

## RIVALS FAMOUS DURBAR OF INDIA

RIVALS FAMOUS DURBAR OF INDIA

CALIFORNIA'S FAMOUS \$15,000,000 HEIRESS MARRIED

Greatest Gathering of Ultra-Fashionable Rich Ever Seen in the West Attend the Matrimonial Celebration of Former Miss Jennie Crocker and Malcolm Whitman, the New York Lawyer and Tennis Star

HILLSBORO, Calif., July 16.—In the presence of the greatest gathering of the ultra-fashionable rich ever seen in the West, a \$60,000 matrimonial durbar was celebrated here today, following the wedding of Miss Jennie Crocker, California's \$15,000,000 heiress, and Malcolm Whitman, New York lawyer and former tennis star of the East, which was performed at St. Mathew's Episcopal church, San Mateo, by the Right Rev. Bishop William Ford Nicholas, at high noon.

The wedding celebration, for which an army of florists, artists, landscape gardeners, sculptors, architects and carpenters had been preparing the extensive estates at Hillsboro for weeks, rivaled the most famous nuptials displays of New York's Fifth avenue set. Following the church ceremony, which was the one simple feature of the day's festivities, the guests, wearing an aggregate of \$1,500,000 worth of jewels, were entertained with a wedding breakfast in a temporary pavilion erected at a cost of \$15,000. It will be torn down tomorrow.

In this pavilion the guests seated themselves amid a floral spectacle of unrivaled beauty. Orchids predominated, \$6,000 having been spent on this flower alone in providing the display. Hundreds of thousands of thousands of roses, for which California's gardens are world-famous, as well as many other specimens of Nature's and the florist's art adorned the banquet boards or surrounded the feasters on walls and ceiling. In and out among their bright coloring fountains sparkled and white statues gleamed.

During the feast 200 automobiles which had brought the elite of San Francisco and other California cities to the scene, were parked along the spacious drives and beautiful gardens of the Crocker estate. Other guests arrived from various parts of the Pacific coast, and many from the East, by train.

The wedding was preceded by a procession of limousines from the Crocker estate to the church. Here the ceremony of the ring was performed beneath a bower of roses, and the guests hastened back to begin the real durbar festivities.

Throughout the afternoon a picked squad of fifty special police, including many of the best detectives and plain clothes men of the coast, loitered about the grounds, through the breakfast pavilion or in the Crocker mansion, as a protection for the millions of dollars in jewelry with which the women guests were bedecked.

The one prosaic feature was the presence of the motion picture man. As at the real durbar in India, every little incident of the day was pictured by the busy cameras stationed at points of vantage about the grounds. When the films are ready Mrs. Whitman will present sets of them to a number of chosen friends.

After the reception Whitman and his bride left for Castle Craig, located near Mount Shasta, where they remain until July 26th, when they will leave with Mr. and Mrs. Charles Templeton Crocker for a month's honeymoon in the South Seas.

## CITY COUNCIL HAS RATHER BUSY SESSION

Councilman Underwood was the only absentee at the regular meeting held Monday night.

Herman Force of the Warren Construction company informed the council that his company had been awarded the bonds in the amount of \$16,000 for the deficits on the first, second and third paving units, and that they were ready to take the bonds, and requested that the council either order the bonds printed or authorize the company to have them printed. The council voted to authorize the company to have the bonds printed at the expense of the city.

A petition was read from James H. Wheeler and I. P. Taber, asking the transfer of the liquor license to the latter, which had previously been transferred from Arthur Livermore to J. H. Wheeler. The petition was granted.

C. C. Low, who has been mounted police for the past several years, tendered his resignation on account of private business. The resignation was accepted. Mr. Low is the republican candidate for sheriff.

Mayor Nicholas stated that he had temporarily appointed C. E. Meldrum as electrical inspector, and that he would make the appointment permanent if it was satisfactory to the council. On motion of Councilman Crisler, the appointment was confirmed.

The electrical inspector receives his compensation in fees.

