

SPUD MARKET FOR KLAMATH IN SAN JOSE, CAL.

SEVERAL CARLOADS WANTED AT ONCE

In Letter to Southern Pacific Agent, Commission Firm There Says It Will Pay \$1 per 100 pounds, F. O. B., San Jose, for Potatoes, Loaded in Bulk—Tubers Will Be Sacked and Weighed at Destination.

Several carloads of northern potatoes are desired at once by J. C. Young & Co., of San Jose, according to a letter received from that concern by Agent S. J. Bailey of the Southern Pacific.

In the letter the concern states that it contemplates a business that will make it an all-year-round market for potatoes. They say they can use several carloads of first class potatoes at once, and asks Bailey to put them in communication with potato owners here.

The tubers are to be first class, and to be loaded in bulk in the cars, according to the merchants. They will be sacked and weighed at the S. P. yards in San Jose, and the shippers will receive \$1 per hundred pounds, f. o. b., San Jose.

DENVER FOLKS TO TANGO IN STREETS

BANDS AND ORCHESTRAS GALORE WILL BE HIRED TO RENDER RAGTIME AIRS FOR THE DANCE DEVOTEES

United Press Service DENVER, Jan. 21.—An old fashioned "Stockmen's Masquerade Ball" will be tonight's feature of the National Stock Show celebration in progress here this week.

Under the auspices of the Denver Press Club, arrangements have been made for the dancing to take place not only in the city auditorium, but to extend for four blocks along Champa street, downtown.

There will be music on every street corner from Fourteenth to Eighteenth streets, so that those desiring to tango or turkey trot in the open may do so. It is expected that several thousand persons will participate in the ball.

Down From the Marsh.

John Knott, a well known resident of Northern Klamath, is down from Beaver Marsh, giving attention to business matters. He will return home Friday, making the trip north from Kirk on snowshoes.

A well constructed brick house will outlast one of granite.

COMMITTEES ARE NAMED FOR YEAR

REPRESENTATIVE MEN CHOSEN TO TAKE CARE OF THE DIFFERENT FEATURES OF THE WORK FOR THE YEAR

The following committees to carry on the work of the Klamath Chamber of Commerce were named Tuesday night by George J. Walton, president of the body:

Finance—Leslie Rogers, Charles Graves and Fred Garich.

Membership—W. T. Lee, R. E. Smith, S. B. Evans and Fred Houston.

Manufactories—Hunter Savidge, J. F. Maguire, A. A. Bellman and C. J. Martin.

Immigration—Chas. F. De Lap, D. E. Campbell and W. A. Delzell.

Transportation—S. J. Bailey, J. H. Darling and C. F. Stone.

Advertisement, Exhibit and Entertainments—S. B. Evans, E. B. Hall, V. A. Delzell and R. C. Klepper.

Public Improvement and Irrigation—J. W. Siemens, R. H. Dunbar and Leslie Rogers.

Would Be Administratrix.

A petition for appointment as administratrix of the estate of Prentiss S. Puckett has been filed with the county court by his widow, Puckett, who resided near Keno, died in 1911. There are twelve children, and the estate is valued at \$700.

L. A. Davidson, proprietor of the Central Barbershop, is confined to his rooms with an aggravating attack of bronchitis.

HUERTA WILL NOT TAKE THE FIELD

DICTATOR IS FORCED TO STAY IN CAPITAL BY THE MEMBERS OF HIS CABINET, FOR A TIME, AT LEAST

United Press Service MEXICO CITY, Jan. 21.—That Huerta has abandoned, temporarily at least, his plan to take the field, and in person lead his troops against the rebels, was stated officially today.

This change in program was made upon the insistence of his cabinet. It did not please the dictator, it is understood.

Argravas Visits.

E. G. Argravas, who formerly conducted the Cottage Studio here, came in Tuesday night from Grants Pass, where he has been attending to business matters. Mr. Argravas has property interests here.

To Worden.

Tom Grubb, who has been employed at Hurn's Hardware store, is taking a vacation. He left this morning with his family for Worden on a visit.

UNKNOWN MILLIONAIRE PLANS TO ERECT TWENTY INSTITUTIONS AS MEANS OF COMBATTING CANCERS

NAME OF MAN TO MAKE THIS REQUEST IS WITHHELD FROM PUBLIC

Each of the institutions, it is understood, is to be provided with five grams of Radium, worth about \$2,000,000—Officials of the Bureau of Mines Say Donor Is Neither Carnegie Nor Rockefeller.

WASHINGTON, D. C., Jan. 21.—President J. M. Flannery of the American Chemical company today told the house committee on mines and mining that an "aged millionaire" is planning on building twenty hospitals for the treatment of cancer by radium.

These hospitals are to cost \$15,000,000. They will be for the free treatment of the public.

Each institution, he said, would be provided with five grams of radium. Members of the committee, after some hinting, openly asked Flannery who the "aged millionaire" is. He refused to disclose his identity, but intimated it was neither Rockefeller nor Carnegie.

SPORTSMEN WILL ATTEND LECTURE

CALL HAS BEEN ISSUED BY ASSOCIATION—HODGE'S TALKS ARE ATTRACTING MUCH ATTENTION EVERY PLACE

Members of the Klamath Sportsmen's Association will turn out in full force this evening to attend the lecture, "Protection of Game—Oregon's Problem," to be given at Houston's opera house by Dr. Clifford F. Hodge of the University extension department. A call has been issued by the president and directors for attendance at this time.

Dr. Hodge's lecture last evening was attended by a large audience, and for an hour, the speaker held all in close attention, as he told of the appalling toll of life in the United States annually through causes that with a little study and attention could have been warded off, and the victims spared to the community. His civic biological views were vivid, and he urged Klamath Falls to take steps at this time, and thus be properly insured against preventable disease, etc., as the city grows.

This forenoon and this afternoon Dr. Hodge addressed the pupils of the grammar schools and high school, using his illustrated slides in telling of the value of birds, etc., to the community, and the danger from the housefly. This afternoon he addressed the Central school pupils on "Alcoholism," using slides again.

These lectures are free of charge, and the public is invited.

DR. HODGE DINED BY THE STUDENTS

UNIVERSITY LECTURER IS LOUD IN HIS PRAISES OF KLAMATH GIRLS' CULINARY ACCOMPLISHMENTS

At noon Wednesday Dr. Hodge and the high school faculty were guests of the Domestic Science class at a buffet luncheon served in the Domestic Science rooms.

About twenty-five sampled the culinary efforts of the young ladies of the class, and every one had warm words of praise for the delicious viands and perfect service.

Dr. Hodge was especially profuse in complimentary remarks, and begged a cookie to take with him as a souvenir of a spread so entirely satisfying.

An almanac printed in Newport, R. I., in 1781, sold for \$525 in Boston the other day.

CITY POLITICS BEGIN TO DRAW SOME ATTENTION

ONE COUNCILMAN TO BE ELECTED THIS TIME

Under the New Charter, Five Will Constitute the Board, and These Will Be the Men Elected Last Year Except in the Fifth Ward—Many Are Being Brought Forward for Mayorality Candidates.

Following the regular city election on the first Monday in May, five councilmen with the mayor will constitute the governing board of the city of Klamath Falls, instead of ten, as at the present time. On the first Monday in June the five following councilmen will retire from office, and no successors will be elected to take their place: J. F. Goeller, First ward; W. C. Townsend, Second ward; C. H. Underwood, Third ward; Herbert J. Savidge, Fourth ward; M. R. Doty, Fifth ward. The councilmen who will remain in office are: Leslie Rogers, O. D. Matthews, John H. Hamilton and Ben S. Owens. A successor to R. E. Cantrall will have to be elected as he was named at a special election to fill a vacancy.

Officers for the city to be elected on the first Monday in May are: Mayor, police judge and city treasurer.

Around the office of mayor, who is to be elected for two years, is centered the greatest interest on the part of the voters.

While no candidates for this office have yet made definite announcement, it is understood that there will be quite a large list for the voters to select from.

Mayor Nicholas will probably be a candidate for re-election. There have been some criticisms of the mayor by those who would like to have seen greater activity in development and street improvements, but all concede that there has been much good accomplished by the city during the past two years.

For instance, the city now has a charter under which it can sell bonds, and that is something which it has not had for several years before the present administration. The city is now on a cash basis, and its warrants are accepted for their face value anywhere, which is a condition that has not been known as far back as the memory of the majority of the present voters can recall.

Another name whom a majority of the business men have been mentioning for mayor is that of D. B. Campbell. It is claimed by these that Campbell would be just the man for the place at this time, if he could be persuaded to accept.

The name of W. C. Townsend is also being mentioned seriously by those who have been watching the councilman during the past year. It is urged that as a member of the street committee he has done good work, and has always been on the job.

Colonel M. G. Wilkins has many friends who have been talking his candidacy. The Colonel has served several times on the city council in the past, and is well known throughout the city. C. B. Crisler is another man being talked of. It is argued that his financial condition is such that he would not have to depend for a living on the small salary allowed by the city. Undoubtedly there would be many very desirable candidates for the office if the salary was sufficient to justify a man giving up his regular employment.

