

TILLAMOOK, ORE., Jan. 16, 1891.

Chas. Quick is very low with consumption. Wm. Heitmiller is building an addition to his house. I. F. Larson is building a large and commodious black-smith shop.

Marriage license was issued last week to R. Hicks and E. B. Nicholson. A protracted meeting, under charge of Rev. J. H. Wood is in progress at the M. E. Church.

The Str. Augusta came in Thursday with a large cargo of freight for Bay City and this place. G. A. Edmunds' select school has a large attendance and good work is being done in the school.

The Oregon Department of the G. A. R. will hold their annual encampment at Astoria on Wednesday, April 8th 191. The second quarterly meeting of the Tillamook chapter, M. E. Church, will be held at Bay City, Jan. 17th and 18th.

Mrs. Mary Hauxhurst wishes to express her thanks to the people of Tillamook for their kindness during the late bereavement of her family. Tillamook is struck with the roller skating craze. As soon as a railroad enters this far-famed county the people will be up to the times and not before.

J. E. Hosmer's school in the public school building has already an attendance of forty-three pupils and is increasing. Both Mr. Hosmer and his wife are good teachers.

The wreck of the Struan is scattered all along the beach below Cape Lookout and is a total loss. The settlers in that vicinity will have all the lumber they want for some time to come.

Bowers & Roland's String Band will give a social hop in Hadley's hall on Saturday night. The musicians are well known for their proficiency and a first-class time is anticipated.

There will be a special term of court Jan. 21, to make a levy for state taxes. The state tax will amount to 4 1/2-5 mills making our whole tax a fraction short of 23 mills, or \$2.30 for every \$100 assessed.

We are almost snowed under with correspondence that has been accumulating for the past two weeks. We use what we can of it this week. We are under many obligations to our excellent corps of correspondents.

After this date old papers will be sold in this office at the rate of 25 cents per hundred. There is such a demand for them that our patrons would rather pay a small price for them and be sure of getting supplied.

N. P. Roberts' skating rink is still running in full blast, and as soon as his new skates arrive, which are expected on every boat, the amusement will be much more satisfactory. Mr. Roberts knows how to run a skating rink.

Frank Linville has bought six acre tracts of H. W. Lasselle, Mr. Lasselle's residence being on one of them. He will build a new dwelling as soon as possible, and Mr. Linville will move into the house formerly occupied by him.

Theo. Steinhilber has full control of the Sheriff's office now, and is engaged in searching the records preparatory to making the sheriff's assessment of all property not listed by the assessor. Mr. Downs will retire to his ranch to recuperate his health.

Senator Mitchell has introduced a bill in Congress granting the Albany & Astoria R. R. the right of way through the Grand Ronde Indian Reservation, with a provision that the road shall be built within three years. This shows that the projectors of the road mean business, and there is no doubt about the road being built in the near future.

There should be two sessions of the Circuit Court here in a year. Otis Howell, who is now confined in the jail for killing Ed. Hauxhurst, will have to be kept in the county until the August term of the Circuit Court. This will be a great expense to the taxpayers, and there is a great deal of grumbling on account of it, however, the ends of justice must be subserved.

The I. O. O. F. lodge of this place held their installation Monday night, and the following officers, who had been previously chosen, were duly installed: W. H. Cooper, N. G.; W. C. King, V. G.; B. F. Ely, Sec.; S. A. Roberts, Per. Sec.; and L. H. Brown, Treas. After the installation the members adjourned to the W. Sappington's hotel and partook of an excellent supper.

Last Saturday morning after I. T. Mashey had built a fire in his office stove, the roof of the building was discovered to be in flames, having caught fire from a defective flue, presumably. Through the prompt action of L. L. Stillwell and A. J. Stillwell the fire was soon under control. Their efforts would probably have been futile, however, had it not been for the close proximity of the Fire Company's buckets and ladders.

The New-Year edition of the HEADLIGHT is all exhausted. The copies were all sold before they were off the press, and many orders could not be filled. Another 2000 copies could have been disposed of easily, and a second edition of the paper with maps, new engravings and additional matter will be issued in next pamphlet form as soon as possible. Everybody seemed well pleased with the edition, and hundreds of them wanted to send to people in the east by our post office.

