

KUYKENDALL IS ANXIOUS TO COME

HOME, BUT STORMS OF PAST THREE DAYS HAVE BEEN OF CHARACTER WHICH TEND TO IMPEDE PILGRIMAGE

Dell V. Kuykendall, district attorney, who has been in the upper part of Lake county on business, and who has been intending for two or three days to start back, may be on the way but it is an open question. The storms of the last three days have had a tendency to make overland traveling more than difficult, and whether the district attorney is at Lakeview or on the way home could not be learned today. His law partner, Charles J. Ferguson, said this morning that the report that Mr. Kuykendall was out campaigning was erroneous.

URGE ELECTION OF MICKEL FOR FOOD COMMISSIONER

Strong endorsement of the candidacy of J. D. Mickel of Forest Grove for the republican nomination for dairy and food commissioner, as being the "man that the office needs," is contained in a statement to the voters of Oregon issued by a volunteer committee jointly representing the state organizations of dairymen, farmers and consumers.

The statement is signed in their personal capacity by M. S. Shrock, president of the Oregon Dairymen's Association; Mrs. Henry Russell Talbot, president of the Oregon Consumers' League; Phil S. Bates, secretary of the State Editorial Association; Austin T. Buxton, ex-master of the State Grange; W. K. Newell, president of the state board of horticulture.

The statement follows: "To the Voters of Oregon—Casting aside every political or selfish reason it is imperative that a man should be nominated and elected to the office of state dairy and food commissioner who will make the office mean what it should to the people of this state."

"After canvassing all candidates that have offered themselves, we find ourselves in a position to recommend one. The record of J. D. Mickel is such that we are convinced if he is elected to the office of dairy and food commissioner he will honestly and impartially serve the interests of the whole people—producers, consumers and distributors."

"We believe he will seek practical and effective methods to advance the dairy industry in this state along progressive lines."

"We believe he will encourage the manufacture of 'Made in Oregon' food products."

"We believe he will enforce the pure milk laws in a way that will benefit dairymen, manufacturers, middlemen and consumers alike."

"J. D. Mickel is a practical dairyman at Forest Grove. Last year his cows earned for him \$128.90 a head. He has tried the tuberculin test and finds that it weeds out diseased animals and makes his herd more profitable as well as insuring that milk will be produced that will not menace little children who drink it."

"He is not a theorist, but a practical example of the methods and policies that, applied to the office of dairy and food commissioner, will cause it to render greater service to the people of Oregon than ever before. We have not been able to

find a flaw in Mr. Mickel's record. So rarely do such men as he offer themselves as candidates for office, and so important is it that we protect ourselves and our children in health and pocketbook that we solicit support for him at the primaries, April 19th, and at the election in November, if he receives the nomination."

SOCIETY

On Tuesday evening, at the home of her mother, Mrs. Nate Otterbein, the friends of Mrs. Robert Sloan surprised her with an appropriate shower. The evening was pleasantly spent at cards and social converse and after refreshments the jolly crowd dispersed, wishing the young matron all manner of good luck. Those present were: Mesdames Chas. De Lap Jr., R. E. Wattenburg, Jennie Hurn, Thos. Grubb, Jas. Thompson, Geo. Humphrey, H. J. Winters, R. J. Sheets, B. L. Hardenbrook, K. North, Geo. Hayden, W. T. Johnson, C. B. Clendenning, Addie Walker, Kip Van Riper, Percy Sholl.

Mrs. Rufus Moore entertained on Thursday afternoon at "The Maples," her West Side home, in honor of Miss Bertha Sawyer of Ashland, who is visiting her sister, Mrs. J. F. Goeller. Needlework formed the pastime of the afternoon, and light refreshments were served. The guests were Mrs. J. F. Goeller, Mrs. C. H. Withrow, Mrs. Geo. T. Baldwin, Mrs. K. G. Kummis, Mrs. Jas. McClure, Mrs. C. E. Meldrum, Mrs. R. E. Wattenburg, Mrs. I. Jay Knapp, Mrs. Eccles, Miss Sawyer, Miss McCurdy and Miss McClure.