Councilman Savidge called up the petition, which was filed at a previous meeting, of the property owners of Shippington, asking for permission to resurvey the addition. A committee consisting of Savidge, Alford and Doty had been appointed to investigate the matter, and they reported in favor of permitting the survey and having the plats turned over to the city engineer for inspection and report to the council. Mayor Nicholas, with the advice of the city attorney, suggested that the records should show a written report from the committee, and asked them to make their report at the next meeting.

A petition was filed from the property owners on Esplanade, Bond and Broad streets, asking the appointment of E. C. Meyer as paving inspector. Mr. Meyer was appointed by the council.

A petition was received from residents of the Second ward, asking for a sidewalk on the southerly side of Washington street between Second and Fourth streets. It was referred to the street committee with power to act. Before the sidewalk can be ordered to be built an ordinance will have to be passed.

Another petition was also received from residents of the Second ward asking for the construction of a sewer from Third to Fourth streets, between High and Washington, so that they would be enabled to make connection. The petition was referred to the city engineer.

The petition of James M. Malone for appointment as plumbing and sewer inspector was placed on file.

An ordinance was introduced by McGowan, authorizing the purchase of a hose cart and 500 feet of hose for Shippington. An emergency was declared and the ordinance passed.

An ordinance was introduced by Doty for the improvement of Tenth street. It was passed to its second reading.

Harris & Co. was authorized to furnish forty yards of cinders on Sixth street, east of the railroad track, as an experiment. If it proves satisfactory the city is to pay \$2.25 a yard.

The council voted to instruct the chief of police to order the filling of the canal on Second street stopped. This work is being done by the committee of citizens in charge of the Second street extension.

## UNCLE SAM MAY STAND EXPENSE

### PROPOSITION OF PAVING TENTH STREET BRINGS UP MATTER OF GOVERNMENT PAYING PORTION OF THE EXPENSE

W. W. Patch, project engineer for the Klamath irrigation project, will co-operate with the city in paving Tenth and Eleventh streets.

This was the declaration of the government engineer when questioned this morning concerning what probable action the government would take in the matter of street paving in front of government property.

"I do not know just what the procedure is to cause the government to pay a portion of the expense of paving a street," said Mr. Patch. "I would advise that the city communicate with the department through this office before taking steps toward assessing government property for street improvements."

"The city has not, of course, any power to place any sort of a lien against government property, and any assessment made against the property for the paving of Tenth street would be illegal."

"However, I am heartily in favor of paving these streets, especially Eleventh street, and will do whatever I can to favorably bring the matter to the attention of the department that is, when it comes to me officially."

The government owns a portion of Tenth street, and also owns some property abutting on the street.

At the council meeting last night an ordinance was introduced by Mr. Doty providing for the improvement of Tenth street. As a portion of this street runs along the government canal, part of the expense of the improvement would have to be met by the government. A set-back was given the movement when City Attorney Drake announced that the city could not create a lien against the government, the same as it could against private property.

## FORHAN PLANS HARD TIME FOR LINKENBACK

According to reports from Dorris Jack Linkenback is scheduled for strenuous time in that place on the evening of August 17. Tommy Forhan, who is backed to fight Linkenback, is planning all sorts of surprises.

Forhan's wife and two children have arrived in Dorris from Redmond Ore., and with these to encourage him, the welterweight expects to have more than the usual incentive to bring home the bacon.

## DEATH AND FAMINE IN FLOOD'S WAKE

### ONE THOUSAND LIVES ARE REPORTED TO BE LOST

Property Damage Is Estimated at \$20,000,000—Many Families Are Homeless and Great Suffering Is Resulting—Denver Is Also Visited by Terrible Storm and Lives Lost There

MEXICO CITY, July 15.—One thousand or more are believed to have perished and a property loss sustained of \$20,000,000 as a result of a cloudburst in the state of Guanajuato.

The crops in an area of 1,000 square miles have been ruined and all foodstuffs destroyed.

Danger of famine is threatened. Thousands of people are hungry and unclothed.

Word is brought from the scene of the disaster of robbery of the dead bodies, and the Madero cabinet is planning to rush troops and relief trains to the stricken district.

## Missouri Suffers Loss

ST. LOUIS, Mo., July 15.—A rain and wind storm which swept this section yesterday and did \$1,000,000 damage. Four people were drowned at Alton, Ill.

