Several parties have been annoyed by  
receiving anonymous letters of a scurri-  
ous nature through the mails. It takes  
but little wit and small courage to make  
such stabs in the dark, but they make a  
heap of trouble sometimes, and quite  
often for the writers thereof when Uncle  
Sam's P. O. detectives get on their trail.

John Olesen alleged that Wilbur Still-  
well, Jake Graham and a fisherman  
known as Bristol Bill committed an  
assault on him Sunday night at the Bay.  
They were arrested and brought before

well's case was dismissed. After a long  
and comical trial the others were ac-  
quitted.

Rev. Father Desmarais has just return-  
ed from his missionary tour to Woods  
and the Nestucca district. He is delight-  
ed with the spiritual progress achieved  
and his faithful flock, and found that all  
the children had regularly attend the  
Sunday school class presided over by  
Miss Katie Yaenk. The Rev. Father  
said that the Catholic ladies of Woods  
were highly deserving of his praises for  
the beautiful temporary altars erected in  
the residence of Mr. John Krebs and  
Mr. Alderman. Rev. Father Desmarais  
was delightfully surprised on his return  
to Tillamook. On entering his residence  
his eyes lit up with glee when he beheld  
his apartments so handsomely decorated  
and furnished during his absence by the  
kind and generous hearted ladies whose  
names have not yet been divulged for  
humility's sake. The Rev. Father wishes  
to express through our columns his  
gratitude to all parties who may have  
co-operated in giving him such a lovely  
surprise. Divine service will be held in  
the Catholic Church at 10 A. M. every  
Sunday until further notice is given.

Our cooler has an inmate in the person  
of Herbert Cline, who was arrested Mon-  
day morning and tried and convicted of  
the crime of embezzlement. The charge  
was brought by a Mr. Birt of the B. C. &  
Tillamook Telegraph Co. The amount  
of shortage according to the prisoners  
own statement is \$9.70. Since his in-  
carceration the prisoner claims that  
there has been no settlement of his ac-  
count with the Co. and that the sum he  
has been convicted of embezzling is more  
than covered by wages due. The accused  
was sentenced to pay a fine of \$25.00 but  
lacking that sum was remanded to jail  
for thirty days or until fine is paid. The  
prisoner claims that his prosecution is a  
spite action, brought for the purpose of  
cutting him out of his position in the  
Co., an threats to make some startling  
disclosures which will let some light in  
on the methods whereby so short a line  
as that of B. C. & Tillamook Telegraph  
Co., is made to cost some \$5,000.

LATER.—We learn that Cline's counsel  
has moved and obtained a new trial and  
the accused has been released on bail, M.  
D. Cavanaugh furnishing bonds.

IS IT ON THE LIST?  
Ammonia and Alum in Baking Powders.  
How to detect them.

In view of what the Minnesota Senate  
has done, it is hoped that legislative  
bodies in other states will soon take up  
the subject of food adulteration. The  
subjoined list of baking powders contain-  
ing ammonia and alum, compiled from  
official reports and published in a recent  
number of the Scientific American, is  
given below. "It deals in a direct man-  
ner with an evil which must be cut down,"  
said the Chicago Tribune in commenting  
on the Scientific American report. Fol-  
lowing is the list of ammonia and alum  
baking powders.

Compiled from Official Reports.  
Powders marked with a star seem to  
have a general sale, as they are mention-  
ed in at least two of the reports.

Above diagram was drawn and verified in all its details, by Prof. Peter Collier, who is pre-eminent as a Chemist, and Scientist. The illustration is made in accordance with his chemical tests of each brand enumerated.

The Carbonic acid gas was calculated to get the leavening strength and the quantitative analysis to ascertain the comparative wholesomeness, purity, and general usefulness of the leading Powders. The result of Prof. Collier's examination and test, reveals the fact, that, with but one exception, every brand tested contained either Ammonia or Alum, and a number both.

Not one woman in ten thousand would use an Ammonia or Alum Baking Powder if she knew it. Such Powders not only undermine the health, but ammonia imparts a sallow or blotched complexion.

NOTE.—Dr. Price's Cream Baking Powder, as shown by Prof. Collier's examinations, is the only pure Cream Tartar Powder found free from adulteration and the highest in strength. All authorities report Dr. Price's free from Ammonia, Alum, Lime, or any other adulterant. The purity of this ideal Powder has never been questioned.

\* Indicates the Powder containing either Ammonia or Alum.  
\*\* Indicates the Powder containing both Ammonia and Alum.

While the diagram shows some of these Ammonia or Alum Powders to be of higher strength than others classed below them, it must not be taken that they possess any value. All Ammonia or Alum powders should be avoided as dangerous, no matter how high their strength.
