POOR FREIGHT SERVICE

MANY complaints are being made by the merchants of this city in regard to the slowness of the Southern Pacific in handling the freight shipped to this city. It is reported that at the present time from twelve to fourteen cars of merchandise are standing in the yards, badly needed by the merchants, but which they are unable to get only after a long delay.

It is stated that the cause of this is the lack of help furnished by the railroad company. The Southern Pacific does not seem to realize the necessity of giving better accommodations to the people of this city, and have failed to provide sufficient help both in the office and the yards to make prompt delivery of freight shipped here. The attention of the officials of the railroad should be called to the existing conditions, through the proper source, and have this unnecessary delay remedied. The business men of Klamath Falls are contributing between \$2,000 and \$3,000 a day in freight charges to the Southern Pacific, and they are entitled to better service.

LET'S GET BUSY AND LAND SOME PRIZES

KLAMATH COUNTY SHOULD BE REPRESENTED AT THE BIG AMERICAN LAND AND IRRIGATION EXPOSITION IN THE FALL

No event scheduled this year will be of more importance to the entire country than the American Land and Irrigation exposition, which will be held in Madison Square Garden, New York city, from November 3d to 12th.

This first New York Land show is to be thoroughly representative of American Agriculture, as well as the most picturesque call of the land ever presented in the nation. Agriculture as it is generally practiced by dry farming and irrigation methods, will all be shown. Illustrated lectures, motion pictures, literature, agents and other mediums will be used to demonstrate different portions of the farm life, while every progressive state, city and railroad will make large exhibits. Included in these exhibits will be displays from Mexico, Canada and even Alaska, in addition to this country.

Following are some of the prizes to be awarded:

\$1,000 cup for wheat—donated by James J. Hill, chairman of the Great Northern railway, for the best 100 pounds of wheat grown in the United States in 1911.

\$1,000 in gold for wheat—Donated by Sir Thomas Shaughnessy, president of the Canadian Pacific railway, for the best 100 pounds of hard red wheat, spring or winter, grown on either continent of America in 1911.

01,000 cup for corn—donated by A. J. Earling, president of the Chicago, Milwaukee and St. Paul railway, for the best 100 pounds of oats raised in the United States in 1911.

\$1,000 cup for corn—Donated by A. E. Stilwell, president of the Kansas City, Mexico and Orient railway, for the best exhibit of marketable late potatoes grown in 1911.

\$1,500 cup for barley—Donated by Colonel Gustav Pabst of Milwaukee, for the best bushel of barley grown in the United States in 1911. Colonel Pabst will also purchase all the crop of the prize winner at a fancy price.

\$1,000 cup for sugar beets—Donated by Horace Havemeyer Jr. of New York city, for the best sugar beets grown in the United States in 1911.

\$500 in gold for apples—Donated by Howard Elliott, president of the Northern Pacific railway for the best twenty-five boxes of apples of any variety or varieties, grown anywhere in the world.

\$1,000 cup for alfalfa—Donated by Paul L. Van Cleave, president Sweet Grass Land and Livestock company, Melville, Montana, for best exhibit of alfalfa.

Is it not high time that the farmers of the great Klamath Basin were beginning to take notice of this, the greatest agricultural show ever held in the United States? There is no question as to the quality of the crops raised here, as they have carried away honors at several leading Western land shows within the past few years. Secretary Oliver of the Klamath Chamber of Commerce is anxious to have a display at the fall show, and it's up to our farmers to furnish

him with the necessary exhibits.

All sections of the country will be in competition with each other for the benefit and honor which the winning of these prizes will bring to the state and the section of the successful contestant. The man winning any of these prizes will secure national honor, while the territory in which he lives will become famed for that product. A little care in growing a good crop, a little extra work, and you stand as good a show as the next one.

ENGINEER HENNY

HIGHLY HONORED

PORTLAND, July 17.—D. C. Henny, consulting engineer for the United States reclamation service, with headquarters in Portland, has been appointed a member of a commission of three men whose duties shall be to formulate the best plan for government irrigation works in the province of Pinar del Rio, Cuba.

The commission, which is appointed by the department of agriculture and commerce and labor, will be composed of one American, one Englishman and one Cuban. As the selection of Mr. Henny as the American member of the commission came to him entirely unlooked for, he and his friends feel very gratified over it. He was chosen as the man who could best satisfy the demands of the country interested in Cuba and the government departments.

Mr. Henny left today for Cuba, and will be gone at least three months on this trip.

Mr. Henny, referred to above, is well known in this city, as he has made frequent trips here in regard to the Klamath project. He was recently promoted from the position of supervising engineer to that of consulting engineer of the reclamation service, with headquarters at Portland. The many friends of Mr. Henny here are greatly elated at the distinction given him.

WANT EXTRA SESSION OF THE LEGISLATURE

Judge William S. Worden, vice president of the Central Oregon Development League, received the following telegram of inquiry from Secretary J. E. Sawhill of the Bend Commercial Club:

"Do you think plan of authorizing counties to incur indebtedness for permanent roads after approval by majority of voters feasible? Medford is requesting governor to call special session for this purpose. Would you advise assisting in the movement?"

"J. E. SAWHILL."

In reply the following was sent out Monday:

"Your wire of July 14th received.

We approve any proper movement for permanent roads. Suggest you assist the Medford movement.

"WM. S. WORDEN,

"Vice Pres. Cent. Ore. Dev. League.

"E. R. REAMS,

"Pres. Klamath Cham. Commerce."

The extra session of the legislature which is being advocated so strongly by the people of Medford and vicinity will, if called, devote practically all of its efforts to road matters, settling the question of authorizing counties to incur indebtedness for permanent roads. All of Southern Oregon is beginning to take an active interest in the matter, and Judge Worden's endorsement as vice president of the Development League will have a great deal of weight.

KEEPING WHISKEY

FROM THE INDIAN

Having in his custody Prim Weeks, the Indian charged with the murder of Allie Harding, and Virgil Wilson, George Laraway, Art Lathrop and John Stokes, Deputy United States Marshal N. S. Hamlin left Tuesday for Portland, where the men will await trial in the Federal court. A party of Indian policemen accompanied Hamlin to Portland.

With the exception of the Weeks case all of the other men are held either on charge of introducing liquor on the reservation or of selling intoxicants to the Indians. There has been a great deal of the work of late, and Indian Agent Watson and the deputy United States marshals have united to stamp out this malodorous practice. Within a very short space of time, they have succeeded in arresting twelve for these charges. They will be severely dealt with in Portland as the prediction made by all who are in any way familiar with the cases.

BAKOWSKI'S COMPANION IS HERE TO MAKE SEARCH FOR PHOTOGR

(Continued from Page 1)

did not realize that they were frozen. He was in a Spokane hospital for ten weeks following this, and came near losing his pedal extremities.

"According to Mr. Momery," continued Stephenson, "my friend is thought to have topped from an overhanging shelf of snow at a point near the foundation of Crater Lake Lodge, about thirty feet east of the trail. If he did so, he undoubtedly fell in the snow a few hundred feet below, as the cliff here is more sloping than in other places, and even yet is covered with a deep mantle of snow. In order to make a most thorough search I have agreed to let myself be lowered from the top of the cliff to the snow bank. If the body is there I intend to find it.

"It is possible that Bakowski, if he fell over the cliff, might not have been killed," said he. "In that event he would evidently have made an effort to extricate himself from his predicament, but with the weather as cold as it is up there he must have perished within a comparatively short time. It is also possible that in falling he struck in the deep snow and sank for several feet, thereby smothering."

FREE DELIVERY COMES UP AGAIN AND LOOKS GOOD

Klamath Falls is to make another application for free delivery, and this time, it is believed that the residents of the city, after the jolt they received when their application was rejected on account of the absence of street signs, proper sidewalks, etc., will comply with all the requirements and secure the service. At present every box in the local postoffice is taken, and those who are unable to secure boxes must wait in line for nearly an hour before their turn comes to ask for their mail at the window. There is much complaint on account of this, though all realize that Postmaster Robert Emmitt is doing all in his power to better conditions.

At Monday night's meeting of city council Emmitt appeared before that body, and after telling of the conditions regarding the distribution of mail, he stated that there are two courses to be pursued for relief. One of these, he said, should be to move the postoffice to more commodious quarters, and add 500 more lock boxes. The other would be to establish a free delivery system.

As one man the council voted its approval of the latter course, and in order to expedite matters, the entire question was left in the hands of the street committee, who were given full power to act. This committee will take up at once the matter of numbering the houses, placing signs at street corners and other necessary arrangements.

LOCAL POLICE GET A RAISE IN SALARY

Klamath Falls police are the latest to be assisted in the battle with the high cost of living, and at Monday's meeting of the city council they were granted an increase in salary of \$25 a month. Heretofore members of the force, with the exception of the chief, have found \$75 in their monthly pay envelopes, but \$100 will be the monthly salary hereafter.

Councilman Silas Obenchain made a motion to this effect at the council meeting, and the motion was seconded and adopted.

Merrimans Return From Portland

Dr. and Mrs. George H. Merryman have returned from Portland, where the doctor was called to see one of his patients who has been in the hospital there. While in Portland Dr. Merryman attended the meeting of the State Medical association. A large number of the prominent members of the profession throughout the United States who had attended the American association in Los Angeles were on the program at the Portland meeting.

Dr. and Mrs. G. R. Wright returned to this city Wednesday from Los Angeles, where the doctor attended the meeting of the American Medical association. In addition to hearing some of the world's foremost medical men lecture, he renewed acquaintance with many doctors with whom he practiced in the Eastern states. At the close of the meeting Dr. and Mrs. Wright spent some time at Pasadena, visiting the former's parents.

E. W. S. Woods and wife of Stockton and M. F. Gabbis and wife of San Francisco, S. L. Emery and C. L. Lomax of New York, Mr. and Mrs. P. E. Rucker and P. E. Beall were among the members of a party in three autos who arrived here Wednesday from the south, en route to Portland. After spending the night at the Baldwin they left this morning, via Lakeview, for the northern city.

ROYAL ARCHER GUARD REVIEWED BY THE KING

United Press Service

EDINBURGH, Scotland, July 19.—Yesterday King George V reviewed the Royal Archer Guard of Scotland, although much to the people's annoyance—for it is hardly once in a lifetime that the wicker body appears in uniform, and everybody wanted to see it—the ceremony took place in Holy Rood Palace grounds, where the accommodations for spectators are very limited.

The company dates back to 1676, and is easily the most aristocratic corps in the world. Its ranks include three dukes, two marquises, ten earls and five barons, although the entire guard numbers only twenty-eight. In fact, the word "ranks" can hardly be used correctly, as most of the members of the company are officers. However, they made a brave show in their gorgeous medieval uniforms and Glengarry caps, and with their bows and halberds as weapons.

Capt. Gen. the Duke of Buccleugh, was in command of the parade, and after a short ceremony, during which he presented the company with a new standard, the king proceeded to the inspection, finding time to speak a few words to each member of the company, nearly all of whom are his personal friends.

The list of the members is as follows: Capt. Gen. the Duke of Buccleugh, Captains, the nonagenarian Earl of Wemyss, ex-premier the Earl of Roseberry and the Earls of Haddington and Home, Lieutenants, Vice-roy of Ireland the Earls of Aberdeen, ex-Colonial Secretary the Earl of Elgin, and Lords Polworth and Balfour of Burleigh; ensigns, the Marquis Tweeddale, the Earl of Dalkeith, the Duke of Abercorn and Sir I. H. McDonald; brigadiers of common archers, the Marquis of Breadalbane, the Lords Saltoun and Elphinstone, ex-Viceroy of India the Earl of Minto, the Earl of Stair, the Duke of Richmond, the Earl of Mar and Kellie, Lord Newlands, Gen. Sir Simon Scrimgeour-Lockhart, Lord Lion, King at Arms of Scotland Colonel the Hon. H. H. Dalrymple, Capt. the Hon. R. Gordon-Gilmour, Sir R. Dundas and Capt. the Hon. I. P. Hutchinson; surgeon Dr. W. A. Jamieson.

After the review King George held a levee in Holy Rood palace.

McNAMARA TRIAL SET FOR OCTOBER TENTH

LOS ANGELES, July 14.—Judge William A. Bordwell today set October 10th as the date for the beginning of the trial of John and James McNamara, who with Orrie McManigal are held on charge of dynamiting the plant of the Los Angeles Times last October. The attorneys for the defense wanted the trial set for December 1st, while District Attorney Fredericks urged its commencement on September 1st. Judge Bordwell then split the difference.

It has been intimated by the defense that John and James will ask for separate trials.

The McNamara's attorney, Scott, urging December 1st as the trial date, declared that the grand jury transcript shows no evidence except the McManigal story. He denounced the extradition of the McNamaras from Indiana as "a disgrace to the court."

All the indictments will be presented by October 10th, but the other eighteen will be set aside while the McNamaras are tried for the murder of Reaves, who was secretary to General Manager Chandler of the Times.

CEMETERY IS NOT A PASTURE FOR ANIMALS

Mounted Policeman C. C. Low on Friday received quite a little jolt while riding past the cemetery to find that three horses were staked out in the tract reserved for the dead, and were munching grass among the graves. He found the owner of the animals, and assessed an impoundment fee of \$7.50.

Low states that he is inclined to think that several other parties have been following this same practice. He intends to put a stop to it as quickly as possible, and promises to be more severe in case of another such occurrence.

ICE TRUST LAST TO GET IT IN GOTHAM

NEW YORK, July 14.—District Attorney Whitman believes that criminal conspiracy in the control of the New York ice market is responsible for many of the recent deaths and suffering. He believes that one company controls the supply of natural ice, another the artificial supply, and another markets both products and artificially creates a famine. The trust, panic stricken, is now rushing in ice.