## Denver Suffers

DENVER, Colo., July 15.—In the greatest flood in the history of the city since that of 1864, one man is known to be dead and two men are missing. A woman and a boy were seen to fall into the water, and it is believed that there have been many other fatalities.

The property loss is near \$4,000,000. Four square miles of ground is under water, and 500 families are homeless today.

Castlewood Lake, eighty miles north of Denver, is rising. The dam is threatening to go out any moment.

The dam is one of the largest in the world. If it breaks Denver will be flooded much worse than on Sunday.

## WILSON PICKS HIS CAMPAIGN LEADER

CHICAGO, July 15.—The democratic national committee in executive session today elected McCombs chairman. Joseph E. Davis was elected secretary, and John I. Martin of St. Louis sergeant at arms.

Davis was Wilson's choice. The conservatives attempted to block Davis' election and re-elect Urey Wilson.

## ANNUAL CONVENTION OF HIBERNIANS

CHICAGO, July 16.—Eleven hundred delegates to the annual convention of the Ancient Order of Hibernians from all parts of the country attended the pontifical high mass. Archbishop James Quigley of Chicago officiated. Bishop John Carroll of Helena, Mont., the head of the order, called the convention to order.

## TAFT CONGRATULATES ATHLETES BY CABLE

WASHINGTON, D. C., July 16.—In response to an official notification of the American victory, President Taft cabled Commissioner Sullivan: "I am greatly pleased at the fine showing of the Americans at the fifth Olympiad. Heartiest congratulations to commissioner and athletes. Wm. H. Taft."

## Pictures Taken

STOCKHOLM, July 16.—The American athletes were photographed today with much ceremony. Many thousands cheered the winners.

## Returns From Ashland

Mr. and Mrs. E. F. Summers returned on Tuesday from Ashland, where they went Saturday after their daughter, Miss Hazel. They made the return trip by auto in five hours. Mr. Summers states that the Klamath Falls end of the road is in excellent shape, but that very little improvements have been made on the other end, and that there some bad pieces of road.

## ASKS APPOINTMENT OF ADMINISTRATOR

A petition was filed with the court Tuesday by Attorney George Noland, asking the appointment of W. C. Sanderson as administrator of the estate of the late Fred T. Sanderson.

## ARCHBALD ORDERED ANSWER CHARGES

WASHINGTON, D. C., July 16.—The senate today passed a resolution directing Judge Archbald to appear before the senate Friday afternoon to answer to the charges preferred by the house.

Nelson Rounsevell returned last evening from New Pine Creek. He will be here for several days attending to business matters.

## SENATOR BAILEY IS RATHER NASTY

### SAYS THE PRESIDENT WROTE A FALSEHOOD

Is Sore at Taft for His Action in the Lorimer Case—Says Letter Written to Roosevelt Was Malicious, Infamous Falsehood—Senate Passes Resolution to Uphold Their Exclusive Rights

WASHINGTON, D. C., July 16.—Senator Bailey of Texas, in the senate, roasted President Taft for his "meddlesome and officious" actions in the Lorimer case. Referring to a letter Taft wrote to Roosevelt, he shouted: "When the president penned the line that I was determined to keep the Illinois senator here he penned a malicious, infamous falsehood. No one knows that better than himself. Andrew Johnson was impeached for a less serious offense than the president committed in writing this letter."

The senate passed the following resolution:

"Any attempt on the part of the president of the United States to exercise his power and influence to control the vote of any senator upon a question involving the seat of a senator or on any other matter within the exclusive jurisdiction of the senate, would violate the spirit, if not the letter of the Constitution, and invade the rights of the senate."

## VISITING ELKS KEEP STRAGGLING HOME

The members of the Elks who attended the Grand Lodge celebration at Portland keep straggling home. Monday night Exalted Ruler Hunter Savidge, Judge Charles Graves and Mrs. Graves and F. P. Cronemiller and wife of Lakeview arrived. They all had such a good time that they are simply silent, as they do not know where to begin to describe the doings.

Others of the party are taking advantage of the trip to visit friends in other parts of the state and Washington. Mr. and Mrs. E. B. Hall and D. B. Campbell went on to Seattle to attend the Potlach, and Mr. and Mrs. Shive stopped at Eugene to visit friends. All of the others seem to have been lost, as no one seems to know where they are.

