## Official Paper of Klamath County

TWO DOLLARS PER YEAR IN ADVANCE

All communications submitted for publication in the columns of this paper will be inserted only over the name of the writer. No non de plume articles will be published.

### HEALTH TOPICS FOR WOMEN'S CLUBS

**T**HE influence of women's clubs on public health questions has been steadily increasing. Now that they have covered the field in a general way there arises a demand in women's organizations for more accurate knowledge on the important problems of public health.

Recognizing that the state board of health exists for the purpose of serving the people of its state in every way possible, the secretary of the Kansas state board of health has prepared an outline for the use of women's clubs in studying health questions. This outline, issued in a small leaflet, will prove of immense value in directing the work of the women's clubs desiring to take up this line of activity.

Under foods and drugs appears a study of foods, including their preparation and preservation, a discussion of a proper ration and selection of foods, food adulteration, the sanitation of food supplies, drug adulteration and drug addiction.

Rural sanitation, school sanitation and hygiene, the cost of preventable disease, the disposal of waste and the conditions of a pure water supply are some of the topics included in the outline. Reference to bulletins, government publications, journals and books are also included.

**NEW HAVEN, Conn., Nov. 15.—**Today's game between Princeton and Yale resulted in a tie, 3 to 3.

### Again Its Cabbage.

Glenn Fountain Saturday resigned his position with Shive & Klepper to again accept a post with the Wood-Curtis company. He took up the commission house work Monday morning.

Mrs. Lester Kirkpatrick, who has been visiting at the home of her mother, Mrs. Mary Nelson, returned Sunday night to her home in San Diego, Calif. Mrs. Kirkpatrick is a sister of Mrs. Fred Houston and Miss Ora Nelson.

Mrs. J. E. Taylor left on Saturday's train for Trinity county, California, being called there on account of the serious illness of a member of her sister's family. She will probably not return to Klamath Falls.

D. H. Lenox, one of the new proprietors of the "Shasta," is in Roseburg this week, attending to settling up his business affairs in that city. He will return to Klamath Falls the latter part of this week, making the return trip in his car.

Edwin Wilson of Klamath Agency and Miss Pearl Patterson of Chiloquin were married at the Methodist parsonage, 1019 Bush street, Saturday evening. They will live at the Agency.

Chester Lundy came in Monday from Chiloquin for a short visit in the county seat. He was accidentally shot while going duck hunting some time ago, but is now fully recovered.

### To Bar Hookworm Aliens

Steps are to be taken by the immigration service to prevent the landing at American ports of aliens afflicted with hookworm disease. Hookworm is said to be both contagious and infectious. It practically belts the world in a zone between 36 degrees north and 30 degrees south latitude.

### Back From Trip.

George J. Walton, division superintendent, and F. B. English, division accountant, for the California-Oregon Power company returned Monday from a business trip to Medford, Ashland and Yreka, in the interests of the concern.

### Remodel House.

Artisans have just completed the work of remodeling and repainting the residence of J. Kent Ballard on West Main street. It is much improved in appearance.

### The Mutual Life Has No Stockholders. The Policyholders Get All the Profits.

**Had Two Anchors When Storms Came**  
Mr. Cyrus W. Field of ocean cable fame, insured in the Mutual Life at age 24 for \$10,000, and at age 48 for \$10,000 more. The dividends added over \$20,000 more, and the \$40,000 strong paid by the company was about all that remained of Mr. Field's large fortune.

**Two Good Time Locks Saved His Cash**  
General John Newton, once president of the Panama railroad, insured in the Mutual Life at age 37 for \$10,000, and insured at age 70 for \$30,000 more. The profits were \$19,341.80. Had he taken the whole at age 37, his profits would have been over \$20,000 more.

**Every Time the Clock Ticks**  
The Mutual Life pays policy holders or their beneficiaries an average amount of \$7.01. Every day it pays \$201,872.48. Every week it pays \$1,172,413.25. This is the experience of 1912, with 302 working days of eight hours each. Almost one-fourth is dividends. "Pre-eminence in benefits to policy holders" is the watchword.

**One Billion Silver Dollars**  
Each 2-25th of an inch in thickness, piled one upon the other, will make a stack how high? How long will it take you to count this money and place in it \$1,000 stacks, at the rate of \$50 a minute and 10 hours a day? A silver dollar for the best solution. In 70 years the Mutual Life has paid \$1,066,486,154.94 to policy holders.

