

ENGINEERS HAVE CAMP NEAR BEND

BIG SUPPLY OF HAY AND FEED IS PURCHASED

Residents of That Section Say This Is a Temporary Crew, Who Are Engaged in Making a Permanent Camp for Larger Crews to Follow. Believed to Be Assurance of Building Toward Klamath in Spring

Rumors that the Hill and Harriman lines are to unite in the construction of a road connecting the end of the Oregon Trunk line at Bend with the northern terminus of the Klamath part of the Klamath-Natron cut-off are apparently well founded, say residents of Bend and vicinity, as engineers have established a camp near that city.

The party is located five miles out of Bend, say reports from Northern Klamath, and it has already purchased sufficient hay to feed a number of horses all winter.

The members of this party are engaged mainly in construction work. They are building a permanent camp for a much larger crew, and it is believed that they are there merely to prepare for a much bigger force, who will carry on engineering and railroad operations in the spring.

GOVERNMENT FURNISHING LIVESTOCK TO INDIANS

KLAMATH AGENCY, Nov. 8.—Indians on the Klamath reservation are expecting 500 head of cattle from the government. These should arrive today or tomorrow.

This stock will be furnished to the more advanced Indian farmers, on long payments. The exact amount of cattle to be furnished each Indian farmer has not been announced.

In addition to the cattle expected at the agency, it is stated that 500 more head are to be sent to the Yainax sub-agency by the government. This shipment will be distributed among the farmers in that section.

The Indians have long taken an active part in furnishing the nation with beef, and nearly all know there is big money in raising cattle. On the Klamath reservation there are some who are advanced cattle men.

CRIMSON WINS FROM PRINCETON

PRINCETON, N. J., Nov. 8.—The Yellow and Black failed to get into line for the Big Six football championship this afternoon, when Harvard University defeated its team 3 to 0 in the first of the big games.

Thousands from all parts of the East attended.

PROBATING THE DINEEN ESTATE

A petition for admitting to probate the estate of the late Daniel W. Dineen of Cloverdale, California, has been filed by his widow, Elizabeth Dineen. The petition was acted upon by the county court.

The property in Klamath county consists of timber lands worth from \$38,000 to \$50,000.

McEMORE AFTER MORE LIVESTOCK

D. M. McEmore, well known for his livestock operations in this section left Saturday evening for California, to look over the cattle situation. From there he will go to Arizona and Texas, close to the Mexican border.

McEmore will purchase several thousand head of cattle while away, and these will be pastured in the Sacramento Valley this winter. In the spring they will be marketed.

In several months past McEmore has brought several thousand head of cattle to Klamath county from the south, as well as to Shasta Valley and Modoc county. A large percentage of this is beef cattle, here to pasture, but included in the lot were several hundred head of choice dairy cattle, purchased by Klamath county farmers and dairy men.

IMPORTANT CONVENTION OF THE FEDERATION OF LABOR

SEATTLE, Wash., Nov. 8.—The advance guard of what is expected to be the largest and most important gathering of labor leaders the country has ever known is assembling in Seattle today. The occasion is the thirty-third annual convention of the American Federation of Labor, which will be opened here Monday morning, with President Samuel Gompers presiding. Nearly 1,000 delegates, representing more than 2,500,000 skilled workers of the United States and Canada, are expected to be in their seats when President Gompers calls the great meeting to order. More than 125 great national and international labor organizations, consisting of

about 21,000 local unions, will be represented.

The coming meeting is fraught with deep significance toward both laboring men of the country and the great political parties. One undercurrent which may break above the surface is a proposition to form a labor party in this country. Many are clamoring for this to be done immediately. Others, and they appear to be in the majority, expressed themselves today informally, as being more inclined to hold back this year to give the Wilson administration a chance to show what it is going to do. However, the matter has advanced so far that there has been much talk of appointing a committee to confer with the socialists on the subject of a labor party. The socialists, it was understood today, would unanimously favor such a proposition, provided, of course, that it would not mean elimination of the individuality of the socialist party.

That the old fight against the so-called "ultra conservative policies" of Gompers will again materialize, and that Gompers will again be opposed for re-election by some member of the group which believes in more direct and more radical political action for unionism, was openly asserted today in the radical camp. Max Hayes, who polled 5,000 votes as a candidate for president last year against the 11,000 given to Gompers, declared today that he will not run again this year. But he intimated that when the right man is chosen to oppose Gompers he will work tooth and nail for him. The turning of one big union against Gompers, in the opinion of Hayes, will defeat the present incumbent for re-election. While the socialists who are leading the opposition to Gompers, are far from being sanguine of success as to electing their choice for president, they do believe that the matter of minor officers and representation on the executive council, their chances are good.

