THE DAIRY

THAT CO-OPERATIVE CREAMERY.

Clear Statement of What Is Absolutely Essential to Its Success.

I believe that where a private creamery has been successful a co-operative creamery can also be made so, but certain things are absolutely necessary.

First—The stockholders must have a good working knowledge of the dairy business; they must have good cows and take care of them and feed them.

Second—Enough milk should be guaranteed from the start to run the creamery to its capacity. The way to secure the milk is to take in as stockholders only farmers who milk their cows, not beginning business until enough cows are secured.

Third—A man who can make first class butter and cheese and who understands everything connected with the creamery business, from weighing the milk, taking samples and testing it to shipping the products, conducting the necessary correspondence and keeping the books. No matter how well the patrons do their part, if the man who makes up the milk does not understand his business they will lose money.

Fourth—The business must be conducted on business principles.

This quite often proves a stumbling block to the success of organizations of this kind. There are always a lot of fellows who think that because they own a share they ought to have a hand in everything that comes up connected with the business. A creamery cannot be managed successfully by a committee of the whole. A man should be placed in charge of the business who understands it, and he should have authority to conduct it according to his best judgment.

It is not wise to place the entire control of the funds in the hands of one man, but so far as the details are concerned let the butter maker attend to them. He knows more about handling the milk and cream and butter and shipping the latter than do the patrons and should not be hampered by unnecessary restrictions. The plan lately adopted by a number of co-operative creameries of sending some young man of the community to a good dairy school until he learns the business is a good one. A number of young men have been sent in that way during the past year.

The patrons of a co-operative creamery are paid for their milk whenever they so will it. The usual way is to pay once a month, using the Babcock test to determine what is due each one. The expense will depend upon the local conditions. It will cost $75 to $100 a month for a good butter maker, and he will need a cheap helper a part of the time. Butter makers can be had cheaper than that, but in the majority of cases they will lose more than their wages every month. It will pay to get the best man that can be had. He is the cheapest. Then the fuel, oil, salt, tubs, ice, hauling the milk, etc., can be figured at local prices.

In regard to constructing the building and putting in the machinery, figure on who will do it the cheapest. Find what the agent wants for putting up the building, then get local builders to figure on it. See what the agent asks for putting in the machinery, then get prices from other supply houses for the same. If the people are ready to build a creamery, there is no need of a thousand dollar agent as a go between.—Henry C. Wallace in Breeder's Gazette.

Test That Milk.

With the use of the Babcock machine any ordinarily intelligent dairyman can accurately tell the value of his cows, his milk and cream, also the value of the different food consumed. He can also tell, if he runs a home dairy, if he is getting out all the butter in the milk, what per cent butter fat he leaves in the skimmilk and the butter milk, as well as tell the value of the first milking and of the stripping which the different milkman or milkmaid leaves in the udder. He can also tell, if he takes his milk to the creamery, if the creameryman is testing the milk honestly.

It is surprising after using a Babcock machine to ascertain that milk from cows of the same breed, same farm, same care and treatment, will vary just double in the per cent of butter fat, and very often in those animals where it was least expected. It is also surprising to learn the difference which the food and the care and treatment of the cows will make in the per cent of butter fat. It is therefore a decided fact that we cannot profitably or with good judgment buy or sell cows, milk or cream or feed our cows without the use of a Babcock tester.—W. M. Beniger in Practical Dairyman.

Dairy and Creamery.

Creamery men and dairymen everywhere ought to combine in one determined effort to rid America of oleomargarine. They should give their law makers no peace till the thing is done. If the law makers refuse to heed, let them hear something drop at the next election.

A creameryman who uses the De Laval lactocrite test says that he much prefers it to any other method in use for showing the amount of butter fat in milk. With the lactocrite he declares he can test 12 samples in five minutes.

The machinery of the Blythewood dairy, Essex, England, is run entirely by electricity. Why do not some of our American creameries try the same motive power where it can be obtained cheaply?

Professor Cooke says that the odor from ensilage is caused by a gas that passes off in the feeding. It it get into the milk it is because the milker is careless and has allowed the gas to cling to his clothing. He says further that corn when shocked in the field heats quite as much as ensilage does, but in this case the gas passes off into the air. Farmers get more value out of an acre of corn preserved in silo than in any other way.

