Tillamook needs a board of trade. Senator Mitchell's opposition failed to materialize.

A winter like this would be considered mild, even in California. The irony in the Oregonian's Penneyer presidential boom is too palpable to be entertaining.

The United States should survey more of its domains. Tillamook county is badly in need of such work.

The members of the Washington legislature proved themselves a set of hoodlums in the Squiff-Calkins fight.

Senator Squires was re-elected in Washington and the Calkins men claim the election was controlled by money.

King Kalakata of the Sandwich Islands died in San Francisco last week. His sister will inherit the throne.

Three Farmers' Alliance men hold the balance of power in the Illinois legislature. They are very likely to get their price or name the United States Senator.

The Election bill proposed by Congress can do no harm, and any measure calculated to improve the method of securing honest elections should be encouraged.

It is safe to say that the Free Coinage silver bill is alright for the masses who make their living by honest labor, as the moneyed men and corporations of the East are all opposed to it.

Senator Mitchell was re-elected, receiving the unanimous vote of the Republican members of the Legislature, both in caucus and on final ballot. The Democrats voted for one B. Goldsmith.

Hon. Wm. D. Stillwell's bridge bill, if passed, will not only benefit Tillamook, but will be a great convenience to hundreds of people in the Willamette valley who visit the beach here every year.

A large appropriation for the World's Fair would be a good thing, but those who will receive the most benefit, real estate speculators and railroad corporations, should contribute a large share. The cities will derive more benefit than the rural districts.

The United States and Great Britain should settle the seal fisheries question amicably and fairly at once. It is folly to go to war in order to protect a monopolizing corporation that it is becoming so powerful that it almost controls national politics. If Great Britain's subjects are allowed to encroach upon the alleged rights of the great sealing company, why deny Americans the same privilege? It seems that the delay in settling the difficulty is encouraged in order to keep private

YE GOSSIPERS.

Ed. HEADLIGHT:—I have often noticed in small towns, where the line of distinction between social respectability and the debased element is not clearly defined, that those whose social and moral reputation border on the demi monde, are always trying to crowd themselves into the circles of the beau monde. Failing in this, as they generally do, they are piqued, and, as a method of revenge, try to bring the better classes down to their own level by means of slanderous gossip.

These gossipers are always engaged in prying into other people's characters, forgetting their own unsavory reputation, and any little rumor or report they get, is contorted and colored to suit, and the story goes rapidly on its rounds, growing more sensational each time it is told.

These scavengers of society put in their time groveling through the filth and offal of moral corruption and when they secure a morsel that is especially putrid and obnoxious they loll their tongues over it with fiendish relish, thus whetting their degraded appetites for something more pestiferous.

It is, however, impossible to expect an absence of this evil in a small town, as the sources of innocent amusement to give employment to the minds of the people, are scarce, and people must have something to talk about, the ignorant and unrefined choosing what is most familiar to them.

No one escapes the venomous effects of scandal-mongers, no matter how respectable, and it is, perhaps, useless to deny or give heed to any evil reports, as it is easy to live them down. In other words, the friendship of such people is worth nothing, and their enmity is of no harm.

The masses are in favor of an honest ballot, such as may be secured by the Australian ballot system. Will our legislators adopt it? If the measure is defeated, it will be through the influence of a few corrupt politicians.

The fights over the election of United States Senators in several of the state legislatures has been very disgraceful. The interests of the country would be better subserved and there would be less contention and corruption if the Senators were elected by direct vote.

The timber-land sharps thrown into Portland jail, found that institution a place of great inconvenience. After swearing that the place was more valuable for stone than for agricultural purposes, they couldn't find a file to file a sworn statement.—Klamath Star.

One more road bill showed up in the house, for \$10,000 for a road connecting Tillamook county with Astoria—an extension of the Maxwell road. This is a meritorious measure, if any of the road bills are to pass. It would open up to settlement and development a rich section.—Salem Statesman.

Congress is trying hard to dispose of the Free Coinage and Election bills. The silver men are confident, but those who advocate the Force Election bill are trying to bring the silver men into line by dilatory tactics. The country would feel relieved if a square vote were taken on both measures.

The special bills introduced in the Legislature providing appropriations for wagon roads, will amount to nearly \$200,000, and there will be a strong effort to pool issues and get them all through. It is thought by many that an expenditure of this kind will be of more benefit to the state than a \$250,000 appropriation for the World's Fair.

What a spectacle for an enlightened nation! Her legislative bodies engaged in rioting and disorderly conduct, even to our highest Congress, when they should be working in the interest of the people! Let us not pride ourselves on accounts of our form of government unless our elect legislatures that are more august and digni-

noticed passing up the street Saturday, and on investigating it was found they were from D. M. Ferry & Co., of Detroit, Michigan, for their northwest-ern agents, F. L. Posson & Son, 209 Second street, Portland, Oregon. Posson & Son have sold and delivered already this season over three car-loads of vegetable seeds alone. These must be the very best of seeds, and they must have very low prices, or the firm never could have secured such an immense trade.—Oregonian, December 29.