A hot fight, it was declared today, is looked for over the proposition to combine a number of the big international unions. The radical wing, supported by many who oppose them in other matters, will urge the amalgamation of internationals of journeymen tailors, lady garment workers, men garment workers, hatters and neckwear workers into one big international. There is a sharp division of opinion on this matter, and there is much evidence that some bitterness will develop when it is brought formally before the convention.

One matter, which no doubt will have the solid backing of all factions, will be the proposition to back up the big strikes of the coal miners in Colorado and of the Western Federation of Miners who are on strike in Calumet, Mich. Money undoubtedly will be appropriated for the immediate aid of the Calumet copper miners.

A big idea that Max Hayes will spring, according to information here today, is a proposition that the American Federation of Labor give financial aid to the 30,000 or 40,000 strikers in Dublin. The strike started with the car men some two months ago. It has spread to other trades and the fight is to the death because the employers have repeatedly refused to arbitrate. The strikers, according to Hayes, are in dire straits, as they have never received enough wages to pile up much money for such emergencies as the present. Individual unions affiliated with the American Federation of Labor have contributed generously to the Dublin strikers, but Hayes will urge a general labor fund to be raised from workers all over the United States and Canada.

RETURN KLAMATH LANDS TO STATE

The Herald has received from Governor West a copy of the bill introduced in the senate October 30th by Senator Geo. E. Chamberlain, granting to the state of Oregon a tract of over 4,000 acres of marsh land in Klamath county, claimed by the state.

The land in question lies near Lost River, near Olene. Some of this is along the course of the river. In the bill it is described as follows: SE 1/4, 28-37-10; E 1/2 and SW 1/4, 33-37-10; W 1/2, 34-37-10; S 1/2, 1-38-10; S 1/2 2-38-10; lots 3 and 4, S 1/2 of NW 1/4 and S 1/2, 3-38-10; lots 1, 2, 3 and 4, S 1/2 of N 1/2, N 1/2 of S 1/2, and S 1/2 of SE 1/2, 4-38-10; N 1/2 and SE 1/4, 10-38-10; all of 11-38-10; NE 1/4, E 1/2 of NW 1/4, NE 1/4 of SW 1/4, NW 1/4 of SE 1/4, 12-38-10; W 1/2 of NE 1/4, 14-38-10; SE 1/4 of SW 1/4, 17-37-10; lot 2, 18-38-10.

Under the Knife.

Mrs. J. M. Johnson underwent an operation at the Blackburn hospital Friday, performed by Drs. Merryman and Truax. The operation was serious, but the patient is rallying splendidly.

HIGH SCHOOL TO PLAY AT ASHLAND

The Klamath county high school football team will meet the Ashland high school at Ashland Thanksgiving Day.

This game was definitely arranged today.

Much interest is taken in this game in all the Southern Oregon high schools, for it is conceded that the team winning the contest will be the rightful claimant to the championship of Southern Oregon.

Ashland has defeated Medford, Grants Pass and other teams in that section, and Klamath county high has beaten all the teams in this county. The two teams played a scoreless game here a couple of weeks ago.

INDIANS LEAVE FOR U. S. SCHOOL

KLAMATH AGENCY, Nov. 8.—The Indians are all getting ready for winter, storing in their supplies. Frequent trips are being made by all to Klamath Falls.

Superintendent Edson Watson took Elliott Moore and Ransom Cowen to Klamath Falls in his automobile. There the boys took the train for Chemawa, Ore., where they will attend the training school the coming winter.

Many people attended Frank Silvie's funeral. The news of his sudden death was a great shock to all his friends on the reservation, as he resided here for thirty years, and was liked by all who knew him.

There was a social dance at Wilson's hall Halloween night. A large crowd attended, and all enjoyed themselves, dancing until 2 o'clock in the morning, when they went home, well satisfied. More attention to social life on the reservation would advance our Indian friends to greater self-respect and respect for others. Keep it up; entertainments, nice parties at home, social gatherings and attending churches are long strides toward attaining full citizenship.

We are glad to state that there is a blacksmith shop at Chiloloquin. It has been badly needed.

