VOORHEES' BILL.

A DECLARATION IN FAVOR OF Bimetallism.

Directs the Repeal of the Silver Purchase Act.

WASHINGTON, Aug. 18.—The senate was presided over today, in the absence of the Vice-president by Senator Harris. Voorhees gave notice that he would call up his bill and address the Senate Tuesday. The full text of the bill reported by the majority of the committee is: "That so much of the act approved July 14, 1890, entitled 'An act directing the purchase of silver bullion and the issue of treasury notes, and for other purposes,' as directs the secretary of the treasury to purchase from time to time silver bullion to the aggregate amount of 4,500,000 ounces, or so much thereof as may be offered in each month, at the market price therefor, not exceeding \$1 for 371.25 grains pure silver, and to issue in payment for such purchases treasury notes of the United States, be and the same is hereby repealed. And it is hereby declared to be the policy of the United States to continue the use of both gold and silver as standard money, and to coin both gold and silver into money of equal intrinsic and exchangeable value, such equality to be secured through international agreement or by safeguards of legislation, as will insure the maintenance of a parity in the value of coins of the two metals and the equal power of every dollar at all times in the markets and in the payment of debts. And it is hereby further declared that the efforts of the government should be steadily directed to the establishment of such a safe system of bimetallism as will maintain at all times the equal power of every dollar coined or issued by the United States in the markets and in the payment of debts."

Another Scheme.

WASHINGTON, Aug. 18.—Of the many financial schemes proposed to speedily relieve the stringency in money, the one regarded by treasury officials as the most practicable is that to authorize the secretary of the treasury to issue currency against the seigniorage or profit upon the coinage of silver bullion in the treasury. There are now 130,000,000 ounces of silver, but under the act of 1890, and notes issued against the seigniorage on that amount would add nearly \$50,000,000 to the circulating medium. A large proportion of the notes are already printed, and could be put into circulation, it is said, the day after congress authorizes the secretary to act.

Torture Dance at the Fair.

CHICAGO, August 17.—Thousands of people lined the edge of the grand basin at the world's fair tonight and watched four Quakiah Indians undergo the torture dance. The horrible ceremony took place on a float in a center of the basin. The four braves who underwent the dance had things passed through strips of flesh cut in their backs. Other Indians took the loose ends of the things and using them as reins drove the others around the float as if they were driving horses, causing the most exquisite agony. Finally the things were pulled entirely loose, tearing the flesh and causing the blood to flow. One of the Indians lost his reason because of the awful pain and suffering. He sprang upon Interpreter Ford and fastened his teeth in his arm, and hung on until the united strength of several men was necessary to open his jaws. He will recover his reason in a little while.

Forest Fire endanger a Town.

SONORA, Cal., Aug. 18.—An immense forest fire broke out north of Jamestown yesterday, burning west directly toward this town. The fire surrounds Sonora on the north, east and south sides and is still burning fiercely. Hundreds of cords of wood and much fencing have been burned, besides a great area of standing timber. Farmhouses and barns so far have escaped. The fire is supposed to have been started by the carelessness of Yosemite tourists. Large parties of men are out checking and back-firing. Through herculean efforts the fair grounds and pavilion were saved.

Recording Deeds.

OLYMPIA, Wash., Aug. 16.—The supreme court has affirmed the decision of Judge Gordon in holding as unconstitutional the law which provides that the auditor shall refuse to receive or record any deed of real property unless it is accompanied by a certificate from the treasurer that all taxes heretofore levied and which have become a charge upon said property have been fully paid and discharged. The supreme court holds that the effect of such a law would be to compel men to buy justice, that such a law interferes with the transaction of ordinary business and is not necessary to enforce the collection of any lawful demands due the state. While this law would compel the payment of just de-

mands in probably a majority of instances, the fact that it would also compel the payment of illegal claims in some cases, thus resulting in greatest injustice, condemns it. In nothing is the state more vitally interested than in the fulfillment of constitutional guaranty of protection to life, liberty and the property of citizens. The decision has been awaited with interest by people of every county in the state.

Durability of Cedar Shingles.

There was brought into the Reveille office yesterday a red cedar shingle taken from the roof of the old Fort Bellingham blockhouse. It was put on and has been doing duty every day since early in 1858. It was laid five and a half inches to the weather and does not show the least sign of decay at any point. The part exposed to the weather is a little less than half worn through by the force of the water and now presents a surface containing eighty-five narrow grooves or spouts where the softer part has gradually and slightly washed between the harder ones, indicating each year's growth. To all appearances the old roof is good for another thirty-five years. Historically this old shingle was put on under command of Captain, afterwards rebel Gen. Fickett, in making fortifications against the Northern Indians.—Whatcom Reveille.

The Kind Hanked After.

The crying need of the age is a dollar easy to get and hard to let go; a dollar that will pay four dollar's worth of debts and then come back by means of a string attachment; a dollar that snuggles easily in the sock of John Smith, but withers like the manna of old in the safe of a railroad president; a dollar that will buy some flour and meat while it buys much whisky and tobacco; a dollar above drawing interest and yet will double itself while the owner sits in the shade and spits at a crack in the pavement; a dollar that will circulate without depreciation when nobody wants it; a dollar that will buy shoes for baby while it buys fun for a man in places where he can't take his wife; a dollar which will surely repair the waste of sloth, appetite and bad judgment; a dollar that comes to the lap of indolence like worms to the craw of a featherless robin; a dollar able to remove the sentence pronounced upon Adam, reverse the order of nature and transform the natures of men. This, little children, is about the sort of a dollar wanted, as we glean from perusing our able and esteemed contemporaries and to provide such a dollar is the job before congress.—Tulare Register.

