

TIME RAPIDLY DRAWING NEAR

WATER USERS DO NOT PAY 1910 CHARGES BY MAY 1ST. THEIR WATER RIGHT MAY BE CANCELLED.

The following communication is self-explanatory:
Klamath Falls, Oregon, April 8, 1911.
Under date of March 29, 1911, the Commissioner of the General Land Office notified the local offices to send notices by registered letter to each water user who has not paid the charges due May 1, 1910, that if such charges are not paid within 30 days from the receipt of said notice, the entry or water right will be cancelled without further notice.

The public notice opening this project, dated November 18, 1908, contains the following provision:
"If any installment of the charges shall not have been paid in full on or before May 1 of the year subsequent to that in which it is due and payable as herein provided, it shall then become delinquent and under the terms of Section 5 of the Reclamation Act the entry and water right application shall be subject to cancellation with the forfeiture of any moneys paid thereon."

In a letter of warning to the water users of this project published by the Special Fiscal Agent, some weeks ago asking that notices from the land office be given prompt attention, he called attention to the fact that the charges for 1910 should all be paid prior to May 1, 1911, but added that there was no immediate penalty, except that payment of the building charges for 1911 would also be required. This statement was based on the fact that the Department has been lenient in the past, and while such an order as that issued was not anticipated at that time, it is now evident that payment of delinquent charges in all cases will be required.
W. W. PATCH,
Project Engineer.

MINISTER DIDN'T PREACH ON HELL; ASKED TO RESIGN

KANSAS CITY, April 8.—"I have been asked to resign my pastorate because I did not preach hell-fire and damnation. The church officials plainly informed me that I did not preach their kind of religion, and they did not want me."

Thus Rev. H. Arthur Barton explained his position after the services at the Bennington Heights Methodist Episcopal church. The sermon, he said, was his last in that charge.

Dr. Barton was the successor in the Bennington Heights church of Rev. A. T. Osborn, who was forced out because he tried to heal disease by prayer.

"I don't believe that in the new religion there is any hell," Doctor Barton said today. "The Bible, in regard to the hereafter, is taken too literally. About the only hell or the only heaven that most of us ever see is right here, as we fight the battle of life every day. The new religion teaches the brotherhood of men. It is a new theology and the ultimate doctrine of every church."

"However, my congregation did not believe in such a doctrine, and I was asked to quit."

NEGROES WILL NOT GO SOUTH

WASHINGTON, D. C., April 8.—The order transferring the Ninth cavalry (colored) from San Antonio to the Mexican border for patrol duty has been rescinded by the war department. This action followed a conference at the White House in which President Taft, General Wood and Representative Garner of Texas participated.

In revoking the instructions General Carter commanding the cavalry division, to hold the Ninth cavalry at San Antonio and to leave the Third regiment undisturbed for the present in the patrol of the border. The previous order contemplated the replacing of the Third regiment by the Ninth.

The change, it is understood, was the result of the protests from the border towns against the assignment of negro soldiers to duty in their vicinity. The presence of the negro troops in Texas has constituted a delicate position for the president in the last few days.

FRENCH MACHINERY IS FOUND IN THE JUNGLE

SAN FRANCISCO, April 8.—Some of the machinery used by De Lesseps in his unsuccessful efforts to build a canal at Panama is to be rescued from the jungle at the isthmus, where it was left to rust, and will be preserved for exhibition at the Panama-Pacific fair in 1915.
This plan was announced yesterday

from the office of the Exposition. It is intended to display the old machinery alongside that with which the canal is being pushed to successful completion. It is said that Congressman Knowland of Oakland, suggested the idea to Colonel Goethals, in charge of the work of the canal, on the occasion of a recent visit to the zone, and that Goethals sent men into the jungle to secure some of the De Lesseps abandoned engines.

LOS ANGELES FOLK LIKE KLAMATH COUNTY

Since the closing of the Western Land Show in Los Angeles there have been at least twenty-five parties here from Los Angeles with a view to locating and investing here, and as yet there has not been a single one disappointed in the least, and they are more impressed than ever with Klamath Falls. So far none of them have left the city, saying that now they are here they intend to stick.

These people came to Klamath county as a result of the splendid exhibit of Klamath county resources at the land show, which was in charge of "Booster" Oliver, secretary of the Klamath Chamber of Commerce. Mr. Oliver, who is a most convincing talker, told of the many opportunities for investors and homeseekers in Klamath county, and his words were flattered to by many. While twenty-five at least are here now as a result of the convincing combination of splendid exhibit and thoroughbred booster, there are many more who intend to come soon, and many are now on their way north to see for themselves the wonders of Klamath.

"What pleases us the most," said one of the Los Angeles men, "is the fact that your Mr. Oliver did not exaggerate conditions here, as many publicity men do. While he told us many good things about Klamath county, he by no means told us all, and we are finding them out every minute. There is one thing Oliver did not mention, and that is your salubrious climate. Why, a breath of this pure air makes one feel that he's alive. You ought to advertise this more."