Some of our Indian prophets say the winter will be mild. We ought to believe it, for they have been here long enough to know the climate.

833,000 POTATO CROP FROM 240 ACRES

Seventeen thousand sacks of first class potatoes, sold for \$1.50 a sack; 5,000 sacks of second grade, sold for \$1.40 for spring delivery.

This was the yield this year of the Grigsby ranch, eight miles from Klamath Falls, which is being farmed by Japanese, under the management of U. Sannomiya. This is the first year the colony operated the ranch. The lot of first class potatoes were all sold to a San Francisco concern, and the price is f. o. b. cars at Klamath Falls.

Three four-horse teams and six wagons are engaged in hauling the potatoes here for shipment.

In the whole of the crop there are very few overgrown potatoes. Instead, all are of a good moderate size.

The uniformity of dimensions adds greatly to the selling value. Uniformity of size was obtained by planting the potatoes close together.

HILL TO VISIT

BEAVER STATE

PORTLAND, Nov. 7.—Arrangements have been completed for a grand demonstration of the affection of the people of Oregon for James J. Hill, the great railroad builder, who is on his way here for a visit. This will be in the form of a banquet at the Portland Commercial Club tomorrow night.

This is to be an informal affair, as the Commercial Club desires to give the other communities of the state a chance to send delegates to attend.

Hill is accompanied by his son, Louis J. Hill, and several of the leading financiers of the United States, including presidents of railroads, bank heads, etc. It is understood that the party will visit Klamath Falls. The entire state is awaiting some word from Hill that will confirm the rumor of a joint railway east of the mountains by which both Hill and Harriman will reach San Francisco.

Gerry's Brother Appointed.

C. G. Cozad, brother of Gerry Cozad of this city, has been appointed county attorney for Grant county by Governor West. Mr. Cozad has been practicing law in Grant county for many years and is considered one of the best criminal lawyers in Oregon.

County's Vote Canvassed

All the Measures Are Carried Here

Owing to the delay in receiving the returns from all the precincts, the total vote of Klamath county on the referendum measures was not officially canvassed until Saturday by County Clerk DeLap and Justices E. W. Gowen and H. Snowgoose. The totals follow:

DISTRICT.	300	301	302	303	304	305	306	307	308	309
West Klamath Falls	81	12	81	11	57	35	79	12	75	17
Second Ward	74	11	74	11	51	29	71	12	63	18

Sprague River	4	13	3	14	4	12	7	9	5	12

Total Vote of County:

State University Building Repair Fund—Yes, 750; No, 266.
University New Building Appropriation—Yes, 723; No, 291.
Sterilization Act—Yes, 539; No, 444.
County Attorney Act—Yes, 752; No, 233.
Workmen's Compensation Act—Yes, 745; No, 244.

FRAUDULENT METHODS IN SALE OF ALFALFA SEED

WASHINGTON, D. C., Nov. 10.—Recent investigations by the department of agriculture have revealed the fact that large quantities of ordinary alfalfa seed are being offered for sale under the name of Grimm. It has also been found that large quantities of alfalfa raised under irrigation are being sold as northern-grown dry-land seed.

In cases of some of this seed it was found that it was not even domestic seed, but was wholly or in part imported Turkestan seed. This practice of selling other seed for Grimm results in the farmer paying from 40 cents to \$1 or more per pound for seed which would otherwise sell from 12 to 20 cents a pound, and inasmuch as the ordinary seed is not as hardy as Grimm, the first severe winter may kill the entire crop.

The original Grimm alfalfa sown in Carver county, Minn., has undergone a natural cross with the common variety which, together with its exposure to numerous severe winters which have eliminated the weaker plants, has made it one of the hardest of our commercial strains. The seed was produced originally in Minnesota, but tests of the true variety since grown in Dakota, Montana and Idaho indicate that these lots are all of equal value and are quite as hardy as those grown in Minnesota.

As it is difficult to detect substitutes for Grimm in the seed, the farmers are urged to buy Grimm only from reliable dealers, and, as far as possible, to trace the seed back to its source. In many cases the retailers are not deliberately perpetrating a fraud, as they have purchased this seed for Grimm and sell it in the belief that it is Grimm.

This seed has become very popular in regions of cold winters, and is now used not only in the Northwest, but in the East, particularly in northern New York and New England.

