressman William Sulzer of New York today introduced a joint resolution, declaring that the refusal on the part of the Russian government to

respect the passports of Jewish Americans discriminates against the American freedom of thought, and demanding the abrogation of the treaty with the czar's empire.

In his resolution Congressman Sulzer asks President Taft to notify the Russian government that it is the desire of America to terminate the treaty of 1833.

Should the resolution be adopted by congress and the course suggested followed by President Taft, it will cancel all relations between this country and Russia, and open the way for the adoption of new and more favorable diplomatic relations.

STUFFS PAPER IN LOCK AND MAKES GETAWAY

DENVER, April 6.—Frank Ryan, alias Ed Stevens, the supposed husband of Mrs. Lillian Paxton of Los Angeles, who was being held here for the Los Angeles police in connection with the Paxton case, escaped last night.

His three children, all under four years, were held with him. They were left in the matron's ward of the jail.

Last night he was allowed to go to the matron's quarters to care for the children, and sending the matron for hot water, he put a paper in the lock of the cell so it would not lock. After the matron slept he left the cell, reached the roof through a trap door in the bath room and escaped.

Every effort is being made for his recapture, and it is thought impossible for him to get away.

ALL AFTER KOZER'S JOB, BUT HE WILL REMAIN

SALEM, April 6.—On account of the great bulk of applications being made for the position of insurance commissioner by those who evidently believe Governor West can at any time he desires discharge Commissioner Sam Kozer and make a new appointment, the governor announces that the present incumbent will remain in office until January, 1913, as provided by law.

Governor West is not authorized to interfere with the insurance commissioner until after the year 1913, as the statute provides that the commissioner appointed shall serve until that time.

JOHN D.S. COMPANY DENIES THE REPORT

NEW YORK, April 6.—The Standard Oil company has issued a formal statement denying reports that it is and has been financing the revolt in Mexico. The statement says:

All these and similar reports are absolutely untrue. The Standard Oil company, in its character as a citizen of the United States, has strictly held itself apart from all interference in the affairs of the Mexican republic, with which it has no connection, moral or material.

HIGGEST DOCKS ON COAST PLAN

SAN FRANCISCO, April 6.—Several millions will be spent by Herbert and Hartland Law building docks and warehouses at the foot of Presidio street, near Harbor View.

The opinion prevails in financial circles that the project is a forerunner of James J. Hill's known desire to reach San Francisco Bay with his railroad.

The Law brothers state that the docks and buildings will be the largest on the Pacific coast. They mean to establish a ferry line crossing the bay.

PUBLISHER FOUND DEAD WITH A BULLET IN HIS HEAD

PHILADELPHIA, April 6.—Craig Lippincott, president of the publishing firm of J. P. Lippincott & Co., an art patron and society man, was found dead at his home this morning with a gunshot wound in his head.

The police are undetermined as to whether he committed suicide from the fact that the members of the family refuse to discuss the case.

FOOTPADS USE GASPIPE ON BARTENDER'S HEAD

SAN FRANCISCO, April 6.—Arthur Meyer, a bartender at the Liberty saloon, was probably fatally injured today when he resisted two footpads who attempted to hold up the place.

The thugs struck him over the head with a piece of gaspipe and then shot him in the back. The bandits escaped, but the entire police force is engaged in the search for them.

DOES HERBERT BROTZ LIVE IN KLAMATH COUNTY?

Arthur W. Orton, register of the land office at Lakeview, has received letters from Fred Brotz of Caledonia, Livingston county, New York, seeking news of his son, Herbert Brotz, whom he has not heard from in four years. The father writes that his son is supposed to have fled on land in Klamath county.

SPOLK'S WIFE AND TEN CHILDREN HAVE ARRIVED

John Spolek, a well known resident of the Mallin colony, is a very happy man. Sunday night's train brought Mrs. Spolek and the ten little Spoleks, to Klamath county from their former home in the middle west. Mrs. Spolek and the ten bright youngsters appear to be very happy also, for they smile continually, and seem not the least tired from their long journey.

The Spoleks are not the only people who are happy either, as many residents of Mallin are glad to again meet Mrs. Spolek, while the ten little Spoleks will so swell the number of children of school age in Mallin that they will be perfectly assured of a school.

SHEPPARD WANTS POSTAL AFFAIRS INVESTIGATED

WASHINGTON, D. C., April 6.—A resolution has been introduced in the house by Congressman Sheppard of Texas, demanding an investigation of the affairs of the Postoffice Department by the committee of expenditures of this department, of which Ashbrook of Ohio is the chairman.