WORKERS MOURN FOR THEIR DEAD

NEW YORK, April 8.—Displaying hundreds of banners with the legend "We Mourn Our Dead," the labor unions of New York city made a great demonstration against working conditions in the city's factories as a result of the recent Triangle Shirt Waist company fire, which cost the lives of 143 toilers.

Throughout the whole factory district of the city activity was suspended, and the workers, clad in somber garments, passed by thousands through the streets in silent protest against the fire traps.

Thousands on thousands were in the parade, and despite a steady downpour, women and children marched in almost equal numbers with the men.

Two columns of the toilers, one from uptown and one from the lower East and West Sides, met in Washington square, almost under the ruins of the Aach building, where the fatal fire occurred. Prominent in the procession were survivors of that holocaust, and crowds who lined the streets by hundreds of thousands uncovered as those who escaped the worst fire Manhattan has seen in years passed by.

While the parade was on the city buried seven unidentified victims of the Triangle fire. Their funeral corteges, however, did not make a part of the parade.

OLD MASONIC BUILDING DAMAGED BY FIRE

Fire, which is supposed to have originated from defective wiring, broke out at 10:30 Saturday evening in the old Masonic building on Fifth street, damaging the building to the extent of about \$600. The building is occupied by Clyde E. Witter's plumbing establishment, and Mr. Witter's stock was damaged to some extent. The loss in both instances are covered by insurance.

The building is the property of Henry Bolvin, who purchased it from Judge Willits last week. It is a frame structure, and stood on the site of the new Willits building until moved to its present location.

RABBI GOES TO PRISON FOR SMUGGLING DIAMONDS

SYRACUSE, N. Y., April 8.—Samuel Goldstein, a rabbi of Montreal, was indicted by the federal grand jury here today on a charge of having smuggled 101 uncut diamonds into the United States at Rouse's Point on March 14th last. The diamonds were in Goldstein's possession when he was arrested.

The prisoner pleaded guilty, and Judge Ray sentenced him to the federal prison at Atlanta for one month and fined him \$500. If the fine is paid by today the sentence will be modified.

LOST RIVER WORK TO BEGIN SOON

WILL BE DEEPENED AND WIDENED SO AS TO CARRY WASTE WATERS FROM DITCH BACK TO LOST RIVER AGAIN

Operations on the irrigation projects under the direction of the reclamation service will soon be well under way, and a busy summer's work has been planned. Already a force of men and a number of teams are working on the canal and laterals, making whatever repairs are necessary, and placing them in shape for carrying water during the irrigation period.

Work on the first unit main drain will commence in a few days, as the dredge is being set up, and will soon be ready for use. This work consists in widening and deepening Lost River slough, designated as the First Unit main drain. The purpose of the drain is to carry drainage water from the north half of the first unit back to Lost River again, thus preventing any waste of water.

The drain starts at the railway culvert, half a mile below Texum, runs around the north and east sides of Miller Hill, and empties into Lost River a mile below the new dam, which is to be built this summer near Wilson's bridge. The drain will be widened and deepened for about six miles. It will be run under the Mason ditch flume.

This work will be done by force account by the reclamation service, as the bids received were excessive, in the minds of the engineers. An oil-burning dredge was purchased by the service, and it will be operated on the work under the direction of D. C. Martin, who comes from North Yakima, where he had charge of the dredge used on the Sunnyside project.

COUSIN CARUS, HE ONE SCARED A SINGER, NOW

NEW YORK, April 7.—It is superstition not tonalitis, which is keeping Enrico Caruso away from the Metropolitan Opera stage. There is nothing the matter with the golden voice, but the owner is suffering from a severe attack of fear, which, according to psychologists, is more deadly than colds or sore throats.

Caruso has refused to sing solely because he has been told by a fortune teller that he is to meet with some injury, possibly fatal, on the stage in an opera in which a shooting or stabbing occurs. Curiously enough, the most popular operas in which the tenor appears in the present repertoire depict either the shooting or stabbing of the leading character, and it is generally the tenor who is killed.

Since early in February the great tenor has been missing from the casts at the Metropolitan opera house. Gloom settled both on the audience and on the boxoffice, but he remains adamant. He refuses to be shot or stabbed or to stab another.

POVERTY IS BLAMED FOR SOCIAL EVILS

CHICAGO, April 7.—Poverty, more than any other influence causes and perpetrates the social evil.

This is the finding of the Chicago vice commission, the first paid commission of its kind, in its report made to the city council. National, state and local officials, philanthropists, clergymen and social workers are comprised in the membership of the committee, whose report gave an exhaustive review of the present status of the social evil in Chicago, its past, its causes and means of suppressing it. The recommendations were directly against the European plan of segregation. They were:

First—The appointment of a morals commission.
Second—The establishment of a morals court.

CHAPS AND SPURS LOSE CHARM FOR SINGERS' SON

TUSCON, April 8.—Life on the Arizona desert as a cowboy has palled upon Ferdinand Schumann-Heink, son of the grand opera star. Young Schumann-Heink is in a Tucson sanitarium recovering from sundry bruises and aches attendant on a 100-mile horseback ride which he has completed. It is spring in New York, and he figures as soon as his physical condition improves he will return to "civilization."

