OBITUARY

FORT KLAMATH, April 13.—In memory of Daniel Gray, who died on April 4th, in this place, it must be said that Jackson and Klamath counties lost an honorable pioneer.

Mr. Gray was nearly 72 years of age. He crossed the plains with his father from Missouri when 9 years of age.

He made Rogue River Valley his home for years, where he followed the trade of blacksmith. In this county our subject has lived for the past twenty years in Dairy and Fort Klamath. He leaves two brothers in Wood River Valley, George and John, and five grown sons and daughters, one daughter, Mrs. C. C. Pierson, residing at Dairy, and another, Mrs. Booth, at Grants Pass.

Gen. Wotherspoon New Chief of Staff

General William W. Wotherspoon is to be the new chief of staff of the United States army. He will take office April 22d, when General Leonard Wood's term expires.

LETTERS FROM THE PEOPLE

Editor Herald:

I was reading in your paper for Thursday last that Robert Pettus, who has been in jail for some time awaiting the action of the grand jury, charged with stealing two horses, was brought before the prosecuting attorney and by him ordered released after he had promised to leave the state, never to return.

After reading that the following questions bobbed up in my mind: If the prosecuting attorney believed Pettus guilty, why did he turn him loose?

If not, then why did he banish him from the state?

What do we keep court and grand juries for if the district attorney can take cases out of their hands and dispose of them as he sees fit?

Why do we maintain legislatures to frame laws, if these laws can be set aside by prosecuting attorneys?

I have no doubt that many more of your readers are pondering over some such questions after reading that piece of news, and I hope the prosecuting attorney will enlighten us all by answering those questions and stating authority for his action.

JOHN AUSTAD.

NOISY ON TRAIN; ARREST FOLLOWS

LAKE COUNTY HOMESTEADERS DRINK AND CAROUSE ON WAY TO PORTLAND, AND ARE SENT TO THE ROCK PILE

PORTLAND, April 13.—Four homesteaders from Lake county were given five days on the rock pile Saturday by Municipal Judge Stevenson for being disorderly on a Spokane, Portland & Seattle train. The men are Lester Withrow, Royal Jud, Elmer Due and Jay Dick.

The men boarded the train at Bend intoxicated. On the train the conductor complained, the men drank liquor, talked loudly and used profane language. This conduct was kept up until they arrived in Portland, when local officers took charge of them. They denied being disorderly.

GOTHAM GUNMEN ARE ELECTROCUTED

(Continued from page 1)

Immediate personal charge of the case saved this man and his memory of the car number to the prosecution. It was this slender thread of evidence from which Whitman traced the real slayers, and built up his case.

It was subsequently learned that Becker received word of the shooting from Jack Rose, Becker's stool pigeon, by phone, and that the police lieutenant immediately rushed from his apartments uptown to reassure the men who had engineered the shooting. It was also learned that Becker, in an automobile, had passed the Metropole a few minutes before Rosenthal was killed.

Up to the very last "Dago Frank," "Gyp the Blood," "Lefty Louie" and "Whitey Lewis" asserted their innocence. Becker was tried before they were. They were confident Becker would not be convicted.

When he was, however, they did not lose hope. Following their conviction before Justice Goff, who presided also at Becker's trial, they appealed, but the state supreme court sustained the verdict. It also sustained the verdict against Becker. Then came the appeal to the appellate court.

Even when that tribunal unanimously confirmed the verdict against them they kept their nerve, and issued statements tending to show their innocence and why they should get a new trial.

Milady's New Spring Walking Suit

Fashion has decreed this jacket to be within six inches of a natural stride. Of course, this makes walking more difficult, and thereby causes more exercise. But the maker of it calls it an "ideal walking suit."

New Volcanic Island Is Still Unchristened

United Press Service
 TOKIO, April 13.—The baby island of the Bouin group, which came into existence following the eruption of Sakurajima, has not yet been christened. As the island appeared during the coronation year of the present emperor, there were many suggestions that it be given his name, Taisho.

It has been found, though, that the new island now occupies the exact position of a similar island which appeared several years ago and has since disappeared, so official circles have de-

cidated that it would be better to wait until it shows some signs of permanence.

