

BUY YOUR GLOVES OF THE LEATHER HOUSE

"Everything in Leather"

This is a combination of glove sense and horse sense. The glove sense is in the fact contained in the stock of

The horse sense is in the fact that we are leather Craftsmen. We know what leather is from A to Z, and how it should be built into the finished product. Therefore, when you come to us for your leather goods, be it a glove, harness, or anything made of leather, we can tell you to a certainty whether it is adapted to your purpose or not. Not "I guess so," but "Yes, sir."

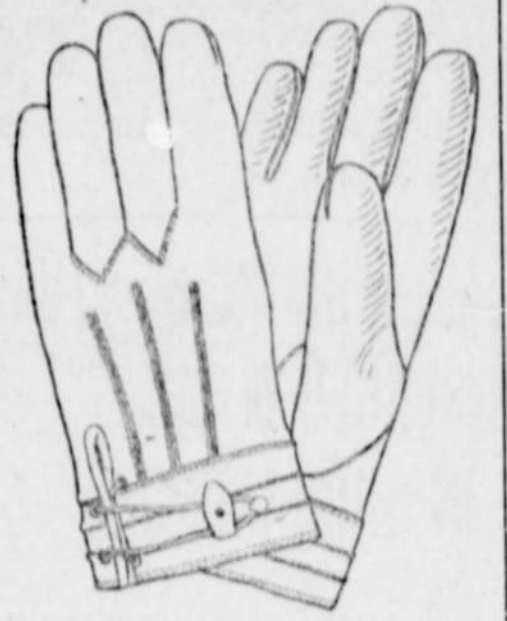

Hence our slogan, "BUY YOUR GLOVES OF THE LEATHER HOUSE," is based on an absolute knowledge of our business and your needs. Means for you a saving in the pocketbook, and the comfort and satisfaction of a just-right equipment.

A bit of interesting glove history: Away back, some fifty years ago, Mr. F. G. Conklin laid the foundation of the House of Conklin. There had been perfected in California a process of tanning buckskin, and nowhere else then or since has this method been equaled, and a product so well adapted to glove stock produced.

The West was demanding a style, fit and finish in gloves not obtainable of Eastern manufacturers. Mr. Conklin was quick to sense this demand, and labored with patient perseverance to meet it, and give the cowboys, miners, stage drivers, etc., of the New West just what they wanted, continually striving to improve his product. Mr. Conklin has passed on the other side of the Great Divide. How well he succeeded in his work is witnessed by the extent and character of business today.

A glove factory having a floor space of 50,000 square feet. About 300 people busy every day making Conklin's gloves. Everything from the cheapest working glove to the finest cowboy, automobile and dress goods, we offer you for men, women, boys and girls, and—

We repair free of charge all gloves bought of us when the material is not worn out.

BRADLEY HARNESS CO.

ASK WORDEN TO QUIT POSITION

OVER SIX HUNDRED SIGN RECALL PETITION

County Official Is Charged With Extravagance and Mismanagement of Road and Court House Construction Matters—Petitioners Say They Are Not Opposed to the Hot Springs Court House Site

Charging that he has been inefficient in managing the county's financial affairs; that he has accepted employment from large corporations; that he is plunging the county needlessly into debt by his road building policy, which they do not approve of, and that he seems incapable of erecting the court house at a moderate cost a petition, asking for the resignation or recall of County Judge William S. Worden was filed in the office of County Clerk De Lap Friday morning. The petition was filed by Frank Ward. It consists of thirty-nine separate petitions, and contains the signatures of 670 voters of Klamath county.

The petition asks that Judge Worden tender his resignation in five days. In case he does not do so, the county clerk is asked to order a special recall election.

Of the thirty-nine petitions, nine were circulated by J. W. McCoy of this city, and seven by M. M. Obenchain. O. A. Stearns and Al Melhase each circulated four, and others circulating them were H. Snowgoose, M. L. Allison, W. A. Duncan, C. N. Meyer, H. H. Van Valkenburg, P. L. Fountain, R. W. Tower, P. W. Snyder, John Janssen, Frank Ward, Horace R. Dunlap and W. B. Spencer.

The petition filed with De Lap follows:

"To C. R. De Lap, county clerk of Klamath County, Oregon:
"We, the undersigned legal voters and qualified electors of Klamath county, Oregon, respectfully demand the recall, by the people, of Wm. S. Worden, county judge of Klamath county, Oregon, for the reasons following:

"Unlawful, unwise and inefficient management of county finances; the incurring of a large amount of unlawful indebtedness; unnecessarily increased taxation, waste of money in county expenses; favoritism in contracting with and employing relatives of the members of the county court and certain firms and corporations at a financial loss to the county; unlawfully issuing and selling warrants of the county at a discount; carelessness and inefficiency in auditing bills against the county; accepting employment from corporations whose interests are opposed to the public interests and at far greater salaries than that paid by the county; inefficient and unsatisfactory service as a county judge; failure to get value received for money spent for roads, though petitioners are not opposed to good roads; lack of ability, as shown in the past, to expend future levies for roads; inability to construct a new court house with economy and a due regard for cost, though petitioners are not opposed to the new court house and are indifferent as to its location, but only insist that it shall be built economically, and that its cost shall not be excessive, which the past actions of said officer indicate that he will not be able to do.

"And we further demand that if the said Wm. S. Worden does not, within five days after this petition is filed, resign said office, then you should order a special election to be held within twenty days in said county to determine whether the people will recall such officer.

WRITE TO BE RECALL CANDIDATE

CONSENTS TO OPPOSE WORDEN IN COMING ELECTION

Former Newspaper Man Has Been Urged for Some Time to Run for Office on the Recall Ticket, But Up to Yesterday Evening He Had Steadfastly Refused—Today He Admits Being a Candidate.

Opposed to William S. Worden in the coming recall election will be Frank Ira White of this city, whom those opposed to Judge Worden would see in his place as county judge.

This was current on the street this morning, and early Friday afternoon Mr. White confirmed the report.

"I have been urged for some time to run against Judge Worden," said White, "and I have decided to do so. I will announce my platform in a few days."

It has been known that opponents of the present county judge have been strongly urging White to make the race ever since Silas Obenchain declined to come out in opposition to Worden.

The position taken by him for the greater part of the time caused many to believe that he would not accept the offer, but he made up his mind Thursday to come out.

White, prior to coming here, was engaged in newspaper work in Portland and in the Middle West. He has resided here for six or seven years, and during that time has taken an active part in the work of building up the Klamath country. This is the first attention he has given politics in this section.

WARRIORS BOLD IN ENLARGEMENT

CAPTAIN O. C. APPLIGATE RECEIVES AN ADDITION TO HIS TROPHIES AND RELICS OF THE MODOC WAR

Captain O. C. Appligate, whose information regarding the Klamath Indians' history and the history of this section is boundless, and whose collection of Indian trophies, curios, etc., is nothing short of a museum itself, has received another addition to his treasures, a number of enlarged photographs of various leading actors in the Lava Bed tragedy of the early 70's.

The pictures include Winema, old Chief Seonchin, Scar Face Charlie, Captain Jack, his wives, Doctor McKay and others. They are from old prints and photographs owned by Captain Appligate.

The pictures, together with other information regarding the modern Indian, were sent to a daughter of Professor Horner, one of the instructors at the Oregon Agricultural College, as an assistance to her in getting up a thesis.

In returning the photographs, etc., sent by Appligate, Professor Horner also included nicely mounted enlargements of all the pictures.

Charged with carrying a concealed weapon, Nobel Weatherman of Keno was arrested Thursday by Chief of Police Smith. He was fined \$10 by Police Judge Leavitt.

After frisking his clothes Weatherman found that he did not have quite the requisite tenpots with him. To make up the deficiency he sold the revolver.

MORE GOOD STOCK FOR FORT RANCH

Lindsey C. Sisemore came in Thursday night from North Yakima, Wash., bringing with him eleven head of yearling bulls for the Sisemore & Pelton ranch at Fort Klamath. The stock is all registered shorthorns.

Much is being done to improve their stock by the Wood River Valley ranch owners. Several hundred head of standard or registered cattle have been shipped in there during the past few months.

Guy Hunter, who is ranching in the White Lake country, is here to purchase supplies and attend to other matters.

U. S. CONSULTING ENGINEER IS PRESENT

U. S. CONSULTING ENGINEER IS PRESENT

W. H. Sanders Suggests Conducting Experimental Work on a Small Scale—Hogue's Plan Provides for Pumping Plant for Lowering the Level of Water on the Lands East of Railroad—Roads Wanted.

