**Two Errors Corrected.**  
 In last week's issue we made two mistakes. These we hasten to correct. The first one was in the article "A Monster Cougar—No Bob-Cat," in which we stated that Mr. Taylor's hound was chasing a deer. Our informant said the dog was chasing a coyote, and in hastily writing the story, we made the mistake. The other mistake was in the "Dahl and Johnson cases." Here we used the word "re-examine" where we should have used the word "re-examine." We are informed that "re-examine" is a dope that is 35 per cent alcohol and is very good for patients who are sick for profit, but not the fellow who drinks it.

**Basket Social at Evergreen School.**

The basket social given by the teachers and pupils of Evergreen school, South Silverton, was a greater success than its most ardent supporters dared to hope for. The program given by the scholars showed careful study, and was one of the best ever rendered in this district. It would be unfair to make special mention of any of the features, in view of the general excellence, although the "Old Maids' Pantomime" appeared to touch the hearts of the bachelor boys present. At the conclusion of the program, the baskets were sold, Mr. W. S. Jack acting as auctioneer. Under his magnetic urging, the total amount of money raised in this way amounted to \$71. To Miss Vinetta Moore belongs the honor of bringing the highest selling basket, it bringing \$3.25. The prize cake, baked by Mrs. Vick Bruner, was then placed on sale, bringing \$33.40. That is sure some cake. Altogether, nearly \$110 was raised, which will be used to finish paying for the organ and buying necessary equipment for the school.

**Birthday Anniversary.**

Miss Maude McMorris entertained a few of her school friends at her home at Abiqua, March 1, in honor of her birthday. The afternoon was spent in playing games which all enjoyed. An elegant luncheon was served by the hostess' sister, Mrs. W. E. Davis. Those present were: Misses Esther Holloway, Annie Hobart, Cassie Gregg, Clara Howard, Marie McMorris; Messrs. Harry Sprague, Alvan Hobart, Walter Toft, Orval Howard, Cleo McMorris, Alvan Van Cleave, Theodore Hobart, Clifford McMorris, and Mr. and Mrs. W. E. Davis, as honorary guests. They all departed wishing Miss Maude many more happy birthdays.

**Basket Ball News.**

The fact that the Mt. Angel team is not in the Silverton class has been fully proved by the last two games. The game here last week resulted in a victory for Silverton with a score of 27 to 18, and then we went down there and after letting them get way ahead in the first half (16 to 5) we whipped them to a Silverton victory of 20 to 19. Now, what do you think of that?

**Don't Overlook This Exchange.**

One hundred and sixty acres, about one-half bottom land, the rest is hill and fine soil for fruit or hops, spuds or clover and grass. This is an ideal place to run about 20 dairy cows and a bunch of sheep or goats, or would make a fine hog ranch. Large new buildings, 15 head of cattle, four horses, all equipments, everything goes at \$600 per acre, or will exchange up to \$5000, or part cash an dime. Easy terms. This is close in to good town and railroad, in this valley. H. E. Brown, Box 145, Silverton, Oregon.

**Nothing Will Beat This for Exchange.**

Three hundred and twenty acres, Union county, New Mexico: fine 6-room house with a 9-foot sleeping porch, barn, and good well, windmill, pump and cistern; 50 acres in cultivation, about 75 in pasture, on good road and close to a school and church. The cash price is \$6000, or will exchange for Oregon farm. What have you? H. E. Brown, Box 145, Silverton, Or.

**THE GREATEST SYSTEM OF CULTIVATION ON EARTH**  
 The price of the Gravity Hand Cultivator is \$8.  
 The price of the Gravity Junior is \$5.  
 The price of the Gravity attachment is \$2.50.  
 These inventions are beyond question the greatest that were ever used in a garden.  
 We recommend the Gravity Hand Cultivator for large gardens and for splendid deep work. The Gravity Junior is a lighter machine and is especially adapted for women and children with small gardens. The Gravity attachment works on the same principle but is attached to other tools, such as a pointed hoe or rake, and it is one of the finest things any gardener ever used. With any one of these machines the worker can do the work of five or six men and do it much better than with a hoe or with the old style push machines. The Gravity cultivates deep or shallow; it works very rapidly; it does the work better than any other hand cultivator in the world and it does it so easy that gardening becomes a pleasure. Write for information or send the price and we will ship a machine at once.  
 J. E. HOSMER, Inventor and Manufacturer, Silverton, Oregon.

**DEFENSE FUND.**  
 Friends of Liberty and Truth, this is your fight as well as ours. We will never surrender, but we are up against a big battle in the form of a \$50,000 damage suit, and a criminal libel suit by the Roman Catholics. We have been boycotted by law-breakers, threatened with death by fanatics, and thrown into the street bodily for telling the truth, and are now where we actually must have help, or this very essential work for higher and better things can not continue. No one will ever know how much the few friends whose names appear in this Defense Fund have really helped us, for it is too long a story to tell here; but keep it coming, and the greatest thing ever accomplished in the United States by any little country newspaper will soon be recorded in The Silverton Journal.  
 The following have contributed to The Journal's Defense Fund:
