

MONKS BEHEADED BY FIENDISH TURKS

BULGARS TO AVENGE

OUTRAGE IN WHICH CORPSES OF ANCHOIETS ARE LEFT ON THE STEPS OF MONASTERY AT CITY OF SOFIA.

United Press Service
SOFIA, Jan. 31.—A Turkish mob stormed the Bulgarian monastery near Uskub, and decapitated nine of the monks.
The corpses were left lying on the monastery steps.
The Bulgarians are greatly excited and swear to avenge the outrage.

DETECTIVE SILENT AS TO WHETHER HE CONFESSED

No Further Indictments of Labor Leaders Expected to Be Made by Grand Jury Probing Disaster to Los Angeles Times

United Press Service
LOS ANGELES, Jan. 31.—Detective Browne denied that Detective Franklin confessed.
Franklin is silent. The grand jury resumes work Friday.
No further indictments of labor leaders as the outgrowth of the Times disaster is expected.

IMPERIAL CLAN AGREED UPON BY ROYALTIES

Report That One Element in Celestial Conflict Has Been Reduced to Harmonious Condition, and Manchu Princes Assured Safety.

United Press Service
PEKING, Jan. 31.—It is believed that the royalties have agreed on an imperial clan. The Manchu princes have been guaranteed protection.

HUNDREDS MASSACRED BY BLOODTHIRSTY BRIGANDS

Refugees From City of Mukden Tell Stories of Horrible Atrocities by Outlaws, Said to Number Twenty Thousands

United Press Service
TIENSIN, Jan. 31.—Refugees tell stories of daily Mukden massacres, twenty thousand brigands said to be executing hundreds of Chinese.

BOMB PROBE ENLARGED TO TAKE IN WITNESSES

Having Knowledge of Guilt of McNamara — Labor's Defense Fund Meeting Will Be Scrutinized, Also High Union Officer and Bank Man

United Press Service
INDIANAPOLIS, Jan. 31.—The Denning probe is to include all witnesses having knowledge of the McNamara's guilt. The laborites' defense fund meeting here will be probed. Secretary Morrison of the American Federation and Henry Flather, bank cashier, have been subpoenaed to appear here tomorrow.

CURTISS SCIENCE TROPHY WINNER FOR YEAR OF 1911

Aero Club of America Notifies Flyer That He Wins Last Annual Prize, and His Hydroplane Is Believed to Have Got Him the Honor.

LOS ANGELES, Jan. 31.—Glenn Curtiss received a telegram from the Aero Club of America, informing him that he had been awarded the club's annual trophy for the greatest ad-

vance in aviation during the last year. The Curtiss hydroplane is believed to have secured the honor.

CARDINAL O'CONNELL HOME AND WARM WELCOME IS HIS

New Wearer of Beretta Arrives at the City of Effans via Stranger Canopic, Which Was Delayed Two Days by Rough Weather

United Press Service
BOSTON, Jan. 31.—Thousands welcomed Cardinal O'Connell, returning from Rome. The steamer Canopic was delayed two days by rough weather.

HOMES OF AMBASSADORS TO BE OWNED BY THE NATION

ROME, Jan. 31.—The recent decision of the United States congress to acquire permanent properties abroad for the residences of its ambassadors is meeting with some competition from continental countries.
France has purchased the Farnese palace for its embassy. Here setting a pace that will be difficult for the United States to meet.

While the latter country will have little difficulty in acquiring more modern palaces, and one that is probably more suited to the needs of a present day embassy, it will hardly be possible for it to find a larger and more handsome type of the old Roman palace or one that is figured more prominently in history.

M. K. Temple and wife, who was Miss Roxa Shive, have returned from their wedding trip.

ENGINEER IS TO ARRANGE SEWER

PROBLEM SO FOLKS WITH DWELLINGS AT EIGHTH AND FRANKLIN CAN HAVE OUTLET TO CITY MAINS

City Engineer Don J. Zumwalt is wrestling with the question as to how to have the area of old lots 5 and 6, block 63, Nichols addition, provided with sewer outlets. These lots faced north, but realty transactions have changed them so that they have become four lots, three of which face west on Eighth street, while one, a forty-foot piece, faces north on Franklin. The land is hilly in that section, making it difficult to reach a sewer line at the back of the lots unless a right of way is secured through other property. It may be that the city will stand the cost of an arm of sewer main up Eighth street, and let the owners make their connections through the front way and pay only for the connections. Among the property involved are pieces owned by Benson, Bath and Parker. Most of them have dwellings on.

OPENS DOOR, IS FATALLY SHOT BY WIFE'S EX-HUSBAND

GALESBURG, Ill., Jan. 30.—Answering a knock at the door of his house, Charles Taylor was shot twice in the head by Herman Chockley.
Taylor was instantly killed. Taylor and his wife, who is the divorced wife of Chockley, were living alone on the farm, and Chockley recently learned of their whereabouts.