8TH GRADE EXAMINATIONS

The next eighth grade examination will be held May 11-12. As an examination was held in January, there will be no examination in the eighth grade work in June this year, the next succeeding examination being in September.

INDIANS LOOKING FOR IMPROVEMENTS

EDWIN WILSON SAYS THEY ARE ANXIOUS TO IMPROVE QUALITY OF THEIR HORSES BY IN-BREEDING

Edwin H. Wilson, one of the well-educated and prominent citizens of the Klamath Reservation was here Saturday on business. He was accompanied by Green Patterson. Mr. Wilson belongs to what might be correctly termed the "progressive" element of the Klamath Indians. He is an active worker for anything that will add to the development and improvement of the Indians and their property.

Wilson and relatives have about eight claims on the reservation, and Mr. Wilson says that he is now at work improving the property and building new houses with the intention of renting some of the land. He states that a great many of the Indians, who have more land than they can personally cultivate, are doing the same, and that there will be a large number of new homes built on the reservation this year.

In speaking of the proposed fish hatchery on Spring Creek, he states that most of the Indians will welcome this establishment, as it will tend to perpetuate the trout in the creeks, and will aid in the development of the reservation. "We know," said Mr. Wilson, "that many things are said detrimental to the Klamath Indians which is not true. We believe in progress and development, and are ready to help encourage any new industry. For instance, if someone wants to build a sawmill we are ready to help get it established, as it means a chance for better homes for us. With the assistance of the government we are improving the breed of cattle. Mr. Chas. Snelling, representing a big firm of importers and breeders of draft horses, has been on the reservation, and we are now trying to secure some good stallions in order that we may raise the standard of our horses. We hope to induce the government to use some of our money in the purchase of good draft stallions. In this way everyone will have an opportunity to secure their services."

BOOKER T. BUYS HOME IN FASHIONABLE DISTRICT

NEW YORK, April 8.—Booker T. Washington, the famous negro educator, has purchased a summer home at Fort Salonga, L. I. The property is located within a short distance from the former summer residence of the Duchess of Marlborough, and is one of the most exclusive localities in the wealthy summer residence section. The property includes two and a half acres of land and a 12-room house.
Dr. Washington's nearest neighbors are Francis B. Swayne, a prominent lawyer, and Miss Farnam, a niece of Bishop Potter. There are many other families living in the vicinity of social prominence in New York.

GASOLINE CAUSES FIRE IN PENDLETON

PENDLETON, April 6.—The explosion of a gasoline tank destroyed the Berlin Dye works and the building in which it was located. The establishment is owned by John Webster and the building by Lot Livermore.

Gaining headway from the inflammable gasoline, the building, which was a two-story wooden affair, made a hot fire, and only the charred walls remained when the firemen had subdued the flames. The building was one of the oldest in the city, having at one time housed the postoffice. Two telephone cables were burned during the fire, and a large number of phones are out.

Market Changes Hands

The Fulton Market, which was started a short time ago by H. F. Oliver and Frank Bergen, has passed into the hands of Oliver alone, Mr. Bergen selling his interest to his partner. Though the market has not been in operation very long, it has already become well known among residents of Klamath Falls as a place where the stock is always fresh and complete.

LIABILITY ACT A LAW

SACRAMENTO, April 8.—Governor Johnson today signed the employers' liability act, providing compensation for employes who are hurt in the course of their work, and providing also for the creation of an industrial accident board.

TO OUST SCHOOL HEAD FOR WHIPPING BOYS

ST PAUL, April 8.—A majority of the committee which investigated the whipping of boys at the Red Wing state training school reported to the legislature recommending the dismissal of the superintendent and three

subordinates; the abolishment of corporal punishment for all inmates over 16 years and that corporal punishment for younger inmates be resorted to only under the direction of the state board of control.

The testimony offered at the committee hearings was to the effect that some of the boys were cruelly injured by the lashings they received.

JUDGE LYNCH IS RIGHT ON THE JOB

ELKVILLE, Ga., April 8.—One hundred masked men this morning lynched Dawson Jordan, Charles Pickett and Murray Benton, three negroes charged with murdering Newton Eason, a white man, on January 3d. The mob overpowered the jailer, broke in the jail and dragged out their trembling victims.

One fled and was shot down. The others were hanged on trees and their dead bodies riddled with bullets.

WALTON'S NEW LAUNCH WAS LAUNCHED SUNDAY

G. H. Walton has just completed his launch. The engine was installed by Hugo Opperman and Jack Ren-ton, of the Klamath Falls Iron Works. She was launched Sunday afternoon, and although a high wind was blowing, she made remarkable speed.

The craft is fourteen feet in length, with a four foot beam. It is equipped with a four horse power Northwestern gasoline engine. The launch will be used between Klamath Falls and Walton's ranch, about seven miles down the river.

Marriage License

A marriage license was issued Monday to Goldie A. Silva and John Richard O'Donnell.
