The skillful and cool manner in which he saved the Truckee after she broke her propeller off Tillamook bar a year ago, and his services in pulling the South Coast off the bar, are the reasons for his being complimented by the Association.

John Wirtz had a thrilling experience on the return trip with the Tillamook stage during the electric storm Saturday. As soon as he crossed the divide above Gales Creek the storm of wind, rain and lightning struck him. Several trees were struck and shattered with a deafening noise by the lightning very close to him and one was thrown across the road in front of him, in fact he was fairly in it, and thunder and lightning were all around like the cannon in the "charge of the light brigade." It was an adventure not soon to be forgotten, and one such, he thinks, is enough.—Forest Grove Times.

What's the reason we can't have a regular old fashioned Fourth of July celebration this year? There ought to be about 1400 calathumpians in line, some sack races, a greased pig, and other novelties on that order. There ought also to a merry-go-round swing and a dancing platform in the open air, so that everybody may feel free and easy. If anybody wants to have horse races on the side we've no objections. If the Alliance people have't already arranged for a celebration, they should be invited to join hands with us and make a grand success. The people out at Fairview are good at getting up affairs of that kind, and if they are bound to celebrate out at Fairview, lets all go out there in monster procession and help them whoop it up. 'Rah for the 4th of July.
