## WOEC February meeting changed

From page 1

Approximately 170 "Turtle" meters will be installed at Fishhawk Lake next month.

Hursch also reported on the windstorms of December 14 and 27. He stated that the December 27th storm caused the most members out of service for the longest time in the five years he has worked for WOEC. Outages started at 4:00 a.m. Friday, December 27, and everyone was back on line by midnight Saturday. He said that WOEC crews worked

around the clock along with three contract crews and did "an excellent job in restoring service to our customers."

General Manager Russell Green reported that Bonneville Power Administration miscalculated line loss for the Mist transmission line. The estimated benefit to WOEC should be approximately 75,000 kilowatt-hours annually.

The Board rescheduled its regular February meeting to Monday, Feb. 17, due to a conflict with a statewide meeting.
