LOCAL NEWS.

Candidate's ball at Hadley's hall Saturday evening.
Hotel arrivals during the past week numbered fifty-eight.
Geo. Cohn received ten tons of new goods per Str. Augusta.
See Olsen for wagons and buggies, at Mason's old stand.
Pettit says he was simply trying to catch the con Saturday night.
W. T. Henderson, of Rutledge, Ore., is a guest of the Occidental hotel.
The Blackwell building in the east end of town is receiving a coat of paint.
A. D. Farmer and daughter, of Big Nestucca, were in the city Saturday.
Notice the change in the directory of the M. E. church South on this page.
County Surveyor Wilson returned Sunday from a surveying trip in the south end of the county.

A. J. Clutrie has a beautiful town-site on the Nehalem, which will be platted and placed on sale at an early date.
Rev. J. W. Craig, presiding elder of the M. E. church South, district of Oregon, left for the valley Tuesday morning.
Louis Olsen, son of Wm. Olsen, has returned from Portland where he has been attending school during the winter.
The M. E. church is fast nearing completion; the windows have been put in and the belfry is almost ready to receive the bell.
Every Republican in the county should make it a special point to vote at the coming election next Monday, and vote straight.

Jos. Bixby, of Beaver, is erecting a large and commodious barn on his place. It will be 50x75 and one of the best in the county.
Stillwell & Eberman are adding a large shed to their livery stable, for the accommodation of wagons and buggies of the transit trade.

The Truckee Lumber Co., are booming things at their mill in Hobsonville. They have three steamers now loading at their wharfs.
The only original, Tom Nelson came in with another load of passengers Tuesday, and left for the valley again Wednesday morning.

The followers of Sir Isaac Walton report good fishing in all the streams in this vicinity. Several good strings were brought in Sunday.
There will be a dance in Hadley's hall Saturday night, May 31st. Good music will be on hand and a general good time is guaranteed to all.

Mr. S. W. Grabel has constructed a fresh-water tank for the Str. Garfield. The tank holds 300 gallons and shows excellent workmanship.
The snag which lies in the stream off Olsen's dock should be removed. The pile-driver could do it at very little expense to those interested.

Republicans should see that the ticket they vote next Monday is the same as that which we publish on the opposite page. It is the straight ticket.
Geo. Means' smiling face is seen once more on the streets. George has just dished a large contract of driving piles for the Truckee Lumber Co., at Hobsonville.

Messrs. Brown and Branson, of Beaver, while hunting last week, killed a panther that measured eight feet and nine inches from tip to tip. They also bagged two small bears.
Bert Tilden came up from Hobsonville Sunday, and Geo. Cohn went down Wednesday. There is always someone looking after Tillamook's interests in that thriving little burg.

The Str. Augusta arrived Saturday evening, with freight and passengers for this place and points on the bay. She discharged her cargo at the new wharf of McKinley & Holden.
S. A. Roberts and Frank Linville have purchased the hardware business of S. W. Grabel, and will continue at the same old stand. Look for their "ad" in next week's HEADLIGHT.

The Truckee mill at Hobsonville made the largest cut that has ever been made in Tillamook county last Friday. They cut 40,470 feet, all of which was first-class lumber for the San Francisco market.
At present there is no doubt that the whole Republican county ticket will be elected with majorities ranging from 150 to 250. Let every Republican turn out and swell the majority as large as possible.

A party of fishermen while on Trask river last Sunday, espied a large bear about a quarter of a mile off, and one of the party took a shot at brain, but as the caliber of the weapon used was 32-short his bearship still lives.
E. Mealy, a wealthy mill man, of Chehalis, Wash., is in the city looking up a chance to invest. He will examine some timber land in this vicinity, and if suited will purchase, and erect a saw-mill on the bay with a daily capacity of 75,000 feet.

Notwithstanding the exaggerated claims of the Democratic Voice and the mud-slinging of that paper and the Watchtower, the whole Republican county ticket is going to be successful and forever put the muzzel on mud-slinging in politics in Tillamook county.
Wm. Olsen has purchased the agricultural implement business of J. C. Mason, together with the buildings and lots formerly owned by Mr. Mason, consisting of store building and residence. Mr. Olsen will still continue the agricultural depot, and, as he is well and favorably known as an experienced business man, we bespeak for him a splendid trade.

"Utah" Orton, the gentleman with the high tenor voice, is once more with us. He came over the mountains Saturday, with a hack load of passengers, being the first hack to cross this year. He reports the road in a better condition than it has been for many years at this season.

Lumber shipments for the past week were as follows: Str. Truckee, 400,000 feet; Cleone, 270,000; Scot's, 280,000, ft., making a total of 950,000 feet, all for the Truckee Lumber Co., of San Francisco, from their mill at Hobsonville. It will be used by them in the manufacture of boxes at San Francisco.

