The HEADLIGHT will soon offer some magnificent premiums. They will be the most valuable ever offered by a local newspaper and every subscriber will have an opportunity to secure one of them without any cost.

Prof. Hosmer was hearing a recitation from the physiology class in the city school the other day, and was dwelling on the subject of the necessity of pure air for the human system. He asked the class why a person couldn't take enough air at one time to last a while, as in taking food. One of the boys piped out, "No place to keep it."

A small mill at Netarts would do well at present, and as the entrance to the bay is good and safe for small vessels, larger milling industries are sure to be established there. There is a great deal of fine spruce timber adjacent to the bay, besides a fine agricultural country. The county should be liberal with roads for that section as it is destined to become of great importance, and Tillamook city will derive much of the benefit.

Peter Brant writes the HEADLIGHT a letter from Marine Mills, Minn. He and his wife reached St Paul Sept. 12. He says that in Dakota they passed through wheat fields for half a day at a time, and it was wheat on either side as far as the eye could see. It had been raining for a week however, and the wheat was sprouting in the shock. On reaching Marine Mills, a terrific thunderstorm was experienced and Mr. Brant says that Tillamookers who grumble at a little rain should have been there to witness the deluging torrents of Jupiter Pluvius.

SCHOOL NOTES.

Four pupils enrolled this week.

Dorner Edwards is visiting the school this week.

There is talk of other outside pupils starting soon.

Several changes were made in the school this week.

The bell needs a new rope, as the old one is almost unfit for use.

The intermediate room has adopted the plan of the upper room for obtaining pen-wipers and rulers.

The prize given in Mrs. Hosmer's room for the scholar naming and spelling all the capitals in the United States, was won by Miss Clara Kimball.

There being no way of ventilating the upper room, the teacher was compelled to pull the nails from under the window that it might be lowered to afford proper ventilation.

There is to be reading of compositions and speaking every Friday afternoon. The half of the school having odd numbers are to speak, and the other half to write essays this week, and vice versa next week.

PERSONAL.

Myron Perkins visited the state fair at Salem.

Mrs. T. B. Handley is visiting in the Willamette valley.

Mrs. Stoddard, mother of Johnny and Geo. Stoddard, arrived here Wednesday.

J. W. Lawless has rented H. W. Lasselle's house and expects his mother here soon.

T. B. Handley made a flying trip to the Willamette valley. His niece Miss Edith Brown accompanied him, returning to her home.

George Barten, who has been seriously ill for the past week, is now able to be out.

F. A. Oakes, Gilbert Eyk, M. F. and E. L. McNeil went to their claims, on Wilson River Wednesday.

Gravel Road Needed.

One of the farmers from Long Prairie called on us and said that the farmers on Long Prairie and South Prairie would haul gravel free of charge, if the city would furnish the gravel and spread it, on the road from the gravelled streets in the city to the city limits on the south.

The road outside the city limits is already gravelled, and the portion inside the limits is very short, so the work will not cost a great deal. This part of it gets very muddy in the winter and if it was fixed the farmers would be able to come to the city any time with a good load.

The city council is taking the matter under consideration and it is thought the graveling will be done.

The work will be done either on Still-

The constantly growing demand for Dr. Price's Cream Baking Powder, the standard cream tartar powder for forty years, is due to two causes.

FIRST:—The extreme care exercised by the manufacturers to make it perfectly pure, uniform in quality, and of highest raising power.

SECOND:—The recent investigations exposing the fact that certain other brands of baking powder contain ammonia and still others that were found to contain alum. These unscrupulous manufacturers are being found out, and the consumers are giving them a wide birth.

Nothing is left to chance in the manufacture of Dr. Price's Cream Baking Powder. Chemists are employed to test every ingredient as to purity and strength. Hence; its marvelous purity and uniformity. Each can is like every other. It never dissappoints. BEST is ALWAYS the CHEAPEST.

Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact, the purity of this ideal powder has never been questioned.

HON. BINGER HERMANN.

The Distinguished Representative for Oregon visits Tillamook.

Last Thursday evening Congressman Binger Hermann arrived in Tillamook enroute via the North Yamhill stage route.

He took rooms at the Occidental where he was besieged by friends until a late hour that night. Next morning he made friendly calls on the business men, after which he was taken to Bay City by Hon. Wm. D. Stillwell. After looking over the needs of Bay City and Garibaldi he went to Nehalem to look after the interests of that place. Mr. Hermann returned to the Bay on Sunday and was taken out over the bar by the Steamer Scotia which had just arrived at Hobsonville. He took soundings on the bar with his own hands and found from 18 to 24 feet of water.

On Sunday evening Mr. Hermann returned to Tillamook and an informal reception was given at M. H. Larson's hotel and an excellent supper was enjoyed, after which speeches were made, and the Congressman gave an outline of what had been done in Congress in the way of river and harbor appropriations, and especially those that appertained to Oregon. He spoke of the urgent needs of Tillamook and Nehalem bays and was confident they would receive proper attention at once.

On Monday morning Mr. Hermann, in company with U. S. Deputy Surveyor A. P. Wilson and Hon. Wm. D. Stillwell, took a boat and visited Dry Stocking bar, and it is thought that the examination made will lead to some effective improvements on this bar.

The distinguished visitor left for Nestucca on Monday in company with Hon. J. W. Maxwell and a thorough examination of the resources of that country and of Nestucca Bay will be made. That bay will receive improvements in due course of time, and the data gathered by Mr. Hermann now will be useful when that time comes.

Mr. Maxwell will accompany him to Sheridan, from which place he will proceed to visit other places in the state.

Mr. Hermann was greatly surprised at the wonderful development in this country since his visit here four years ago and is much impressed with the magnificent resources of the country, and especially with the importance of improving Tillamook Bay and bar.

WOODS.

Fine warm weather, but cool nights. Harvesting and threshing are over; crops good.

The honey crop is not large this season, but quality and price good.

Woods is growing steadily.

Krebs Brothers have manufactured a large amount of lumber this summer, but the demand has been equal to the supply.

Mr. Virgil is now at work on his new residence, with Mr. Plank as assistant.

G. W. Steele and E. Osborne are building a house for Leonard Krebs.

Frank Norberg is also putting up a house this fall.

Lester Ray has just built a new barn for John Krebs.

Postmaster Booth has added a wood-house to his premises.

Dr. Linton's little three year old girl has been very sick for several days.

Joseph Wood and wife have gone to Walla Walla on a visit of several weeks.

Harrison Booth has moved to town again, and is keeping hotel.

The merchants of this place are getting their goods by way of Sheridan this fall.

WOOD WANTED.

"It is a cold day when we get left" but we do occasionally get left on wood, and it is generally a cold day when that happens; so you that would (no pun intended) like to trade wood for subscriptions, bring along your spruce limbs and subscribe for the HEADLIGHT or pay up the old score.

For Sale—Figs.

I have for sale ten pigs, fine stock; three weeks old. Call soon.

Bar View Addition to Bay City!
Choice Location.

This tract has a slightly location, is practically level, is clear except a beautiful grove in the center which has been made into a park, and is centrally located, fronting the Bay. The view of the Bay is grand.

A magnificent drive has been constructed on the gravel beach in front of the property and the new wharf extends from here to deep water. Several new buildings have gone up here and several more in process of construction. Streets being worked.