HOLMES BUSINESS COLLEGE. of Portland, Oregon, will open September 1st. J. A. Waco, the leading business man of the coast has become a partner in this school and will make it the leading business college. Send for Catalogue.

was served upon Chapman, citing him to appear before the officials named to show cause why the entry of Flynn should not be canceled. A bill-in equity was filed as stated, setting forth these facts, and applying to Judge Handford for a temporary injunction to restrain Kleindel from offering proof, and the officials of the land department from taking proof, and the court issued the order in accordance with this prayer, setting the 16th day of February, 1891, as the day upon which a hearing upon the merits of the case should be given in Tacoma.

This is a new action in land cases and one that has never before been entered, and if carried to a successful issue will discourage the contest of lands entered under the timber act. The attorney for Chapman holds that the United States land office has no right to accept an entry upon land for which final receipt has been issued until the receipt has been set aside by a United States court either upon the grounds of fraud or otherwise. By the order of Judge Handford the officials of the land department were debarred from further action in the matter until the court has finally passed upon it.

Speaking of the office at Vancouver he says: "They permit any applicant to look over the plats and tract books themselves. If any person wishes a plat of any township showing vacant lands and the course of streams, he gets it made outside of the office, by parties who do that kind of work for the sum of \$1. They charge less if they make several plats, and their plats are the same size as the government plats, a twelve inch township plat. They never make plats showing a single section unless so ordered. What we call a sectional plat is a township plat, drawn upon any scale and marked off into thirty-six sections and numbered.

At the Oregon City office the register, Mr. Apperson, has a man in his office who makes plats for anybody who desires them. This man also furnishes information about vacant lands. He furnishes a six-inch township plat for the sum of twenty-five cents. He furnishes a twelve-inch plat showing streams, as well as vacant lands for seventy-five cents. He furnishes a twelve-inch plat, made on tracing lines, showing lands filed on, name of party filed, kind of filing, and also showing who has paid for their lands for \$3. I do not think Mr. Apperson gets any of the receipts from the making of the plats.

The plats at the Oregon City land office are in very bad condition. Some of them are so mutilated that they will not bear much handling, and therefore Mr. Apperson does not permit the plats to be handled by applicants. As for Mr. Apperson's being associated with locators and dividing profits with them, no Oregonian will believe any such statement. No man who knows him, doubts his honesty. He is a man of decided views, and intends to run the office while he is there.

The receiver, Mr. Burch is a democrat, and the fact of his being there now, answers all charges against him. A personal acquaintance of many years standing, with both Capt. Apperson and Mr. Burch, gives the senior editor of the Herald authority to say, that as far as the accusations against the Oregon City office are concerned, Mr. Buckley is perfectly right in saying they are false. Personal business a the office, too, gives us the right to say that the business is carried on in the most gentlemanly and accommodating manner, and with justice and accuracy. The fullest information is placed before every applicant for statements in regard to vacant lands, and equal justice accorded to all.—Herald.

Everybody who will send us \$2.00 for a year's subscription to the HEADLIGHT will receive in addition to our paper, the famous humorous monthly magazine called "Judge's Library," for one year. This offer is made to both those renewing old subscriptions and to those becoming subscribers for the first time. No other paper in this country is able to make subscribers this offer, the HEADLIGHT having secured the exclusive right to club with "Judge's Library" for this vicinity. "Judge's Library" is a monthly magazine of which alone the subscription price of which alone is \$1.00. It contains 32 pages of humorous illustrations and reading matter, to all of which "Judge's" famous artists and writers are contributors, and is neatly printed and bound in handsome colored covers. It is a condensation, in fact, of "Judge's" brightest humor.

LOOK AT THE FIGURES! The regular subscription price of the HEADLIGHT is \$1.50. The regular subscription price of "Judge's Library" is \$1.00. While we offer both publications to you for \$2.00.

