

ASSASSINATION MAY LEAD TO WAR

AUSTRIAN ARCH DUKE IS KILLED; BELIEVED THAT EMPEROR WILL DIE; GIGANTIC MURDER PLOT IS FEARED

ANGRY SERBIAN AND AUSTRIAN MOBS ARE CLASHING FREQUENTLY

While Many Authorities Believe That This Will Lead to a War That Will Change Some Boundaries, British International Lawyer Says the Killing of the Heir-Apparent Ends Much Danger.

United Press Service

VIENNA, June 29.—The assassinations of Arch Duke Franz Ferdinand, heir to the Austrian throne, and his morganatic wife, the Duchess of Hohenberg, at Serajevo Sunday by Gavrilo Princip, may change the map of Europe.

It is also feared that aged Emperor Franz Josef will succumb to the shock of the tragedy.

Serajevo has been placed under martial law, and troops are being sent there to prevent Austro-Serbian riots. Scores have been arrested. Princip, who is also under arrest, says there are no others involved.

Careworn and feeble, the emperor arrived this morning from his summer palace at Ischl. The populace gave him a tremendous, though respectful, demonstration. It is feared that the hot weather and the shock will be too much for the emperor.

The two victims of the assassin were returning from the town hall, when Princip fired a volley into their auto. After the arch duke was shot his wife raised his body in her arms, and prayed and wept, although she was mortally wounded.

As soon as he died she knelt to pray, and died before the auto reached a physician.

"Sophie, you must live for the sake of the children, were his dying words. Black flags are hung from all of the buildings here. It is understood that the funerals will be held on July 10th.

Several scores, including many women have been placed under arrest. The authorities assert that they have conclusive evidence that this is an organized plot on the part of the Servians.

United Press Service

SERAJEVO, June 29.—There is much rioting by Austrian mobs this afternoon, and scores of Servian

shops and dwellings have been wrecked. It is reported that several Servians have been killed.

The police and soldiers have made charges in several quarters, but these are ineffective, and the fury of the mob is increasing.

It is feared that there will be a slaughter when the bodies of the arch duke and wife are removed from the army hospital.

United Press Service

WASHINGTON, D. C., June 29.—President Wilson sent the following to Franz Josef:

"I am deeply shocked by the atrocious murder of his imperial highness, the arch duke and consort at an assassin's hands. I extend the sincerest condolences of the government and people of America."

United Press Service

LONDON, June 29.—Sir Thomas Barclay, England's foremost law expert, and originator of the Anglo-Franco Entente Cordiale, says:

"The passing of Ferdinand greatly betters the prospects of peace in Europe. It seems pitiless to say, but every prospect of war danger in Central Europe has been lessened by his assassination. The arch duke was embittered and bigoted."

WAR ON KILLING USEFUL BIRDIES

EMINENT ORNITHOLOGIST POINTS OUT THE ENORMOUS TOLL EXACTED BY INSECTS THESE BIRDS PREY UPON

(Herald Special Service)

WASHINGTON, D. C., June 29.—Dr. W. T. Hornaday, one of the leading naturalists of the world, and an eminent authority on bird and animal life, head of New York's famous zoological park, is conducting a nationwide propaganda against the slaughter of useful birds.

"The American people," he says, "must awake to a realizing sense of certain facts that seriously affect the cost of living. The 5,000,000 men and boys who are slaughtering our birds are levying tribute on every American pocketbook."

He says the codling moth and the

Two Men Highly Considered for Provisional Presidency of Mexico

GENERAL FELIPE ANGELES. LUIS C. CARRANZA.

General Felipe Angeles and Luis Carranza are being considered by the mediators at Niagara Falls, by President Wilson and by General Pancho Villa for the provisional presidency of Mexico, should Huerta step out.

General Angeles' name has been more in the news within the last few days, and dispatches from Washington say that President Wilson would be satisfied with him. Many rumors and reports have come from Mexico, some of them to the effect that Villa has already announced that General Angeles has been recognized by him as provisional president. The general was removed several days ago from the position of acting secretary of war by Carranza.

Carranza, it seems, ordered him to proceed to Saltillo, which would have required him to side with him against Villa in the differences believed to exist between them.

General Angeles is perhaps the best soldier in Mexico. He has been with Villa for some time, directing the action of the artillery, especially in the battles the rebel chief has won. But he knows war scientifically, and Villa does not. His army tactics have been read by soldiers all over the world and are considered authoritative.

