

## Annual SWCD meeting and picnic will be on Saturday

Directors of the Columbia Soil & Water Conservation District and members will host the Annual Meeting at Camp Wilkerson Park (near Vernonia) on Sunday, August 25, 1996, at 1 p.m.

The District Outstanding Cooperator for 1995-1996,

Chuck Barker of St. Helens, will be presented with a commemorative plaque that acknowledges his efforts toward good farming practices. Representatives from USDA Natural resources Conservation Service and the NW Oregon Resource and Conservation

Development agency will also be attending.

The public is welcome to attend the proceedings - a steak and chicken BBQ will be provided. Those planning on attending are asked to bring a salad, condiment or

dessert dish. Beverages and picnic items will also be provided by the District. Information on Annual Meeting activities and directions to Camp Wilkerson Park, can be supplied by calling the District office at (503) 397-4555, weekdays.

## WOEC looks at new BPA contract

From page 1

Hess said that one contract provision still was not clear... What would happen if WOEC was forced into "voluntary retail wheeling"?

It appeared, Hess explained, that if WOEC allowed a customer who was using under 10 megawatts to purchase power from a source other than BPA, without being forced to do so by law, WOEC might have to pay BPA for lost revenue.

Board Chairman Robert VanNatta said the attorney

had checked the contract; also that the COOP's power supply consultant and the power supply subcommittee indicate that it is a "reasonable approach".

The WOEC staff has been directed to recalculate their financial projections using the new wholesale power rate, Director Bernie Bird said, and to report to the board in October. Only after those projections were made, he said, could any statements be made about the effect of the contract on WOEC's retail rates.