Reclamation of the swamp lands was discussed with a large number of land owners Friday morning at the Chamber of Commerce by W. H. Sanders of Los Angeles, consulting engineer of the United States reclamation service, and C. C. Hogue, fiscal agent of the service on the Klamath project.

Mr. Sanders was chairman of the board of government engineers that first approved the Klamath project, and made the settlement with the Klamath Canal company and other local irrigation companies many years ago. He has visited the project a number of times since, and is thoroughly informed of the conditions here.

The engineer apparently has no objections with the suggestions offered by Mr. Hogue as a solution to the reclamation of the swamp lands, but advised that experiments be made on a small scale at first, to demonstrate the value of the land. The representative of the government, who had charge of the work at the demonstration farm did not make a favorable report, but the land owners present, as well as Mr. Hogue, offered evidence to prove that the representative had made his report before he had continued his investigations far enough to demonstrate the productiveness of the soil. Photographs were shown of good crops of grain grown on the government farm the following season after the representative had left.

The plan suggested by Mr. Hogue contemplates the lowering of the water on all of the land east of the railroad from five to six feet by means of a pumping system, and also the establishment of a pump at the mouth of the Van Brimmer ditch, to furnish water for the 3,500 acres under contract to the government.

Mr. Hogue stated that if no provision was made for flooding the lands after drained that they would burn out. He suggested that several gates be placed in the railroad grade, so that water could easily be placed on the lands during the fall season.

One of the difficulties to be overcome is that of the alkali, but it is believed that by reducing the level of the lake five or six feet, and then flooding the lands each season, that no trouble from this source will be experienced. It is claimed that if the water is only lowered a few feet, sub-irrigation will raise the alkali to the surface.

There will be about 25,000 acres affected, and it was suggested that Klamath and Siskiyou counties might be induced to build two highways through the marsh by throwing up dykes. This would also assist in the drainage, and the expense to the counties would be warranted by the increase in taxable property which would result.

This land could be planted to grass for pasture, and three years would fully demonstrate the value of the land, and the owners would then be justified in a more comprehensive and expensive drainage and reclamation system, if they so desired.

Robert and Alex Cheyne were in the county seat Thursday morning, giving their attention to business matters.

Mr. and Mrs. Don J. Zumwalt leave this afternoon for Los Gatos, Calif. They were summoned by telegraph on account of the condition of Mrs. Zumwalt's mother, who is ill at her home in that city.

Women Get Noisy
A trio of women from Picard, Cal., and three men engaging in bacchanalian joyfulness Thursday night were arrested at a house in Fairview addition by the police. The party were boisterous when the officers appeared.

The three women were ordered to leave town. One of the men pleaded guilty to a charge of disturbing the peace, and was fined \$15.

Mr. and Mrs. Don J. Zumwalt leave this afternoon for Los Gatos, Calif. They were summoned by telegraph on account of the condition of Mrs. Zumwalt's mother, who is ill at her home in that city.

ED AKIN'S ESCAPE IS ALMOST MIRACULOUS

ED AKIN'S ESCAPE IS ALMOST MIRACULOUS

Were it not for the fact that he fell near a tree limb and a canthook, Ed Akin, an employe of the Doak ranch, near Odessa, would be in a winding sheet today, instead of in bed at the ranch house, nursing a broken wrist and a badly bruised body.

Akin was working with a party of men taking logs off a carriage, when a large log rolled off the carriage. Akin was standing in the path of the huge timber, and in his frantic effort to escape the workman tripped and fell.

To this fact he owes his life, for in falling he struck the ground next to a canthook that was leaning on a heavy limb. The log in falling struck these, and rolled over the prostrate body of Akin, breaking his wrist and bruising his face and hips. Had it not been for the limb and instrument he would have been crushed to a pulp, as the log was unusually large.

Dr. Hamilton attended the injured man, after a strenuous trip through a storm. Mrs. Akin is here, having just been released from the Blackburn hospital, following an operation.

Would you blame her if she kicked?

The light, simple, sanitary Dairy Tabular Cream Separator Bowl.

You'd consider your wife lacked spunk, if she didn't kick at washing the ten feet, of rattling discs, from a single common "bucket bowl" cream separator, when she might as well be washing the simple, light cleaned in-a-minute Dairy Tabular Bowl.

The picture shows all there is to the light, simple, durable easily cleaned Sharples Dairy Bowl, used exclusively in Sharples Dairy Tabular Cream Separators--the cleanest skimming separator made.
