

ALL PROSPERING OUT AT DAIRY

**THOUGH A SMALL TOWN, THE
COMMUNITY ON THE LAKE-
VIEW ROAD IS RICH IN RE-
SOURCES AND OPPORTUNITIES.**

(Staff Correspondent)

Dairy, located twenty miles east of Klamath Falls on the main road to Lakeview and the Sprague River, is only a small village, but has a large territory surrounding it, devoted to agriculture, stock raising and dairying. It is also a lumber manufacturing district, a branch of industry but yet in its infancy.

A district may often be judged by the prosperity of its citizens and if this is true then the Dairy country must be a good place, as everybody is seemingly in a prosperous condition and many are financially beyond the need of worrying over the requirements of themselves and their families. A great portion of the district is in large ranches and many of the settlers are now willing to subdivide their holdings and make room for several hundred families who may be seeking homes in their district.

At present the people of Dairy are all smiles in the anticipation of the Hill railroad that is expected to cut in handy by here, and the probability of an electric line is another thing that may happen in the near future.

In a business way one of the finest all-round mercantile houses in the county does a thriving business under the management of its owner, Mr. Sedgwick, who is known far and near throughout the county. Mrs. G. G. Anderson conducts a hotel, which for meals is hard to beat for excellence, and the hotel has a large number of rooms. Meals are often ordered by phone by incoming passengers on the stage lines and automobiles.

A school building with all the modern conveniences and requirements is here, at present conducted by Professor Hall. The children with their many other accomplishments are wonderfully proficient in vocal music. The board is composed of J. R. Welch, H. S. Oden and G. G. Anderson, all good men and much interested with Mr. Hall in the school work.

J. R. Welch conducts a blacksmith shop. C. E. Weikert conducts a dairy on the Shook ranch. D. P. Shook, recently burnt out, has built a new modern residence. A. D. Slack operates a sawmill ten miles up the valley, employing ten to twelve men and cutting about 25,000 feet daily, and will also run a planer to furnish finished lumber to the ranchers.

Chas. E. Drew is a cattle buyer for the Klamath Falls market. H. J. O'Brien, L. Key Brothers and J. N. Drew have horse ranches. Wm. Wight, J. G. Wight, D. B. Shook, Emil Egert, Pat Collahan, Jacob Reuck and Hans Stoehner have cattle ranches.

Several reservoirs for irrigation are in this vicinity—might mention that of Chas. E. Drew and Geo. Ritter, as also that of H. S. Arant and A. L. Michael, in Yonna and Pine Flat respectively. Wm. Jones runs three wood sawing machines in the Valley, and delivers to residents of the town. A new enterprise is soon to be started in the shape of another saw mill for manufacturing the timber from a big tract of land owned by Herbert Arant and others.

The Hildebrand school, located about six miles north in the Valley, also has a large attendance. C. C. Pearson is chairman of the school board.

MANY ENTRIES FOR THE SHOW

PORTLAND, May 26.—Other Oregon towns will participate in Portland's Rose Festival. An elegant silver cup is offered for the most handsomely decorated vehicle entered by any of the nearby towns in the horse and vehicle parade, one of the distinctive features of the Festival, which is scheduled for Tuesday afternoon, June 5th. This pageant will be more beautiful than ever before. The decorations will be more elaborate and more in keeping with the spirit of the Festival. Although the electric parade will be magnificent, and is expected to lead all the others, the horse and vehicle feature will possess a distinctive quality that no other parade will have.

Entries have been coming in in large numbers, and competition for the various prizes will be keener than was anticipated. The competition between neighboring towns will, of course, be limited to that particular class. It is not expected that the decorated vehicles from outside will be in competition with the general entries; it will be one town against another.

It was announced yesterday that every preparation for the opening of the Festival on June 5th has been practically completed. Floats for the splendid electrical parade on Tues-

day night, June 6th, the carnival stunts on Sixth and Seventh streets following the pageant, the aquatic features, the reception of Rex Ogeanus, the motorboat races, the East Side parade for school children, fraternal organizations and industries, preparations for the entertainment of visitors, the illumination—all have been provided for.

"The Festival of 1911 will be memorable above them all," said Manager George L. Hutchin, "even if we eclipse it in 1912. It is certain that, beautiful and satisfactory as it was, the Festival of last year will not be in the same class as that of 1911. I want to repeat, that such another exhibition of Portland's beauties has never been given as that in store for the throng of visitors that will crowd into the city from all quarters of the nation and from many foreign countries as well."