HOW TO DARN STOCKINGS.

A Useful Bit of Knowledge For the Fair Sex.

If there be a secret to successful darning, it lies in "running" the thread of the darning cotton so far on each side of the hole that it does not immediately fray and pull out of the goods. Take a long thread of darning cotton to begin with and run it at least half an inch along the goods on each side of the hole. Continue this until the hole is snugly covered. Now cross these threads in the regular darning style, taking care that the same precaution is observed. A stocking darned in this way will wear, as far as the darning is concerned, just as long as though no hole had ever existed.

To darn very large holes, such as are apt to occur with even the most careful steppers when shoes are loose at the heels or are ill fitting, something more than a thread of darning cotton is necessary. A case like this requires a patch. Such holes almost always occur in the heel, so that in treating of the method of mending them it is safe to take the heel for a model.

From the leg of an old stocking, such as is sure to be found in your basket, cut a kite shaped piece of goods about 5 inches long and 4 inches across. Turn the stocking wrong side out and lay the kite upon the heel, so that the long pointed end runs up the back of the leg and the lower rounded part is at the base of the heel. "Run" down the center of the kite with a stout linen thread, taking rather large, loose stitches. Now "run" in the same way across the kite shaped piece, letting the thread be very slack. The next step is to sew the patch tightly to the heel, which is done by stitching it around the outside. If deftly done there will be neither wrinkle nor crease to tell the wearer that so important an operation has taken place upon the heel of the stocking.

Patches that are made of material other than bits of old stockings are apt to be harsh. And it is by their use that the patched stocking has fallen into disrepute among comfort loving people.

How to Become a Wing Shot.

First of all, practice the art of bringing the gun quickly to the shoulder so that it will be exactly in line with the eye. After proficiency is attained the rest is simple. Fix your eye intently upon the flying bird. Then bring the gun into position, and if your practice in this line has been good when you pull the trigger the bird will drop.

How to Treat Convulsions.

Strip the child as quickly as you can and put it into a hot bath. Use your elbow as a test. If your elbow can stand the temperature of the water, then you can safely put the child in, after doing which gently pour cold water on the head. This should stop the convulsion in a few minutes. In any event, an injection of warm water and soap should always be given. If no relief is obtained by these measures, put a mustard plaster, made with one part mustard and three of flour, up and down the spine, being careful not to blister. Vaseline the surface after taking off the plaster. Always send promptly for a physician, as treatment is required after the convulsion is over. Keep the child quiet.

How to Make Paper Waterproof.

Dissolve 1 4-5 pounds of soap in a quart of water, and the same quantity of gum arabic and 5½ ounces of glue in another quart of water. Mix and warm the solutions, soak the paper in the liquid and hang it up to dry.

How Sap Rises In the Leaves.

To a great degree, it is the result of a mode of diffusion which has been called endosmose. Water largely evaporates from the leaves; it flies off into the air as vapor, leaving behind all the earthy and the organic matters—these not being volatile. The sap in the cells of the leaf therefore becomes denser, and so draws upon the more watery contents of the cells of the stalk, these upon those of the stem below, and so on from cell to cell down to the root, causing a flow from the roots to the leaves, which begins in the latter, just as a wind begins in the direction toward which it blows.

How to Make a Substitute For Fire Brick.

A good temporary substitute is made by mixing one part of salt with two of coal ashes, wet with a little water. It hardens in a few hours.

How to Care For a Paintbrush.

Never leave it standing long in the paint, nor allow it to dry before being washed. One used frequently may stand in water or oil, but one seldom needed should be thoroughly washed after each using. Brushes often washed may be cleansed in soda dissolved in cold water, then placed brush end up to dry. A brush washed but once or twice a year is cleaned best by rubbing it well with soft soap in warm water. A little turpentine will remove all paint. The brush is then rinsed and the bristles straightened and shaken so they will not dry together.

How to Mend Rubber Hose.

Cut the hose apart where defective, force the ends over a piece of iron pipe ten inches long and wrap with well waxed twine.

How to Compute Interest Quickly.

Set down the number of months, to the right of which, with a decimal point between, put one-third the number of days, then multiply by one-half the principal, and the result will be the interest at 6 per cent. Thus, the interest on $500 for 3 years 4 months and 12 days will be $101, as follows: Taking the number of months (40) and setting one-third the number of days (12) to the right, with the decimal point between, there results 40.4. Multiplying this by half the principal ($500) we get 40.4×250=$101, which is the required interest.

