

WILL NOT PARTICIPATE IN EXPO.

AUSTRIA IS STILL UNDECIDED ABOUT IT

Germany is still considering the matter—Ministry postpones definite action for a month—Austrian Commission is coming to America to look over the field and decide regarding participation in fair

ST. PETERSBURG, Aug. 1.—It was officially announced today that the Russian government has decided not to participate in the San Francisco exposition in 1915.

No official explanation has been made.

BERLIN, Aug. 1.—It was officially announced today by the ministry of the interior that Germany has not yet decided about participation in the Panama-Pacific International Exposition.

Consideration of the question has been postponed for a month.

VIENNA, Aug. 1.—Whether or not Austria will participate in the Panama-Pacific exposition at San Francisco is not yet decided.

It was announced today that a commission will be named to visit the United States and decide whether Austria will be justified in the expenditure of the money necessary to make a creditable showing.

The commission will be composed of Austrian government officials, and members of the Vienna Chamber of Commerce. They will leave soon for Toronto, to attend the exposition at that place, and will go afterwards to San Francisco.

LONDON, Aug. 1.—The Pall Mall Gazette today says editorially that the Panama canal tolls controversy has nothing to do with England's refusal to participate in the San Francisco exposition.

The decision, according to the publication, is due solely to the inability of the London board of trade to obtain the agreement of sufficient manufacturers to exhibit to make the monetary outlay worth while.

BRYAN ASKS FUND FOR RELIEF WORK

WASHINGTON, D. C., Aug. 1.—Secretary of State William Jennings Bryan today requested an emergency appropriation of \$100,000 to be expended in the relief of Americans in Mexico, who have been rendered destitute by the guerilla tactics of both fighting factions.

This fund will be used to transport them home.

The request was rushed to Speaker Champ Clark by Secretary McAdoo of the treasury department.

NO GRAND OPERA: PUNCH AND JUDY

BOSTON, Aug. 1.—Boston's long-held record as the center of culture and all things that are high-minded went by the boards today when Punch and Judy shows were held on Boston common. It had been planned to give the public a little grand opera and some of that classical stuff which doesn't draw awful big crowds, but is written by men with long names and hair.

But the order of "Honey" Fitzgerald, mayor of Boston town, the public was given Punch and Judy shows instead of grand opera.

The common, in the opinion of Mayor Fitzgerald, won't hold the spectators.

SUBWAY LOOP IS COMPLETED

NEW YORK, Aug. 1.—The new New York-Brooklyn subway loop, constructed at a cost of \$13,000,000, was formally opened for operation today. After today it will be possible to ride without change of cars and for a single 5-cent fare, from Chambers street, Manhattan, to and across the Williamsburg bridge to Canarsie, by way of the Carnarise-Broadway elevated line of the Brooklyn Rapid Transit company.

When another section of the city's new subways is completed, some time next winter, trains will run all the way through to Coney Island.

THIS POTENTATE HAS SOL BESTED

LONDON, Aug. 1.—Dispatches from Bangkok, capital of Siam, carry the report that the present king will shatter all traditions of his ancestors and have only one wife. Left a legacy of 600 widows and the right as heir to the throne to have as many wives as his father before him had, the present king, who was educated at Oxford, England, will not indulge in that doubtful pleasure of having more than one helpmeet.

Siam, the dispatches tell, is experiencing a radical change in government and social life. The young king has inaugurated at least one custom that is making a great hit with his subjects in building theaters in several of the large cities of his kingdom, which are being run by the government.

No attempt will be made to make money on the project, the cost of admission being kept at a figure which will assure the permanency of the drama. The king has adapted a number of English and French plays and operas to Siam.

One of the king's theatrical companies is now rehearsing a Siamese translation of one of George Bernard Shaw's plays. Later on the king intends to open negotiations with several French and American moving picture concerns, with the idea of establishing a moving picture theater circuit through his kingdom.

The king believes the moving picture shows, if given under his personal supervision, will do more than anything else toward educating his subjects.

CALUMET STRIKE GROWS SERIOUS

MILITIA GENERAL WANTS MARTIAL LAW—FOREIGN ELEMENT BLAMED—UNION DENIES DYNAMITE PLOT

CALUMET, Mich., Aug. 1.—Adjutant General Abbey, commanding the Michigan militia, said today that the strike situation is becoming more serious each day.

He advocates the establishment of martial law, or camps where the non-union men and their families can be protected if necessary.

