

Helping Hands helped out, now planning starts for next project

Helping Hands began in 1996 with an idea by Vernonian Ron Welch. He and his wife, Sandy, organized a group of volunteers to help a local family clean up and fix up their home. The group has been lending their helping hands

ever since then.

This year's Helping Hands project was to work on the house of Catalina Aguilar and

her boys. 48 people turned out on April 28, to work on Aguilar's house. Water damaged ceilings were replaced, a bathroom floor was replaced down to the beams, the house was painted inside and out, landscaping was done, and appliances were replaced.

Helping Hands sends out a special thanks to all who volun-

teered time, money and other donations for this project.

The group is now accepting donations of money, building materials, paint and volunteers to work on the next project. Contact Lisa Edgar (at Creatures) at 503-429-7387 if you want to be involved in Helping Hands.

The three pictures, above, are from the Helping Hands project on April 28.
