

Business Notes

RELIABLE AUTO REPAIR

Rob Richards says his world will not change a great deal, but his working conditions will be greatly improved as he expands and remodels his garage. He will have room for some specialized working areas, room for more than two vehicles at a time

and a hydraulic hoist.

There will also be an aesthetic improvement as the roof line changes direction to face Bridge Street and the exterior is sided with vertical cedar board and batten. This will be capped with a new sign perpendicular to the front wall.

Reliable Auto Repair is acquiring a new profile and greater service capacity.

Greases for all reasons.

Chevron says "Yes" with a full lineup of greases. For most automotive and industrial use there's Chevron's Polyurea EP Grease and Chevron's Moly Grease. For mining, construction, marine and general industrial use, there's Chevron's Ultra-Duty Grease. Chevron's Heavy Duty Grease is the multi-purpose grease for all heavy-duty automotive equipment. Use Poly EM Grease for food machinery. And, when low and high temperatures are encountered, Chevron's Avi-Motive Grease is for you.

For the best greases that help you do your job best, just call us.

And smile. We can help you with your lubrication problem.

Because Chevron offers a complete line of quality Industrial and Automotive Lubricants.

Chevron says "Yes."

SENTRY

A new sign proclaims the transition of Vernonia Market Place to Sentry Market.

VERNONIA MARKET — SENTRY MARKET

Vernonia Market became Sentry Market once more on April 22, in response to customer requests in a suggestion box at the store. Complaints, according to Chuck Hendryx, included inadequate advertising, poor selection and the absence of coupon incentives.

"Going with Sentry at this time," Hendryx said, "will provide a 6-8 page color ad insert each week featuring significant values throughout the store."

Sentry offers a Saver Shield incentive program yielding discounts up to \$1 on some items.

Many of the plans for the "new" market have not been

implemented yet. Some departments, such as meat and deli will be greatly expanded offering greater variety including seafoods. The

store will be completely redecorated on the interior and scanners will be installed to increase check stand efficiency.

Ana's Unique Boutique 1/4 mile north of Apiary Junction on Nehalem Highway includes ceramics handpainted by daughter Stephanie.

Vernonia Muzzle Loaders encampment in Anderson Park observe the Grand Opening of Buckskin's Trading Post on April 26.
