

TRUSTS GIVEN GRILLING BY WORKS

CALIFORNIAN ADVOCATES FEDERAL LABOR BILLS

In Addition to Minimum Wage Bill, He Would Curb the Powers of Employers by the Enactment of Legislation Providing for Hours of Labor, and Other Features of Present System—Congress Responsible

WASHINGTON, May 5.—"The responsibility for this feeling of unrest in the ranks of labor is upon the lawmakers of the nation," said Senator Works of California, in discussing the trusts on the floor this morning.

Works spoke to some length on the subject, and held that the members of Congress are much to be censured for allowing the masses to remain miserable through failure to provide legislation for their protection.

"The ruling class in America at present is the moneyed class," said Works. "They have money, power, and position arrayed against the men and women who labor for their livelihood. They even regard themselves as superior to what they are pleased to term the 'lower class.'"

"There is one effective way to overcome this evil, however. This is to elevate the station of the wage earners by curbing the powers of the employer class. No better way occurs to me to do this than by the federal regulation of prices, wages and the hours of labor."

GOMPERS MUST

SERVE 30 DAYS

WASHINGTON, May 5.—Samuel Gompers should serve thirty days in prison for contempt of court during the hearing of the action against the Buck Stove company, according to a ruling handed down today by the United States district court of appeals.

The decision sustained the findings of the United States district court, from which Gompers appealed. The ruling today also held that Mitchell and Morrison, other labor leaders implicated with Gompers, should pay the \$500 fines imposed on each of them.

Mrs. E. C. Austin and son have left for Astoria to join Mr. Austin, who has charge of the Western Union telegraph office in the city by the sea. They will visit friends at Portland for a few days.

George E. Morey of Fruitvale is here looking after property interests. He owns considerable farm land near Midland.

ANTI-JAPANESE

FISH BILL HIT

JUNEAU, May 2.—Just before the adjournment of the Alaskan territorial legislature today, Governor Clark vetoed the anti-alien fishing bill, having for its purpose the prevention of fishing operations in Alaskan waters by Japanese.

The leaders of both houses accepted the veto. Governor Clark refused to say whether his action in vetoing the measure was the result of advice from Washington.

WILSON'S CITRUS DUTY IS PASSED

EFFORTS OF CALIFORNIANS ARE FUTILE, AND PARAGRAPH IS PASSED AS IT STOOD IN THE ORIGINAL BILL

WASHINGTON, May 2.—Defeating all proposed amendments to the citrus fruit schedule, the house this afternoon adopted this paragraph of the tariff revision measure as it is embodied in the Underwood-Wilson original bill.

Strenuous objection to the sweeping reductions provided for were made by the California delegates. They were particularly opposed to a lower duty on lemons.

In adopting the measure, the democrats took the attitude that the California lemon growers want unfair advantages, and would tax the whole country with a higher duty in order to monopolize the Eastern as well as the Western market.

The wool schedule will be reached tomorrow. Majority Leader Underwood hopes to pass the completed bill Tuesday, in order to devote the whole of Wednesday to the income tax.

SLINGSBY CASE

OUT OF COURT

SAN FRANCISCO, May 2.—Superior Judge Dunne today sustained the demurrer filed by the defense in the case against Dr. W. W. Frazier, charged with filing a false birth notice in connection with the Slingsby changing case.

This throws the matter out of court and in a victory for Slingsby.

DIRECT ELECTION

IS GIVEN BOOST

SACRAMENTO, May 5.—The senate this afternoon unanimously adopted Senator Shanahan's bill for amendments to the political code providing for the direct election of United States senators.

The bill will be introduced in the assembly tomorrow.

LAKE HAS GOOD FRUIT PROSPECTS

GOOSE LAKE VALLEY IS ONE OF THE COMING HORTICULTURAL CENTERS, ACCORDING TO OPINION OF EXPERT

LAKEVIEW, May 2.—County Horticultural Inspector O. C. McManue, regarded as one of the foremost men in his line in the Wenatchee fruit section, was in Fairport this week, and states that 40,000 trees have been inspected by him so far this spring. It is his opinion that the number will reach 80,000 before shipments are discontinued. After looking over the section here Mr. McManue said:

"The Fairport and Lakeview sections will prove remarkably remunerative as fruit producing sections as soon as we can prevail upon the people to prune, spray and thin as they should. Then we must pack and prepare the product to meet the competition of other sections."