BEWARE OF FAKE TREE DOCTORS; THEY'RE AROUND

CORVALLIS, May 26.—Frauds are being perpetrated in several parts of the state by men who give as their references the names of professors at the state agricultural college, without authority. One claims preposterous things in the way of curing apple trees of anthracnose and protecting them from the codling moth by applying chemicals to the roots. Another is offering a premium with subscriptions to a paper, which turns out to be a fake.

Dean A. B. Cordley of the Agricultural school, has received a letter from a farmer near Tuoltin, asking if he gave his endorsement to such men. The letter says:

"A man named Saunders claims to have a treatment whereby he renders trees immune from diseases by the application of some chemicals to the roots, especially apple trees. He claims that they will be cured of anthracnose, and that the codling moth will not bother such trees for six years, and that no spraying is required on treated trees other than a light spray of concentrated lye once every two or three years, to keep moss off the trees. Mr. Saunders gave me the name of Prof. Cordley as reference, so I ask the college to give me its opinion. I regard this fellow as a fraud, pure and simple, and in order to protect my neighbors from his operations I have written to the college."

"I know nothing whatever of him," Dean Cordley replied, "and if I should give my testimony in the case it would be to the effect that any man who claims to be able to render trees immune from the attacks of the codling moth, anthracnose and other fungus diseases by an application of certain chemicals to the roots of trees is a fraud."

Another letter from Lebanon states that a young man claiming to be connected with the college is taking subscriptions for a paper, and offering a premium, which turned out later to be a fraud. Dean Cordley has issued a statement that he is evidently trading upon the popularity and reputation of the college to make a smooth way for his fraud.

FINDS MONEY INTENDED AS A BOYHOOD PRESENT

PORTLAND, May 26.—When J. S. Day of 486 Tenth street chanced recently to open a book which his father had given him many years ago, a \$5 bill fluttered out from among the leaves. Evidently it had been intended as a surprise to the boy of that day. The bill had been printed August 1, 1857, and was one of the old state bank notes, issued by the Railroad bank of the Erie and Klamath in Adrian, Mich. With a quill pen the names of C. E. Helster, cashier, and E. O. Hunston, president had been signed on the note, and the ink is now so faded as to be barely discernible. It is printed on but one side.

The intention of Mr. Day's father to surprise his boy with a gift unexpected has after all not been defeated, for after the lapse of years the remembrance has increasing meaning, and while not valuable as a circulating medium, the bill as a curiosity is worth several times its face.

NIACIO VERRECO BOUND OVER TO GRAND JURY

Friday morning Niacio Verreco, the Mexican who, during a card game at the Mexican colony Wednesday, attacked two other men with a butcher knife, and carved them up a little, was brought before County Judge Worden for a preliminary hearing.

After hearing the testimony introduced Judge Worden bound the prisoner over to await the action of the grand jury.

New Rooming House

George Reed has completed his new rooming house, and it was opened to the public on Monday night. The building is located on Oak street, between Eighth and Ninth, and contains ten sleeping apartments.

BIG TIME AT THE TAVERN LAST SUNDAY

In the open air arena the Alkamot Tavern management gave an entertainment to a large number of the citizens of the city and suburbs Sunday afternoon.

Jack Linkenbach and Spider Walsh appeared in six rounds of fast boxing. Linkenbach's workout consisted of fifteen rounds of fast and hard work. Spider Watson also worked the same amount.

There has been some talk of bringing in Bud Anderson and a few more outsiders. The Alkamot orchestra rendered several selections.

MADEIRO HAS HIS LITTLE TROUBLES

JAUREZ, May 25.—General Madero made the statement yesterday that the representatives of millions in American money offered to finance Madero's presidential campaign, and pay part of the expenses of the revolution if he would promise certain privileges and concessions in Mexico. To this Madero replied:

"I represent the people of Mexico, who have been ground down by monopoly and special privilege. That is what this trouble is about. Do not expect me to permit it to continue. I do not want your money."

Discussing the incident, Madero senior said:

"The man offering the money represented Cincinnati, Chicago, Pittsburg and Wall street interests."

Confusion followed this announcement in official circles at the capital. High officials who were formerly most loyal to Diaz, have for days been secretly wiring Madero, asking orders, hoping thereby to gain favor.

ROCKY POINT IS JUST AS ATTRACTIVE AS EVER

Charles Wilson left Thursday morning after a business trip for Rocky Point, the ideal summer resort he is conducting on Upper Klamath Lake. Though the season is yet early, this place has already been visited by many, and now that the daily steamer service has been inaugurated a crowd is expected all summer.

