and liberty, which is the great goal of human progress, which is the fulfilling of life's divine purpose, in conformity with nature's divine and immutable law, by which the old system is doomed, by which it is now tapping to its inevitable ruin. Let us keep courage and not faint by the wayside. In that same spirit of Love for freedom, of Jesus, of Paul, of all the noble martyrs, who for truth's sake, who for humanity's sake have carried the cross of persecution in the onward and upward march of social evolution and race-progress, and, who have kept the torch of promise aflame to lighten the way, let us consecrate ourselves to that, and, in that spirit of world-service, to that divine world-hope which is the hope of life!

Let us unite our forces of sympathy and helpfulness for our "Prisoner of the Lord," Brother Hosmer, who is now in jail, for our cause's sake, which is the light of truth! the joy of liberty! the fullness of life! the equity of justice! and the blessings of peace, in the Unity of the spirit, in the bond of world-wide brotherhood and true democracy.

kaiser pay or vote the hundreds of millions for German war expenses? Did the king of England vote a billion for arms and war impedimenta? Kings and royalty are as much responsible for this conflict as the tinselled crew of the boat in guiding its course. What "idea" are they contesting for from London to Tokio; for democratic governments? Is not France a republic, and hypocritical old England, always destroying the reputation of its enemies, a half republic? Did war parties and an "idea" cause the dumping of American securities by foreign capitalists upon the market for the past months? Did an "idea," "war parties" or kings cause the flow of gold to foreign lands for sixty or more days before the opening of hostilities in preparation therefor?

The capitalist class holds the world's exchequers and only by its sanction and permission is international war possible. "Ideas," "religion," "humanity" and "war parties" bow to the will of the capitalist class, the will to live, and to live it must grow and to grow it must expand and to expand it must have more markets and for that it will sacrifice civilization and the last man, woman and child, and in its last gasp will reach out to grasp and drag the universe down with it into the depths. It knows no god and all gods, a race and all races, for its woe it will reject all, for its woe accept everything.