The boiler and plant for the new saw-mill at Saginaw, on the Nehalem, has been purchased, and will be brought in by the Str. Louis Olsen on her next trip. The mill site has been selected and work will commence on the erection of a store building and a hotel immediately.
W. S. Cone is the pusher in the new town which intimates that it is a "go."

W. S. Runyon is expected to return this week when he will, in all probability let the citizens of Tillamook know whether he is going to build the Wilson river road or not. Mr. Runyon must feel highly elated with himself in the manner he has managed to corral the timber land, and the franchise of the Wilson river at the expense of the unsophisticated Tillamooker.

Capt. Freeman, who has been surveying a route for a wagon road to Cape Meares, left per Str. Augusta for Portland. The Captain has located several routes but until he gets to Portland and compares notes can not say which will be the one accepted. No matter which one is accepted, we are in hopes Mr. Freeman will be the gentleman in charge of the construction.

If ever we make a fight against any candidate for office, it will be on his official or political record and not against his personal character. Not that we would advocate the election of a man of bad morals, but, that we have found out by this campaign that no man, however good he may be, is exempt from malicious charges and personal abuse at the hands of irresponsible parties.

The following is the list of Census enumerators for Tillamook county, approved by the Superintendent of Census, at Washington: Chas. B. Handley, Hobsonville; Henry Roberts, Tillamook; Walter T. West, Beaver; S. H. Rock, Oretown, P. O. The above gentlemen are all well acquainted with the county and will be able to give Tillamook as good a showing in the next census report as possible.

A lot of scurrilous circulars emanating from the Watchtower office, and compiled by W. S. & Co., have been sent out into the county for distribution on election day, but as Joe's truth and veracity is known to be badly warped, they will not have any weight whatever with the citizens of Tillamook. Of course they will not be sprung until the last minute, for as one of that gallant (?) little band remarked, "we must not give them a chance to answer."

The literary thieves who furnish copy for the Voice are not satisfied with using their own "thunder" in their articles, but every "jag" they work off is a stolen expression, and are so old that every newspaper man in the land will ring "chestnuts" on them. They parade themselves in the clothes of somebody who existed long ago. Mr. Whiting is the man who "cribbed" some of Joaquin Miller's poetry and tried to palm it off as his own some time ago. If a man hasn't an original idea, and can't express an idea in his own words occasionally, he should keep his mouth shut. But, the Voice is irresponsible, has no reputation at stake and has nothing to lose,—or to gain for that matter.

Democratic "Vice."
Every statement that has yet been made by the Democratic Voice, has acted as an emetic upon its twenty or twenty-five readers, who know them to be lies and frauds of the most scurrilous nature. The managers of that travesty of a newspaper are conceded by all who are unfortunate enough to be acquainted with them, to be the most colossal liars yet unearthed in this, or any other community.

The stock in trade of these political scavengers is deceit, discord and destruction. They can not uphold their own candidates, as in doing that they would necessarily have to handle the truth (more or less) which is entirely foreign to the nature of such scabs on humanity, but try to tear down the reputation of men who would not be disgraced by allowing such curs to clean their shoes.

The HEADLIGHT owes its many readers an apology for inflicting upon them from time to time write-ups of such scrubs, but if they were not brought up all-standing with a round-turn, there is no telling where their gail would lead them to.

Excursion.
There will be a grand excursion to Garibaldi and all points of interest on the bay, Sunday, June 8. The steamer Gen. Garfield has been chartered to tow the barge carrying the excursionists. Tickets 75 cents per couple, (lady and gent.) single ticket 50 cents. A general good time is guaranteed to all who participate.
By order of Committee.

New house of five rooms, to rent or sell.—Enquire at EDWARDS' Grocery.

The Entertainment.

The entertainment at the Grand Central hall last Friday night, was the best we have attended in Tillamook, and deserved a much larger patronage than it received. The programme was an excellent one and the farce at the last was well enacted. C. E. Reynolds distinguished himself in singing a German song. Mrs. Kerr, Lola Wilson and others who took part did exceptionally well, and the audience were in tears or uproarious laughter all through the performances. Much credit is due A. W. Severance for the part he took and for his labor in making the entertainment a success. The proceeds will be devoted to paying for an organ for the school, and it is to be hoped that the next entertainment will be sufficiently advertised to insure the attendance it merits.

Albany & Astoria.
The Astorian of May 22, prints the following in regard to the commencement of the survey for the Albany & Astoria railroad:
The chief engineer of the Albany and Astoria railroad came down yesterday morning with a full surveying party and more accommodations than have been seen in these parts for a long time.
