

MAN WANTED HERE JAILED IN WYO.

Sheriff C. C. Low this morning received a telegram from Sheridan, Wyo., announcing the arrest of John K. Simmons, wanted in Klamath Falls on charge of desertion and failure to support his wife.

Several days ago the Wyoming authorities wired that they had Simmons located, and Sheriff Low has been awaiting a telegram, preparatory to starting East.

SEVEN PERISH AND MANY INJURED IN TENEMENT FIRE

NEW YORK, June 10.—Five persons were burned to death, and two more were killed by jumping from the fire escapes, while many more were seriously injured during a fire which occurred in a tenement house at No. 90 Essex street, in the East Side, where New York's population is densest.

Four women, two men and a child are dead, two women, two children and four men are in Governor's Hospital, some of whom are fatally injured.

One woman was found at a fifth floor window with a child in her arms, both burned to death.

Celia Shapiro, living on the first floor, gave the alarm. In two minutes the fire escapes on the building, which was a simple tenement, were blocked with the panic-stricken inmates.

Another is the prospective fight over arbitration. Senator Norris says he will fight for the incorporation of a clause providing for arbitration.

MEMBER OF RURAL CREDIT COMMISSION TO TALK

A farm institute of unusual interest is to be held in Klamath county during the week beginning June 22, according to announcement just made by County Agricultural Agent M. A. McCall.

Meetings will be held at Merrill, Malin, Mt. Laki, Klamath Falls and elsewhere. The dates, etc., are to be given out later.

One of the speakers who will be here is Dr. Hectog McPherson. Dr. McPherson was a member of the American Commission named last year to tour Europe and make a study of rural conditions and credit organizations.

Rural economic problems will be taken up by Dr. McPherson while here. He has had special training in this, as well as other lines touching upon the welfare of the American farmer.

Who the other members of the party will be has not been announced as yet. The institutes are given under the direction of the Oregon Agricultural College and the bureau of plant industry of the United States department of agriculture.

WAGON WHEEL INJURES BOY

Elmer Watts, a 14-year-old Langel Valley boy, is in a critical condition today as the result of a runaway on Wednesday. The horses were hitched to a heavy two-wheeled cart, with a water tank on it.

One of the wheels passed over the boy's head and stomach.

In From Ranch. Chas. Horton and son, Lawrence, motored in on Tuesday from the Horton ranch in Yonna Valley, to attend to business matters in the county seat.

IMPERIAL VALLEY IN DIRE DANGER

EL CENTRO, Calif., June 11.—The collapse of the Volcano Lake levee under the present flood of the Colorado threatens scores of bridges in the Imperial Valley country.

The gigantic flume over New River, supplying hundreds of ranches with water for irrigation, is also imperiled. Should this go out the damage would be great indeed, as it would mean no harvest for hundreds of families under the project.

SALVATION ARMY HOLDS BIG MEETING

LONDON, June 11.—"Onward, Christian Soldiers!" will be sung by 10,000 voices at the Royal Albert hall tonight, when General Bramwell formally welcomes the delegates to the decennial international congress of the Salvation Army.

Since the congress of ten years ago, held in London, the banner of "blood and fire" has penetrated to the uttermost corners of the world. Thirty-four different languages are spoken and fifty-eight countries represented among the 2,100 foreign delegates sent to the present congress.

All have brought their own distinctive flags, and many are attired in their quaint and picturesque native costumes.

It was planned that a special service would be held either before or during tonight's opening meeting, as a tribute to the memory of the Canadian delegates who went down to their deaths on the ill-fated Empress of Ireland, on which they were coming here.

All grades of civilization and society have been drawn upon, from the red Indians of British Columbia and reformed drunkards of New York to educated Japanese and cultured Koreans, from former sun worshippers and devil dancers to officials of the British government, from converted murderers and coniaekers to authors, actors and university professors.

The largest contingent, some 3,000, comes from the British Isles. The United States is next with 600 delegates, in addition to four brass bands and a large party of friends and sympathizers, who came over on the Olympic in charge of Commander Eva Booth.