**A Good Way to Get Rich Quick**  
Join the Mutual Life and sign for as many thousand dollars as you can take care of, and you will get papers for that amount, secured by over \$600,000,000 of cash assets. You only pay from 1 to 4 per cent annually, and the company pays you a dividend every year, and will pay your estate or yourself the whole amount with the profits.  
F. M. PRIEST, Agent.

### THE ANTI-HUERTISTAS ARE IN DANGER

#### VILLA PLANS TO SUPPLANT CARRANZA OR LEAD OWN REVOLUTION

**Hale Still in Conference With Rebel Leader—Execution of Federals at Jaurez Displeasing to the United States, and It Is Believed That Negotiations With Constitutionalists Will Be Broken Off.**

**DOUGLAS, Ariz., Nov. 18.—**It is rumored among the rebel forces that General Villas will try to supplant Carranza in the leadership of the rebels unless Carranza starts independently to capture Mexico City, capturing Chihuahua City en route to the capital.

Carranza has lost prestige among the constitutionalists on account of his failure to secure the lifting of the embargo on arms and munitions.

**WASHINGTON, D. C., Nov. 18.—**Rumors of an impending break in negotiations between America and the constitutionalists forces are heard today. Whether or not there will be a complete break depends upon the outcome of a conference between William Bayard Hale and Carranza today.

Wilson and Bryan are greatly displeased at the execution of federals by the rebels at Jaurez. The chief reason, though, for the present status is the reported unwillingness of Carranza to outline a future course.

As far as Huerta is concerned, the situation remains unchanged.

Lind and O'Shaughnessy, wiring from Vera Cruz and Mexico City, say things are quiet on the surface. They report a strong undercurrent of antagonism toward Americans, engendered by Huertistas.

**NOGALES, Sonora, Nov. 18.—**General Carranza and Ambassador Hale refused to discuss the rumored meeting of last night, at which meeting, it is rumored, the futility of prolonging negotiations was admitted.

Hale and Eucadero are scheduled to confer late this afternoon, when a final effort will be made to agree. General Carranza will probably not attend this meeting, as the rebels at present do not seem to care whether or not the embargo against arms is removed.

The capture of Jaurez has apparently convinced them that they are in a position to win out without any addition to their supplies.

### INFANT DIES OF SERIOUS ILLMENT

Following an operation by Drs. Wright, White and Truax in the vain hope of saving it, the 7-months-old son of Mr. and Mrs. George Grizzle died Monday evening at Blackburn hospital. The funeral was held at 3 o'clock this afternoon from the Grizzle residence. Rev. J. S. Stubblefield conducted the ceremony.

The child suffered from telescoping of the bowels, and Monday evening the doctors resorted to operation as the only means of saving its life. The difficult operation was performed with success, but the intestines of the little sufferer were so badly inflamed that it could not recover.

### WILL VOTE ON CITY HALL BOND ISSUE ON MONDAY

The question of bonding the city for the erection of a city hall on the city's property on Walnut street, will be submitted to the property owners

at the special election to be held Monday. Polls will be open in all the wards from 9 a. m. to 8 p. m.

On the ballot the question to be voted on is: "Shall bonds to the amount of \$50,000 be issued for the purpose of constructing a city hall on lots 9 and 10, block 75, of Klamath Addition?"

Under the charter no person shall vote at any election for the purpose of voting upon creation of city indebtedness or the issuance of bonds unless in addition to being registered, he or she shall at the time of voting be the owner of real property or the bona fide owner of stock in a corporation owning real property within the city which is subject to taxation.

The special election is being held in response to a petition signed by many taxpayers, asking the council to take such action.

### R. A. CANTRALL IS COUNCILMAN

Roscoe A. Cantrall was Monday elected councilman by the Fifth Ward voters to fill the unexpired term of W. O. Huson, who resigned. Cantrall was the only avowed candidate.

Not much interest was taken in the election by Fifth Ward voters, as only eleven votes were cast. Of these Mr. Cantrall received eight, Fred Buessing and Bird Loosley one, and one was cast a blank.