"It is my opinion that we are the country for the May and June apple supply, so far as the Pacific Coast is concerned. The apples grown in the humid sections will not hold up as they will here."

Report has it that Washington firms are looking over the territory here with a view to the establishment of a big nursery to supply California territory with the more hardy stock grown in the higher altitudes.

YREKA TO HOLD

A CHAUTAUQUA

YREKA, Calif., May 2.—Arrangements have been made for a six-day Chautauqua assembly to be held in Yreka this summer. It will begin June 29th, and close the night of July 4th.

L. V. Stiles, representing the Ellison-White Chautauqua system, of Boise, Idaho, and Portland, Oregon, spent the latter part of last week in Yreka completing arrangements.

The Chautauqua assembly was endorsed by the Chamber of Commerce and more than one hundred of the representative business and professional men of the town have lined up behind the proposition and have made the necessary guarantee.

Yreka is especially fortunate in being able to secure this summer event. This Chautauqua will be one of fifty assemblies, using the same talent, on the Pacific Coast.

The program will extend over a period of six days. It will consist of eleven entertainments and several special features. A large auditorium tent, built especially for this work, and seating 2,000 people, will be used for this Chautauqua.

TARIFF DEBATE STOPPED

IN HONOR OF LEADER

WASHINGTON, May 6.—While the tariff debate was at its hottest point, just after noon today, Congressman Mann halted proceedings to inform the members of the house that today Majority Leader Oscar Underwood is 51 years of age, and to congratulate him.

This was followed by applause, and the man who introduced the tariff measure was congratulated and given a hand shake by all.

Underwood was taken completely by surprise. He stammered and blushed a few minutes before he could thank his colleagues.

Immediately after the row commenced again, Mann attacking the free lumber clause in the revision bill.

The house is also battling today over the free raw wool clause and the free list of wool, pulp, paper and wheat flour. Several predict that the senate will amend the bill and free list cattle.

A hot debate is expected when the free meat section is considered.

Mrs. James Pelton, L. Orth Sismore and N. H. Welbin were among the Fort Klamath people who came in Saturday.

J. BARLEYCORN HOLDS UP WORK

WHITE LABOR, INSTEAD OF INDIAN HELP, WILL BE USED LARGELY ON MODOC POINT PROJECT NOW

(Special Correspondence)

CHILOQUIN, May 5.—Work on the Modoc Point irrigation project, to irrigate about 2,600 acres of land on Modoc Flat, is being greatly delayed on account of the inability of the engineer in charge to secure laborers.

It was the original intention of the government to employ none but Indian labor on this project, but so much difficulty is being experienced in hiring Indians who will work steadily that white labor is in great demand.

The Indian ranks were greatly depleted last Sunday when as the result of a general fight caused by the importation of whiskey by an Indian and a Mexican, the project engineer, H. W. Hincks, discharged nearly a dozen Indians who had taken a part in the fracas. None of the Indians were seriously injured, but several bore marks of the conflict, which, according to witnesses waged fiercely for a short time.

Finally Indian police summoned from the Agency put a stop to the fight and lodged several of the combatants in the Agency jail. Most of the fighters escaped to the woods, but all the week they were one by one surrendering to the officers. The ones who it is alleged imported the liquor were taken to Klamath Falls and thence to Portland for a hearing before the federal grand jury.

BIG CINDER'S TRAINER

MISSING; TRIAL HALTS

CHICAGO, May 6.—The prosecution of Jack Johnson under the Mann white slavery act was given a severe jolt today when it became known that Yank Kenney, Johnson's trainer at Reno, Nevada, was missing. So far he has not been found, and a number of secret service men are looking for him.

Kenney was the man who conditioned the big negro for his bout with Jim Effries on July 4, 1910, when he won the heavyweight championship of the world.

Federal officials have not seen Kenney since Thursday. Fear has been expressed that he has been slain or spirited away by Johnson's friends.

The negro and his former trainer have been enemies for some time. Kenney's testimony was especially desired by the prosecution.

It is said that he was prepared to offer damaging testimony regarding the negro's relations with white girls in Nevada and elsewhere, and it is believed that Johnson's friends wished to prevent this.