Carranza is one of the Carranza junta in Washington, and was recently named by the "Supreme Chief," as

Carranza is called, as a delegate to the peace conference at Niagara Falls. The fact that Carranza would not agree to an armistice with the federals has made it impossible for the mediators to receive him. He was a lawyer in Mexico City, with a large practice, but he gave up this to join the revolutionists, and has probably sacrificed a fortune. He is said to be an able and vigorous man, who would govern Mexico without the blood-thirsty methods employed by Huerta. Of course, since both men are constitutionalists, Huerta will hardly agree to accept them, nor will Carranza, who himself has an ambition to become president.

FAST HORSES AT THE TRACK

"RAMBLING SOME" WILL BE CORRECT, WHEN TRACK EVENTS START AT THE COMING RODEO MEET

In addition to bad horses, there are also fast horses at the Rodeo grounds now, awaiting the saddle races to be held in connection with the bucking, bulldogging and other sports. The largest string thus far is that of Liskey Brothers of Swan Lake.

They brought in twelve horses for track events, among them being the "Tango Kid," "Hazel Hoxie," "The Mighty" and "Jumping Johnny." Besides these, they have eight horses for chariot and relay races.

William Shook of Dairy has his famous sprinter, "Dick Rusher," all ready. Mr. Hawthorne has "Tulare Chief," "Little Jim," and Judge Drake's fast filly, "Yankee Girl."

"Wade Hampton," well known at

all races here, has been brought in by C. Snelling of Yainax. In addition he has the Indian stallion "Climax" and "Squaw Flat," a fast brown mare.

Louis Gerber's fleet chestnut filly "Gorgo" will also make an appearance. In addition there will be other fast horses from Fort Klamath and other locations.

Nina Catches Two.

The New Testament contains a write-up of a dinner party, at which multitudes feasted, where the entree consisted of two small fishes. Mrs. Noel of the Marshall House did not attempt a similar feat with the two small trout Miss Nina Noel caught at Spring Creek Sunday. Miss Noel, Harry Anglin and Harry Kirk spent most of the day trying for trout, but the two little ones Miss Nina caught represented the day's effort.

Wooden spoons are almost the only kind used by the peasant class of Russia, which forms 77 per cent of the entire population.

The United States supports 221,433 churches. Likewise, 450,000 saloons—more than all the churches, hospitals, colleges and high schools combined.

CUT THE WEEDS BEFORE RODEO

APPEARANCE OF THE CITY CAN BE IMPROVED 100 PER CENT BY THIS ONE THING—AGAINST THE LAW TO LET 'EM STAND

Rodeo hatbands, Rodeo handkerchiefs and other wild and woolly advertising stunts are great to whoop up interest in the big show the last of this week, and the way the good people of the town are investing in this sort of frontier finery today shows that they all want to boost a local thing.

There's another way that a big boost can be made here, and that is by cutting the weeds which may have been allowed to grow alongside the walks and curbs. Cutting these will not only aid immensely to the opinion visitors will have of the town, but will also reduce the fire danger.

Regarding this, the city has the following ordinance:

"It shall be unlawful for any owner, agent or occupant of land bordering on a street which has been improved by the construction of sidewalks, to allow weeds to grow in and around such sidewalks, and it is hereby made the duty of such agent, owner or occupant to cut such weeds at the direction of the chief of police. The weeds shall be removed from a space extending from the property line of the street to the curb line of the same."

The penalty provided is a fine ranging from \$5 to \$100, or imprisonment of from two to fifty days.

CHURCHES PLAN UNION PICNIC

ARRANGEMENTS BEING MADE TO CHARTER A SPECIAL TRAIN TO RUN TO CHILOQUIN LATER IN JULY

A union Sunday school excursion and picnic is the latest plan to be talked by the churches of the city. Already arrangements for this are being made.

It is the intention of those in charge to charter a special train to run to Chiloquin on a Sunday toward the middle of July. The whole day will be spent there.

A one-way fare for the round trip, it is believed, will be secured for the outing.

EXTRA ROOMS IN CITY ARE BEING PLACED ON LIST

ALL WITH ROOMS ARE ASKED TO NOTIFY

Crowd This Year Will Be at Least 2,000 Larger Than Last Year, and the demand for Rooms Will Therefore Be Greater—Telephone Has Been Installed at Rodeo Headquarters to Facilitate Work.