IMPORTANT LAND DECISION. Tacoma, Jan. 9.—A bill in equity was filed in the United States circuit court by W. Scott Beebe, of Portland, Or., attorney for W. S. Chapman, involving a new procedure in the consideration of land prospects under the United States land laws. The case in brief is this: On the 16th day of August, 1883, William Flynn made proof before the register and receiver of the United States land office at Vancouver, Wash., in support of his claim to a quarter of section 12, township 9, range 5 west, under the timber and desert land acts. In January, 1885, he sold the land in question to W. S. Chapman, and in his receipt of the final receipt, and on the 18th of December of the same year gave a warranty deed thereon. On the 27th of October, 1887, a bill was applied to J. D. Geoghegan, then and Scott Sweetland,

the petition of Frank Kroth and others for a change in the road on the Miami was granted, and Chas. H. Smith, W. N. Vaughn and Joel Mapes were appointed viewers. C. B. Hadley was granted license to sell liquor for the term of six months. The following road supervisors were appointed: H. A. Adkins, Dist. 2; J. H. Mapes, Dist. 3; S. D. Pierce, Dist. 5; J. H. Jackson, Dist. 6; G. W. Smith, Dist. 7; A. J. Keaton, Dist. 8; J. V. Alderman, Dist. 9; G. W. Phelps, Dist. 10; M. Buchanan, Dist. 12; C. H. Smith, Dist. 14; W. H. Hoskins, Dist. 16; E. F. Lyster, Dist. 18; J. K. Craven, Dist. 20; Frank Murray, Dist. 21; Jas. Pesterfield, Dist. 22; M. C. Curd, Dist. 23; O. D. Boatman, Dist. 24; C. Ray, Dist. 25; S. C. Tomlinson, Dist. 26.

Bills for the construction of Wilson river slough bridge were allowed to the amount of \$811.74. Bills for costs in prosecuting Harry Mitchell were allowed to the extent of \$43.25. [This is the result of a drunken quarrel among Indians at Garibaldi, and no good came of the prosecution.] The expense of the coroner's inquest over the remains of Ed. Hauxhurst amounted to \$37.

Contract for keeping H. L. Tucker, a pauper, was awarded to E. F. Lyster at \$4 per week. The bill allowed for expense in the preliminary examination of Otis Howell for killing Ed. Hauxhurst amounts to \$63.65. The Sheriff was allowed \$19.33 for boarding prisoner (Otis Howell) for 16 days, and other incidental expenses. The Tillamook Booming Co. was given until May 1st 1891, to open Sutton creek as per contract.

In the matter of the petition of L. G. Freeman and others to vacate the F. M. Shearer road, B. R. Daniels, Truman Harris and John Turner were appointed as viewers to report on the advisability of vacating said road at next term of court. James McCain was allowed \$25 for attorneys fees in the case of Maxwell vs. Tillamook County. [This makes \$150 in all that has been paid Mr. McCain for his services.]

It was ordered that the Sheriff file an additional bond in the sum of \$5,000 as tax-collector. The reports of several road supervisors were received and accepted. A number of bills were ordered paid, but are too lengthy for publication. Court adjourned Sine Die.

GOOD SEEDS. Truckload after truckload of seeds was noticed passing up the street Saturday, and on investigating it was found they were from D. M. Ferry & Co., of Detroit, Michigan, for their northwestern agents, F. L. Posson & Son, 209 Second street, Portland, Oregon. Posson & Son have sold and delivered already this season over three car-loads of vegetable seeds alone. These must be the very best of seeds, and they must have very low prices, or the firm never could have secured such an immense trade.—Oregonian, December 29.

Send for their Catalogue and mention this paper. OREOTOWN. Mr. J. Bently of Meda is reported very sick, but with hopes of soon being better. Mrs. Amos Kaub, daughter of J. Bently, has been confined to her bed for some time and, although her life was in danger at first, she is now recovering. Mr. Henry Page has received the contract for carrying the mail between Dolph and Neskwim for which he will receive \$390 per annum and will be seen on the road Jan. 15.

The Nestucca Cannery, it is reported, has been rented to parties in Portland but the names could not be learned. The dance on Xmas Eve at Mrs. Dundas' was well attended and all present enjoyed themselves splendidly; while the dance at the Bay was in every respect a success, being well attended by parties from both Little and Big Nestucca. Messrs. C. and W. Upton, E. Bosley and C. Christensen in company with Mrs. Christensen, Miss Maud Upton and Miss Cora, all of them, attended the dances at Mr. Scott's on New Year's night. All went well and the return voyage was commensurate, owing to the