Attorney Bachach, who represents Johnson, is questioning the prospective veniremen closely as to their views regarding miscegenation. He evidently intends to exclude Southerners from jury service.

Belle Schrieber, the principal witness, is sequestered at a hotel, awaiting the opening of the case.

Johnson appeared very cheerful today. "I only want a fair show," he said.

RIGHT OF WAY

IS NOW PICKED

BEND, Ore., May 5.—W. O. Gardner, right of way agent of the Oregon Eastern railway, which is building its line westward from Vale to a connection with the Deschutes branch of the O.-W. R. & N., spent Friday night here. He left Saturday morning for Lakeview.

While here Mr. Gardner stated that the railways had made the final location of its line 49.4 miles westward from Dog Mountain, to which point the contract has been let.

There was some trouble securing right of way from a few land owners west of Dog Mountain, but Mr. Gardner stated that settlement had been made with them, and that the road now has its right of way located to the Harney county line.

KILLS JEWELER,

LOOTS; ESCAPES

SAN FRANCISCO, May 5.—A lone robber entered the jewelry store of Herman Saxe on Geary street, shortly after 1 o'clock this afternoon, shot and injured Saxe and escaped with considerable money and jewelry before passersby attracted by the shot burst in to the room.

The robber secured over \$4,000 worth of diamonds and \$1,565 in cash. Saxe will die.

S. O. Johnson has departed for San Francisco after a week's sojourn here.

Son Is Born

Dr. Merryman reports the birth of a son to Mr. and Mrs. George Ager on Wednesday. The Ageres reside on the Keno road.

INDIANS TO SOW

LOTS OF GRAIN

(Special Correspondence)
KLAMATH AGENCY, May 5.—The Indian service has just finished the work of distributing 100,000 pounds of seed oats and an equal amount of barley to Indian farmers. The grain is given gratis by the government, but must be reimbursed at harvest time unless the crops are poor.

Last fall the government purchased a threshing outfit, and will be prepared to thresh all of the grain produced this year by the Indians.

STRIKERS AND THE POLICE CLASH

HOD CARRIERS AND OFFICERS EXCHANGE BULLETS—MILITIA COMPANY SUMMONED—MANY INJURED

SYRACUSE, May 6.—Striking hod-carriers and other laborers this morning clashed with the police attempting to protect strikebreakers, and during the battle firearms were used freely by both sides.

Seven Italians were shot during the melee, and six policemen were injured seriously. One of the strikers may die.

Later in the day a second pitched battle took place near the court house and the strikers used stones and clubs. Two more policemen were taken to the hospital.

The local militia company is held in readiness to aid the police, and all the ambulances are being held for emergency use.

WANTS FEDERAL

TRIAL OF BILL

WASHINGTON, May 6.—Congressman Britten of Illinois today introduced in the house a resolution proposing that the department of state and justice test the California anti-alien land law in the courts.

Britten said that undoubtedly the California legislature had exceeded its authority, and he asked a report of the judiciary committee.

BURNS VOTED

TEN THOUSAND

SACRAMENTO, May 6.—The senate last night passed a bill authorizing the payment of \$10,000 to Detective William J. Burns for securing evidence which brought about the conviction of the McNamara brothers.

What's the Matter With the Old Watch?

It's not getting any younger, you know, and once in a while it needs a rest and overhauling. Railroad watches are cleaned and overhauled once a year to insure accurate time-keeping. Why not bring yours in and let us give it the attention that is necessary for good time keeping.

WANTED
A GOOD MAN

The Canadian Pacific Railway is selling the finest wheat and mixed land in the world, from \$10 to \$25.00 an acre, on payments of one-twentieth cash, and the balance in nineteen equal annual installments. Interest at six per cent. They will also make loans of \$2,000 to settlers to help them improve their places after new homes have been built and the fence placed.

A good representative is wanted in this district. He must be a first-class man who can furnish the best of references. Write at once, giving your references, how long you have lived in the country and what business you have been in. Address:

W. G. IDE
215 LUMBERMEN'S BLDG.
PORTLAND, ORE.

PRIZES FOR FISHERMEN

You are overlooking a bet if you don't try for one of the prizes being offered for the three largest trout caught in Klamath county with an 8-oz. rod or less.