Situated as it is, near Pelican Bay, Harriman's lodge, on a picturesque part of the lake, far from noise and confusion, no better place can be imagined for a quiet rest or an outing. The resort is the mecca of many a steamer excursion during the summer, and nearly every Sunday a picnic is held there.

Mr. Wilson has a number of tents, complete with flooring, etc., for the convenience of guests, in addition to an eating house. There is splendid trout fishing in the waters of Recreation Creek, which enters the lake at the point, and there are ample boats and fishing tackle with which the angler can enjoy himself.

IDEAL REPUBLIC GAINING GROUND

SAN DIEGO, May 25.—That the "ideal republic," which has been the aim of the Mexican liberal party, is already working in Tia Juana is stated by Attorney Kirk, whose fight freed General Bryce after Bliss had arrested him. Kirk says Tia Juana is most orderly.

A public order has been issued to employers of labor in the districts controlled by the libera armies fixing the minimum wage at a dollar and a half, gold, for eight hours of work. The order has been recommended by the San Diego & Arizona railroad. Kirk says the liberals, who are not recognized by Madero, obey the orders of a Los Angeles junta.

ONLY ONE COMPETENT TO TIE WEDDING KNOT

BAKER, May 26.—With a population of more than 25,000, and with the month of brides but a few days away, Baker county finds itself with but one minister competent to legally perform the wedding ceremony. This condition arises out of the failure of the preachers, with one exception, to register with the county clerk the evidence of their right to the privileges of a minister, as required by the law passed by the last legislature, before they are permitted to tie the matrimonial knot. Rev. J. Neilson Barry is the only minister who has qualified thus far.

UNCLE SAM'S FIGHTING RATE UP 1,200 PER CENT

NEW YORK, May 25.—War scare opponents are in hiding these days, as a result of Navy Secretary Meyer's declaration that the United States is 1,200 per cent better now when it comes to fighting than she was in 1898. Scientific management and efficient training for marksmanship has increased efficiency until now, according to Secretary Meyer, a nation such as Spain was then would not be able to offer noticeable resistance.

BIG IMPROVEMENT IN CEMETERY'S APPEARANCE

Under the energetic management of O. A. Stearns a vast change in the appearance of things has been wrought in the cemetery during Saturday and today. Quantities of brush have been cleared away and consigned to the fire and many of the graves and lots have been cleaned of weeds and rubbish.

It is a known fact that eight of the old veterans have been buried there, but, strange as it may seem, only four of them have been identified. These are marked with flags, so that they can be becomingly decorated tomorrow. The graves of the following named deceased comrades have been designated and will be duly decorated: Frederick A. Cogswell, J. W. Hamaker, Charles H. Humphrey and John H. Miller. It is hoped that the whereabouts of the burial places of David Duvall and James Barkley will also be learned before the ceremonies take place.

PRETTY WEDDING AT GRACE M. E. CHURCH

Grace M. E. church was the scene of a pretty wedding Thursday night, when Miss Goldie Mae Barnes became the wife of James Vernon Houston. The church was tastefully decorated for the occasion with flowers and greenery, and presented an attractive appearance.

"I Love You Truly," by Carrie Jacobs Bond, was beautifully sang by Mrs. Birdcan Fraker Gambell, and when she rendered the bridal chorus from: Lohengrin, the bride was led down the aisle by her father, W. B. Barnes. The bride was becomingly attired in a gown of white satin and lace, and wore a bridal veil crowned by a wreath of orange blossoms. She carried a shower bouquet of bridal wreath. Preceding the bridal party were six young ladies all in white, who as ribbon bearers, formed an aisle to the altar. Misses Vera Houston, Lizzie Houston, Edna Houston, Gladys Roberts, Winnie Wampler and Juanita Landis were the sextet. The bridesmaids, Miss Elsie Low and Miss Hazel Barnes were attired in Pongee, and the maid of honor, Miss Helen Harris, was gowned in messaline. Miss Evelyn Whitmore was the flower girl, while the ring bearer was Miss Birdcan Gambell, who carried the wedding ring in a lily.

At the altar, the party was met by the groom and his groomsmen, Harry Goeller, and Rev. George H. Feese, D. D., united the couple, using the impressive ring ceremony.

About fifty guests were present at the wedding, following which, they repaired to the home of the bride's parents on Walnut street, where the wedding supper was served. The time honored custom of throwing the bride's bouquet was observed, and Miss Harris, the maid of honor, was the lucky young lady.

Mr. and Mrs. Houston are two of the best known young people in Klamath Falls, where they have resided for the greater part of their lives, and they have a wide circle of acquaintances. It is their intention to make their home in this city.