Nelson Rounsevell came back last evening from a trip to Manhattan, Nevada, and San Francisco.

PORK PRODUCTS PREPARED HERE

IS PROSPECT FOR COMING SUMMER BY NEW MEAT CONCERN, WHICH WILL HAVE FORTY HOGS CAPACITY DAILY

"We will be in shape this coming summer to take care of all the hogs produced in this neighborhood," said J. J. Hales, secretary of the newly incorporated Klamath Falls Meat company, this afternoon. The new company, which is an association formed by the meat concerns of Crisler & Stilts and J. J. Hales, recently filed its papers with the secretary of state, and has a capitalization of \$10,000.
"It is the purpose of the company to arrange to take care of the hogs grown by our neighboring farmers, and save the drab of money which has been paid out here in the summer time for pork products," continues Secretary Hales. "For a matter of three or four months every summer an average of five carloads of smoked meats and lards come into Klamath Falls over the Southern Pacific railroad to supply our people with these foods and cooking ingredients."
"Figuring the minimum weight of the cars at 20,000 pounds each the goods will average 15 cents a pound in price for all the varieties. You can readily see that this runs into money, and means a great deal of leaving this section which we might as well keep at home. There is a cold storage plant in my establishment here, and I've spent a matter of \$2,000 in getting modern equipment for it, and as it supplies an east and oftentimes trade that is very desirable it is not proposed to make any change here."
"But Crisler & Stilts own a lot 27x 100 feet almost next door to their market, and we contemplate putting up a building there which will be fitted with cold storage and other means of handling hog products, besides a market. We expect to have a capacity of forty hogs per day. The killing will be done at the ranch outside of town. It is true that during the past summer there was a little over-production of hogs for home consumption, in that the farmers had some hogs left on their hands, because there were no facilities here for handling them. But the situation is going to be changed very shortly."

C. B. Crisler said that one trouble in the past that caused farmers to be unable to sell their hogs at home was the high prices asked. Last August he was asked 9 cents a pound for live hogs, and instead of buying at home sent to Sacramento for a carload, which, when landed here, cost him 7 cents, beating the local price by 2 cents. About fair time one sale of live squealers was made at 11 cents, when the price in Portland per hundred was \$6.80.

The officers of the Klamath Falls Meat company are: President and treasurer, C. B. Crisler; vice president, Harry E. Stilts; secretary J. J. Hales.

EARLY CLOSING MOVEMENT GROWS

HARDWARE MEN DETERMINE TO FOLLOW GROCERS AND MEAT MEN IN SHUTTING UP AT SIX O'CLOCK EXCEPT SATURDAYS

All the hardware merchants have announced that they will join the early closing movement by shutting up each evening except Saturdays at 6 o'clock. The grocers and meat markets have already taken such action, and there is a sympathetic tendency among the dry goods houses. Little by little the gospel of shorter hours, that are bound to bring as much trade, seems to be spreading. It will not be long until all the store owners, as well as their clerks, will have a chance to get well rested each evening in preparation for the next day's labor.

The Klamath Falls Military band expects to give special features at the Sunday afternoon concerts during February and March. 31-4t

CINDA WILSON IS CALLED BEYOND

DAUGHTER OF ONE OF CAPTAIN APPLIGATE'S OLD SCOUTS, CHARLEY FAITHFUL, DIES AFTER LINGERING ILLNESS

Captain O. C. Applegate has received word by phone from Charley Faithful, one of his old Modoc scouts, that his daughter, Cinda Wilson, died at the family home above Yainax at 10 a. m. Tuesday, after a lingering illness.

Mrs. Wilson was an Indian woman of rare intelligence, and was last an employee in the Indian school service at Klamath Agency, and her many friends of both races will miss her.

SHOOT HIMSELF, WORRIED FOR FEAR OF LOSING ALL

TACOMA, Jan. 31.—Worried by financial troubles and facing ruin, R. D. Shutt, real estate man and member of the last two legislatures, killed himself.

Saturday Shutt told a friend he feared he would go broke. A big piling contract he had with the Northern Pacific railroad was worrying him. He said his timber was bad, and that the contract would strip him financially. Monday he walked into the room of J. L. Wadsworth, adjoining his own, and took a revolver from the drawer, saying he was going for a walk up the river.

The suicide came the moment he reached his own room.

Shutt was 54 years old, and an active progressive. He was a candidate for commissioner at the first election under the commission plan of city government. He leaves a widow.

YELLOW FEVER MOSQUITOES BORN AFTER MANY YEARS

WASHINGTON, D. C., Jan. 31.—After lying dormant in larvae for 60,000,000 years, two mosquitoes were born in Washington a day or so ago. Also it being ascertained that they were yellow fever mosquitoes, just like the ones found in Central America today, they were executed.

Some time ago Assistant Secretary of State Alvah Adee received a small curious prehistoric deposit from Brazil. Mr. Adee is a chemist, and analyzing the rock, found two minute larvae. This astonished Mr. Adee greatly. He sent the embryonic animals to the agricultural department for further scientific investigation. Under treatment the larvae promptly developed into magnificent mosquitoes.

