COMPROMISE.

THE SILVER MEN OUT-LAST THE
REPEAL MEN.

A Cabinet meeting decides on a compro-
mise measure.

WASHINGTON, Oct. 13.—At the cabinet
meeting today, after a complete discus-
sion of all phases of the senate situation
a compromise proposition was agreed
on, to be offered by one of the repeal
senators. It includes, as the Harris
amendment, a provision for the coinage
of the silver seigniorage in the treasury
amounting to 53,000,000, and thereafter
the purchase of 3,000,000 a month until
90,000,000 ounces are purchased. This
will carry the purchase of silver over the
expiration of Mr. Cleveland's term. This
condition the silver men insist upon. It
relieves the treasury during the coinage
of the seigniorage of 18 month of further
purchase of bullion, besides making the
bullion so coined available in the treasury
assets. To meet the demands of the
East, the proposition for an issue of
\$100,000,000 of 3-per-cent bonds is in-
cluded. There is still a question whether
the provision for the repeal of the tax on
state banks and the redemption of the
notes of all classes below \$5 shall be
added.

In a Tight Place.

SAN FRANCISCO, Oct. 12.—The Sailor's
Union of the Pacific Coast is reported to
be in a very bad way. The recent
dynamite outrage on Main street by
which Curtin's non-union boarding house
was blown up and four men were killed
is generally attributed to the Sailor's
Union. Since the outrage several big
shipping firms have gone over the Ship
Owners' Association, and have refused
to do business with the Union. Now
union sailors cannot get employment.
The boarding-house masters will not
keep them any longer. This morning
many were swarming around Limejuice
corner seeking a chance to get a berth
on the British ship Speke. Some paid as
much as \$15 in order to secure the priv-
ilege of working for \$20 per month. Last
night over 150 members slept on the
floor and in the corridors of the Union
headquarters. There are now five sailors
for every vacancy.

Disadvantages of an even Temper.

It is unusual to envy an even tem-
pered people. Those who are never un-
derly elated nor cast down, who "knit on
plain" all the time. If one likes that
sort of thing it would be equally natural
to envy the animals, cows and pigs, for
instance, whose serenity is seldom dis-
turbed. For my part I think those even
tempered people lose nine-tenths of the
pleasure of existence. The depths of
grief and gloom into which impulsive
people are thrown are amply made up
for by the equally unreasonable joy into
which they spring at the slightest pos-
sible excuse, and the sorrow of a quarrel
with a dear one is paid for in the delight
of "making up." Parents are very apt
to impress on their children the beauty
of this even disposition, but so far as I
can see, the only benefit derived from it
is an unwrinkled complexion.—Ex.

Indictments against Them.

TACOMA, Oct. 12.—President Van Horn
and other high Canadian officials were
cited today to appear on November 16 to
answer indictments for an alleged viola-
tion of the interstate commerce law.
Much interest is taken in the hearing
tomorrow of Burrell and Thomas, the
alleged counterfeiters who circulated
spurious coin at Roy last week. It has
just been known that a large number
of counterfeiters of \$5 gold pieces have
been circulated throughout Southwestern
Washington. A microscopic examination
of the coins shows the milling to be finer
than that of the originals, but they have
no metallic ring, and are short in weight
nearly one half. Burrell and Thomas
claim that they came into possession of
the bad coins innocently.

Railroad Land Grants.

WASHINGTON, Oct. 10.—In the Supreme
Court of the United States today ex-
Attorney-General Garland asked the
court to advance for hearing the appeal
of the Northern Pacific Railroad Com-
pany vs. J. L. Patterson, treasurer of
Gallatin county, Mont., from the Mon-
tana supreme court. The propositions
contained in this case involve ultimately
the question of the taxability of all the
unpatented surveyed lands within the
limits of the Northern Pacific, Southern
Pacific, Union Pacific, Central Pacific,
California & Oregon, Oregon & California,
Atlantic & Pacific, Texas Pacific and all
other various land grants made by con-
gress to aid in the construction of rail-
roads. These lands now amount in the
case of the Northern Pacific grant alone
to over 17,000,000 acres, an area rapidly
increasing as the surveys are further ex-
tended. The area of lands in the same
condition included in similar grants are
more than double this. These lands are

to be found in almost every state west of
the Mississippi, and their taxability has
been one of the great sources of revenue
in those states. The Southern Pacific
Company, controlling the land grants of
that road, of the Central Pacific, Ore-
gon & California and California & Ore-
gon, refuse to pay taxes upon unpatented
portions of those grants. The states
along the line of the Northern Pacific
have sustained the claims of the county
treasurers, and tax the lands within their
jurisdiction, and the railroad company
comes to the supreme court for relief.