pure air of Nestucca. While in England he learned that the people there are much excited over the McKinley bill and are in favor of its being repealed, so Mr. Rock has come back to us a stronger Republican than ever. The candy-pull at Mrs. Evan's was an enjoyable affair. Mrs. L. Commons and Mr. and Mrs. Hellenbrand have returned from the valley. BAY CITY. The boom at Comer's mill has broken, and there is a general turn-out of men and boys, for the logs "that have gone astray." Master Frank Butts, while splitting kindling wood, struck his thumb a heavy blow, which, for the present disables him. Miss Sturgeon is an addition to, and a great help to the church choir. C. T. Hills has returned from San Francisco. By direction of the County Superintendent, a special school meeting will be held at the school house Jan. 17, for the purpose of perfecting the school district organization, electing officers and transacting such other business as may lawfully be brought before the meeting. Every voter who is a friend to the public school, and especially his own should attend and take part in the day's proceedings. The Str. Augusta unloaded freight at the wharf Jan. 8th. Messrs. Bowley and Gibbens are settling a difficulty in justice court, at Tillamook. M. C. Trowbridge is convalescent but is still quite low. J. B. Dunsmore is entertaining two of his brothers, who have recently arrived from California. A Cate Humming Bird. The family of John N. Labell, at their home on the Madison shore, have discovered a queer way to capture humming birds alive. Recently a small humming bird which had frequented the flowers on the veranda was observed teaching two of its young to sip honey from the buds. The old bird, as well as the little ones, was quite tame, but the latter were evidently unskilled in the art of extracting honey. Their efforts resulted in ruining many of the tender flowers. One of the ladies on the porch tossed a cap at the young intruders, as if to warn them that they must take more pains with their work or else seek flowers elsewhere. The old bird immediately resented this insult by falling seemingly in a faint or trance. In this condition she permitted herself to be captured and inspected, but it was observed that one eye was always open to take in the situation. Luckily for the mother bird her captors soon released her, placing her uninjured on the floor. After waiting till all was quiet, the old bird came to life and took wing to rejoin her young, who were still engaged in their abortive assaults on the flowers. This story is vouched for by the members of the family.—New Haven Palladium.

Business Men's Writing Desks. Every man knows how dear to his heart is that pet abomination of women the desk litter. Every man protests if he be disturbed, and declares with emphasis that he can always find what he is looking for if his desk or table be left alone, while the sight of it to women creates an intense desire to clear it up. The desks of some men are curiosities in this regard, and there is probably none in town to compare with that of Francis B. Thurber. Mr. Anderson has the lumber on the ground with which he intends to remodel and otherwise improve his already handsome house. Judge Ralston left for Portland per Str. Louis Olsen, to consult Drs. Darrin or Aborn. Mr. Theodore Parks received a large amount of goods on the Louis Olsen and expects more soon. He will open a store in this place. The first snow of the season fell here on the 4th, but did not last long. Our genial boatman, Peter Swenson, is doing a rushing business for this time of the year. He always has a boat load of passengers or freight. The long looked for illustrated edition of the HEADLIGHT, has at last appeared, and would do honor to any place; its neatness and excellency bespeaks well the pains the publishers took in its preparation. J.A.C. MEDA. The Christmas dance at the Bay was a grand success, there was quite a crowd from Big Nestucca. The supper was excellent and everyone spent an enjoyable time. Mr. and Mrs. W.W. Conder spent the holidays with Mrs. Dunn, mother of Mrs. Conder. The surprise party Saturday evening at Mr. Upton's was well attended. There was music, cake and wine in abundance. Mr. Ed. Bosley and Mr. J. Whiteam, formerly of Nestucca, are visiting friends and relatives. Miss Carrie Mulligan who has been visiting her parents at Hayland has returned to Nestucca to spend the balance of the winter. Miss Jessie Ley has returned to her home in Highland. She has been stopping with her sister, Mrs. Rock, while Mr. Rock has been visiting in England. X.X. DIED. DAVIDSON.—At his residence in Independence, Oregon, on 12:30 a. m. Saturday, Jan. 3rd, 1891, Dr. J. E. Davidson, aged 67 years, 1 month, and 11 days. Dr. Davidson was a prominent citizen of Independence and a brother of Jons Davidson of this city.

Free supper to all. Every soldier is expected to come with a good supply of pork and beans. The public is cordially invited to attend. By order of committee on arrangements: W. O. Thayer, Com. C. N. Drew, F. Severance.

