## Murphy's offers free drawings for seniors

During these current economic times giving has become more difficult and free fun events are few and far between. Murphy's Furniture staff is working on positive promotions that won't break the bank.

Their latest idea is Weekly Lucky Numbers for seniors to win a Murphy's gift certificate.

There is no purchase necessary. The game is strictly for fun. The numbers are currently distributed through local senior

centers and retirement centers during Bingo, Bunco or lunch. The Lucky Number must match the weekly Lucky Number posted at Murphy's Furniture. Numbers are changed weekly and can't be divulged over the phone. Participants must visit Murphy's to check their number. Lucky Numbers don't expire so players can collect and hold onto them. If any other organizations have Senior oriented events and would like to be

included in the Lucky Number Distribution, feel free to contact Murphy's Furniture.

For more information on this and other activities, call Murphy's 503-640-1124, or email [info@murphysfurniture.net](mailto:info@murphysfurniture.net), check our events page on [www.murphysfurniture.net](http://www.murphysfurniture.net) or stop by the store 10 a.m. to 7:00 p.m. seven days a week at 2962 baseline – two minutes west of Hillsboro on TV Highway in Cornelius.

## Dust control coming to gravel roads

Washington County's Department of Land Use and Transportation will apply dust control treatment on some rural gravel roads over the next few weeks. The treatment helps to reduce traffic-generated dust and, even more importantly, contributes to traffic safety. Dust control treatment increases surface stability and thus motorist safety on curves and hills where traffic patterns and volumes cause corrugated or otherwise rough road surfaces.

Although dust control treatment has historically been referred to as "dust oil," it is not a petroleum product. It is an environmentally safe by-product

from pulp mills. Dust control treatment contributes to environmental quality by reducing air-borne dust which can contaminate air and water.

With limited resources, the county treats only the most notorious spots where washboarded surfaces present particular driving issues. However, rural residents themselves can choose to pay for dust control on their county-maintained gravel roads. They must first obtain a no-cost dust control permit from the county. The permit coordinates county road grading with private contractor application of the dust control material. The permit also ensures that only environmentally

safe products are used and that they are applied appropriately. The dust control permit is free of charge to the property owner or resident; call 503-846-ROAD (846-7623) or email [lutops@co.washington.or.us](mailto:lutops@co.washington.or.us) for a permit.

Motorists can help reduce traffic-generated dust by driving more slowly on gravel roads. Excessive speed increases dust which can damage nearby crops. Driving too fast on gravel also causes washboarding and damages the road surface, increasing the taxpayers' costs for maintenance.

## Are you ready for something RELIABLE?

### FS 45 TRIMMER

Easy-to-use, well-balanced trimmer for home owner use.

Trimmers  
Starting at  
\$159.95
