

There's a chance for fifty-four women to SAVE FROM \$4.00 to \$10.00

on a suit, coat or dress, provided they don't wait too long to make selections

One week ago we announced that we would close out our present entire stock of women's coats, suits and dresses at an important saving to the public. At that time we had more than one hundred garments. The selection is splendid yet, as we have fifty-four garments left and they must be sold within the next three weeks.

If in need of a coat, suit or dress, you can't afford to overlook this opportunity to buy where price has been reduced as it has been here on garments of quality.

FIERCEST BATTLE IN MEXICO IS ON HUNDREDS OF MEN KILLED ON BOTH SIDES

Correspondents Are Not Allowed to Use Telegraph Today, and All the Dispatches Sent by Couriers Are Censored at Jaurez—Federal Reinforcements Driven From Trains, and Trains Taken by Villa's Army

EL PASO, Texas, Nov. 25.—Fifteen hundred federals, with four cannon this afternoon reached Saragoza, relieving General Salazar, who retreated south, under the protection of the guns.

Five hundred rebel cavalymen appeared from the rear, and in turn they took the guns, silencing the fire and pursuing the federals.

General Rodriguez, who has been brought here for treatment, late today reported that General Salazar was killed and his division all but annihilated in this pursuit.

General Talbonts, commanding the Sonora troops, was also killed today.

EL PASO, Texas, Nov. 25.—The biggest and fiercest battle fought on Mexican soil since 1848 is now in progress. General Villa and 7,500 rebels are opposing 9,500 federal soldiers.

The battle line extends twenty miles, from Bauche on the west, in a semi-circle to Zaragoza on the east.

In the center, Tierra Blanca and General Villa have their headquarters. Blanca has the telegraph wires busy on official business, and will not allow the correspondents to file their stories.

He freely furnishes information, so the reports are sent over the border by courier. As they pass through Jaurez, these reports are all censored.

The fighting, which lulled with the coming of darkness, was resumed this morning at daylight. The federal troops were driven back beyond their trains, which were captured by the rebels.

Reports from Villa's field base indicate that the Huerta forces are retreating. The rebels are following, and harassing them.

The rebels have lost 100 men, and twice that number wounded. It is believed that the federal loss exceeds this.

WASHINGTON, D. C., Nov. 25.—Officials are watching the Tampico district, and Admiral Fletcher and Ambassador Lind have gone there to investigate.

Whether or not the marines will be sent there depends upon Lind's report.

United States troops are also watching closely the fight in Northern Mexico.

CITY MAY AID COMMERCE BODY

There is a possibility that the next tax levy for the city will carry with it a small levy for providing a fund to assist the Chamber of Commerce in its work of exploiting Klamath county to incoming settlers.

The matter was brought up by the directors of the Chamber of Com-

merce at Monday night's meeting of council, when they presented a freely signed petition, asking that the council make a donation of \$50 a month or more to carry on the work of the organization.

Talks were made by Hunter Savidge and R. A. Johnson for the directors, explaining the need of publicity at this time.

It was agreed by the council that the members will consider an additional levy for this purpose in the next assessment.

NELSON TURNED OUT ON BONDS

According to a wire on Tuesday from Attorney W. H. Shaw, who accompanied Nelson to San Francisco, Mr. Nelson was released on bail last night and his hearing set for Wednesday. Bail was reduced from \$4,000 to \$1,000, which was furnished.

Mr. Shaw states that there is nothing to the Detroit matter, and that it was only a libelous lie. He says that everything is shaping for the best, and that Nelson will be home this week free from all charges.

After a full investigation Mr. Shaw believes that Nelson is a victim of enemies in these charges which have been brought against him.

FERRIS CASE IS DISMISSED TODAY

Circuit Judge H. L. Benson Tuesday morning dismissed the charge against Frank Ferris, charged with child stealing. This was done at the request of Prosecuting Attorney Irwin.

Ferris was charged with attempting to abduct Harriet Pink, a young girl, whose fare he paid to Corning, Calif. The jury disagreed when the case was tried last summer.

WANTLAND OPEN; MILLS ADD. GLAD

Mills Addition people are to be given a more direct entry to the city, following the ruling of the railway commission in regard to extending Wantland avenue. The commission has just allowed the city to extend the street to the junction of the railroad and Sixth street.

The ruling made provides that: " * * * the right and privilege is hereby granted to the city of Klamath Falls to construct said highway across such established right of way at grade.

"Subject, however, to the right hereafter, in event any railroad tracks are constructed which will cross such highways, to require the installation and maintenance of proper signals, warning, gates or other device to warn or protect the public in the manner provided by chapter 275 of the General Laws of Oregon."

Improve Postoffice.

Postmaster Delzell has arranged for the renovating of the postoffice, and a force of men are at work kalsomining, revarnishing and otherwise improving the looks of the quarters. In addition, Mr. Delzell has taken up with the council the matter of having the alley in the rear of the postoffice so graded that mail can be delivered there from the depot, making a great saving of time.

MAY WORK ALL WINTER ON THE MODOC POINT JOB THE MAIN CANAL IS NEARLY COMPLETED

Test Borings Being Made at the Proposed Site of the Sprague River Dam—Crew of Eighty Men Is Employed by the Reclamation Service of the Indian Bureau on the Reservation Irrigation Project.

"If possible we will keep men at work all winter on the excavation and rock work," said Engineer H. W. Hincks, in charge of the work being done on the Modoc Point irrigation project by the Indian service.

Mr. Hincks is here today attending to business matters in connection with the work.

"We will endeavor to keep the ground open with plows all winter," he continued, "and if the soil does not freeze too deep, men will be kept at work all the time. There is some rock work that was left for the winter, and this will soon be started."

A force of 75 or 80 men is employed in the work on the project. This year they have practically completed the main canal of the project, besides many of the biggest laterals.

Early next year the government will commence the construction of the dam across Sprague River, by means of which the water will be diverted for the irrigation of Indian farm land.

Toward this end, tests of the rock at the dam site are being made. There was also recently established automatic gauges on Sprague River and Sican Creek, to compile data regarding the water supply, etc.

When completed, the project will irrigate 6,340 acres on the reservation.

HEALTH MATTERS UP AT MEETING

That there is real need for suitable quarters for isolating persons with contagious disease was the statement of City Health Officer L. L. Truax last night, when he asked the council to provide such a place. Dr. Truax stated that it would not be necessary to have this in an out of the way place, as it could easily be fumigated, is hard plastered, and the neighbors would be in no danger.

The matter was referred to the health committee.

Another matter the health committee will attend to is the inspection of the school children. Heretofore the pupils have been examined twice a month by the city physician, but this term Dr. Truax declared that the cut in his official salary made this impossible.

There was much discussion as to this, and the duties of the health officer, but the matter was finally left to the health committee and the members of the school board for settlement.

The Panama-Pacific Exposition fire apparatus, to be installed soon in the nearly completed fire houses, will be of the latest motor driven pattern. The personnel will be composed of trained, experienced firemen.

CITY HALL BONDS CARRIED BY VOTE OF FOUR TO ONE

FOURTH WARD THE ONLY ONE WHERE DEFEATED

Overwhelming Vote in Favor of Indebtedness for New Municipal Structure Cost by Taxpayers—Majority in Either First or Second Wards More Than Enough to Offset the Total Opposition to Bonds.

By a vote of nearly four to one, the property owners of Klamath Falls Monday went on record as in favor of issuing \$50,000 bonds for the construction of a city hall.

In the Fourth Ward alone was the issue defeated. The majority in the Second ward alone would have been sufficient to overcome the opposition. The vote by wards follows:

	For	Against
First Ward	63	2
Second Ward	110	5
Third Ward	52	27
Fourth Ward	11	30
Fifth Ward	10	5
Total	246	69

The structure is to be built on the city's property on Walnut street, between Fourth and Fifth streets. Part of the feeble objection to the issue was through dissatisfaction with the site.

The special election Monday was held in accordance with a petition submitted to the council some time ago by a number of local taxpayers. This asked speedy action, in order to make possible construction next spring.

As soon as the proper legal steps are taken the bonds, twenty years, bearing 6 per cent interest, will be offered for sale to the highest bidder.

RICHARDSON IS FEELING BETTER

Circuit Judge Henry L. Benson is in receipt of a letter from R. M. Richardson, his efficient court reporter, who left here several weeks ago for Southern California to regain his health and strength.

Mr. Richardson was threatened with a nervous collapse, and following the advice of his physicians he made arrangements to leave this section for the winter, but his recovery has been so rapid that he now wants to return and resume his duties. His physicians advise against this, and in his reply to the letter Judge Benson told Dick that it would not do for him to return, and assured him that all arrangements had been made to have his court duties placed in efficient hands.

