Caption: Ten Year Local Option Tax for watershed purchase, clean water

Question: Shall ACDWSD levy \$0.40 per \$1,000 assessed value annually for ten years starting 2021-22 for watershed purchase? This measure may cause property taxes to increase by more than three percent.

Summary: This measure authorizes Arch Cape Domestic Water Supply District ("ACDWSD") to levy a property tax in the amount of \$0.40 per \$1,000 of taxable assessed value annually for ten years starting fiscal year 2021-22. The taxes would partially fund the purchase of the ACDWSD watershed, if federal grant funds are received to pay the majority of the cost.

ACDWSD water is from Shark and Asbury Creeks. Intensive timber harvest has created extensive creek water turbidity and sedimentation, threatening water safety and requiring extensive filtration. Purchase of the land would allow reduction of turbidity and sedimentation. The land purchase would also provide sustainable timber harvest, threatened species protection and recreation opportunities.

The estimated amount collected from the levy in 2021-22 would be \$57,930, increasing annually by 3% for the ensuing 9 years.

The estimated tax cost for this measure is an ESTIMATE ONLY based on the best information available from the county assessor at the time of estimate and may reflect the impact of early payment discounts, compression and the collection rate.
