## GIVES CAST OFF GLOVES AND GETS GOOD ROOKIES

United Press Service

PHILADELPHIA, Aug. 19.—One of the reasons for the wonderful popularity of Connie Mack, Philadelphia Athletics manager, even in towns and cities where the fans have never seen the long, congenial Irish leader, was told here today by one of his friends. The story might also throw some light on why Connie Mack is "tipped off" to more alleged young phenoms than any other three managers in both big leagues.

Shortly after Manager Mack won his first world's pennant he was besieged with requests for the old shoes, stockings, gloves, blouses and trousers that had been worn out by his team in their scramble for the world's baseball prize. Mack knew that other managers before him had been similarly besieged. But here's the difference. The other managers either paid no attention to the requests or sent back refusals. Mack didn't do any such thing. He carefully investigated the requests, filed them in the order of their coming, and occasionally shipped off a discarded glove or a worn pair of shoes, or a bent catcher's mask to some beseeching young player.

Connie admitted that all this was a lot of trouble, but he believed that if he used discretion he could plant a glove or a suit or a pair of shoes in some locality where the wearer and the other players would remember Connie Mack if some likely looking young player developed. Mack says he has secured several promising recruits this way.

This request for discarded baseball paraphernalia, by the way, does not come solely from the East or the Middle West. The Indian team of the St. Mary's Mission school at Omak, Wash., is today sporting itself in the suits which Connie Mack's team wore when it won its last world's championship. Mack figures that if another Bender or a Meyers is developed at St. Mary's he will have first chance to look him over.

## Moundsville Chautauqua Opens

United Press Service

MOUNDSVILLE, W. Va., Aug. 16.—With some of the best known Chautauqua speakers in the country scheduled to make addresses, hundreds of people from this state, Virginia, Maryland and Pennsylvania gathered here today for the annual Moundsville Chautauqua, which opens tomorrow.

## NOTICE FOR PUBLICATION

(Not Coal Lands)

Department of the Interior, U. S. Land Office at Lakeview, Oregon, July 22, 1913.

Notice is hereby given that Clarence A. Mitchell, of Olene, Oregon, who, on July 9, 1910, made Homestead Entry, No. 03787 for N $\frac{1}{2}$ NW $\frac{1}{4}$  SW $\frac{1}{4}$ NW $\frac{1}{4}$ , NW $\frac{1}{4}$ SW $\frac{1}{4}$ , Section 24 Township 39S, Range 10E, Willamette Meridian, has filed notice of intention to make final three year proof to establish claim to the land above described, before C. R. DeLap, County Clerk of Klamath County, Oregon, at Klamath Falls, Oregon, on the 3rd day of September, 1913.

Claimant names as witnesses: H. H. Roberts, of Olene, Oregon; J. C. Taylor, of Olene, Oregon; F. P. Corpening, of Olene, Oregon; A. M. Jamison, of Klamath Falls, Oregon. JAS. F. BURGESS, Register 7-31-8-28

## Notice to Creditors

In the County Court of the State of Oregon, for the County of Klamath.

In the Matter of the Estate of Ira C. Johnson, Deceased:

Notice is hereby given by the undersigned administrator of the estate of Ira C. Johnson, deceased, with the will of said decedent annexed, to the creditors of, and all persons having claims against, the estate of said deceased to present such claims with the proper vouchers within six months from the date of this notice to the said administrator at his office, 119 Fifth street, in the city of Klamath Falls, State of Oregon, such office being the place selected for the transaction of business connected with the said estate.

Dated at Klamath Falls, Klamath county, state of Oregon, this 21st day of August, 1913.

O. C. APPLIGATE, Administrator, with the will annexed, of the Estate of Ira C. Johnson, Deceased. 8-21-9-18 r

## TRY TO STOP

U. S. INVASION

## FRENCH AUTO MAKERS FORM A COMBINE, AND WILL ATTEMPT TO GET ALL OTHER EUROPEAN COUNTRIES ALSO

United Press Service

PARIS, Aug. 19.—French automobile manufacturers today began active work on a campaign against the American "invasion of automobiles" of cheap make. The first step was the naming of a committee which will attend the manufacturers' convention in London in November. The plans of the French makers are to reorganize the International Union of Manufacturers as an opponent of the American output. American cars of reasonable prices have proved so durable and popular with the French public that home-made car sales have fallen off greatly.

## REAL ESTATE TRANSFERS

The following realty transfers, recently filed with the county clerk, are furnished by the City and County Abstract company:

Miss Emma Elizabeth Krill, a beautiful young nurse, is under arrest in Utica, N. Y., on a charge of poisoning Dr. Stanley E. Tron.

Oregon Valley Lany company to John L. Allavie, warranty deed, \$200, N $\frac{1}{2}$  of S $\frac{1}{2}$  of NE $\frac{1}{4}$  NW $\frac{1}{4}$ , Sec. 23-36-14.

United States to John T. Cotman, patent, SW $\frac{1}{4}$  NE $\frac{1}{4}$ , SE $\frac{1}{4}$  NW $\frac{1}{4}$ , W $\frac{1}{2}$  NW $\frac{1}{4}$ , Sec. 8-41-10.

R. Madsen to Ellsworth Tubbs, warranty deed, \$10, lots 9, 10, 11 and 12, block 26, Second addition.

James B. Elliott et ux to Aurie M. Draper, warranty deed, \$10, N $\frac{1}{2}$  of SW $\frac{1}{4}$ , Sec. 21, and N $\frac{1}{2}$  SW $\frac{1}{4}$ , Sec. 22-39-8.

Aurie M. Draper et vir to Louis Beirl, deed, N $\frac{1}{2}$  SW $\frac{1}{4}$ , Sec. 21, and N $\frac{1}{2}$  SW $\frac{1}{4}$ , Sec. 22-39-8.

United States to yCrus E. Yawkee, patent, lot 26, Sec. 3-33-7 $\frac{1}{2}$ .

Klamath Development company to A. M. Dyrud, warranty deed, lot 10, block 12, Hot Springs addition.

Joseph B. McAllister to Charley F. De Lap, warranty deed, \$10, SE $\frac{1}{4}$  SE $\frac{1}{4}$ , Sec. 29, and N $\frac{1}{2}$  NE $\frac{1}{4}$ , Sec. 32-37-13.

L. Hessig et ux to Chas. M. Brewer, warranty deed, \$275, lots 1 and 2, in block 12, Hessig's addition to Fort Klamath.

Mark L. Burns to First Trust and Savings Bank, deed, undivided one-half interest in NW $\frac{1}{4}$  NW $\frac{1}{4}$  Sec. 6-40-9, and SW $\frac{1}{4}$  SW $\frac{1}{4}$  Sec. 31-39-9.

United States to Atta G. De Lap, patent, S $\frac{1}{2}$  NW $\frac{1}{4}$ , N $\frac{1}{2}$  SW $\frac{1}{4}$ , Sec. 2-39-14.

V. B. Finnell et ux to J. J. Davis, warranty deed, lot 5, block 20, Fairview addition to Klamath Falls.

Klamath Canal company to Martha Woodard, quit claim deed, \$1, lot 2, block 94, Klamath addition.

W. T. Shive et ux to Geo. H. Capron, warranty deed, lot 9, block 19, Fairview addition No. 2.

P. M. Reidy et ux to Ednah Race Capron et vir, warranty deed, lot 9, block 8, Fairview addition No. 1.

Geo. H. Capron et ux to A. A. Bellman, warranty deed, lot 9, block 8, Fairview No. 1, and lot 9, block 19, Fairview addition No. 2.

Geo. H. Capron et ux to Harry E. Stilts, warranty deed, lot 15, block 14, Second addition.

The Klamath Development company to J. T. Goodin, warranty deed, lot 8, block 21, Hot Springs addition.

Geo. H. Capron et ux to Russell W. Ford et ux, warranty deed, lot 12, block 17, Hot Springs addition.

## ENTOMOLOGIST HERE TO ASSIST TIMBER OWNERS

To prevent the pine bark beetle from infesting the forests of Klamath county, the government has stationed an expert here, who is ready at any time to inspect any timber holdings, determine whether or not it is infested, and give advice for prevention and eradication.

The man designated for Klamath county is W. E. Glendenning, agent in charge of field operations of the bureau of entomology of the department of agriculture. He is here now on a trip of reconnaissance, and after August 29th will be stationed here as long as needed.

"According to statistics, the United States yearly pays a toll of \$100,000,000 to the ravages of timber destroying insects," said Mr. Glendenning, "and the pine bark beetle is the worst offender. The government is therefore determined to eradicate this pest."

"I have been sent here to see to what extent, if any, the pest has taken hold, to give information regarding the amount of infestation, and the methods of control to every timber owner, large or small, desiring my services, which are without cost. In Siskiyou county timber owners in the last year spent \$30,000 in the fight against the beetle. Good results were obtained, the destruction of beetles in some isolated tracts being as high as 95 per cent."

The stations of the bureau of entomology in Washington, Oregon, California and Nevada have been combined into one, which is to be located at Ashland, according to Mr. Glendenning. This will be known as the Pacific Field station, and will be in charge of Professor H. T. Burk, entomologist.

MEETS TODAY

## ARRANGEMENTS BEING MADE FOR CITY CAMPAIGN—WHITMAN'S LOSS STILL RANKLING TO THE PARTY

NEW YORK, Aug. 19.—Still fretting because of District Attorney Whitman's acceptance of nomination on the fusion anti-Tammany ticket for district attorney, which has left them without a leader, and a man on whom all factions could have agreed for mayor, the republican city committee meets at Murray's today to make designations for mayor, comptroller and president of the board of aldermen.

United Press Service

## KENO COMING TO FRONT BY ITS BIG RESOURCES

(Special Correspondent)  
KENO, Aug. 20.—Four outfits are now putting logs into the Klamath River to be taken to the Klamath Falls mills. They are mostly for the Big Basin Lumber company. Between thirty-five and forty men are at work in the timber, cutting and hauling logs.

Keno is bound to come to the front. Why? Because it is located at the edge of a large timber belt, with as good a sawmill location as there is in Oregon, close by a river where a large amount of logs can be stored. The timber for miles can be brought to the mill with a down-hill pull.

A railroad line has been surveyed from Worden to Keno, and when built should make shipping easy, as the railway and the mill site are only a few hundred yards apart, and there is an electric line near the spot. This power plant has been put in for the purpose of establishing pumping plants along the Klamath River for irrigation purposes. A large acreage of high lands will thus be brought under cultivation.

Two river boats are now engaged in the work of towing logs from the Keno logging camps to the sawmills at Klamath Falls.

J. O. Otey is keeping a boarding house, and so is Miss Doten. Besides these the private homes are housing the large number of men working around here. Barns are in demand for the teams.

Crops are good hereabouts, and harvesting is in full blast. There is quite a bit of fruit all through this neighborhood.

## Shorten Fruit Time

Through the efforts of J. H. Randolph, manager of the Producers Fruit company in Medford the time required to ship a carload of apples or pears to Chicago has been shortened nearly two days. In other words, now a car will reach the Chicago market in nine or ten days where it formerly took eleven and twelve.—Medford Sun.

## Horticulturists Convene

MINNEAPOLIS, Minn., Aug. 20.—With delegates in attendance from all sections of the country, the Society of American Florists and Ornamental Horticulturists opened their annual convention here today. Sessions will continue through next Saturday.