Among other countries represented with the number of delegates from each, are: Holland 254, Germany 175, Denmark 150, Sweden 100, Italy and Switzerland 75, France and Belgium 60, Australia 60, New Zealand 56, India and Ceylon 53, Norway 50, Finland 40, South Africa 26, Japan 17, Korea 11 and South America 10.

The regular daily meetings of the congress, which will continue for two weeks, will be held, beginning tomorrow afternoon, in a huge iron and steel structure erected for the purpose on "Aldwich Island" in the Strand, holding 5,000 persons.

This site was leased to General Booth by the London County Council on condition that the building was to be constructed, used and demolished within the space of three months. A little more than six weeks was required to build it.

A unique feature of the congress will be a battery of telephones on the stage, manned by a corps of expert interpreters, for the transmission of the speeches and proceedings to the various groups of non-English speaking delegates distributed throughout the hall.

Sectional meetings will also be held in outlying districts of London. In all more than 100 meetings are scheduled, forty of which will be conducted personally by General or Mrs. Booth.

Trades for Locomobile

Harry E. Anglin is expected in this evening from San Francisco, where he has been attending to matters connected with the construction of the new court house. While in Frisco Harry traded his Glide car for a slightly used second-hand Locomobile, a 1914 model roadster. Judging from the tone of his letters regarding the trade, Harry is much pleased with the exchange.

More than 220 conventions, at which more than 500,000 accredited delegates are expected to assemble, will meet at San Francisco during the Panama-Pacific exposition in 1915.

Suffragette in Hands of the Police

When Mrs. Pankhurst made her attack with some scores of suffragettes on Buckingham Palace the other day, a lot of Englishmen, including royalty within and some hundreds of policemen, were very much frightened. Mrs. Pankhurst had announced that at a certain hour she would present a petition to the king.

She just wanted to excite the public, and in that she succeeded. Some 2,000 policemen were sent to the palace grounds and outside. Some 15,000 spectators gathered around to see the fun.

PERKINS' RESIGNATION DEMANDED BY BULLMOOSE

NEW YORK, June 11.—Ames Pinchot, a member of the state and county central committees, has published a 4,000 word letter, in which he demands that George Perkins, the chairman of the party's national executive committee, withdraw absolutely from the direction of the party's affairs "for the good of the party."

The letter has been sent to Perkins, Colonel Roosevelt, Senator Dixon and other leaders of the party. As yet, Perkins has not replied.

"A situation exists within the progressive party which must be terminated before the party can command popular support," says the letter in beginning.

"The situation I refer to is the element in our party leadership headed by Perkins, which favors protection of private monopoly in American industry, and which, since the party's organization, has been taking active steps to commit the party to that policy."

Pinchot charges Perkins with attempting to prevent the 1912 convention from endorsing the Sherman anti-trust law, adding that when the resolution was voted and the convention affirmed such an endorsement, it was strangely stricken out of the version of the platform furnished the press.

"I do not say that Perkins had anything to do with this expurgation," says the Pinchot letter, "but I do say that if it had not been for Perkins' fight against the Sherman act, the party would never have been led into a false, indefensible position."

Margaret, the 3-year-old daughter of Mr. and Mrs. J. O. Hamaker of Bonanza, received a badly lacerated right hand Wednesday, while playing near an electrically driven pump. The fingers will be saved.

A few women tried to run through the police lines, and they pretended they were fighting to get in to the palace. They made a great outcry and attracted a lot of attention, because they had staged their display well.

The woman in the picture was being led from the scene by three policemen. She caught hold of a lamp post, pretending to try to break loose from the grasp of three strong bodies. Of course, she didn't break loose, but was carried off to jail.

OREGON SUFFRAGE GATHERING TODAY

SALEM, Ore., June 11.—Hundreds of suffragists from all parts of the state gathered today in the little church here in which the first suffrage association in this state was organized. The meeting today was in the nature of a memorial in which progress was reviewed and plans for continued activity were touched upon.

Late this afternoon the suffragists planned to go to Canton, where a banquet was to be held in a hotel, followed by entertainment provided by a committee of Canton workers for the "cause."

WARD LINER ANTILLA HAS REACHED TAMPICO

WASHINGTON, D. C., June 11.—Secretary of Navy Daniels has just been officially advised that the Antilla has arrived at Tampico. He said he has as yet received no information regarding the discharging of the cargo of arms and ammunition which the vessel carried consigned to the constitutionalist forces, but he indicated that there would be no interference.

Diplomats were shocked at the sailing of the Ward Line steamship Antilla from Brooklyn with 3,000,000 rounds of ammunition for the constitutionalists recently. The vessel was loaded with arms bought by the Carranza government from the Remington Arms company, who made little secret about it.

The ship cleared for Tampico, the port now in possession of the constitutionalists. It was reported that Secretary of State Bryan made some objection to the sailing of the vessel, but no orders were received by the customs collector to prevent him from giving the ship her papers.

The German vessels Ypiranga and Bavaria, which unloaded many rounds of ammunition for General Huerta at Puerto Mexico several days ago, were fined heavily by the American authorities at Vera Cruz on the ground that clearance papers had been falsified in violation of Mexican law.

Such shipments from the United States, however, are said to be barred by an agreement which was reported to have been made between the A-B-C mediators and the state department to the effect that no arms would be shipped from the United States to Mexico during the time the mediators were trying to effect a settlement of the Mexican difficulties.

After an extended conference of the mediators this afternoon, it was learned that they have decided to treat the matter of representation of the constitutionalists at the conference as a closed incident. The mediators requested a conference with the American representatives at 5:30 this evening.

BANDON SWEPT BY A BIG BLAZE

BANDON, June 11.—Fire, originating in a restaurant, wiped out a large part of the town today. Fifteen buildings were destroyed, and the property loss is estimated at \$200,000.

BENSON MAY YET BE NOMINATED

PORTLAND, June 11.—Henry L. Benson of Klamath Falls has apparently won the nomination for justice of the supreme court over Charles McNary by seven votes. Benson's nomination is claimed because of a mistake of twenty votes made in Precinct 78 of Multnomah county.

The Multnomah county abstract sheet gave McNary 54 votes. The precinct tally sheet gives him only 34 votes, and as he previously led by 13 votes, this throws McNary seven votes behind Benson.

H. E. Wood, an expert accountant employed by Benson, found the discrepancy. The entire vote of Multnomah county will be checked over.

SALEM, June 11.—Justice McNary today said he would ask a recount of the ballots cast in Multnomah county. He will probably ask to have the abstract of votes rechecked in each county.

McNary said he would put this up as a friendly proposition to Judge Benson, now in the lead by seven votes. He said that if Benson desires he would agree to a recount of the ballots in any other county also.

BETTER OUTLOOK

Business improvement continues throughout the country—slow, but sure. Failures are decreasing, both as regards the volume and the amount. One of the healthiest businesses shown is in lumber, despite the local talk of stagnation.

Once again the failure record for the United States discloses progressive improvement, commercial defaults during May, as reported to R. G. Dun & Co., making the best exhibit of the year, from a numerical standpoint, and also showing some contraction as compared with the corresponding period of 1913. Thus there were 1,221 business reverses last month, as against 1,336 in April, 1,416 in March, 1,595 in February and 1,857 in January, while in May a year ago 1,246 concerns were forced to suspend.

All of the decrease from 1913 was confined to the trading class, in which the losses numbered 833 in comparison with 888; manufacturing class insolvencies, on the other hand, were slightly larger—322 against 318—and among agents, brokers and firms of a similar character there were no less than 66 failures, or 21 more than a year ago.

Chief significance attaches to the number of suspensions rather than to the aggregate liabilities, and it is gratifying that in the former connection the mercantile death rate is diminishing, especially since new enterprises are constantly being launched.

Separation of the business mortality record, according to occupation, shows that the 322 manufacturing suspensions involved the sum of \$10,340,189, as compared with \$7,839,778 for the 313 defaults a year ago. Six of the 15 different branches of business into which the statement is divided is disclosed a smaller number of failures than in May, 1913, while in one, namely woollens, etc., there was no change. The best exhibit was made by the group embracing lumber, carpenters and coopers.

