He also recommends:

1. A change in the assessment law.
2. The abolition of useless commissions.
3. A law fixing maximum rates for railroad and telegraph companies.

Hotel-keeper Dineen, of Huron, S. D., has written to a priest in New York, saying he and his neighbors want a load of marriageable Irish girls shipped to Huron, where husbands are as plenty as blackberries in July.

About Forfeited Lands.

WASHINGTON, Jan. 10.—In both houses of congress efforts have been made to relieve persons who have claims upon lands forfeited within the railroad grants. Senator Dolph said today that persons not actually residing on their lands, and entitled to purchase forfeited railroad lands, should make entry and payment for their lands at once, and not depend on legislation extending the time. He has not succeeded in getting a report upon his bill in the senate from the interior department as yet, and is not sure of securing favorable consideration of the bill in the senate. He has learned from Mr. Hermann that there is no possibility of passing the bill in the house. He makes this statement to warn purchasers not to permit the time to expire without completing their purchases.

When the town of Grant's Pass was laid out the baiany proprietor reserved a 100-foot strip all around it, as a sort of wall which prevented the laying out of additions. This has remained private property to this time, except where it has been pierced by streets here and there, and it has now, of course, become valuable, but the city must have outlets across it as extensions of certain streets. How to get it without paying the owner full price for his property is what is now troubling the city council.

STATE AND GENERAL
CLIPPINGS AND CRISP CULLINGS CONDENSED.

The Cream of the News Skimmed for Our Readers.

Ben Butler died suddenly last week.
Tillamook has two callendar clerks in the legislature—A. W. Severance in the Senate and W. E. Baxter in the House.
Ex-President Rutherford B. Hayes died at his home in Fremont, Ohio, Tuesday night at 11.30, aged 78 years. He was president from 1877 to 1881.

The commitments to the penitentiary for the past two years by counties show that Multnomah sends the highest number, 309, and Tillamook the lowest, 1. Yamhill sent 12.

The R. P. Elmore arrived in from Tillamook Monday night with a full passenger and freight list. The American Packing Company's machinery from the Tillamook Packing Company at Hobsonville, was part of her cargo. She will deliver it to their cannery at Ilwaco.

The French Republic is almost ruined asunder with plots and counter plots. The Panama canal swindle has almost undone the nation. In many cases bankers deducted as high as 90 per cent bonus from the sums of money they advanced for the scheme. Government officials stood in, and the people of France had to foot the bills.

The president has issued a proclamation making a reservation of nearly all the Cascade range. The length of the reservation is 234 miles, and it contains 7020 square miles of land, mostly fine timber. This is done to prevent the timber falling into the hands of speculators too fast. The law authorizing the proclamation is an abomination however.

The prospect of getting logs down the Klamath river soon has been dissipated. Up where the company threw in so many logs when the storms began, the river and logs are all frozen up now. Mr. Marsh, who has charge of the river work of the Pokemama Mill Company, now thinks it will be the last of March and perhaps in May before the river will be in condition to run the logs down to the mill.

An Oregonian dispatch says that President Fulton is taking hold of the duties of his office in a way that promises well. His decisions are promptly and firmly made in a loud, clear tone of voice. A good instance was furnished when Veatch moved to dispense with the calendar clerk. "There is no second to the motion," promptly announced the president, "and we will at once proceed with the election of a calendar clerk."

There is a continual scarcity of choice dairy butter in medium sized packages. Most families prefer dairy to creamery, but it is a hard matter to find it of good quality. Some never was good, some was spoiled in handling, some was kept too long, while some has been spoiled by bad odors absorbed from too close contact with other substances. There is always a wide range of prices from the highest to the lowest, and it is difficult to believe that there was as wide a range in the quality of the milk at the start. Whence, then, arises the difference?

At a meeting of Alaska salmon cannery men in San Francisco on Monday, it was decided to combine permanently for mutual protection, and this week articles of incorporation will be filed of an association with a capital of \$6,000,000. W. B. Bradbury will probably be the secretary of the combination. The Alaska cannery men did better last season than in many years. The market was overstocked two years ago from the pack of the previous season, and the cannery men decided to combine and limit the pack in 1892 to about 400,000 cases. Old stocks were cleared off in England and canned salmon brought a good price. The pack this year will be limited to about 650,000 cases.
