regarding Nehalem: country that lies within Tillamock county much

ias been written and but little said. Lying tributary to the Nehalem river there are ab eight townships of timber and agricultural lands, about equally divided, that is there is about one half that can be cultivated and put into pasture when it is cleared of the brush and timber, the rest is so rocky and broken that it is only valuable for the timber, sandstone, iron and coal, and other valuable minerals, ind covered at the present time." But, let us go a little into occulation and see what this will amount to when it is fully developed, that is when the railroad is built and the bar is improved, for we need both. In the first place our four townships of timber, fic, spruce, cedar, larch and hemlock contain, at a fair estima 3,009,000 feet o lumber, or enough to keep 10 mills cutting lo ooo feet each per day, running soo days in the year, for the next 15 years. Supposing they could all be started at once there would be required to run the mills at last 'oco able bodied men. Half as many more would find employ ment in raising vegetables, hay, and with the usual number of women and children a population of about 5000, or more than as many again as there are in the entire county

Nor would this be merely a transient popula tion, for, having the opportunity to dispose of the surplus timber and a market for his crops. the home-builders would come to stay and make on the routh. In fact, the whole of the Tilla the wilderness blossom. As before stated, we mook river basin is not excelled by any other have 144 square m1 s of agricultural lands that region in the county. There is a great will ultimately support a population of from to to 15 persons to the section, but I have written traverse its course. A narrow more than I intended, and hope that if this railroad is projected on this s change does come it will come slowly so as not to crowd too heavily on the ancient settlers and awake then too rude'y from inthargy and peaceful slumber

Bay City is now enloying a boom, and has brilliant prospects for the future. The townsite is an excellent one and wharves are being built out into the bay to deep water. A great deal of building is going on here at present and other improvements are contemplated. The wharf and ware-house built by the Bay City Land Company will be a great benefit to the town as soon as the railroad is built, and as it is an excellent location for saw mills, no doubt some large mills will be built there soon. There is one mill now that supplys the local demand. H. C. Hald & Co. are doing a thriving business

with a general merchandise store, and Jacoby is well patronized. The Presbyterians have

sure to become a prosperous town. Great claims poor transportation facilities. The p