Drop in for a Visit

Mrs. R. L. Delzell, mother of Mrs. Lottie L. Bailey, arrived here Sunday night from Cadillac, Mich., bringing with her Mrs. Bailey's daughter, Dorothy, and Roger Torrey, the son of Mrs. Rose M. Torrey. Mrs. Delzell and little Miss Bailey will remain here for a visit of two or three months' duration, while Master Torrey will remain here.

Return From California

Mrs. J. G. Pierce and son Albert arrived Sunday night from Pacific Beach, where the Pierce family spent the winter. Mr. Pierce accompanied his wife and son as far as Weed, and then went on to Ashland to attend to business interests there. He will be here in a few days.

JOHNSON'S CONDITION NOT IMPROVED OF LATE

CLEVELAND, April 6.—The condition of Tom Johnson has not improved in the least of late. Even the most hopeful at his bedside now concede that the end will be only a matter of a few days.

Change in Firm

H. E. Richardson, who came here some time ago from Walla Walla to assist F. R. Olds, the local painter and decorator, has purchased a half interest in the Olds establishment.

Mr. Richardson is a first class painter and decorator.

Kearney Carter of Portland is in this city, the guest of his brother, O. L. Carter. After spending a few days here Mr. Carter will go on to Fort Klamath, where he will spend the summer months.

Guy Merrill, Perry DeLap and W. C. Dalton have returned from a trip to Ashland where they—well, all three look much the worse for wear, and murmuring something about "Eleven o'clock" and "hello Bill" and "Visited the Antlers Club."

Dr. O. F. Demorest, who formerly practiced his profession in Merrill, has returned to that place from Bellingham, Wash., and will again open an office there.

C. S. Benfield, a well known resident of Paisley, is here from that hustling Lake county community. He is at the Livermore while in Klamath Falls.

K. L. Vinyard and A. M. Vinyard, two young men who came in Saturday from Grants Pass to look over Klamath County with a view to locating here, left Monday for Merrill, where they will look at some ranches in that section.

Robert Werder of Medford was a Sunday visitor in Klamath Falls.

Mr. and Mrs. O. E. Willey are in from their splendid homestead on Aspen Lake. They are guests at the Bladwin Hotel.

E. B. Pridoux is here from Sacramento, representing the W. P. Fuller Paint Company.

Mr. and Mrs. W. C. Tyrell of Portland are among today's visitors in Klamath Falls.

Mrs. C. F. Stone leaves in a few days for a visit of four or five weeks in Portland.

Miss Norine Quilitch has accepted a position with the Chamber of Commerce.

Mrs. Hugh Clopton, wife of the Bonanza postmaster, is here visiting friends for a few days.

JUST LIKE THIS

Tired and sleepy, and looking much the worse for the wear, Robert Hepper and Bert Carlock ambled into the Livermore hotel after 2 o'clock this morning. They had seen the Upper Klamath Lake, both by sunlight and moonlight, but for some reason, did not seem to be in a mood to discuss the beauties of the scene.

It all came about just like this. Hepper and Carlock have long heard of the wonders of the Upper Lake, so when they were given an invitation by W. B. Hatfield and W. O. Huson to spend Sunday visiting the points of interest on the sheet of water in a motor boat—did they accept? Sure. Everything went lovely, and they were on their way back to the Shippington landing at about 6:30 in the afternoon, when—well something went wrong, and the launch stopped. It remained stopped, too.

Anybody who has owned a gasoline engine knows only too well the 1001 little things that can go wrong and they have to be wise indeed to be able to find the defect without examining the thousand other possibilities first. Well that was the trouble, and as there was no craft in sight, the four just had to be as patient as possible, and wait till the launch drifted in to shore, which it did eight and one-half hours after it stopped.

GOVERNMENT WILL BE STRICT WITH WATER USERS

ACCORDING To notices being sent out by the local land offices on the order of the Commissioner of the General Land Office, all the land owners under the Klamath Project who are receiving water, will have to pay their assessments for 1910 within 30 days from receiving the said notices, or else their water right will be cancelled. This is bound to work a hardship on some of the farmers of Klamath county.

The assessment for the year 1910 became due on May 1, 1910 and delinquent on May 1, 1911. Last year notices of such delinquency were somewhat delayed and in many cases were not sent out by the local land office until July and August. As the land owner had thirty days in which to make payment after receiving the notice many of them were able to realize on their fall crop before making the payment, but with these notices sent out at the time the payment becomes delinquent, or on May 1, the farmers will not have this advantage, but will have to raise the money for these payments at the time most of them are using all the money they can get in putting in and cultivating their summer's crop.