As the larvae was found in the interior of the rock, and Smithsonian Institution experts regard the age of the earth as anywhere from 60,000,000 to 200,000,000 years, the minimum figures have been adopted as the probable age of the Brazilian mosquitoes.

ATTORNEYS TILT WITH BANDINAGE

LAWYERS IN CASE ARISING OVER SALE OF SELLING RIGHTS TO HORSESHOE HAVE MERRY JOUST

"I very much doubt if counsel could be admitted to practice in the state of Minnesota," declared Attorney C. M. Onell, as he rose from his seat in circuit court Wednesday and imparted his thoughts to Judge Henry L. Benson.

"I never lived in Minnesota," retorted Attorney J. C. Rutenic, who was arguing a point for the other side of the case, "and, besides, I am not a Swede."
This badinage was called forth in the case of S. Y. Evans vs. Arthur C. Lewis, when Rutenic hinted that the methods in the Minnesota practice, in which Attorney Onell was formerly engaged, were more cumbersome than those in this state.
Evans sues Lewis for \$925 on a note dated July 25, 1904, asking interest on the sum and \$200 attorney

BIG LUMBER MILL WILL SOON BE BUILT

BY ALGOMA PEOPLE

OPERATING CAPACITY TO APPROXIMATE 100,000 FEET PER TEN-HOUR DAY, WITH LARGE RESOURCES

Within about sixty days the Algoma Lumber company will begin work on the construction of their new mill at Melhase, near Rattlesnake Point, on the upper lake. The machinery for the saw mill was moved last fall from the former plant near Pokegama, and includes complete equipment for a modern, first class mill with band saw and a gang saw. The capacity of the mill will be 100,000 feet per day of ten hours.

The company owns ninety acres of land at this point, on which is to be located the mill and yards, and the necessary warehouses, stores and buildings. Either the present box factory plant of the company now located at Montague, is to be moved, or a new box manufacturing plant is to be built near the upper lake.

A town of considerable size is to be built on the lake at this point, as it is the intention to erect homes for all the workmen employed by the mill and in the woods. H. H. Edmonds, superintendent of the company, is now located there, and R. H. Hovey, the manager, will soon begin the erection of a residence for his family, so that he will be on the ground to give his entire attention to the management of the improvements to be made.

The Algoma Lumber company now owns about 200,000,000 feet of standing timber on the east side of the lake, mostly located in township 37-2 and 30, and 38-2. This will be sufficient for the operation of their plant for a period of ten years. One of the recent acquisitions of the company was the purchase a few weeks ago of the A. S. Moreland tract, containing about 10,000,000 feet. The consideration has not been made public, but it is believed to have been in the neighborhood of \$30,000.

The company has about a million feet of logs cut in the woods, and they will resume logging during the summer. It is the intention of the company to build a railroad in the timber to convey the logs to the mill. They have a big mill pond near the plant, consisting of about thirty-two acres, which will hold 20,000,000 feet of logs. This is connected with the lake by a culvert which runs under the railroad track. This was arranged so the company would be able to secure logs from upper lake points. The company has established a market for logs, and are now buying from the small loggers and timber owners along the lake.

This new industry, which will be in operation this summer, will mean a great deal to Klamath Falls and the county, as it will give employment to a large number of men and be a market for large supplies. When in full operation it will mean an added payroll of about \$20,000 a month for probably nine months in the year.

DETECTIVE BURNS GIVES SAL IN LORIMER PROBE

Famous Gunshoe Expert Takes Witness Stand to Tell What He Knows if Anything, Regarding Course of Illinois Senator in Election

United Press Service
WASHINGTON, D. C., Jan. 31.—Detective Burns was called to the witness stand in the Lorimer senate hearing this afternoon.

Fireman And Another Man's Wife In Toils As Result Of Their Episode

Frank Harrington, a Southern Pacific locomotive fireman, who lives at Weed, and Mrs. Henry Beck of the same town, came to this city Monday evening and registered at the Baldwin hotel as man and wife. The woman's husband came to the city Tuesday hunting for the pair, and had them arrested. The woman was turned loose to join her husband.
Harrington stayed in jail Tuesday night, and up to time of going to press Wednesday Beck had made no complaint against him, so that the chances were that he would be released from the county bastle before night.

Murder Charge Against Strike Heads And Troops Are Enforcing Rules

LAWRENCE, Mass., Jan. 31.—Strikers are sullen over the arrest of Joseph Ettor, national organizer of the Industrial Workers, who is leading the mill strike, and Arturo Giovannitti, his chief lieutenant, held without bail, charged as accessories to the murder of Anna Lapizza, a striker

whom a spent bullet killed Monday night during a fight between the police and strikers.

The woman was buried today, hundreds of strikers attending the funeral. Troops have instituted the most rigid rules, and are stopping and searching pedestrians.
