THE HEADLIGHT,
TILLAMOOK, OREGON.

All Post-masters in Tillamook county are agents for the HEADLIGHT.

A railroad is something that never sure until it comes, but the prospects for a railroad in Tillamook the next year is very encouraging.

Tillamook has more life and energy to the square inch than any small town in Oregon. Strangers arriving here express surprise at the business done considering the size of the place and its isolation from the rest of the world.

Smith—Why is it that when an engagement is broken off a return of presents is always asked for on both sides?

Jones—I'll tell you why. It is because it is expected the presents will come in handy when another engagement is made.—Ex.

"May I take a kiss before I go dearest?" said George as he prepared to depart.

"You may borrow one, George," said charming Jennie, "but you must not take one, for mother has repeatedly cautioned me against giving kisses to any one."

So George was obliged to borrow.—Mercury.

Tillamook has a great advantage in being able to choose between Portland and San Francisco for her market. There is a lively competition now between Portland wholesale merchants and those of San Francisco to secure the Tillamook trade. The steamer freight rates are substantially the same and our merchants will purchase their goods where they can secure the best terms. The trade of Tillamook is no small item at present and is increasing rapidly.

The hemlock timber in this locality, which is supposed to be of little value, will be regarded quite differently in a few years. Most of it is very convenient to shipping points and as the bark is valuable for tanning it will no doubt find a ready market in San Francisco before long. The timber is also good for many purposes, and some of the fine forests of hemlock which are accessible, will be worth as much as some of the fir timber lands far up in the mountains.

It is proposed to make a large increase in the appropriation for surveying public lands in the new states, the Dakotas, Montana and Washington. Some of the older states should not be forgotten, as there is a great amount of land in them yet that has never been surveyed. All the public lands susceptible of settlement should be surveyed without delay, so that it could be taken by actual settlers in severally. It would all be taken in a very short time, and as long as it belongs to the government, land grabbers and railroad corporations are working schemes to gobble it up in large tracts.

It is very common for a great many common laborers and mechanics to rush for the new towns that are enjoying a rapid growth, and we receive frequent inquiries from men who wish to know if they can secure steady work in this place. The labor market here is well supplied and no doubt will be without making any special efforts to get men from the outside. Those who depend solely upon wages for their living run considerable risk in coming here, however, men of small means who are willing to work can make a good living here and as the values of land increase, accumulate enough to put themselves in easy circumstances.

THE LATEST.

Sad Fatality.

EUGENE, June 23.—R. A. Sial, of this city, seventy years of age, was kicked by a horse yesterday, from the effects of which he died this morning.

Agreed To.

WASHINGTON, June 23.—House conferences agreed to the amendment authorizing the president to appoint a commissioner to select a suitable site on the Pacific coast for a dry dock.

A Bolt From Heaven.

IRONSTON, Ohio, June 23.—During Sunday school at Sugar Creek, Stark county, yesterday, the Methodist church was struck by lightning and nearly burned. Victor Miller was instantly killed, and two others seriously injured.

Sullivan's Trial.

PERVIS, Miss., June 23.—This afternoon the grand jury returned an indictment charging John L. Sullivan with prize fighting. A day will be set for trial to-morrow. A petition to Judge Terrel is being numerously signed by leading citizens, praying the court to be lenient and impose a fine without imprisonment.

World's Fair.

CHICAGO, June 23.—A large number of World's fair commissioners, representing various states have arrived in Chicago, and to-night in all the hotels World's fair matters are being very generally discussed. Many of the commissioners think the 250 acres on Lakefront is a too limited space for grounds, and assert that one thousand acres should be provided.

Mexico.

ST. LOUIS, June 23.—A special to the Republic from San Antonio, Texas, says: Reports which are absolutely reliable have reached San Antonio of serious and revolutionary movements going on in the states of Mexico bordering on the Rio Grande, and it seems the utmost folly for papers, however friendly to Mexico and the Diaz administration, to longer suppress the news. This movement is widespread.

The Denver Strike.

DENVER, Col., June 23.—The laboring men's strike, which has been in force here for some time past, is virtually at an end. Nearly fifteen hundred carpenters, who ten days ago went out in support of the striking mill, machine and bench men, returned to work this morning. Quite a number of original strikers returned to work in mills that acceded to their demands at the outset of the trouble. The men who returned to-day to work will contribute to the support of the strikers, and all lumber from mills refusing to grant the terms of strikers will be boycotted.

Horrible Fate.

SAN FRANCISCO, June 23.—A special from Fort Jones, Cal., says: Last night a little boy about 8 years, son of Joseph Dangle, a farmer residing ten miles distant from here, in a thickly populated district, failing to appear for supper, search was commenced by the family, and in a short time the little fellow was found about one hundred yards from his home, dead in some brush, having been killed and partly eaten by a California lion. When the body was found the animal was still feeding on it, and on the approach of some men showed fight, but soon escaped into the woods. A cat was killed and placed as a decoy near where the body of the boy was found, and watched by a party of men, who succeeded in killing two of the animals during the night.

CITY WHARF AND WARE-HOUSE.