Mrs. C. E. Worden was hostess at an afternoon tea on Wednesday to the Ladies' Aid Society of the Presbyterian church. About twenty ladies of the church were present, and a very pleasant afternoon was spent.

On Saturday a week, Mrs. Silas Obenchain gave a children's Easter party for her niece, Marion Martin. Games were played by the young folks on the lawn, after which an Easter luncheon was served. Prizes and favors of Easter design were awarded to the guests, who were: Christine Murdoch, Miriam Taylor, Lois Chitwood, Ruth Chitwood, Helen Wirtz, Helen Stevens, Margaret Hargus, Constance Miller, Dorothy Sanderson, Helen Hamilton, Gene Hayden, Goldie Hales, Marion Martin, Wilfred Henry, Jerome Henry, Marian Masten, Henry Gerber, Buford Hargus, Delma White, Mike Graves and Ralph Graves.

DEATH CLAIMS MRS. S. W. REECE OF BONANZA

Mrs. S. W. Reece of Bonanza died on Saturday at the Blackburn hospital of cancer of the bowels. She had been at the hospital for treatment for about two months. The husband is a farmer, well known in the Langell Valley, and is a director of the Horsefly irrigation district. Besides the husband four children, two boys and two girls, survive the deceased.

Injured Greek Getting Well
George Tomassi, the Greek who was burned about the face and hands when the Jensen building at Ninth and Main streets burned two weeks ago, is well on the road to recovery.

RIGHTS OF WAY WATER RIGHTS

ARRANGEMENTS MADE WITH GOVERNMENT FOR WATER RIGHTS ON MODOC NORTHERN RIGHT OF WAY IN PROJECT

About fifty of the land owners under the United States reclamation project through whose property the proposed Modoc Northern railway runs, have been having considerable difficulty in getting the matter straightened out so that their land would not be held for the payment of water rights for that portion of it sold to the railroad company for rights of way. About 160 acres of land was affected, as the right of way consists of a strip of land from Klamath Falls to Tule Lake, a distance of nearly thirty miles. This land was signed up by the original owners to the government, and the government could not accept payment for the water rights for the remainder of the land until the obligation was arranged for with the railroad company for the strip used as right of way.

It is stated that the matter has been finally settled, and as soon as Mr. C. C. Hogue, disbursing agent of the reclamation service, figures out the amount owing on the land affected, the railroad will make payment for the same. The railroad company will have to pay its proportion of the building charge, but it is understood that no maintenance will have to be paid for the reason that no water will be used on the land for irrigation. The delay in the matter has been caused by the fact that there has been no provision in the reclamation laws for a case of this kind. Recently, however, the matter has been adjusted by the department permitting application for water rights by railroads. Heretofore, the land owner making application had to live within twenty miles of the property, and was supposed to use the water for the cultivation of the land.

DIVORCE ASKED IN WIFE'S BILL

MRS. FLOSSIE VASQUEZ REQUESTS CIRCUIT COURT TO AWARD SEPARATION AND RESTORE MAIDEN NAME

Suit for divorce has been begun in the circuit court by Flossie Vasquez against Jesse L. Vasquez, the bill having been filed by attorney W. S. Wiley for the plaintiff, in the office of County Clerk Charles R. De Lap.

The bill sets forth that the two were married in Trinidad, Las Animas county, Colo., July 29, 1909, and that the plaintiff has suffered personal indignities from the husband, who, the complaint alleges, has failed to provide her with the necessities of life, although able, because of idleness, profligacy and dissipation.

It is alleged that in February, 1910, while she was ill at Walsenburg, Colo., the husband failed to pay her physician's bill, and that he has on various occasions struck her. Owing to his treatment she left him February 27th, to make her home with her mother. She has since that date resided in Klamath Falls. She asks that in addition to a divorce she be given her maiden name, Flossie Wilson.

RACE HORSES TO BE TAKEN TO SPOKANE

It has been decided by Ed McCarthy

to take "Yankee Girl" and "Complete," which he is training, to Spokane, Wash., within a day or two for the purpose of completing the training of the former and running her this season. McCarthy says that he is handicapped here by reason of the fact that there is no half-mile track in the vicinity, and one of the best in America is at Spokane.