Among other names heard for the office of mayor are: H. J. Savidge, R. A. Emmitt, C. K. Brandenburg, Chas. F. DeLap, C. H. Underwood and Marlon Hanks.

BILL HAYWARD HERE FRIDAY

FAMOUS TRAINER AND DISCOVERER OF ATHLETES WILL ADDRESS THE HIGH SCHOOL STUDENTS—HAS MOVIES, TOO

High school athletes and others in the city are looking forward to the visit of "Bill" Hayward, physical director of the University of Oregon, who is to address the high school students Friday afternoon. His topic is "Physical Training and Personal Hygiene," which is illustrated with lantern slides and motion pictures of athletic events.

Hayward was one of the men delegated to condition the American Olympic team in 1912, which won a sweeping victory from all the nations of the world. He has many flattering offers from big universities in the East and abroad, but prefers to stay at Oregon.

Two of the members of the American Olympic team, Walter McClure and Martin Hawkins, were University of Oregon athletes, trained from raw material by Hayward. Dan Kelly, who has equaled the world's record for the 100-yard dash, and was in the American team at the 1908 Olympic, was also "discovered" and trained by Hayward, as were many other great track men.

SLIGHT DAMAGE IS DONE TO AUTOMOBILES HOUSED IN THE KLAMATH FALLS AUTO COMPANY'S SHOP

As a result of snow on the roof, the roof of the Klamath Falls Auto and Machine company's garage, on Main near Esplanade, collapsed Wednesday afternoon. The structure is a frame building.

None of the cars were damaged to any extent.

Sues on Account.

Suit to recover \$505.32, alleged to be due for lumber, has been commenced in the circuit court by A. D. Slack, a Klamath county sawmill man against E. Meacham. Fred H. Mills is attorney for the lumberman.

Mrs. Carey M. Ramsby has been confined to her home for several days past by illness.

Urge Dairying Unity

California Man Points Out Wonderful Results

"The future of Klamath county as a dairying country depends entirely on the dairymen themselves," said R. M. Osborne, a prominent dairymen of Newman, Calif.

"But they will have to change their ways to accomplish the desired results. The cows should be better housed, for one thing, and a change in feeding methods should be made. Potatoes, sugar beets and carrots can be produced in abundance here, and no better feed for dairy cattle can be had than potatoes, carrots and sugar beets ground up and mixed with hay.

"The dairymen should be more in harmony than they are at present. They should work absolutely in unity as one concern.

"I think it would be very beneficial for the dairying interests here if they would send some reliable man to Newman and let him see just how we manage down there. "The first National bank of Newman is one of the

solid banking concerns of California, and every dollar of the bank stock is owned by the dairymen of Newman.

"We began with fifty-four dairymen banding together and working in harmony. Now we have an organization that is a power in the community, the result of absolute unity of purpose.

"Klamath county can be made one of the banner counties of the West in the dairying business if the thing is properly managed."

Mr. Osborne and son, R. C. Osborne, will leave tomorrow for California, but will return to Klamath Falls next week. They have a ranch near Merrill, where they have many head of dairy cattle, and on which they will establish a model dairy.

They will be associated with M. W. Silva, who, besides owning a big dairy near Merrill, has extensive dairying interests near Newman.

City Amazes Visitor

William Young Predicts 50,000 Population Here

"Of all the towns in Oregon I have visited, and I have been in a great number, you have the very best here. When Bob Alexander went home to Michigan for a visit, the stories he told of Klamath Falls caused the people there to put him down as a prevaricator of the first water, but after the stop here, I see that he don't put things half strong enough."

This is the way William Young of Fowlerville, Mich., spoke of Klamath Falls before leaving this morning. Mr. Young, though 88 years of age, is still engaged in contracting work. His grandfather, he says, was burned to death when he was 112 years old,

or he would have lived a decade longer. Mr. Young has been visiting his old chum, Bob Alexander, and he says that such a persistent booster as the ever-genial Bob can't do Klamath Falls justice. He stated that he expected to see a town of 400 or 500 people, with only frame buildings, and he declares the White Pelican is the equal of any hotel to be found in the Middle West.

"If I was twenty years younger, I'd locate in Klamath Falls and go into business," said Mr. Young. "I believe this is destined to be a city of 50,000 inhabitants, and I would advise any young man to locate here."

The annual meeting of the Klamath County Bar Association will be held Saturday evening in the court house. At this time a corps of officers will be chosen for the coming year, and matters of importance to the association will be discussed.

Following the meeting, a banquet will be indulged in. Secretary Joseph S. Kent is in charge of the arrangements.

Metal shavings and cuttings are now pressed into brick form and made use of in iron smelting.