## OUTSIDE FIRMS MAY REBUILD MESSINA

PALMERO, Sicily, July 15.—The rebuilding of Messina, destroyed several years ago by the great earthquake disaster, has been so interfered with by Italy's war with Turkey that the contract may be let to outside concerns.

This was made known today when a bid was received from an English syndicate agreeing to rebuild the entire city as undertaken by the government within the five years it was originally provided the work was to be completed. It is generally believed here that the bid will be accepted, as the only certain way in which the city will ever be rebuilt.

## COUNCIL DECIDES ON SIREN WHISTLE

On motion of Councilman Savidge the city rescinded its former action for the purchase of a 2,000-pound fire bell and decided to install in its stead a siren whistle. Mr. Savidge stated that he had talked with Mr. Bardsley of the iron works, who stated that he would install a three-inch whistle six feet long, an air compressor, receiving tank, and the pipe connection for \$500. R. J. Sheets agreed to furnish and install a five-horsepower motor for \$95. Councilman McGowan argued strongly in opposition to the siren. He said: "I would rather see a bell installed, as they are surer, and never get out of order unless they get cracked." The vote on the siren stood six to three, Miles, Owens and McGowan voting against it.

## HANFORD DRINK IS KNOWN HERE

There is one man in the city who will not hear for the first time of a "Hanford cocktail," as told by a witness in the congressional hearing in Seattle concerning the qualifications of the federal judge to continue in office. He is George Kinsey, a bartender at the White Pelican hotel.

For about three years Mr. Kinsey wore the white apron behind the mahogany at the Mecca Bar, one of the swell resorts of the Puget Sound city, where politicians were wont to congregate.

The Herald reporter knew the ingredients of the "Hanford" concoction because a wire received from the United Press today told about it. So when he asked Mr. Kinsey the question he was surprised to hear the answer.

"It's nothing but a dry Martini with an onion instead of an olive for decorations," promptly responded Mr. Kinsey. "I have served Judge

Hanford many times, but I do not recall whether it was this drink or a liqueur that he was particularly fond of."

It immediately became apparent that Mr. Kinsey did not desire to "tell tales out of school."

A local hotel has for some months made a specialty of the "Hanford cocktail," but has given it a different name, in fact, the name of the hotel.

## YOUTHS MUST BE HOME VERY EARLY

Chief of Police Smith has served notice that the curfew ordinance will be enforced hereafter.

This measure provides that young people under the age of 18 years must not play or loiter on the streets after 8 p. m. during the months of June, July and August.

"Children whose parents cannot control them are almost beyond the control of the police," said the chief this afternoon. "Nevertheless, we will do what we can."

The ordinance is not only not entirely popular with a number of the children, but some of the parents in the city complain that it will work a hardship to attempt to require the youngsters to get under cover so early in the hot summer months.

Repeated requests have come to the chief of police from those who favor the enforcement of the measure, and it is the consensus of opinion that the measure will be enforced by the chief with his usual consideration.

## ANSWERS CALL OF KLAMATH SECTION

W. F. Hopka, although he has visited this city every summer for the past four years, and had no intention of coming here this summer when he left Sacramento on a two weeks' vacation, arrived here Sunday night and will spend the balance of his vacation in this vicinity.

"I could not resist the temptation to come here," said Mr. Hopka, "especially after I met on the train C. R. Webb of this city, who was returning home from a visit to Marysville, and who recalled the Klamath country as a recreation field."

Mr. Hopka is with the well known firm of Weinstock-Lubin, and at one time owned property in this city. He is pleased with the prospects here, and expects to make some investments soon.

## HIGH WATER IN DENVER RECEDING

DENVER, Colo., June 16.—The floods in this vicinity have subsided. The authorities are caring for the refugees.

A revised list shows two persons drowned, a dozen injured and the property damage will reach \$4,000,000. Hundreds of families are homeless and in destitute circumstances.

The city is providing food.

Mayor Arnold has appointed a commission to determine the cost of diverting Cherry Creek, so that Denver will not be constantly menaced by floods.