The listing of rooms for the accommodations of visitors during the Rodeo began this morning at the Rodeo headquarters. A register has been opened and a capable man placed in charge. An effort will be made to make a canvass of as much of the city as possible, but every resident of the city who can accommodate one or more persons in their home, are requested not to wait until called upon, but to telephone headquarters. The telephone number is 145.

There will be close to two thousand more people in Klamath Falls this Fourth than last, and this will mean that every home that can possibly accommodate a visitor will have to do so, or a good many people will be compelled to sleep in the streets. Rooms with address and price can be listed by calling up 145, and if they should be filled later, the headquarters should be so notified, so that the rooms can be cancelled on the register.

Art Club Meets.

This evening the Art Club meets in the Library Club rooms. C. P. Stewart will show stereopticon views of the famous paintings and sculpture of Rome and Florence.

Down From Roseburg. H. W. Oliver, a piano tuner, is here from Roseburg to spend the summer in Klamath County. He may decide to locate here permanently.

Guests From Medford.

Mrs. Chas. Murray and little daughter are visiting Mrs. Anna O'Farrell, Mrs. Murray's sister.

P. E. Schwabe, in charge of the German immigration work connected with the Oregon state immigration commission, has been inspecting the Oregon coast country in company with prospective colonists, who are seeking locations on low-priced logged-off or burned-over land.

Find Corpse in Cabin

Man Who Left Arnold, Has Been Wandering Wild

That William Britenbach has been wandering, demented, through the forests and hills for about three months, was the fact established today, when C. A. Arnold, his former employer, Coroner Whitlock and Sheriff C. C. Low motored to the John Sparks timber claim to take charge of the body of a man found there Sunday by two men. The body was in a deserted cabin.

Arnold at once recognized the corpse as the remains of Britenbach, who was employed in his wood camp, and who disappeared from there last March, after leaving a note to Arnold, stating that he was going away to die, and not to look for him. A search has been made for the man at

different times, but he could not be found.

According to Whitlock, Britenbach has been dead about a week. From this it is believed that he has been wandering alone in the hills since he disappeared, finally dying from starvation and exhaustion. Arnold believes that Britenbach made trips to the wood camp since he left, to get provisions.

In the pockets of the dead man the officials found a charge of dynamite. What he intended to use this for is a mystery.

At the time Arnold found that Britenbach had disappeared, he had gone out to the camp to bring him to town and have him examined as to his sanity. He had been acting queerly at that time.

Baby Drowned in Lake

Little Italian Boy Falls From Back of Launch

Reaching over the side of his father's launch to trail his tiny hands in the waters of Upper Klamath Lake, Paul Ferrarie, aged 2 years and 4 months, the son of Mr. and Mrs. Joe Ferrarie, fell into the water and was drowned last night. The lake is being dragged for the body.

Accompanied by his little son and a small daughter, Ferrarie was motoring on the lake Sunday evening. He states that several times he re-proved the boy for wanting to play in the water.

While on the way home Ferrarie's launch ran alongside that of another Italian employed at Shippington, and

the two men were talking and not giving their entire attention to the children. The occupant of the other boat looked back in time to see the little fellow tumble into the water, about 100 feet offshore, between the Long Lake and Pelican City plants.

Becoming excited, the father of the little fellow ran his launch into shore and let his daughter get out before he went back for the boy. By that time he had gone down for the last time.

The man in the other launch tried to reach the little boy before it was too late, but before his boat could be brought around the child had gone to a watery grave.

curculio apple pests costs us about \$8,250,000 a year for spraying operations, and \$12,000,000 a year in shrinkage of value in the apple crop. The chinch bug wheat pests sometimes costs us \$20,000,000 a year. The cotton boll weevil costs the cotton planters \$20,000,000 a year. The tree insect pests costs the nation \$100,000,000 a year, while the grasshoppers, cut worms, army worms, wire worms, leaf hoppers, and other insects cost the nation annually more millions than can be counted separately.

Dr. Hornaday urges with all his great ability, backed by thousands of enthusiastic followers, the enactment of legislation that will put a stop to the ruthless killing of robins, blackbirds, doves, the bobwhite quail and insect-eating shore birds.

For the first time since loganberry culture has become a fixed industry in the Willamette Valley, the fruit is being shipped to the East in large quantities. During the season at least twenty-five carloads will be shipped to Chicago, St. Louis, Lincoln, Neb., Kansas City and Denver.

A count of the annual rings of a California redwood tree indicated that it began its career in 550 A. D.