Similarly it is found that in the

dary land regions where the winters are severe and there is little snow fall and comparatively little moisture the northern alfalfa seed grown in cold regions on dry land is especially useful. Much of this seed comes from Montana, and it is found that unscrupulous dealers have been taking seed raised under irrigation in that state and selling it as Montana dry-land alfalfa seed.

"SHERIFF" MORLEY SAYS HE WANTS TO TESTIFY

The following is an extract from a Los Angeles despatch in the Oregonian relating to the trial of Dr. John Grant Lyman of the Panama Land company, accused of using the mails for fraudulent purposes:

"F. W. Morley, acting sheriff of Klamath Falls, Oregon, who helped recapture Lyman after his escape from an Oakland hospital two years ago, and to whom, it is alleged, Lyman offered \$2,000 for an opportunity to escape, made a formal demand on Edward A. Regan, special prosecutor, that he be permitted to testify at once and return to Oregon to attend to urgent business.

"Regan refused, and Morley threatened to appeal to Attorney General McReynolds at Washington."

It is a well known fact here that there is anything but friendship between Morley and the sheriff's office here. Morley has acted in the capacity of a special officer during the last year, but this has always been in connection with the office of District Attorney Irwin.

"Morley has no connection at all with the sheriff's office," said Sheriff Low today. "If he has any right to style himself acting sheriff it did not come from me, and the article in the Oregonian was the first I knew of it."

Bronze hose, in which there is no rubber, canvas or leather, has been adopted by the British navy for conveying oil fuel to warships at sea.

ALL ARE BOOSTING FOR MARKET DAY

ENTHUSIASTIC MEETING HELD LAST EVENING

Committee Is Named to Meet in Conjunction With Dairymen's Association, and Arrange a Date for a Mass Meeting to Take Up the Question of a Suitable Time and Place for Holding First Market Day

Klamath Falls people are heartily in favor of Market Day.

This was proven at last night's meeting at the Chamber of Commerce when a large number assembled and waxed enthusiastic over the plan. A committee was named to carry further the work, and many plans were outlined.

Members of the committee named by Chairman Wyld are Fred Houston, I. D. Whitmore and Charles Martin, all local business men. They will meet in a short time with the directors of the Klamath County Dairymen's Association, which includes in its membership list nearly all the farmers in the Klamath Basin.

At this meeting plans will be discussed further, to learn the ideas of the farmers, and a joint committee will be named by the dairymen. The two committees will work upon the question of sites, suitable day, etc., and will submit their ideas at a mass meeting of business men and farmers to be called later.

Charles W. Sherman Sr., N. J. Chapman, E. B. Hall, R. H. Dunbar and others spoke at last night's meeting, and many helpful ideas were advanced. It was the consensus of opinion that Market Day is a feature that has been too long neglected.

NEXT TUESDAY IS APPLE DAY—EAT LOTS OF THEM

CORVALLIS, Ore., Nov. 10.—"If every person in Oregon eats one apple on Apple Day, November 18th, we shall consume twelve carloads of apples that day," said Professor C. I. Lewis, head of the horticultural department, Oregon Agricultural college, in answer to the question of how best to celebrate the day.

"And should we see that each person is supplied with one box of apples, we should have removed one-half of the Oregon crop from the market this year.

"In buying apples be sure to get the varieties that are fit to eat. Such varieties as Ben Davis and Gano are not suitable for fall use, and we should look for such as the Jonathan, Grimes Golden, Delicious, Wagener, Ortle and Spitzenberg, which are in good eating condition at this time.

"We can increase the consumption of apples in the United States only by educating the public to know the best varieties.

"In our homes let us try a new recipe for preparing the apple. There are 197 ways announced in papers and booklets for preparing and serving apples. Try one or more of these ways.

"The hotels are planning special apple menus and the restaurants should be asked to offer cooked apples in many forms. And every train that comes into Oregon on Apple Day should be supplied with fruit, thus advertising to the tourist the wonderful qualities of our apples.

"Apple Day has been celebrated in the East, and most encouraging reports come from Rochester and Buffalo. More apples were sold and consumed on that day than ever before, and a great stimulus has been given the use of apples."

ON HIS WAY TO HAWAII ISLANDS

Win McCoy, who has been in the employ of the Gordon & Baldwin Auto company the past summer, left Monday evening for San Francisco, from which port he will sail soon for Honolulu to spend the winter.

Mr. McCoy will return to Klamath county in the spring, and has been engaged by Gordon & Baldwin for next summer.
