

## Food for Thought

### Frosting

1/2 lb cream cheese  
8 T butter  
2 tsp vanilla extract  
3 cups powdered sugar

Toss all dry ingredients (flour, sugar, baking soda, cinnamon, nutmeg, cloves, ginger, salt, and brown sugar) in the bowl of your stand mixer or a large mixing bowl. With a whisk, stir the dry ingredients thor-

oughly until you have a uniform mixture. Preheat oven to 350°F. Spray and lightly coat a 9" square pan with flour. Set the pan aside while you make the cake batter.

Add the butter and buttermilk to the flour mixture. Beat to incorporate with the paddle attachment of your stand mixer (or with a hand-held mixer if you're using a regular mixing bowl). Add the eggs to the batter. Beat for a minute or two to combine the eggs and whip some air into the batter. Pour the batter out into your prepared pan. Bake for 50-55 minutes, until a toothpick comes out clean when inserted in the middle of the cake.

Set the cake aside to cool completely in the pan. Make the frosting. Put the powdered sugar in a sieve over a bowl and shake gently to sift. When your butter and cream cheese are at room temperature, put them in the bowl of your mixer. Add the vanilla. Beat to combine well. Add the sugar in batches to the butter and cream cheese mixture. When the frosting is done, it should hold up in soft peaks. Frost the cake and enjoy. Serves 8.