### SUFF TO SPEAK AT HARVARD U.

**CAMBRIDGE, Nov. 18.—**For the first time in its history, Harvard University tonight opens its doors to a woman propagandist to address the student body. Miss Helen Todd of California will be the speaker, in behalf of the suffrage movement.

Mrs. Pankhurst was denied this same privilege.

### GOVERNOR WILL HEAD A LEAGUE

**HARRISBURG, Nov. 18.—**Governor John K. Tener is to be the next president of the National League of Baseball Clubs.

This was settled positively today, when he said he would accept the offer to be made tomorrow by a committee of league magnates.

Tener has long been a follower of baseball, and is interested in the league financially. He will assume at once the duties of the office vacated by Thomas J. Lynch.

### Aigrettes Taken From Hats

In spite of threats, inspectors at New York continue to snip aigrettes from the hats of women arriving from abroad. When the Kron Princessin docked, fancy feathers were taken from the hats of many, among them Mme. Dufranne, wife of the opera singer, Miss Eva Cladd of Philadelphia, and Miss Caroline White, the American singer.

### Wireless to Siberia

The first commercial message handled by wireless between America and Asia was transmitted from the United States Army Signal Corps station at Nome, Alaska, to the Russian government station at Anadyr, in Siberia. It was a Russian government message from St. Petersburg, addressed to Commander Wilkitzky, discoverer of the large body of land in the Arctic.

### Basement Storage

Parties desiring frost proof storage will do well to consult me.  
16-6t h&r W. S. SLOUGH.

### EVEN IN DAIRYING THERE ARE FRAUDS

**WASHINGTON, D. C., Nov. 18.—**The dairy industry is growing rapidly in the Northwest because of many natural advantages. The rapid development of farming in that section during recent years has resulted in the production of large quantities of feedstuffs, particularly hay. This material must be shipped long distances before it can reach a market, and the high freight rates prevents the producer from realizing any profits. This feedstuff can be converted into dairy products, however, for which the market is often close at hand.

A large per cent of the people who have taken up farms in the Northwest, however, are from cities or from other sections of the country, unused to local conditions, and ignorant of the best methods of farm management in this region. Hence they fall an easy prey to unscrupulous dealers in livestock, who sell scrub cattle for pure breeds.

The creamery promoter also has found it a good field for his labors, and has done much harm by inducing people to erect creameries in localities where there were not enough cows to operate a creamery economically.

Wherever creamery promoters have been there is a trail of dead creameries and discouraged dairymen, and it will take several years before our field men can overcome the evil effects of the creamery sharks and of the cattle traders who have unloaded inferior cows at high prices on unsuspecting farmers.

### May Disband Arkansas Guard

As a result of a report by Captain A. B. Sloan, U. S. A., militia inspector, the Arkansas National Guard may be disbanded. Acting Secretary of War Breckinridge has notified Governor Hays that the \$50,000 federal apportionment will be withheld. The guard has twenty-two companies of 1,000 enlisted men. No system of accounting for federal property has been practiced.

Claude Maxwell is the victim of a combined attack of tonsillitis and "wisdom teeth."

### MIND, NOT MATTER WINS IN FOOTBALL

**CHAMPAIGN, Ill., Nov. 19.—**Mind is a big factor in football success, and many teams are routed through superior mentality, according to Robert C. Zuppke, coach of the Illinois University football squad.

"A man's football ability is determined by a vital brain, executing the dictates of an aggressive mind," declared Zuppke. "The stronger the body the better it will act in football. There is no doubt in my mind that teams are often defeated because their opponents master them mentally. They come on the field with more vigorous and vital brains, and overpower the more sensitive and weaker minds of the men they oppose. Therefore, it is of the greatest importance to develop an aggressive mental attitude like that a fighter possesses."

"Football requires and develops courage in resisting with the mind the degenerating tendencies of pain and moral cowardice, in forcing the mind, after a mistake has been made in full view of thousands of people, into a complete recovery of all the normal faculties of self-possession."

Deputy County Clerk Virgil DeLap has gone to Medford to attend the Sox-Giant ball game and see the country. From there he will go to Ashland to visit his brother, Chester DeLap.

**The W. E. Pelly Bankrupt Stock of JEWELRY**  
Now on Sale at Frank M. Upp the Jeweler  
1847 Rogers Knives and Forks as long as they last for only \$3.75 per set.