How to Cut Warm Bread, Cake or Pudding.

Always use a warm knife. If the knife be buttered before cutting a rich pudding it will slip through easily and cleanly.

IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR THE COUNTY OF TILLAMOOK.

Johannes Wahlert, Pltff., vs. Thomas Mansheim, and Joseph Green, Defts. } Notice of Sheriff's Sale.

Notice is hereby given that by virtue of an execution duly issued out of the above named court on the 13th day of July 1893, to enforce a judgment against the above named defendants and in favor of the above named plaintiff, and to me directed and delivered as sheriff of Tillamook county, Oregon, and commanding me to sell the following described real property, belonging to said defendant, Joseph Green, to satisfy said judgment, to-wit: the sum of $252.95 and 25.45 interest and the further sum of $18.25 costs and accruing costs, to-wit: the S E ¼ of Sec 20, Tp. 1 N, R 6 W, of the Willamette Meridian in Tillamook County, Oregon. Now therefore after due levy having been made by me upon said premises and by virtue of said execution and order of sale, I will sell at public auction for cash in hand, at the court house door at Tillamook, in Tillamook county, Oregon, at the hour of 10 o'clock in the forenoon, on the 26th day of August, 1893, said described land or premises as aforesaid to satisfy said judgment and costs and accruing costs.

Given under my hand this 24 day of July 1893.
J. D. EDWARDS,
9-13 Sheriff of Tillamook Co., Ore

IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR TILLAMOOK COUNTY.

Ida M. Brown, Plaintiff, vs. Frank Brown, Defendant. } Suit for Divorce.

To Frank Brown the above named defendant.

In the name of the State of Oregon: You are hereby required to appear and answer the complaint of the above named plaintiff herein filed against you, by the first day of the next ensuing term of the above named court towit: the 28th day of August 1893

The defendant will take notice that if he fail to appear and answer said complaint the plaintiff will apply to the court for a degree disolving the marriage contract between plaintiff and defendant; awarding to her the custody of her minor child Henry C., changing her name to Ida May Hald and for general equitable relief.

This summons is published by order of Hon. Geo H. Burnett, Judge, made at chambers at Albany, Oregon, July 5th, 1893.

T. B. HANDLEY,
6-11 Pltf's Att'y.

IN THE CIRCUIT COURT FOR THE STATE OF OREGON, FOR THE COUNTY OF TILLAMOOK.

Blanche Moody, Plaintiff, vs. Francis H. Moody, Defendant.

To Francis H. Moody, Defendant:

In the name of the state of Oregon, you are hereby required to appear and answer the complaint filed against you in the above entitled action by the first day of the next regular term of said court, to-wit: Monday, August 28, 1893, and if you fail so to appear and answer the plaintiff will apply to the court for the relief demanded in the complaint, to-wit: That the marriage contract between plaintiff and defendant be dissolved and that she has the custody of her minor child and for general relief in equity.

Order for publication of this summons was dated June 17, 1893.

Dated June 13, 1893.

VAN BUREN BROMLEY,
Attorney for Plaintiff,
5-11 Bay City, Ore.

NOTICE FOR PUBLICATION.

Land Office at Oregon City, Oregon, July 31 1893.—Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the County Clerk of Tillamook County, at Tillamook, Oregon, on September 20, 1893, viz:

Daniel R. Hurlburt,

Homestead No. 9244, for the lot 2 and e ½ of s w ¼ and s w ¼ of s e ¼, s 30, tp. 1 s, r 10 w.

He names the following witnesses to prove his continuous residence upon and cultivation of, said land, viz:

NOTICE OF SHERIFF'S SALE

FOR DELINQUENT TAXES FOR THE YEAR 1892 FOR TILLAMOOK COUNTY, STATE OF OREGON.

Notice is hereby given that by virtue of a warrant issued out of the county court of the county of Tillamook, State of Oregon, and to me directed and delivered as Sheriff and Tax-Collector of Tillamook, Oregon, commanding me to levy upon and sell the goods and chattels of the delinquent tax-payers and if a sufficient amount cannot be found then upon the real property as set forth in the delinquent tax roll of said county or a sufficient amount to satisfy the amount of taxes charged against the delinquent tax payers, together with costs of levy and sale, situated in Tillamook county, Oregon, and described as follows, to-wit:

Evans Edward, s½ of n e ¼, section 22, tp 2 n, r 9 w, $6 60.