An international fleet of more than 200 vessels, including representative types of battleships from the navies of all the great maritime nations, will gather at Hampton Roads in January, 1915, and proceed upon a cruise through the Panama canal to San Francisco harbor, reaching their destination early in March, 1915, and shortly after the formal opening of the Panama-Pacific exposition.

A wire from Natero states that the rebels surround 600 federals on the outskirts of Zatecas. The battle was still raging when the courier left with the message.

FRESNILLO, June 11.—General Villa has established field headquarters here, and is repairing the railroads south.

A wire from Natero states that the rebels surround 600 federals on the outskirts of Zatecas. The battle was still raging when the courier left with the message.

MILK CLARIFIER AT LOCAL DAIRY

The latest innovation to be added to the equipment of Straw's dairy is a centrifugal milk clarifier, just installed by the Baldwin Hardware company.

This machine establishes a new high standard for quality in commercial milk, as it thoroughly cleanses the milk of all foreign matter, whether it be in the milk as it comes from the cow, or gets in the milk afterwards. It can be seen in operation at the dairy, and has a capacity of 1,000 gallons of milk per hour.

Though the clarifying process is brought about through centrifugal action, the machine just installed at the Straw Dairy does not separate the butter fat from the milk. This is only one of many special machines installed by the Straws.

YOUNG ROOSEVELT IS NOW BENEDICT

MADRID, June 11.—A brilliant gathering, comprising the elite of Spanish officialdom and aristocracy, together with practically all the members of the diplomatic corps and their ladies, witnessed the marriage today of Miss Belle Wyatt Willard, daughter of Joseph E. Willard, American ambassador to Spain, and Kermit Roosevelt, son of Colonel Theodore Roosevelt, ex-president of the United States. The bridegroom's father came over from New York to attend the wedding.

The ceremony, which took place at noon in the British embassy chapel, was performed by the Rev. Dr. Watson, rector of the American church in Paris, assisted by the Rev. Herbert Brown, chaplain of the British Embassy in Madrid.

The bride was attended by her sister, Miss Elizabeth Willard, as maid of honor.

Following a brief honeymoon on the continent, the young couple will leave for Brazil to establish their future home at San Paulo, where Kermit Roosevelt is engaged in the railroad business.

Message of Thanks

We have passed through many dark clouds in the thirteen years of our married life, and we have been assured of sincere friendship in these times of trial, but never have we had such sympathy, friendship and devotion showered upon us as during the last two days, while bearing the affliction of the death of our darling boy and brother, Brooks Dale. And we take this feeble means of expressing our thanks to the people of Klamath county for all this kindness.

Elder S. D. Harlan, Wife, and Son, Harold.

Alaska Suits Local Boys

A letter received this morning by Miss Louise Sargent from her brother Frank, who is now in Juneau, Alaska, states that Juneau is a busy burg, and thoroughly up to date. Frank is employed in the construction of a five-story concrete building, and his friend and traveling companion, Mike Lavenik, is employed in one of the big mills. Others, however, were not so fortunate in securing positions, as Frank states that hundreds of idle men are in Juneau waiting for the government surveyors to decide on the location of the railroad and its terminal.

PORTLAND, June 11.—An impressive "Human Rosebud" parade in which more than 5,000 little boys and girls from all the public schools of Portland appeared in costumes, historical, allegorical and mythological, and gave human stories in dances and intricate evolutions, was held here today in connection with the Rose Festival.

Maypole dances and military drills were negotiated by the many divisions of children.

Under the auspices of the Aero Club of America, a number of the leading air pilots of the United States ascended in huge balloons here this afternoon in a struggle of endurance. The gas bag remaining aloft the longest continuous period will receive a cash prize of \$3,000.

Called to California. Mrs. Louis H. Bath leaves in the morning for Salinas, Calif., in response to a telegram stating that her sister is seriously ill.

Accurate information about the Klamath Basin. See Chilcote, 635 Main.
