Hill Arranges for Steamship Terminals

(Herald Special Service)
 PORTLAND, April 27.—That Flavel, on the Columbia River, between Astoria and the ocean, will be the terminus of the steamship line which will be put into operation shortly after the first of next year, was announced by Louis W. Hill when in Portland a few days ago.

While not going into details, Mr. Hill intimated that the plans for the docks are practically ready, and that the structures will be of mammoth

size and that the railroad yards in connection with the docks will accommodate not less than 1,000 cars.

The site selected by the Hill system is three miles west of Astoria. The tract has a frontage of 3,800 feet on the Columbia River, and is considered to be one of the most valuable pieces of property under the ownership of the Hill system.

The docks are expected to be completed and ready for the steamers now being built for the Hill lines at the Cramp yard in Philadelphia.

Segregation Bill Causes Big Stir in the National Capital

Aswell's Measure Brings to Light Figures on the Number of Colored People Who Are Employed in Various Capacities by the Government

By BURTON K. STANDISH
 (Written for the United Press)

WASHINGTON, D. C., April 27.—The race problem, even in these days of the vexing Mexican question and the free trade muddle, is one that is taking its fair share of the capital spot light. The appointment by President Wilson of Robert H. Terrell, a negro, to judge of the District municipal court, which Southern senators are opposing, served to accentuate the stir in congress over the bill introduced in the house by Representative Aswell of Louisiana, providing for the segregation of white and black governmental clerks under the civil service.

There are today 22,540 negroes in the employ of the United States government, who draw down a total of \$12,456,760 a year. Of these negroes, 4,426 are in the army; 1,529 are in the navy, and 2,149 are in the various navy yards and stations. Of the rest, 8,347, with an annual payroll of \$4,099,116, are employed in Washington, and the remainder work in government buildings throughout the United States. Twenty-seven negroes are employed in the White House, 26 in the state department, 926 in the treasury, 170 in the war department, 174 in the navy department, 87 in the postoffice department, 593 in the interior department, 43 in the department of justice, 164 in the department of agriculture, 239 in the government printing office, 41 in the interstate commerce commission, 115 in the senate office building, 46 in the congressional library, 171 in the Washington postoffice, 2,413 in the District of Columbia local government.

In the department service outside of Washington 16 negroes are employed in the diplomatic and consular service, 1,982 in the treasury branches, 2,342 in the war department, 3,599 in the postoffice department, 31 in the interior department, 192 in the department of agriculture and 775 miscellaneous.

There are 635 negroes employed by the government in New York, 670 in Chicago, 195 in St. Louis, from 40 to 90 in the other large cities of the country, and 14,139 in miscellaneous towns.

The appointment by the president of Terrell to be a municipal judge promises to bring on as warm a little fight as the senate has seen in some time. Senators John Sharp Williams and James K. Vardaman of Mississippi, Hoke Smith of Georgia and Ellison of South Carolina have boasted that the senate will never confirm Terrell. All of the Southern senators will support them.

Speaking for his segregation bill in committee, Representative Aswell explained that its object was to make it unnecessary for white government employes, especially women, to work under or alongside of negroes in the

departments, Aswell said: "The Almighty by the stamp of color decreed that the Caucasian race should occupy positions of authority and control the destinies of the country. Fear of losing the negro vote in the doubtful states and personal desire for office through his vote, which are the real causes of existing conditions, are usually covered by the pretense of justice.

"If we would be just to each race we would recognize the eternal fitness of things in this government as did Jefferson and Lincoln. We would know that this is a white man's country, whose future is to be controlled by the Caucasian race.

"It is unjust to a member of this inferior race to put him in position of authority over the Caucasian. By inheritance he is misfit when in positions of authority, even over his own race.

"Every informed and right-thinking white man, while sympathizing with and anxious to help the negro in his place, recognizes the necessity of preserving the integrity and the supremacy of the white race. No nation ever destroyed itself except by

amalgamating with an inferior race. "Are we blindly drifting that way? The United States is peculiarly commissioned to lead all other nations, not only in the purity of race quality, but in world problems of just and wise government.

"The purpose of this bill is to check a bad tendency in this country before it is too late, and cause thinking people everywhere to find themselves in relation to the race problem, and thus deal fairly and give justice to both races.

Anti-Mormons Hold Big Demonstration

NEW YORK, April 27.—Speakers who have promised sensational revelations of the alleged continued practice of plural wives among the Mormons of that country, and especially of those of Utah, are to address the anti-Mormon demonstration planned for tonight at Carnegie hall.

An attack is to be made by several speakers on Joseph F. Smith, head of the Mormon church, and alleged proofs of activities against the United States government itself were promised today.

As a part of tonight's program State Senator Cannon of Utah, who was once an elder in the Mormon church, will read what he says is a portion of the Mormon ritual, as follows:

"You and each of you do covenant and promise that you will pray and never cease to pray Almighty God to avenge the blood of the prophets upon this nation, and that you will teach the same to your children and to your children's children unto the third and fourth generation."

LATIN AMERICA HOPEFUL OF PEACE

 ceptance of the mediation offer means that he is seeking peace. They do not say, though, what this hope is based on.

Wilson demands in his offer that Huerta retire as president, and that the constitutional form of government be restored. If this is done, and a full apology made by Huerta, America will withdraw.

The mediators admit that their task will be Herculean.

The mediation matter was taken up with the United States Saturday afternoon by representatives of Brazil, Argentina and Chile. The other South American nations have since given their support.

LOCAL MOVIES ARE DEVELOPED TODAY

SCENES ALONG THE RIVER WILL BE SHOWN AT PICTURE HOUSE JUST AS SOON AS THEY CAN BE MADE READY

This afternoon the Miller Photo company developed nearly a hundred feet of film of motion pictures taken on the Klamath River. As soon as a transparency, or positive, is made from the developed negative, the pictures will be shown at one of Houston's play houses.

To develop the pictures the film is wound around a large drum; the drum is lowered, so the lowest side is submerged in the proper solution, and is slowly turned.

After developing a negative a new film is placed with it, and the two run through the machine again, which process prints the transparency.