Bell Edith, lot 5, sec 4, tp 2 n, r 10 w, $2 64.

Briggs Thomas, lots 1, 2, 3, 4 and 5, sec 18, tp 3 n, r 10 w, $7 92.

Beesly Ella F., w ½ of se¼, se¼ of sw¼, sec 8, and ne¼ of nw¼, sec 17, 1 s, 8 w, $12 67.

Beswick Nellie, all of blocks 2, 3, 4, 5, 6, 7, 8, 9, 10, 12, 13, 14, 15, 16, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, in the town of Liverpool, $16 16.

Cronen Daniel, H. C. Bunick, L. E. Snell and Hugh McCourt, all of blocks 5, 6, 9, 10, 11, 15, town of Pacific Harbor, $24 07.

Moore Joseph, s½ of ne¼ and n½ of se¼, sec 25, tp 2 n, r 10 w, $9 24.

Rose Amon, s½ of ne¼ and nw¼ of se¼ and ne¼ of sw¼, sec 23, tp 2 n, r 10 w, $10 00.

Murray John C., sw¼ of se¼, sec 12, and ne¼ of nw¼ and n½ of ne¼ sec 13, 1 s, r 8 w, $13 20.

Murray Mrs. Gertrude E., e½ of se¼ and nw¼ se¼, and se¼ of ne¼, sec 13, tp 1 s, r 8 w, $13 20.

Schirf Giles, s½ of se¼ and se¼ of sw¼, sec 14, tp 1 s, r 8 w, $57 88.

Kinney W. S., lots 4 and 5, sec 36, tp 3 n, r 10 w, $6 60.

Crenshaw Leonard, se¼ sec 36, tp 1 s, r 8 w, $8 08.

Crenshaw Maria M., se¼ sec 2, tp 2 s, r 8 w, $1 20.

Rankin John H., w½ of w½, sec 33, tp 1 s, r 8 w, $15 96.

Barnhart J. M. or S. J. Signor, se¼ sec 16, tp 2 s, r 8 w, $26 40.

Laybourn Geo. R., se¼ of se¼, sec 10, and n½ of ne¼ and sw¼ of ne¼, sec 15, tp 2 s, r 8 w, $22 70.

Hoffman Ira S, ne¼ of sw¼ and nw¼ of se¼ sec 16, tp 3 s r 9 w, $4 22.

Shulson Antone (or Shulsen), Begin at n w corner of ne¼ of nw¼, sec 18, tp 3 s, r 9 w, running s 80 rods, thence e 35 rods, to a stake marked "se¼," thence 80 rods in a northerly direction to a stake marked "ne¼," thence w 34 rods on sec line, sec 18, tp 3 s, 9 w, $2 11.

Thompson R W, n½ of sec 16, tp 4 s r 10 w, $16 90.

McCarthay J, se¼ of se¼, sec 36, tp 4 s, r 10 w, $2 11.

Daws Fred, se¼ of nw¼, ne¼ of sw¼, and lots 5 and 6, sec 6, tp 4 s, r 10 w, $7 92.

Hansen J M, Lot 1, and n e¼ of nw¼, and se¼ of nw¼, and sw¼ of ne¼, sec 32, tp 4 s, r 10 w, and lot 9 sec 31, tp 4 s, r 10 w, $9 90.

Werner C E, e½, sec 29, tp 5 s, r 9 w, $8 92.

Sawdey M, s½ of ne¼ sec 17, tp 5 s, r 10 w, $4 22.

Stackney E, se¼ of se¼, sec 16, tp 5 s, r 10 w, $2 11.

Webb Nellie, w½ of se ¼, and e½ of sw¼, sec 10, tp 5 s, r 10 w, $8 45.

Bowers M A, w½ of nw¼, and se¼ of nw¼, sec 16, tp 5 s, r 10 w, $5 06.