According to Abbey, the terrorizing of a few foreigners against the advice of the non-unionists is responsible for the trouble reaching a serious stage.

Union men deny that any dynamite was smuggled in the camp for a campaign of destruction. The story is generally discredited.

Several rioters and strikers were arrested today.

AMBASSADOR TO RETURN SOUTH

WASHINGTON, D. C., Aug. 1.—Mexican Ambassador Henry Lane Wilson is preparing to return to Mexico immediately. He so telegraphed to Chairman Flood of the house foreign relations committee from New York.

This morning the ambassador was invited to appear before the house foreign relations committee tomorrow morning. The invitation was recalled an hour later.

The revocation was made at the request of President Wilson. He said that he did not desire the ambassador to further air his views regarding the Mexican situation.

Blue Sky Law Effective

COLUMBUS, Ohio, Aug. 1.—Ohio's new blue sky laws became operative today. By the new laws all who deal in securities are required to take out a state license with certain exceptions. The laws exempt stocks, securities of manufacturing and transportation companies, common carriers and public utilities issued and outstanding prior to February 1, 1913.

WOULD RECALL STATE SENATOR

SAN FRANCISCO, Aug. 1.—The Federation of Labor today launched a recall movement against State Senator Owens of Contra Costa county.

In the petition it is alleged that Owens proved himself antagonistic to the laboring classes throughout the assembly sessions. He is also charged with violating the platform of the democratic party, following his election under that banner.

Services at Camden Camp

CAMDEN N. J., Aug. 1.—Religious services comprised the program for today at the annual Camden Camp at which a dozen Eastern states are represented.

Old Postmaster Dies

OAKLAND, Aug. 1.—Park Parrish, at one time postmaster of San Francisco, died today at Fabiola hospital after a long illness. He was 67 years old.

WILL TRADE

Will trade 104-foot corner near business in Klamath Falls for small stock ranch. Would like from 100 to 480 acres, with some grain or hay land and next to outside range. Will consider any part of Klamath county, and will either pay or take difference in values of property. Better let me know soon what you have.

THREATENED STRINGENCY RELIEVED

NELEY ASKS FOR AN INVESTIGATION

Secretary of the Treasury Orders From \$25,000,000 to \$50,000,000 Placed in Banks to Facilitate the Moving of Crops—Tillman Urges the President to Take Radical Steps to Stamp Out This Practice.

WASHINGTON, Aug. 1.—Declaring that the government should adopt radical measures to prevent an artificial money stringency, accompanying the annual movement of crops, Senator Ben Tillman of South Carolina today personally urged the President to take the initiative.

"I told the president to disgrace the nation, if necessary," said Tillman, "and that if necessary we would tack additional legislation to the tariff bill in the form of an amendment, in order to secure immediate action."

NEW YORK, Aug. 1.—Banking circles today express much surprise at the decision of Secretary of the Treasury McAdoo to place between \$25,000,000 and \$50,000,000 in the banks to be used to facilitate the movement of crops.

It is said that reports received before indicated that the financial arrangements were favorable, and the banks were in good shape.

WASHINGTON, D. C., Aug. 1.—Congressman A. Neely of Kansas introduced in the house today a resolution calling for an investigation of the charges of Secretary of the Treasury McAdoo that the New York banks are conspiring to depress the federal 2 per cent bonds.

McAdoo alleges that this is a part of the program arranged for antagonizing the currency reform measure.

WILSON DENIES PRESSURE BY ANY FOREIGN NATIONS

WASHINGTON, D. C., Aug. 1.—The president, through Secretary Bryan today sent out the following statement:

"The statement appearing in certain morning papers to the effect that European governments are bringing pressure to bear upon America to compel aggressive action in Mexico is entirely without foundation."

Wilson and Bryan conferred a long time this morning on the plans of the administration if peace negotiations in Mexico City fail.

It is reported that the president contemplates sending a commission to Mexico City to investigate and recommend. This commission, it is stated, will be headed by John Bassett Moore, law adviser of the state department.

Bryan has learned that negotiations in Mexico City have progressed so far that President Huerta's resignation is imminent.

Attempts to align the senate committee of foreign affairs against President Wilson's plans have failed. Chairman Bacon has assured the executive that no action will be taken without his consent.

Evidence refuting Ambassador Wilson's story will be presented at the next meeting of the foreign affairs committee. It is understood that this described alleged close relations between the ambassador and Huerta.

