

Republican Platform.

The following platform was adopted by the State Republican convention:

The republican party of Oregon in state convention assembled, proud of its record and past history, its devotion to the principles of human liberty and human rights, its great and imperishable names which lend lustre and glory to the American nation at home and among the nations on the earth, and as an assurance of its continued fidelity to the great principles for which it has contended in the past in state and national affairs, does hereby make and affirm the following declaration of its principles:

First—That we favor honest, efficient and economical administration of every department of government, both state and national.

Second—That we regard the free school system of our state as the special care and pride of the republican party, to be cherished as one of the bulwarks of the liberties of the people.

Third—That whereas the republican party has always contended for a pure electoral system, in pursuance of this policy we favor the adoption of the Australian ballot system, and we pledge the republican party to enact such a law at the next session of the legislature, substantially upon the line and of the character of the act as drafted by the Ballot Reform League of Oregon.

Fourth—That the republicans of Oregon send greetings and congratulations to their brethren of Maine for having furnished Thomas R. Reed, an honest and courageous statesman, who, as speaker of the house of representatives, has secured for the representatives of the people the right of the majority to govern, and we denounce the faction by which democratic members of congress attempt to justify the technical defeat of the will of the people and the majority of their own body by refusing to vote, though in fact present and in duty bound to do so.

PROTECTION UPHELD.

Fifth—That we rejoice in the fact that in the last presidential election the American people voted to sustain and uphold the republican doctrine of protection which the democratic party proposed to destroy and we are in favor of the continuance of that system of protection which has developed the manufacturing and agricultural interests of our country and protected American laboring men from degrading competition with the pauperized and poverty-stricken labor of the Old World and to this end we endorse the provisions of the bill known as the McKinley tariff bill, now pending before congress, and on behalf of the wool growers and other industries of the Pacific Northwest we urge upon our representatives in congress to do all in their power to secure the early passage of said bill. [Applause.]

Sixth—That recognizing the fact that the United States is the greatest silver-producing country in the world, and that both gold and silver were equally the money of the constitution from the beginning of the republic until the hostile legislation against silver, which unduly contracted the circulating medium of the country, and recognized that the great interests of the people demand more money for use in the channels of trade and commerce; therefore, we declare ourselves in favor of the free and unlimited coinage of silver, and denounce any attempt to discriminate against silver as unwise and unjust.

PENSIONS FOR THE VETERANS.

Seventh—That the gratitude of the nation to the defenders of the Union cannot be measured by laws. That the legislation of congress should conform to the pledges made by a loyal people, and be so enlarged and extended as to provide against the possibility that any man who honorably wore the Federal uniform shall become an inmate of an almshouse or dependent upon private charity.

Eighth—That we are in favor of a fair and equal distribution of taxation, and we believe that all property not now exempt by law should contribute its due proportion in payment of the legitimate expenses of the government. That we are in favor of the adoption of such amendment of our assessment laws as will secure the equal and just assessment and taxation of all property at its true value.

Ninth—That we demand the immediate forfeiture by congress of the land grant of the Northern Pacific railroad from Wallula to Portland.

Tenth—That we are heartily in favor of the passage through congress of the bill providing for a boat railway at the dailies of the Columbia river, which has been passed in the senate by the efforts of Senators Mitchell and Doherty; that we believe it to be the most practicable plan for the relief of the producers and for the development of that vast territory of country tributary to the great Columbia river.

Eleventh—That we favor the enactment of a law in the interest of the wage-earning classes in factories, mines, workshops and public works fixing eight hours as a day's work, and we denounce the convict contract labor system as unjust to the honest laborer of our state, and believe that all laws recognizing such system be repealed; that we are opposed to the further immigration of Chinese laborers to the United States, and we demand more stringent and effective measures for carrying into practical operation the enactments of congress excluding the Chinese laborers from American soil.

APPROPRIATIONS FOR IMPROVEMENTS.

Twelfth—That we reiterate our approval of the policy of liberal appropriations for internal improvements, especially for our rivers and harbors; that we favor the continuation of the policy of using the public money for the public welfare, believing that the improvement of our waterways will result in a material deduction of the rates of transportation; that we hold all corporations strictly responsible to their liabilities under the law, and recognize the right of the legislature to enact all reasonable limitations on corporate power.

Thirteenth—That we favor legislative enactment by which there may be elected or appointed a state inspector of weights and measures, and also favor amendments to municipal charters which shall require the appointment of building and sanitary inspectors in all cities of ten thousand or more inhabitants.

Fourteenth—That we are in favor of an early survey of unsurveyed public lands in this state, that the same may be claimed and occupied and tillers speedily procured by bona fide settlers, under the laws of the United States. We demand liberal appropriations by congress to secure that end.

Fifteenth—That while disclaiming the right to interfere with the administration of internal affairs of foreign nations, we sincerely approve the efforts of Irish and English statesmen to secure by peaceful methods the American principle of home rule for Ireland.

Sixteenth—That we denounce all trusts and combinations that have for their object the controlling of the market value of the necessities of life and that we are in favor of laws restraining and abolishing the same.

HARRISON'S ADMINISTRATION INDORSED. Seventeenth—That we congratulate the country upon the success and the prosperity that have marked the first year of President Harrison's administration; that we rejoice in the restoration of dignity, vigor and statesmanship in the conduct of foreign affairs, which have settled grave international complications upon a basis which secures every American right, and which, by friendly advances and hospitality, have strengthened the words of sympathy and interest which join us to the republics of the American continent, paving the way for a policy of peace of extended commerce, and of amity among all the nations of the New World; that we commend the present national administration for applying the surplus funds to the payment of interest-paying bonds, as contrasted with the democratic policy of lending the surplus to banks which retained their bonds and collected interest thereon while using the people's money, which should have been applied to the payment of said bonds.