Superintendent Bosbyshell, of the mint, received from Washington a communication from E. O. Leech, director of the mint, conveying the disappointing intelligence that the department at Washington would not take any action until next summer in regard to providing new designs for coins, under the bill recently passed by congress. Director Leech explains that he is so busily engaged in the preparation of the report of his department and the secretary of the treasury's time will be so much occupied for some months that the matter of changing the models and designs of coins cannot be taken up until late in the spring. Since the bill became a law Superintendent Bosbyshell has been in receipt of letters from persons anxious to enter into the competition, showing a widespread interest in the subject. As it was hoped to change the five cent nickel piece and get rid of the buzzard dollar as quickly as practicable, the delay will be received with universal regret.—Philadelphia Inquirer.

The trouble about the Irish rent question is that the Irish people generally consider a rent contract as having no moral obligation. The truth has been handed down from generation to generation that their ancestors were wrongfully dispossessed of their lands, and that the title of the large landlords, while legally perfect enough, is in fact being that they are taxed in one state and not in the other.—Youth's Companion.

John Parkhill, of Portland, who had made himself famous as being the only man in the United States who did not want a pension, passed through Astoria on his way to San Francisco to the volunteer funeral of the late Mr. Parkhill, who is over 90 years of age, served through the Seminole war in Florida in 1838, and also in the Mexican war. He was one of the handful of frontiersmen who raised a company to fight the Mexicans before the United States took the matter in hand. He served all through the war to enter the War of the Rebellion because he thought it was too much like fighting brothers. For years pension agents have made life a burden to him in their endeavors to secure a pension for him. He fought them manfully for a long time, as he said he was able to make his living. Finally the papers came and with them his back pension, and it has been coming ever since, actually from his own pocket against his will.—Astorian.

Coachman Williams. Coachman John Williams, who guards the horseless of E. C. Howe, of Bristol, is in luck. He has just returned from a trip to California, where his uncle died recently, leaving a large estate. The interest on \$7,500,000 was bequeathed to John and his brother William, who lives at Blackburn, N. Y. The wealthy deceased, Theodore Ludwick, immigrated to America from Metz, Germany, in 1849, during the gold excitement in California, and he went to that state with only enough money to pay his fare. He got into the mining business and prospered. In 1873 he was worth \$10,000,000, but during the panic in 1877 he lost heavily. Before his death he left several millions to charitable institutions in his country.—Philadelphia Record.

Courted Nine Girls at Once. At Lowell William Anderson, who was arrested on suspicion of larceny, is quite a character. In his possession was found a memorandum book, recording the fact that he was courting nine girls. For convenience sake he had them numbered from one to nine inclusive, and he had occasion to refer to many of the memoranda it was by number. One entry is the fact that he was aware that he was escorting No. 8 to places of amusement. His description of No. 7 would make her tear her hair if she read it. While traveling Anderson recorded that he had letters from eight of the girls in one day. Anderson claims a residence in Portland, Me., and was at one time a polo player.—Cor. Boston Globe.

A Bright Prospect. Customer—Be sure and make those clothes large. I expect to put on ten or fifteen pounds shortly. Tailor—Yes, sir. Taking a course of treatment? Customer—No. I've just come from my vacation.—Clothes and a nisher. A Good Start. The snow shovel factories of New England will start the season with 600,000 snow shovels left over from last year, and the middle states and the west stand ready to furnish a tramp for every shovel. Let old Boreas get up and howl.—Detroit Free Press.

Sarcenic College Boys. The sophomores, much to the chagrin of the freshmen, have succeeded in painting upon the town water tower "64" in bright green colors. The tower is 130 feet high and the space painted measured 20 feet by 8.—Princeton Letter. The Rumanian government has offered prizes to the architects of all nations for the best plans for its new assembly and senate chambers. The first prize for each building is \$50,000; the second, \$30,000; third, \$20,000.

When the Wheelbarrow was Invented. Now a writer in the French scientific journal La Nature calls attention to an old book printed in 1555, in which is a curious wood engraving that represents a single wheeled barrow pushed along by a laborer. Another plate of the same book shows a tramway car running upon rails. He puts the use of the wheelbarrow back more than a hundred years earlier than the time of Pascal.