MT LAKI PUPILS SHINE IN PLAYS

Under the direction of Miss Jessie Telford, their teacher, the pupils of Mt. Laki school gave a very enjoyable entertainment. Two plays, some recitations and songs, and an exhibition of calisthenics formed the program, which was followed by cake, cocoa and sociability.

The two plays were the "Street Musicians," given by the very little folks,

and "Editha's Burglar," by the older children.

All the exercises showed careful training on the part of the teacher and all the children showed close attention and enthusiasm in the way they carried their parts.

The proceeds are to be used in buying library books for the school.

HEAR YE! HEAR YE!

A Session of Ye Deestrick Skewl, presided over by T. S. Griffith, will be held in the Mt. Laki church at 8 o'clock Saturday evening.

All pupils will be provided with a free lunch. The whole session is open at all times to inspection—in fact, visitors are welcomed.

LAIRD O' SKIBO LIKES THE EARTH

NEW YORK, Nov. 25.—Andrew Carnegie is today celebrating his 72d birthday. He received many visitors at his Fifth avenue mansion.

"If you can show me a man who will give me an option on his life he can name his own price, and I'll gladly pay it," said the steel king. "This earth is such a heaven that I don't want to leave it."

PETTUS CASE IS FIRST ON LIST

In preparation for the opening of the December term of the circuit court, the grand jury from the last term will go into session tomorrow to consider matters criminal until they are discharged Saturday night. The new grand jury will be drawn Monday morning.

The first two days of the term will be devoted to naturalization matters and the trial of Robbert Pettus.

Pettus is charged with the larceny of horses from the Walker ranch in Barnes Valley.

Following these, the court will take up civil suits until the following Monday.

ELECTRICAL MEN ON A BIG STRIKE

SCHNECTADY, N. Y., Nov. 25.—Ten thousand electrical workers in the employ of the General Electric company this morning struck. They marched out with no disorders.

The shops were immediately closed down.

As a result 19,500 men are out of work.

At a mass meeting this afternoon it was stated that the walkout has the sanction of the American Federation of Labor.

The work of transplanting trees from the nurseries to the Panama-Pacific International Exposition has been commenced. The first to be planted were some acacias, pines and cypress, which were put in the large grassy park on the esplanade of the Marina, abreast of the Palace of Mines and Metallurgy. The work of transplanting will be prosecuted actively.

The state of New York has appropriated \$700,000 for its building at the Panama-Pacific International Exposition.

SCARLET FEVER SCAGE AT SHIPPINGTON

Two cases of scarlet fever in the family has resulted in the quarantining of the family of Captain John Parker at Shippington. As the children attended school until the quarantine was started, there is some consternation among the parents of the school children.

But among the men employed in the Pelican Bay mill, the Long Lake plant, the box factory and other industries at Shippington, the consternation is still worse. The Parkers conduct a laundry at Shippington, and they had the clothes of the men all ironed and ready for delivery when the health officer placed them behind a red flag.

At Monday night's meeting of council, R. A. Cantrall, the new member from the Fifth ward, asked the health officer if these clothes could be fumigated and sent to the owners.

"Before they can be sent out the clothes must be washed in an anti-septic solution," said Dr. Truax.

It was decided last night that no guard would be placed over the Parker home, as Parker had promised the councilmen that he would see that his family remained at home. The wants of the family will be attended to by the city, through Councilman Cantrall.

It's a Boy.

Paul Lucas, one of the proprietors of the People's Market, is wearing a broad smile this afternoon, all on account of the arrival of a big boy at the Lucas home Tuesday afternoon.

An Announcement

I desire to announce that I have purchased the W. E. Pelley Bankrupt Stock of Jewelry at 40 cts. on the dollar.

This was one of the finest stocks of Jewelry ever brought to Klamath Falls. In fact, it was of such a high quality that it did not sell readily. It consisted of a complete line of Jewelry in both Solid Gold and Filled, Silver Flat Ware, both solid and plated, handsome Tea Sets, Smoking Sets and Toilet Sets in Silver, Cut Glass and China, both Hand Painted and Haviland, and Clocks.

Because of the low price at which I purchased this stock I am putting it on sale at about one-half of the regular retail price. It will be your opportunity to get the finest of Christmas gifts. Remember \$1 will do the work of \$2 at this sale.

Frank M. Upp