TAYLOR STARTS PAPER AT MINES

IF REPORT IS TRUE—DEVELOPMENT AT HIGHGRADE OF A CHARACTER WHICH ATTRACTS MANY PROSPECTORS

J. Scott Taylor, the Klamath Falls newspaper man, who recently went on a tour of inspection to Highgrade, fifteen miles south of New Pine Creek, where the new mining development is located, will start a paper there according to a report which has reached this city.

Mining men are hurrying into the new mining district a few miles from here. All the places where men are able to obtain board and a place to sleep are taken, with many going to Lakeview, fifteen miles north of here, for places to stop. Real estate is changing hands daily, and some rare bays have been recorded. "Dutch Jake" Miller, a Nevada mining man, has purchased the Lake hotel, and will immediately remodel it.

New Pine Creek is on the Oregon-California state line. The "high grade" district is within a few miles of the town, and runs to near Fort Bidwell on the east, a distance across the hills as the crow flies, of about fifteen miles. The highly mineralized belt runs from a point about fifteen miles south of New Pine Creek to six or seven miles north of the state line. Quiescent political surface covers anything at all, it may be a still but resolute frame of mind on the part of the voters of the city, one way or the other, or it may be apathy.

The light vote may be made up largely of proponents of the charter, or it may be less light and include many people who want to down the charter. There is no doubt that the administration forces as far as they stand with the mayor and majority of the council for the measure, will be induced to go to the polls.

The fact that the election is a special one, and for that reason not liable to bring out a heavy vote as the regular election, gives some of the anti grounds for believing that not even the necessary number of votes to carry the measure may be cast. If the administration forces are able to muster a fairly strong vote and the anti prove to have less than the necessary ballot power at the polls,

MURDERER WOULD SING FEW AFRICAN DITTIES

SAN RAFAEL, April 13.—Judge Zook today sentenced Edward Delhantle to hang for the murder of William Kaufman in San Quentin.

After the sentence Delhantle arose and offered to sing "a few coon songs." He will be taken to Folsom in ten days.

A. Caspel returned yesterday afternoon from an extended trip to Sacramento and San Francisco.

TEN Dollars More Per Cow

How? Making skimmed milk worth over \$1 per hundred pounds, by feeding to veal calves.

A big profit which is close to and open to most farmers. A booklet describing the ways a Sharpless Cream Separator will make money for you will be mailed on request.

SATURDAY, APRIL 20

The finest product of the Saddle Maker's Art

A BRADLEY SADDLE

More than 1,500 riders and owners in the Klamath country will testify to the comforts and durability of our saddles.

THE BRADLEY TREE, the foundation of our saddles, is built with infinite care from the best eastern black oak, covered with prime rawhide, oiled and varnished to make them absolutely moisture proof.

WILL NOT HURT A HORSE'S BACK.—A study of the anatomy of the horse's back has shown us that the only part that is fit to bear the combined weight of the saddle and rider is the muscles which on each side of the backbone cover the upper and more or less horizontal portion of the ribs between the loins and the upper end of the shoulder blades. The spines of the backbone are incapable of bearing the slightest pressure without becoming inflamed.

The Bradley Tree is so constructed that no part will rest on the spines of the backbone. The pressure of the saddle is distributed evenly, and over as large a surface as is fitted to bear it. The parts of the saddle that rest on the horse's back are properly but not thickly padded. We construct all our saddles with this end in view, and believe we produce a saddle that conforms to the horse's back better than any other make.

WILL LAST A LIFETIME.—The outer covering is the best western oak tanned leather, soaked into pliability, fitted into place, and after being dried, thoroughly oiled, is as near water proof as modern skill can make it. We do not use any flank, thin, or inferior leather in any part of the construction, and with proper care a Bradley saddle will last a lifetime.

OUR GUARANTEE.—We guarantee to replace or refund the price paid for any saddle that proves unsatisfactory through defective material or faulty workmanship.