It is considered that it would be very inauspicious for an island bearing the emperor's name to sink into the sea.

The island covers several square miles, and appears to be composed of lava and sulphur. Though an official expedition has reported on its appearance, no one has landed on it owing to the fact that it is still hot and subject to frequent earthquakes.

Million Lost in Labor Strikes in Great Britain

United Press Service
 LONDON, April 13.—Eighty-seven million dollars in wages have been lost by the workmen of the United Kingdom in the past ten years on account of stoppages due to industrial disputes of all kinds, according to statistics prepared from the government board of trade returns, supplemented by details furnished by union leaders in the principal trades.

But against this figure is placed a net gain in wages as the result of

such disputes of \$13,600,000. Also, it is estimated that the laboring class as a whole has secured advances in wages in the same period aggregating \$75,000,000, but the greater portion of these have been obtained through the medium of working agreements and conciliation.

Fifty per cent of the strikes of the past ten years have been won by the employers, 25 per cent by the workers, and the other 25 per cent has been compromised.

That said L. D. Ward did on or close to the 1st day of May, 1913, take up and at all times since then kept in his possession the above described estray; and that he has used all reasonable effort to ascertain and find the owner of the same, and taken all legal steps required by the laws of the State of Oregon in reference to estrays;

Now, therefore, to said unknown owner, and to any and all persons who may be interested therein, you are hereby notified that at the ranch known as the Mason ranch, about 1 1/2 miles southeast of Miller Hill school house, in said county and state, on the

4th day of May, 1914, at the hour of 10 o'clock a. m. of said day, when the said estray will be exposed and offered for sale as by law directed; and the proceeds of said sale will be applied for the payment of all damages, costs and expenses legally incurred; and the excess, if any, will be retained by E. W. Gowen, justice of the peace, or his successor in office, for the period of six months. And if said sum of money so held shall not be called for in said time, the same will be deposited as by statute in such cases made and provided.

Dated April 13, 1914.

ONLY HALF THE VOTERS BOOKED

REGISTRATION FOR THE PRIMARIES AND GENERAL ELECTION IS SMALLER THAN IT WAS LAST ELECTION

Although the county has an estimated voting strength of between four and five thousand, nearly 50 per cent of this number have yet to register. This means that they are not eligible to ballot at the primaries next month unless they haste to the county clerk's office.

Registration to date is 2,150. In 1913 the total registration was 2,641, and at that time the women were not eligible to vote.

The registration to date is divided as follows by precincts:

TWO OUT FOR JOB IN FIFTH

COUNCILMAN DOTY AND H. J. LOCKWOOD WILL BE CANDIDATES FOR ONE YEAR TERM AS COUNCILMAN

In addition to voting on mayor, city recorder and city treasurer, the electors of the Fifth ward will also choose a councilman, who will fill the unexpired term of W. O. Huson. Huson resigned, and the charter provides that his successor shall be chosen only until the next election.

M. R. Doty, whose term as senior councilman from the Fifth, expires at this time, has his petitions ready to run again. He will be opposed by H. J. Lockwood, a well known Shippington resident.

A number of the players who expect to make the baseball team had a nice workout at Modoc Park Sunday afternoon. In fact, the practice game was so enthusiastic that it was decided to meet again this evening at 6 o'clock for another spell. During the game Bill Hurn stopped a hot grounder with his leg, causing a very painful bruise.

A DAIRY farmer who does not use a cream separator is losing up to \$15 per cow per year. Complete your dairy equipment by the purchase of an International Harvester cream separator—Lily, Bluebell or Dairymaid. These separators skim closely—leaving barely a drop of cream in a gallon of milk—and they will do it for years.

These machines are furnished with pallets for the use of power. Belted to a small I H C engine, you have the best outfit it is possible for you to buy. Note the low supply can on I H C separators, the height of the milk spout which allows a 10-gallon can to be used for the skim milk, the strong frame with open base which can be kept perfectly clean, and the dozen other features which make these I H C machines the best.

Your local dealer should have one of these machines on sale. If he has not, write us before you buy and we will tell you where you can see one; also send you an interesting book on separators.