Boomers Outwitted by a Girl.

A little girl, about 14 years old, came
through the jam of teams and horses
near the booths at Arkansas City, dis-
mounted and tied the horse to the hedge.
Going to a coffee stand she procured
two cups of coffee and started for the
dense throng of men about the booth,
now at least fifty deep. At the outer
edge her piping voice was heard saying:
"Please make way, gentlemen, I have
a lunch for the clerks."

She slowly made her way between the
strippers until she reached the magic
circle masked by barbed wire. The stolid
soldiers on guard refused her entreaties,
but when she said Colonel Gallagher
(chief clerk) wanted his lunch she was
admitted ahead of the four lines held in
check. Walking up to the first desk she
put down her load and said:

"I am an orphan and therefore am the
head of my family. I want to register."

The men gathered about looked upon
this proceeding with glowering faces un-
til a great hulking fellow in the crowd
cried out:

"Bully for the little gal!" Then a
hearty shout went up from the men
whom she had so clearly outwitted, and
she received her certificate and proudly
held it aloft as she passed out to her
waiting horse. Her name is Cora Wiley,
Sedgewick county, an orphan, whose
widowed mother died about a year ago.

Firemen as Firebugs.

COUNCIL BLUFFS, Ia., Oct. 12.—This city
has a great sensation in hand. For
several years past there have been a
number of fires here, supposed to be the
work of incendiaries. This morning the
mystery was unravelled by the arrest of
a prominent young man named Benjamin
Webber while in the act of setting fire to
a building. He was formerly connected
with the fire department, and after his
arrest made a confession implicating a
number of firemen as accessories. Chief
Nicholson, and several other members
of the department, have been placed
under arrest.

Still Fighting in Brazil.

NEW YORK, Oct. 12.—The Herald's
Montevideo dispatch says that advices
from Rio Janeiro are that the army
hitherto loyal to Peixoto, is likely to
join the naval insurgents. Two battalions
of the National Guard have revolted and
declared for the rebels. It is believed
the disaffection will spread rapidly. The
rebel squadron is inactive, owing to a
lack of ammunition. The revolution up-
rising in the southern province of Rio
Grande do Sul is daily gaining strength.
A large force of the rebel army is be-
sieging Livramento, and the residents fear
an attack on the city will soon be made.

England's Big Strike Ended.

LONDON, Oct. 12.—Dispatches have
been received here this afternoon report-
ing the resumption of work in many of
the coal districts. It is estimated that
60,000 men went back to work today at
the old rate of wages. The great strike
that began July 28 is now practically
over. It looks now though the men had
forced the masters to agree to their terms.
The strike grew out of the action of the
masters in deciding to reduce wages 25
percent. The men refused to accept any
reduction or to arbitrate the dispute.
They, or at least about 60,000 of them,
go back to work on terms they
held out for.

Horses Burned to Death.

CHICAGO, Oct. 12.—Frenzied by fright
and driven into a stampede by a fire in
the Wallace street cars of the Chicago
City Railway tonight, 451 horses were
burned to death. The barns were entirely
destroyed and the total loss will reach a
high figure. The building was a two
story brick affair extending 400 by 90
feet. The fire spread with startling rap-
idity, and before anything could be
done, the whole structure was a mass of
flames. The losses will aggregate \$1,000,000
apply covered by insurance.

Peace in Buenos Ayres.

BUENOS AYRES, Oct. 12.—South Ameri-
ca is quiet at last. In addition to the Te-
Deum sung today, celebrating the end of
the revolution, there was a grand mili-
tary fete. Peace and security are restored
in the country except in some remote
districts. Advices from Rio Grande do
Sul, Brazil, are that the insurgents were
surprised and defeated by the govern-
ment forces at Quarchy.