TOUCHES WIRE CARRYING 38,000 VOLTS AND LIVES

MARINETTE, Wis., July 14.—Although 38,000 volts of electricity passed through his body, Max Engles of High Falls is still alive, and will recover. While fishing in the rear of a power house Engles touched some of the power wires with his steel rod. He was knocked unconscious, but artificial respiration revived him.

ACTRESSES IN STOKES CASE HAVE BEEN INDICTED

NEW YORK, July 19.—Indictments charging attempted murder were returned by the grand jury yesterday afternoon against Ethel Conrad and Helen Graham. After hearing the testimony of Stokes the jurors voted to indict.

Jonah Sparks, a well known resident of the Bonanza district, accompanied by his son, William Sparks, returned here Friday night from Sacramento, where the boy has been receiving treatment for appendicitis. They will spend a few days here visiting Mr. and Mrs. John Sparks before returning to Bonanza.

William Whelan of Washington, D. C., accompanied by Henry Smith, a well known resident of Seattle, is here on a business trip. They are stopping at the Lakeside Inn.

The Hill interests will spend \$25,000,000 in extensions and betterment to the properties in this state, according to advices received from the East.

ANSWERS EVERY CALL

Klamath Falls People Have Found That This Is True

A cold, a strain, a sudden wrench. A little cause may hurt the kidneys. Spells of backache often follow. Or some irregularity of the urine. A certain remedy for such attacks. A medicine that answers every call. Is Doan's Kidney Pills, a true specific.

Thousands of people rely upon it. Here is one case:

P. R. Nelson of Jacksonville, Ore., says: "I first used Doan's Kidney Pills while in South America, and at that time they relieved me of a severe case of lumbago. No doubt exposure to all kinds of weather caused my trouble. I could neither bend nor straighten without having intense pains in my back, and it was not until I commenced taking Doan's Kidney Pills that I found relief. Later while in Hawaii, I had another slight attack of kidney trouble, but I again took Doan's Kidney Pills and was relieved. I have told many people about this remedy, and I have seen several cases of kidney complaint quickly cured through its use."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

SPINK LEAVES FOR GEORGIA

R. C. Spink, the jeweler, left on Wednesday for Atlanta, Georgia, where he goes to settle up the estate of his mother. He will probably be absent anywhere from three to six months, depending entirely on the time it takes to settle the business.

The estate is composed of real property and consists of 268 acres adjoining the city of Atlanta, a portion of which has already been platted. Atlanta is one of the most beautiful cities in the South, and has a population of about 175,000, and with the continued rapid growth of the city the Spink estate is a most valuable piece of property, a conservative valuation being in excess of \$275,000. There are four heirs of the estate.

While the estate has been offered a very handsome price for the property, Mr. Spink states that he favors holding the property for a time and placing it in an incorporation, so that it can be more easily handled. The property is improved with driveways, shade trees, etc., and is surrounded by three railroads, and is crossed by an electric line.

Mr. Spink, on his trip, will combine pleasure with business. Leaving here he will go to Seattle and Vancouver, where he will spend several days. Taking the Canadian Pacific he will go to Montreal, and from there to Niagara Falls for several days. He will stop a week or more in New York city, where he will purchase his line of holiday goods, and then go to Washington. After spending several days in Washington he will go direct to Atlanta. He will return by the southern route, and spend some time in Mexico.

During Mr. Spink's absence Mrs. Spink will look after his business interests here. The jewelry store will be under the management of Mr. Upp.

SCOTTY TURNS UP WITH A BIG ROLL

RENO, Nev., July 14.—Death Valley Scotty, the mysterious stranger who has startled every large city in the United States by his eccentricities and his wild expenditures of money, has turned up in Goldfield with his pockets bulging with greenbacks.

Three months ago Scotty was in Reno dead broke. How he suddenly comes into wealth is a mystery, but he displayed \$11,000 in currency, and promised to reveal the location of his alleged fabulous wealth after August 1st. In the meantime Scotty states that he intends making another spectacular whirlwind dash across the continent in a special train. The special train trip will be his last appearance before the public, for after that Scotty will settle down.

"I have shot more champagne corks into the air than all the bullets fired in the Mexican war, and the education has been an expensive one," he said. "I have learned enough, and now I am going to look out for Scotty."

Scotty said that he had been arrested thirty-eight times for high-grading, but nothing had ever been found on him. He said that he had never stolen anything, and that the source of his wealth, when revealed, would exonerate him to the world.

"WAPPY" IS GIVEN AN INDETERMINATE TERM

SEATTLE, July 19.—Ex-Chief of Police Wappenstein was today sentenced to serve from three to ten years in the state penitentiary for bribery and for the protection of vice, on which charges he was recently convicted.
