**The Mt. Angel Stink Pot.**

The Catholic German paper of Mt. Angel, the St. Joseph's Blatt, is talking to the editor of the Silverton Journal these days like a Dutch Uncle to a sick cat. But in this case it is a question as to who is the sickest, the uncle or the cat.

Under the heading: "Stink-bomben" which means about the same as "stink pot" they say many uncomplimentary things about the writer. According to the Blatt, Hosmer is a liar, a skunk, a socialist and a prohibitionist.

They claim that he discovered congenial spirits in the persons of the fanatical Rev. L. L. Myers and a crazy woman (Miss Lasenan) and that this dirty trinity has hatched up this awful scandal story against the Catholics and have lied so much that now many non-Catholics can even feel the lies "with their hands" as the saying is.

They claim that no nun has escaped from the convent and that there is nothing in their institution which causes them to fear publicity. They hold that the Menace would, of course, spread this story like it has all other made-up scandals, and make it out to be true.

They claim that the Catholic church and their priests have always been persecuted, and always will be, and that their Savior has before said: "Blessed are ye when men shall revile you and persecute you and say all manner of evil against you falsely for my sake."

They hold that sometimes these false accusations can not be tolerated, but lately there are so many systematic lies and scandal stories come to light, something must be done, and that the only way to stop the mouth of the disciples of Lucifer is through a fine or imprisonment.

So, in order to solve this problem in a practical way, they suggest that a Catholic church and hospital be established in Silverton, so the people here can have a chance to keep in touch with the Catholic cloister. They close with the idea that then fanatics like Hosmer and Myers will have to lower their sails.

Isn't it strange that these holy (?) people can fool their poor, deluded followers? They call us liars, skunks and all kinds of names, yet have sued the editor for telling the exact truth—that this nun came to Mr. Myers and told her story. The fact of her escape has been acknowledged by them, in open court, on the witness stand, and is a matter of record. They pose as being persecuted when they are the persecutors. They call us fanatics when they are still clinging to the silly doctrines of the dark ages. They want to Mt. Angelize Silverton, Mexicanize the United States, and Nunize the daughters of Liberty—but as for Johnny, give him liberty or put him in the pen and call him stink pot.

**DEFENSE FUND.**

Friends of Liberty and Truth, this is your fight as well as ours. We will never surrender, but we are up against a big battle in the form of a \$50,000 damage suit, and a criminal libel suit by the Roman Catholics. We have been boycotted by law breakers, threatened with death by fanatics, and thrown into the street bodily for telling the truth, and are now where we actually must have help, or this very essential work for higher and better things can not continue. No one will ever know how much the few friends whose names appear in this "Defense Fund" have really helped us, for it is too long a story to tell here; but keep it coming, and the greatest thing ever accomplished in the United States by any little country newspaper will soon be recorded in The Silverton Journal.
