Local notices, notices per line, and sets, after the first insertion, only sets per line for first insertion for regular advertisements.

Lost, Found, For Rent, For Sale, Wanted, and Special notices, in classified "ad" columns, at the rate of one cent per word for first insertion and half rates thereafter.

Legal notices, Nonpareil, sets per line for first insertion and sets per line for each subsequent insertion.

All local notices will be "starred" or otherwise designated as advertisements.

No special position will be agreed upon for any advertisement, though we take special pains to display advertising matter effectively and give as favorable position as possible, frequently changing the "make-up" of the paper.

We make a special effort to change or re-build advertisements as often as our patrons desire, but make no contract to that effect.

No cuts will be used, except out-line cuts on metal bases.

We reserve the right to reject any advertisement that we deem objectionable.

Terms: Cash in advance for small advertisements, and payment is required monthly or quarterly on large contracts.

TILLAMOOK, ORE., JULY 21, 1892.

The only hope of the Democracy this year, as is freely admitted by the leaders, is to get as many Republicans as possible to vote the People's ticket, and perchance, by this, carry some of the northern states for the Democrats, or for the People's party, and throw the election to the House of Representatives, in which case Cleveland would be the choice. However, the third party movement does not appear as strong as anticipated, and the chances of Harrison's election seem the best of any of the candidates.

Senator J. W. Maxwell, of Tillamook, was in St. Helens on Wednesday last, looking after the interests and wants of his constituency. Mr. Maxwell seems favorably inclined toward the repeal of the exemption for indebtedness law, but would not advocate such a measure in opposition to the wishes of his constituents. He is very enthusiastic over the efforts being made by the newspapers to bring about the modification of our present road system, and also expressed a desire to see the assessment law amended to some more satisfactory manner. Mr. Maxwell has been a member of the Oregon Legislature before, consequently he may be able to secure some valuable legislation during the coming four years for which he has been elected by Columbia, Washington and Tillamook counties.—St. Helens Mist.

According to the Oregon City Enterprise, R. R. Hays and J. R. Markley have completed the present owner book of Clackamas county and have shown up 95,000 acres of land and 12,000 town lots that have not been assessed, the total value of which, at the lowest estimate, foots up to \$733,000, and they have received for their work \$15,09 and 1/4 per cent on the amount named, making in all \$12,500. It is considered there as a good investment by the county, as the taxes collected for this year will be increased by about twice what was paid for the work, to say nothing of what will be gained hereafter, and the assessors books can be kept straight. About 19,000 acres were found to be doubly assessed. Hays and Markley are still at work on the Multnomah county records.

The trouble is, that the great political parties hearken to the capitalists and office-seekers more than they do to the producing population.

The strikers have committed some serious depredations in their fight, but they have been driven to desperation. War is always accompanied with disaster.

The alleged high prices paid to a few skillful superintendents are mentioned only to mislead. The average wages are less than \$2.00 per day, and the majority receive less than \$1.50.

The political system that enables a few men to accumulate all the property and enslave all the balance of the people, is what the workingmen are battling against. It isn't so much the particular instances as the general principles which are involved.

A great conflict is near at hand unless the political system is radically reformed. This nation has won its victories and preserved its autonomy only with the help of the industrial classes. It would be a slim army without these people in the ranks, and a formidable enemy that has their help.

Let John Sherman and other sage financiers and politicians turn their attention to the great difficulties that confront us. That the whole political system is radically wrong, is very patent. The proper and adequate remedy, we shall not attempt to suggest, nor can we think of any feasible plan to alleviate the difficulty, but some of our astute statesmen surely can devise a means of relief if they will tear away from the plutocratic influence of monopolies and get the warp out of their contracted ideas of justice.

A Chance for Composers.

In order to stimulate American composition, *The Ladies' Home Journal* has just made public an attractive series of liberal prizes for the best original musical composition by composers resident in the United States and Canada. The prizes call for a waltz, a piano composition, a pleasing ballad and a popular song, an anthem and the four best hymn tunes. The competition is open until November 1st, next. The opportunity has an additional attractiveness since the prize compositions will form part of a series for which Strauss is writing an original waltz, and Gounod and Sir Arthur Sullivan each an original song.

It is time to make active preparations for the Fair this fall.

There are some features about the Australian ballot system, as used in this state, that are very expensive and cumbersome. The law is good in the main, but needs revision badly.

All is quiet at the scenes of the riots in Homestead Pa., and in the Cœur D'Alene country, the troops being in possession at both places. It is thought, though, that if non-union men are put in now, that the trouble will begin again as soon as the troops leave.

Some may think we have exceeded the bounds of propriety in describing the doings of the harlot-mongers in this city, but some plain facts couched in un-mistakable phraseology, is just what is needed to awaken the people to a proper degree of indignation at the recent outrages against law and order.

Several patrons of the school here have urged us to advocate a continuation of the school during the summer months without a vacation. This seems to be the general desire of the people, and surely is the best plan, as the summers here are delightfully cool, while the winter weather is too bad for the little children.

Wilson, the murderer of Mamie Walsh, is trying hard to play crazy, and is confessing to be guilty of a great many murders in an incoherent way. He claims to know about the murder of Mrs. Scott, in Yamhill county, but nothing definite can be made from his story. Wm. Scott, the husband of Mrs. Scott, is serving a life sentence in the state prison for the crime, and claims he is innocent, so further developments are awaited with interest.

A careful estimate shows that the votes of Barnegat precinct cost over \$5 apiece, there being only thirteen of them, however, and the vote of the precinct even then did not materially change the general result of the county election, but the voice of the people must be heard, though it does cost a little something. The county foots the expense will not be quite so great, as the booths and ballot boxes will last for some time.

**DOOM THE TOWN.**  
Yes, boom the town, but be careful about fictitious values. The way to boom the town properly is to work for and make improvements, try to induce manufacturing industries to locate here, and secure thrifty and industrious settlers for the country. Advancing prices on town lots and farm property will not do it, but will kill the place as it has a great many other places. Beware of inflated values and visionary speculations, as they will give the town a setback from which it will be a long time in recovering. Don't try to push the town ahead of the country. Build up the country, and the town will take care of itself. Let us avoid the misfortune which has befallen our sister city on the bay. As in this case, a place which is advertised for more than there is in it at present, may take a mushroom growth at first, but investors are disappointed and go away cursing the place, and in fact giving the whole country a black eye. Don't base your values too far in the future. Keep improvements abreast of the prevailing prices. Boom the town, but do it on legitimate and business principles.

**THE GREAT QUESTION.**  
Why not protect labor directly as well as capital?  
General sympathy, regardless of party seems to be with the strikers. It isn't the workingmen vs. Carnegie, but the people vs. tyranny. As the masses become educated they realize and demand their rights.  
If it wasn't for the principles of protection, wages would be lower yet than they are.  
Why haven't the workingmen just as good a right to ride home