- First Prize, \$12 rod.
- Second Prize, \$5 reel.
- Third Prize, \$3 line

THE GUN STORE

J. B. CHAMBERS, Prop.

CALIFORNIA BILL STRIPPED OF FORCE

AMENDMENT TODAY MAKES IT RIDICULOUS

Split of Forces in the Senate Makes It Possible Force the Passage of an Amendment, Making it Possible for Aliens to Lease Land for Periods of Three Years, and to Then Renew the Leases

TOKIO, May 2.—At a mass meeting in the young men's hall today, hundreds of young men made the declaration that unless California modifies the attitude toward Japanese, the growing irritation among Japanese may become irrestrainable.

SACRAMENTO, May 2.—Secretary of State Bryan's mission to mitigate the rigor of the anti-alien land bill was unexpectedly victorious today, when the administration forces became divided on the Boynton lease amendment.

Senators Boynton and Thompson approved the bill, and the democrats supported them, but Birdsell and the other progressives put up a strong opposition. This was the first sign of weakening. Bryan refused to make any discussion regarding it.

Senator Boynton, who seemed the first to recognize this, when he offered his three-year lease amendment. He explained that the leaseholders might get renewals at the end of the three years.

Shanahan, Caminetti and Anderson approved the amendment. Finn, however, entered a strenuous objection.

"You might as well sell the land to the aliens as make that sort of a provision," said Finn. "This sort of an amendment weakens the force of the anti-alien land measure. It is not what the people of California want."

On the first roll call the amendment failed. The sergeant at arms was ordered then to produce the missing members, and when the vote was taken again it passed by a vote of 25 to 13.

Following the vote the senate adjourned until late this afternoon. At that time the Webb amendment to the Birdsell bill will be considered.

The gallery and lobby was packed with white people and Japanese when the senate took up the matter. There were a number of alarmists there, insisting on delay.

"War with Japan," whispered in an undertone, constantly reached the ears of the legislators.

Bryan arrived at the capitol early, and held a long secret conference with Attorney General Webb, Governor Johnson and Senator Boynton before the senate was called to order.

A score or more of telegrams were read when the senate convened. Many were from organized labor in all parts of California, urging the immediate passage of the bill.

One of the telegrams was from the Japanese Association in America. It hinted that the passage of the bill might affect the friendly relations existing between Japan and America.

SCIENTISTS WILL

VISIT THE LAKE

MEDFORD, May 2.—Word has been received that a party of foreign scientists plan to tour the United States this year, and include in their itinerary a trip to Crater Lake. The party will be organized along the same lines as the one last year, only on a smaller scale, there being about twenty-five in the party.

This excursion is the outgrowth of the one last year which visited the lake. Since that time Crater Lake has received much attention in scientific publications in Europe, which led the party coming this year to include the lake in its itinerary. In all probability the Commercial Club will take steps to entertain the visitors.

SAY MONTENEGRO

WILL SURRENDER

LONDON, May 2.—Russian court officials are advised that Montenegro is ready to surrender Scutari to the powers. The city was captured by Montenegrin troops last week, and after a long siege and bloody battle.

The ambassadors will meet Monday to consider the situation. The diplomats expect the situation will gradually clear, and that there will be no necessity for war.

Finish This Story

WORKMAN in an IHC wagon factory was explaining the various stages of wagon construction to an interested visitor. He picked up two pieces of long leaf yellow pine, and asked the visitor to notice the difference in the weight of the two pieces. The lighter piece, he explained, was kiln-dried. The heavier piece was air-dried. It had retained the resinous sap which adds strength and toughness, while in the kiln-dried piece of lumber this sap had been drawn out by the too rapid application of heat.

Every Stick of Lumber Used in IHC Wagons Is Carefully Selected, Air-Dried Stock

Here was something to think about. The visitor asked for a test as to the relative strength of the two pieces of wood. The air-dried piece held up under nearly double the weight under which the kiln-dried piece of lumber broke.

To the eye there was no difference between these two pieces of lumber, but when put to the test there was a vast difference. So it is throughout the construction of IHC wagons—Weber, Columbus, New Bettendorf, Steel King. They are built for real strength, light draft, and satisfactory service.

Weber and Columbus wagons have wood gears. Steel King and New Bettendorf have steel gears. IHC local dealers handle the wagons best suited to your work. See them for literature and full information, or, write