TID-BITS

BRIGHT AND NEWSY CLIPPINGS FOR
EVERYBODY.

People and Things we all want to know
about.

The United States has a lower per-
centage of blind people than any other
country in the world.

France is the only European country
which has today fewer able-bodied men
than it had thirty years ago.

Siam's exports last year included no
less than six and a half tons of bird's
nests sent to Hong Kong to make the
celebrated Chinese soup.

A noted physician says that the most
prolific cause of women's nervous dis-
eases, hysterics, spinal diseases and sick
headaches is high-heeled boots.

Transparent leather is now being made
in Germany, and it is likely that the
pedestrian of the future will be able to
see his neighbor's corn growing.

When a girl confides in a married
woman she ought always to remember
that the chances are that she is confiding
in the married woman's husband too.

The electric light is certainly turned
to all manner of uses. The California
fishermen are setting tiny electric lamps
as bait, which never fail to attract a fine
catch of fish to their nets.

A church at Fostoria, O., has decided
to purchase 400 little wine glasses that
each communicant may receive the wine
out of a glass no other person had used
in order to avoid microbes.

Among the spoil picked up on the floor
of the House after the recent scrimmage
in addition to a scarf pin and other
trifles was a set of false teeth. No mem-
ber has put in a claim for them.

It has been proved during the last few
years that at depths of more than 100
fathoms the water of the Black Sea con-
tains so much sulphuretted hydrogen that
it is totally unfit for organic life.

Jerome K. Jerome began life as a
clerk. Then he went on the stage, which
qualified him for playwrighting, to which,
in conjunction with novel writing and
coediting a magazine, he has since turned
his attention.

Mrs. Ada M. Eitenbender, the probi-
tation candidate for supreme judge of
Nebraska, is in the law practice at Lin-
coln with her husband as senior partner
of the firm. She is a native of Bradford
county, Pennsylvania, about 45 years of
age, and a very bright, well-educated
woman.

In a novel form of alarm invented by a
Frenchman, the current from an ordinary
burglar alarm or bell circuit ignites and
explodes a cartridge on the roof of the
house, besides starting all the bells to
ring. The cartridge, in imitating a pistol
shot is said to be very effective in frighten-
ing the burglar.

One of the most affecting reunions
during the recent encampment of the
Grand Army at Indianapolis was that of
General Lew Wallace and his men of the
Eleventh Indiana regiment. About 325
of the members were present. General
Wallace was their first colonel and the
one who made the regiment.

The hottest region on the earth's sur-
face is on the south-western coast of
Persia, on the border of the Persian
Gulf. For 40 consecutive days in the
months of July and August the mercury
has been known to stand above 100 de-
grees in the shade night and day, and to
run up as high as 130 degrees in the
middle of the afternoon.

When Lord Craven the other day con-
verted Miss Bradley Martin into a coun-
tess at the altar of Grace Church, New
York, in the natural agitation of the
moment he appeared with his trousers
turned up. This fact did not escape the
notice of the observant "dukes," who
immediately arrived at the conclusion
that the noble earl's little eccentricity of
costume represented the very latest re-
finement of aristocratic fashion. The
result is that no young American man
of fashion who has an atom of self-res-
pect or a shred of reputation to lose
will now show himself in public without
displaying the hem of his nether gar-
ments.—Manchester (Eng.) Times.

One of the most useful additions that
have recently been made to the equip-
ment of some of the Newcastle police-
men is the pocket telephone. It is handy
and light, consisting, says the Newcastle
Chronicle, of a combined mouthpiece
and earpiece, with about a foot or more
of wire attached, an affixing pin, and a
small key. This apparatus is to be used
by the officers in connection with the fire
alarms placed in various parts of the
city. Instead of breaking the pane of
glass in case of a fire occurring in the
neighborhood—as an ordinary individual
would have to do—the policeman opens
the door with his key, places the affix-
ing pin in a socket provided for it in the
lamp, and is in direct communication
with the fire brigade.