Justifiable.

"Prisoner, you are charged with aggravated assault and battery. How do you plead, guilty or not guilty?"
"Not guilty, your honor."
"Do I understand that you deny having hit the plaintiff over the head with your cane, knocking him down, rolling him in the gutter, stamping on him and ill-treating him in the manner charged in the indictment?"
"O, your honor, I don't deny that; but I claim that I had ample provocation and that the retaliation I took was perfectly justifiable."
"Indeed? What was the provocation?"
"Why, your honor, the plaintiff had just returned from Chicago."
"Well, what of that? Is that any reason why you should abuse him in that fashion?"
"Not at all, your honor, but you see he began to tell me what he had seen at the world's fair."
"Is this statement true?" asked the judge, in a stern tone, turning to the plaintiff.
"Yes," was the admission given in a shamefaced manner.
"Then I do not see that the case need go any further. Prisoner, you are discharged. The costs are placed on the complainant."—Judge.

Editors all Know Him.

He doesn't subscribe for your paper because:
He has more papers now than he can read.
He has no time to read except nights and his eyes are so poor that he can't see then.
He can't afford to take all of them, so he takes none.
He can get a city weekly four times as big as yours and the same price, and "its got lots of readin' in it too."
He doesn't like the politics of the paper.
His neighbor takes it, and he takes the other one, and they, they kinder change off, you know.
He got mad at the editor seven or eight years ago, and wouldn't take the paper if it was the last one on earth.
He likes to see a paper that has sand enough to be on one side or on the other, and not to be on the fence all the time.
"Ef I wuz runnin' a paper, by hokey! Id, I'd, —Ex.

English-speaking people have the best foreheads and eyebrows.

By the Emancipation Proclamation 3,895,172 slave were freed.

About 12,000 men went to work in the Pittsburg steel mills which resumed work Monday.

About 60 per cent of the copper produced in this country comes from the Lake Superior region.

Three and a half millions of foreign gold were landed in New York Thursday. The flow this way has become nearly continuous.

Susan B. Anthony declares that saloons are increasing at the same time that women are receiving more of their rights. No one else would dare to say so because of unpleasant inferences.

Dr. St. George Mivart, whose speculations upon the possibility of "happiness in hell" have aroused so much interest in scientific circles, is still in middle life and gives promise of further work.

In the manufacturers of Great Britain alone the power which steam exerts is estimated to be equal to the manual labor of 4,000,000,000 of men, or more than double the number of males supposed to inhabit the globe.

Chicago cashiers carry large bundles of bills about on bicycles. One bright young man lost his bundle the other day and an unknown man now has it. The bicycle has many uses, but it was never destined for a treasure train.

Jules Verne is laboring hard on the production of a new romance, which is heralded to be of a startling interest, taking the reader in quite an unknown region and treating of startling discoveries due to scientific researches.

A Troy preacher is accused of announcing from the pulpit last Sunday that, owing to the absence of the intelligent portion of his congregation at the seashore and mountains, there would be no more preaching in his church until the first Sunday in September.

The discovery of the process of tinting white paper was the result of sheer carelessness. The wife of an English paper-maker named East accidentally dropped the "blue bag" into a vat of pulp, where it lay long enough to give the entire mass a bluish tinge before she could recover it.

The Caroline Islanders, who are passionately fond of liquor, but who are in mortal dread of breaking their necks by falling from one of the million of cliffs with which their islands abound, believe that paradise will be a land as level as a floor, where they can get drunk in perfect safety.

In a printed card of regulations for public information, issued by the Wells-Fargo Express Company in the early '90s, the last regulation read: "This company will not be responsible for any loss or damage occasioned by fire, the acts of God, or of Indians or any other public enemies of the government."

The Italians derived "starboard" from questa borda, "this side," and "larboard" from quella borda, which means "that side." Abbreviated, these two phrases appear as a sta borda and la borda. Their close resemblance caused so many mistakes that the admiralty ordered the "lar-board" to be discontinued and "port" substituted.

Governor William McKinley Jr. of Ohio has determined to drop the "Jr." from his name at the end of his present term of office. He would have done so immediately after the death of his father, who had borne the same name, but it was held by some that as he was elected as "William McKinley Jr." some complications might follow a change of his signature.

For some time the Skagit Room Company, which operates extensively on the Skagit river, has insisted on maintaining a boom on the mouth of the river. The marine engineers have notified the company time and again that navigation was obstructed, and that the boom would have to be removed. The company ignored the notice, and now the government has begun proceedings against it at Seattle.

Mr. Jack Porter had quite an amusing experience a few mornings ago while out taking orders. He hitched his horse to an old stump to which some campers had also secured their tent. That was all right but something moved inside the tent which scared the horse who proceeded to back away, the stump came too followed by the tent to the dismay of its occupants who had not yet arisen. Mr. Porter had his hands full for a few moments.—Yaquina Bay News.