Arnold Lucy, lots 5 and 7, 40 chains off n end of lot 12, containing 17.11 acres, also commencing at the s w corner of lot 5, thence n 13 degrees, e 3.50 chains, thence n 20 degrees 30 minutes, e 6 chains, n 80 degrees 15 minutes, w 6 chains, w 3.50 chains, s 30 degrees 15 minutes, e 7.40 chains, s 25 degrees 15 minutes, w 8.22 chains, e 1.25 chains to place of beginning, containing 1.07 acres. Also beginning at a on se corner of the Lucy Arnold Mill tract, thence westerly 467 feet, southerly 280 feet, thence easterly 467 feet, northerly 280 feet to place of beginning, containing 3.00 acres in all, sec 6, tp 5 s, r 10 w, $2 64.

Rogers Miles V, lots 5, 12, 17, sec 24, and lot 28, sec 13 tp 5 s, r 11 w, $3 96.

Macklin Daniel, w½ of sw¼, se¼ of sw¼ sec 13, and se¼ of se¼, sec 14, tp 2n, r 9w, $1 20.

McNerly William A, ne¼, sec 25, tp 2 s, r 9 w, $10 56.

Ault Arlington, w½ of se¼, se¼ of sw¼, and lot 4, sec 23, tp 2 s, 9 w, $10 56.

Aiken D M, w½ of sw ¼, sec 13, e½ of se¼, sec 14, tp 2 s, r 10 w, $10 56.

Hotaling A P, ½ interest in following described parcel of land in Pre L C of B A Bayley, in sec 22, tp 1 n, r 10 w, bounded by: begin at, nw corner of a tract of land sold by B A Bayley out of the sw corner of the aforesaid fractional sec 22 and now owned by the Est of B Easterbrook, deceased, and running thence n to the nw corner of said lot 1 of sec 22, thence e along n boundary of said lot 1 to a point from where a line drawn s will include in their bounds 20 acres, thence s to the waters of Tillamook Bay, thence westerly with the meander of said bay and boundaries of the aforesaid Easterbrook tract to place of beginning, cont 20 acres, sec 22, tp 1 n r 10 w, $7 92.

Handley Charles, se¼ of se¼, sec 11, sw¼ of sw ¼, sec 12, nw¼ of nw¼, sec 13, and ne¼ of ne¼, sec 14, tp 1 n, r 10 w, $11 48.

Chatterton Chas, lots 7 and 8, block 1 Stillwell's add to Tillamook, $3 94.

Himes William J, nw¼ of sw¼, and sw¼ of nw¼, sec 17, and s½ of se¼, sec 18, tp 1 n, r 7 w, $14 76.

Day J G, beginning at a point 60 feet s of sw corner of block nine, Town of Tillamook, thence s 500 feet, w 436 feet, n 400 feet, e 245 feet, n 100 feet, thence e 255 feet to place of beginning containing 4½ acres less ½ acre off to L G Barroue, $17 75.

Day Mary J, beginning at the nw corner of a piece of land sold by W D Stillwell to H R Day, thence w 348½ feet, s 500 feet, e 348½ feet, thence n 500 feet to point of beginning, containing 4 acres, $18 51.

Abercrombie L R, lot 1 and 2 block 24, Thayer's add, $8 28.

Draper A M, lot 2, sec 15, tp 1 s, r 10 w, $ 84.

Fradette John A, sw¼ of nw¼, and ne¼ of sw¼ and lots 2 and 3, sec 28, tp 2 s, r 9 w, $10 56.

Now therefore after due levy and by virtue of said warrant I will sell at public auction, for cash in hand at the court house door at Tillamook, in Tillamook county, Oregon, on the 12th day of August, 1893, at the hour of 10 o'clock, in the forenoon, of said day, the above described real estate, or so much thereof as shall be necessary to satisfy the amount of taxes charged thereon, together with costs and expenses of levy and sale.

Given under my hand this 17th day of July 1893.

JOHN D. EDWARDS,
Sheriff and Tax-Collector of Tillamook County, Oregon.

NOTICE.

Notice is hereby given that I, G. O. Nolan, Secretary of the Tillamook County Fair Association, by authority vested in me by the laws of said Association, will offer at public sale, at my office in Tillamook City, on August 12, 1893, at one o'clock P. M. of that day, for cash to the highest bidder, the following shares of Capital Stock of the Tillamook County Fair Association for assessments now due on the stock:
