WILSON URGED TO TAKE ACTION IN THE MATTER

Socialist Attorney Would Have Secretary of the Navy Recommend the Adoption of Bill Providing for Reimbursing Members of the Party for Property Losses They Sustained During Riots This Summer

United Press Service

WASHINGTON, D. C., Oct. 1.—Bruce Rogers, the attorney who is representing the socialists of Seattle, today urged President Wilson to direct Secretary of the Navy Daniels to recommend the adoption of the Poin-dexter bill appropriating \$4,500 to reimburse the socialists whose property was destroyed during the riots in Seattle.

Rogers said: "We do not accuse Secretary Daniels of deliberately inciting the riots, but the night riot was something fierce, and the trouble might have been stopped several hours earlier, had it not been for the speeches made by representatives of the government.

"We do not propose to stand this humiliation. We have adopted a moderate course so far, but civil wars have started from less abuse than we have suffered.

"Unless we are reimbursed, this incident will grow in importance until a civil war may result."

BOTS HARMFUL TO THE HORSES

IN THE CASE OF COLTS, THIS AILMENT MAY PROVE FATAL, SAYS THE AGRICULTURAL DEPARTMENT

(Herald Special Service)

WASHINGTON, D. C., Oct. 1.—Contrary to the prevailing opinion among farmers, the bot which infests the stomach of the horse is often harmful to both young and old animals, and may be especially disastrous to colts. The bot is the larval stage of the horse botfly. The botfly reproduces by depositing light yellow, oval eggs, which are attached by the adult female to the hair of the legs, breast and neck. The eggs hatch; then the horse licks itself and some of the small larvae are taken through the mouth into the stomach, where they attach themselves firmly to the lining.

By their parasitic tendencies a large number of bots covering the lining of the stomach damage the interior of that organ, prevent digestive action, and in some cases cause the horse to remain in such a poor condition that death may ensue. It is probable that many cases of poor condition in horses thought to be due to worms are really due to heavy infestation with bots.

A very effective treatment which will remove bots within twenty-four

to forty-eight hours is as follows: The day preceding the treatment a small amount of hay and a moderate amount of oats is given in the morning; in the evening food is withheld and a purgative given—Barbadoes aloes, 1 ounce; or raw linseed oil, 1 pint. The day of the treatment, at 6 o'clock in the morning, give 3 drams of carbon bisulphide in a gelatine capsule; at 7 o'clock repeat the dose in the same manner, and at 8 o'clock give a third and last dose, making in all 9 drams of carbon bisulphide in three gelatin capsules.

The above treatment is for the adult horse. For a yearling colt half the quantity of carbon bisulphide used for a mature horse will give the desired results.

If properly administered, the gelatin capsule reaches the stomach intact, but soon dissolves, and the carbon bisulphide rapidly evaporates, suffocating all bot larvae and other parasites with which it comes in contact, but not injuring the horse. Worms are quite often expelled as well.

SUBURBANITES BLOCK TRACKS WITH DEBRIS

Refusal of the Railroad Company to Charge a Five-Cent Fare Results in Open Warfare Between the Residents of the Suburb, Backed by Big Realty Company—Is on the Outskirts of Oakland.

United Press Service

OAKLAND, Oct. 1.—As a result of the refusal of the Southern Pacific to grant a 5-cent fare from Havenscourt depot, the residents of that suburb on the outskirts of Oakland are engaged in warfare against the railroad.

Backed by the Havens millions, the Wickham-Havens company and 400 residents of this fashionable suburban tract, Walter Liemert, leading 50 men, stopped the Southern Pacific's electric cars this morning. At the same time, the Southern Pacific strove with an equal number of men to invade the property.

The police are preventing armed warfare or any unnecessary violence.

According to residents of the suburb, the trouble is the result of the Southern Pacific's refusal to fulfill its alleged agreement to grant a 5-cent fare.

The trouble came when the first train from Melrose to Havenscourt was blocked by debris piled on the track. Residents forcibly held the train.

WAITE RECOVERS FROM EXPERIENCE

MAY LOST IN LAVA BEDS FINDS HIS WAY OUT — SMITH AND DELZELL RETURN EARLY THIS MORNING

O. L. Waite, who underwent such a strenuous experience in the lava beds Monday night, is at his room at the Washington House, recovering from his long water famine and exposure. He was brought to town last evening by Dr. Hamilton and W. T. Lee. Although Mr. Waite was in a very serious condition for a time, Dr. Hamilton believes that his patient will be in his usual health in a very short time.

W. A. Delzell and W. O. Smith, who remained to make the search for Waite, returned Wednesday morning with Mr. Cleveand. They spent all of Tuesday night in the lava beds,

and followed Mr. Waite's trail until he reached the south end of Tul-Lake, where, instead of following the trail around the lake and returning over the mountain to the Fleener homestead, took the back trail, and thus added about ten miles to his route.

His back trail was followed until the cinder cones were reached, where he changed his course and struck for the mountain near where the automobiles had been left. In his weakened condition it was impossible for him to cover this distance before dark and he was compelled to remain all night. At daylight he made his way to the road and returned to the homestead about 11 o'clock.

The searching party made four trips nearly across the lava beds. It was late in the afternoon before they had followed Mr. Waite's trail into the black lava, and knowing that no accident had happened up until that time they felt sure that he had returned to camp during the day.

CHICAGO'S HEALTH MENACED BY PRIVATE CORPORATION

United Press Service

CHICAGO, Oct. 1.—The health of the city of Chicago is somewhat jeopardized today by the threat of the Chicago Reduction company to refuse to incinerate the city's garbage.