There are now 30,000 acres being irrigated by the government project, on which the water assessments will become delinquent for the year 1913 on May 1. The books of the Water Users Association show a membership of 674, and probably about one-half of these received water on their land last year. While these will have until May 1, and probably 30 days more in which to make payment only about twenty have done so yet. However, a large number will make their payments during this month, but it is anticipated that many of them will find it difficult raising the money, especially those who have recently acquired land and have not yet gotten their entire holdings under cultivation. Many have been laboring under the impression that the government would continue to be as lenient in the matter of payments as it was last year, and therefore have neglected to prepare themselves for making these payments this spring.

THE NEW POWER COMPANY

THIS city and this county can be congratulated upon the entrance into this territory of the Siskiyou company for the distribution of power. As far as the individual service of lights and power is concerned it does not matter what company or what man may be the owner, as all public service corporations are regulated and controlled by the state, but the entrance of a company able to supply the amount of power that the Siskiyou Electric Light and Power company can means very much for the future of Klamath Falls.

With the immense projects of the Siskiyou company it has almost unlimited power, and plenty of power and cheap power is what manufacturers are looking for. The city or location makes very little difference in the establishment of factories if shipping facilities are adequate and it is possible to secure plenty of cheap power.

When connections are made between this city and the plants of this company in California, Klamath Falls

will have the best location to offer to factories on the coast. This will mean that Klamath Falls has the opportunity to become one of the big manufacturing cities. With plenty of power, plenty of timber, plenty of the best agricultural land in the West, Klamath Falls and Klamath county have a bright future in store for them.

John Ellis was in from Seven Mile Saturday on a business trip. While in this city, he stopped at the Lakeside Inn.

GOOD INVESTMENTS

FIRST ADDITION, BUNGALOW, just completed; 4 rooms and bath, kitchen cabinet; wired for electric lights. Price is right; terms easy, only \$300 cash, balance \$20 per month. This will make you a nice home.

A MODERN BUNGALOW in Nichols addition; 5 room with bath; electric lights, city water; everything just as you would build for yourself. Price \$2,750; only \$500 cash, balance in monthly payments.

BIG FOOTED WOMEN; SMALL FOOTED MEN

PARIS, April 10.—Women with big feet and men with little feet are prone to insanity, according to a report read by Edmond Perrier before the Paris Academy of Sciences, the report being the work of Allenists Marie and McAuliffe. Out of 196 normal men, the report says, eighteen have small feet, and out of 196 insane males seventy-six have small feet. On the contrary, 196 normal women showed twenty-three with large feet and of the same number of insane women eighty-two have large feet.

New Daughter
Dr. Hamilton reports the arrival of a ten-pound daughter last Friday at the home of Mr. and Mrs. Frank Howard in Mills addition.

For Klamath Home-Builders

THE DELICIOUS APPLE—Highest quality apple and therefore has steadily brought the highest prices by far, of any apple grown. Sells regularly in Portland for \$5 and \$6 per box and \$8 to \$15 in New York.

THE MAYFLOWER PEACH—Highest quality peach known and the earliest, yet it blooms the latest, hardy, a freestone, red to the pit and the best for the home.

THE CLIMAX PLUM—Undoubtedly the most beautiful, fragrant and most delicious plum grown. Mr. Burbank's finest pit fruit and equally valuable fresh or canned.

THE PHENOMINAL BERRY—This has been called Burbank's greatest triumph—a cross between deuberry and red raspberry. It is the best small fruit grown. Bears the first year. Include a few in this year's planting.

THE KLAMATH NURSERIES

G. S. EHLE, Proprietor, P. O. Box 925, KLAMATH FALLS, ORE.

In Medicine Quality is of Prime Importance

We use nothing but the best that the market affords, and by buying them direct from the largest chemical laboratories in the country, and by paying spot cash for our purchases, we are enabled to dispense STRICTLY PURE DRUGS AT REASONABLE RATES.

DON'T BLAME YOUR PHYSICIAN if medicine prescribed by him does not have the desired effect. Results are generally prompt and satisfactory when reliable drugs are used. We vouch for all medicines that leave our prescription department, and if you are not already one of our customers, give us a call the next time you have a prescription to be filled. We hope to merit a share of your patronage in the future.