United Press Service

LOS ANGELES, Aug. 1.—A conference with General Louis Torres, former governor of Sonora, is the program of Felix Diaz for today. He leaves this evening for San Francisco.

Diaz conferred with Trevino last night. It is reported that Diaz is trying to get the support of Trevino and Torres in his presidential campaign.

In an interview today Diaz denied that he had been recalled to Mexico. He also brands as untrue reports that he is arranging to return with an army and drive Huerta from the capitol.

Corinthian Regatta Is On

MARBLEHEAD, Mass., Aug. 4.—The mid-summer regatta of the Corinthian Yacht Club, which started off Marblehead today, brought together one of the largest fleets of racing and pleasure boats ever seen in this harbor. The combined fleets of the Corinthian, Boston, Eastern and Manchester clubs and the Interclub Association numbered over 200 small boats. The regatta will continue through August 9th.

A new electric device directs a current either of cold or hot air on a given point. It is made of aluminum and weighs only two pounds, and can conveniently be used for drying hair, for cosmetic treatment, or for any purpose in which quick drying is requisite.

CATTLE SLIDE DOWN A NOTCH

POOR QUALITY OF BEEF FLOODING MARKET DRAGS DOWN THE PRICES—HOGS AND SHEEP ON TOBOGGAN, TOO

PORTLAND, Aug. 4.—Heavy receipts of cattle for the week, and the fact that the best stuff was not offering caused the market to decline from 25c to 50c. Good choice stuff is in demand and would still bring a good price, but there is no demand for poor quality, which just demoralizes the market.

The dehorning of cattle is strongly urged, as in many instances shippers receive from 25c to 40c less on account of the bruised condition of the stuff offered. \$8.25 is the top on steers when good ones are in evidence and one extra choice lot of cows brought \$7.50, but good cows are selling around \$6.75 and \$7.

Fancy heifers would bring a good price, but there is a wide range in the class offered, as in the case with steers. Calves are steady, and bulls a shade lower.

The hog market has dropped from \$10 to \$9.70 for best light swine, and will probably go lower, as packers needs are temporarily supplied.

The sheep house was slow and draggy, probably due to hot weather. Not many receipts. Good ewes would bring \$3.50, top weathers \$3.75 to \$4, and top last of the mountain lambs \$3.50 to \$5.75, but a general apathy exists in the sheep trade.

Notice to Taxpayers

The assessment rolls are now ready for inspection. All property owners are kindly requested to call at the assessors' office and look over their assessments before the meeting of the equalization board on the second Monday in September.

J. P. LEE, Assessor.

UNITED STATES CREAM SEPARATOR

Has.....
NON-RUSTING SKIMMING SECTIONS

"The use of nickel silver in the skimming sections of the United States Cream Separator is the most important separator improvement in a decade. They are found only in United States Separators.

Nickel silver skimming sections will not rust under any condition. Neither wear nor water rust them.

Nickel silver skimming sections are easier to clean than tinned steel discs. Nickel silver is non-adhesive, milk and dirt sticking less tightly than to other metals.

Nickel silver is the strongest and most durable metal known for use in skimming sections. Long service is assured to every U. S. Separator user.

"The importance of nickel silver as a time-saving and sanitary feature recommends the United States Cream Separator to every progressive farmer.

Drop in when in town and see for Yourself.

Is your team dressed as they should be

Do you know you can farm with a good harness for less cost per year than you can with a cheap one, to say nothing of the satisfaction that goes with having your team properly fitted and dressed in a good looking harness?

To do this you must use the proper judgment in the purchase of your harness. Be sure you buy the kind that is made TO WEAR and not the kind that is made to sell. A man with a good team can make no better investment than to put some money in a good team harness. You can buy a good harness of my make from \$35 to \$60. Every strap guaranteed right, or I make them right.

Stop and figure a little: Your shoe bill is from \$8 to \$15 a year; if your harness cost you \$50 it will last you ten to twenty years; from \$8 to \$15 a year, your shoe bill will be from \$80 to \$150 in that time. So, you see, harness does not figure up so bad after all.

Your attention is always attracted to a team dressed in a good harness, and on investigation you found that you had just as good a team of they were only as well dressed. The man who owned them got credit for having the best team and you got credit for being a very unappreciative, don't care kind of a fellow for owning a good team and not thinking enough of them or yourself to dress them right.

Come in and take a look at the way I make harness, and I can convince you that they are made to wear and look well.

To be sure, buy at