SAN FRANCISCO, July 16.—Al Kaufman, heavyweight pugilist, is near death from pneumonia. The crisis is expected soon.

## CHURCHILL HERE ON PLEASURE

"The work of improvements now being carried on by the Oregon & California Power company is progressing rapidly."

This was the statement of Jerome Churchill a member of the company, who arrived Monday night with a party consisting of Mr. and Mrs. J. W. Churchill, Mr. and Mrs. J. P. Churchill, P. W. Churchill Miss Dorothy Churchill and Master Irvine Churchill.

"This is almost purely a pleasure trip," continued Mr. Churchill. "We are looking over the work now in progress, as a side issue of the trip. We have not decided just when we will leave Klamath Falls. We must be back in Yreka Friday and Saturday, when the Mining Congress holds forth there, and we have the time intervening to spare. We may take an auto trip around the lake to Harriman Lodge, but we have not yet decided."

## PLANT OF PAIL MANUFACTURER IS STARTED GOING

Orders for Pails Sufficient to Keep the Factory Going to Capacity for a Long Time Are Now on Hand. Capacity Will Be Six Hundred Pails Daily When the Men Learn the Business

With fifteen men on the payroll and advance orders to keep working to capacity for a long time, the plant of the Klamath Falls Tub and Pail company was started up Monday morning.

The machinery ran without a hitch, but considerable trouble was encountered because of the inexperience of some of the men. H. N. Wood, the manager and principal owner, is an experienced workman, and he has secured the services of an experienced man from the East. The rest of the force are a little "green."

"As soon as the men become more familiar with the work," said Mr. Wood, "we will turn out about 600 pails. This will mean that we will ship a carload of our product about every nine or ten days."

San Francisco is at present the market for the factory. Advance orders have been received from there sufficient to keep the plant going to capacity, and there is still the Portland market to be developed.

Experienced men declare the product of the local plant will compare favorably to that of any in the West. The proper material for the manufacture of the pails is found here in abundance, and the transportation facilities are excellent.

## WOMEN DISCUSS LAWS

The Equal Suffrage League met Saturday at the home of Mrs. J. C. Brockenbrough.

An interesting article by Judge Lindsay, reporting the improvement in public affairs during the 17 years women have voted in Colorado, was read by Mrs. M. E. Yordy. This was followed by reading the 1912 laws of California pertaining to women.

The study for the next meeting will be the laws relating to women in Oregon at the present time. The league will meet at the home of Mrs. Stearns, 117 Main street, Saturday, July 27. All ladies interested are invited to be present.

It is the desire of the league to have some friend of equal suffrage loan the league a vacant room on or near Main street, to be fitted up by the members and used until after the November election.

## FAVOR DISSOLUTION STEEL CORPORATION

WASHINGTON, D. C., July 16.—The Stanley steel investigating committee will probably unanimously recommend the dissolution of the United States steel corporation in its report to the house. They met today and agreed to favor such a report.

They may also indorse the government's suit against the corporation.

A meeting of the full committee will occur on Thursday for final agreement.

Dr. T. K. Johnson and wife of Merrill and H. Fisher and wife of Marcold, Ore., arrived in the city Sunday night after a visit with relatives in the Fort Klamath country.

The following composed a party registered at the White Pelican, and who arrived here Monday night from Yreka: Mr. and Mrs. J. W. Churchill, Mr. and Mrs. J. P. Churchill, Miss Louise Huntley, Miss Dorothy Churchill, P. W. Churchill and Master Irvine Churchill.

Miss Vera Gibbs, who has been here for some months on a visit with friends, Mr. and Mrs. H. S. Crane, is returning to her home in Missouri today. She will visit some friends in Kansas and at other points. Her trip eastward will occupy about three months. Miss Gibbs' brother has been assisting the city recorder, and is now clerk of the new charter commission.

Why Blister your hands when two thumbscrews clamp this - - - to any rowboat. THE EVINRUDE DETACHABLE ROWBOAT MOTOR will drive you along up to nine miles an hour. Steers by swinging propeller. Fits any boat. Easily carried. Runs at slow speed for trolling. Satisfaction guaranteed.