TOMMY DAWSON MAY BOX HERE

If the plans of the Klamath Athletic Club do not miscarry, there will be big things doing, from a boxing standpoint, in Klamath Falls on July 3d. Arrangements are now under way to bring Tommie Dawson, the clever 133 pounder from Australia, here on that date to box an exhibition with Bud Anderson, the Portland lightweight, who is creating such a furore all over the Northwest. The matter, however, has yet to be definitely settled.

Dawson is considered one of the fastest boxers who has ever worn the Union Jack for a belt. Since coming to this country he has cleaned up nearly everything in sight, the only bout he has lost being one with Ad Wolgast. If the club is successful in bringing him here this will be one of the best bouts ever pulled off in Southern Oregon.

The name won by Bud Anderson is too well known in this section to need any special introduction. During the past winter he has pulled off several bouts in Vancouver, Wash., and the fans up Portland way hail him as a coming champ. He and Jimmy Fitten were matched, but the Vancouver authorities stopped the mitt game before they met.

In case Dawson does not come it is more than probable that Jimmie Fitten, the classy little boxer who trained Frankie Edwards for his first bout with Kid McLellan, will be signed up. The fans in Klamath county are strong for Fitten, and should by appear here he is bound to draw a crowded house. On account of the interest in a match between those two it is possible that several Portlanders would journey south to see the mix.

DESIRE FOR THEFT CURED BY SURGEON

BERKELEY, May 26.—Mrs. Jean Thurnher, 20 years old, who, according to her physicians, has been cured of criminal tendencies by the surgeon's knife, will be released from a grand larceny charge Monday by Justice of the Peace Robert Edgar.

Following repeated arrests for petty thefts in various bay cities Mrs. Thurnher served a year's sentence in the penitentiary, and on her release from San Quentin in July, 1910, was placed under the care of the probation department in San Francisco. Six months later she was arrested on a charge of stealing jewelry.

Her case was called to the attention of Dr. H. N. Rowell of this city, and she was operated upon. Dr. Rowell announced that the woman is cured.

WILL USE POISONED BAITS TO KILL BUGS

CORVALLIS, May 26.—"Poisoned baits are desirable for destroying grasshoppers, cutworms, and a few other insects," says H. F. Wilson, entomologist at the Oregon Agricultural College, in a new bulletin on insecticides.

"Such baits are most effective if used in early spring," he says. "Poisoned slices of tomatoes or some similar vegetable treated with a strong solution of arsenate of lead or Paris green are used to poison sow-bugs and wire-worms."

"To make a bran arsenic mash mix thoroughly a pound of white arsenic half a pound of brown sugar and six pounds of bran, and add enough water to make a wet mash. A spoonful should be placed at the base of each tree or vine. For cut-worms a still better bait may be prepared by mixing thoroughly a pound of Paris Green, 15 pounds of middlings, and 15 pounds of bran, dry, and sow it broadcast upon the vegetation, about the borders of cultivated fields or gardens. It may also be sown with a seed drill along the rows for destroying cut-worms in onion fields."

OREGON ORATORS AMONG LOS ANGELES WINNERS

SALEM, May 26.—A telegram has been received here from Los Angeles to the effect that Guy Woods, the Willamette University orator representing Oregon in the interstate oratorical contest in that city, won second place, California taking first honors.

Mr. Wood received first place on composition, but lost on delivery on account of a severe cold. The report is that the consensus of opinion was that Woods earned first place.

Representatives of Oregon, Idaho, Washington and California took part in the contest.

SPECIAL SESSION NEEDED TO MEET THE DEFICIT

SANTA BARBARA, Calif., May 27.—Governor Johnson today said he would call a special session of legislature next November to meet the situation arising from the deficit of the state's finances caused by the separation of the state and county taxes.

CHUTES BURNS; SEVERAL PERISH

**SAN FRANCISCO'S BIG AMUSE-
MENT PARK BURNS, WITH A
\$250,000 LOSS — INCENDIARY
WORK IS SUSPECTED**

SAN FRANCISCO, May 29.—Three bodies have been recovered from the ruins of the Chutes amusement park, which was destroyed early today with a loss of a quarter of a million dollars. It is believed that other dead will be found. The recovered bodies are those of adults, but are so badly charred that nothing can be determined regarding them.

Of the bodies recovered one has been identified as John Bietinger, a chauffeur.

The police say the blaze was incendiary. The fire is said to have started in four places simultaneously. No arrests have been made as yet.

Mrs. W. J. Stanley of Ashland is the guest of her sister, Mrs. E. R. Reames.