## ENGLAND HONORS EARLY PILGRIMS

MARBLE TABLET, COMMEMORATING THE DEPARTURE OF THE MAYFLOWER, IS UNVEILED AT SOUTHAMPTON

United Press Service

SOUTHAMPTON, England, Aug. 16.—Commemorating the departure of the Mayflower 293 years ago, a monument to the Pilgrim Fathers was unveiled here this afternoon by American Ambassador Page.

The memorial, a plain shaft of gray stone, with panels on the sides bearing historical inscriptions, and surmounted by a cupola of marble, stands on the western esplanade overlooking the sea, and adjacent to the spot where the Mayflower weighed anchor.

Funds for its erection were subscribed by members of the Society of Mayflower descendants in the United States, many of whom attended the ceremonies. The mayor and other municipal officials received Ambassador Page here, and the party was escorted to a luncheon at the Royal Pier Pavilion by the Southampton Boy Scouts.

As the entwined American and English colors fell away from the shaft, bands played American and English national anthems.

## Park Superintendents Adjourn

United Press Service

DENVER, Colo., Aug. 20.—Pledged to fight for larger municipal, county, state and national appropriations for public parks, the American Association of Park Superintendents adjourned today after a session lasting three days.

## Freight Handlers in Session

United Press Service

CHICAGO, Aug. 20.—A great increase in membership was noted in reports read today before the open session of the annual convention of the Brotherhood of Freight Handlers. The meetings will adjourn tomorrow.

## Church Starts Legal Aid Bureau

The Interchurch Federation of Wichita, Kans., has started a bureau of free legal aid for those who are unable to pay for counsel. This is an outcome of the evil practices of loan sharks and others. A central office will be opened. A number of the city's best lawyers have volunteered their services.

Breaks Crank Shaft.—A broken crank shaft caused R. W. Towers to shut down his sawmill for a few days. Mr. Towers, whose mill is near Worden, brought the broken parts to Klamath Falls Tuesday night, and will have the local foundry forge new ones.

## POTATO TUBER MOTH IS CAUSING MUCH DAMAGE

The potato tuber moth is working such injury to potato crops, especially in Texas and California, that the bureau of entomology of the United States department of agriculture has issued special instructions to potato growers to help them overcome this highly injurious pest.

The department urges potato growers to sort the potatoes for seed two weeks after digging, and then to sort them over two weeks later. It is easy to pick out the infested tubers, because of the excrement of the moth which adheres by means of a web to the outside of the potatoes, and can be readily detected. The tubers unaffected by the tuber moth should then be placed in a moth-proof bin.

The tubers placed in the moth-proof bin, after final sorting, should then be fumigated by means of carbon bisulphid (or bisulphid of carbon, as it is also known), in order to kill any moths which might have bred out or have slipped in through crevices or when the bin was opened. Carbon bisulphid is applied by pouring small quantities into flat vessels, such as milk pans or pie tins. An average of three pounds should be used in 1,000 cubic feet of space.

It is more effective at high temperatures, 80 to 90 degrees Fahrenheit being best. About a pint is poured into each receptacle and the pans are placed in the bins at the top.

The gas, being heavier than air, naturally penetrates the mass of potatoes, reaching those at the bottom. The bin should be tightly closed for from twenty-four to thirty-six hours, with good assurance that the germinating power of the seed is not destroyed.

The utmost care should be taken that no fire, such as that from a cigar, electric fan, stove, or even a gaslight or lamp should be brought into the vicinity. Otherwise, as the gas is very inflammable, a fire may result or a serious explosion may follow.

All potato growers should keep a careful lookout before and after fumigation. At first the fumigated seed potatoes and those in the field should be inspected daily, to detect any growth of the insect. Later, observation every other day, and finally once a week should be sufficient. If there is any indication that the tuber moth is propagating, a second fumigation with carbon bisulphid should be given.

This method of saving seed potatoes is so simple, although very effective, that the specialists fear that many potato growers will disregard it or fail to follow the instructions.
