"Home Comfort."

Most of those who bought Home Comfort Wrought Iron Steel Ranges have received notices like the following: St. Louis, Mo., Aug. 10th, 1894. Mr. Tillamook, Ore. Dear Sir:—Your note given for "Home Comfort" Range will be due on the first day of October next. Be ready to meet it in full promptly. Respectfully,

COLLECTOR.

The party who received the above notice had an understanding with the agent that the note would not be collected for three years, and the agent in this case wrote something to that effect across the back of the note. In the written agreements that were given, it is stated that the notes are not payable until 1897, and it was noticed in some instances that the agent made the "7" so near like a "4," that it would be impossible to tell the difference. Probably this is the principal feature of the trick. It is thought by attorneys that the notes cannot be collected Oct. 1 when there was an understanding to wait three or five years, and some of those who bought ranges intend to test the matter.

Headlight Flashes.

Nothing but the best at the Central Market. Sodawater, all flavors, at Knoell's soda fountain. Fresh salmon at the Central Meat Market. Abe Cohn has returned from Portland, when he has been laying in a stock of new goods for Cohn & Co.

W. H. Jones, the Forest Grove stage man, is doing a good business. He employs a careful driver, and provides every comfort possible for his passengers. The Elmore arrived Sunday bringing in the balance of the fishermen and Chinamen. Mr. Ridehalgh, the manager, will arrive next trip. The steamer is expected today.

The new law especially provides that the clerk or sheriff must not perform any official work until the fees prescribed by law have been paid to them. The law further provides that the salaries shall not be paid to these officials until they have collected and accounted for all fees provided for.

Ruggles and Johnson's millinery establishment is constantly in receipt of new goods, including all the latest styles. They bring many of their goods direct from New York City, and as a result, are able to sell them at moderate prices. Ladies who need anything in their line should give them a call.

Since Harry Grose came to this place and opened a shoe shop he has built up quite a trade in his line. He does first class work, and makes a specialty of hand-sewn goods. If you want a neat-fitting and substantial pair of shoes, give him a call. He does repairing on short notice, and at moderate prices.

W. A. Buchanan and E. J. DeHart, of Honeyman DeHart & Co., of Portland passed through this place Monday. They came in via Sheridan, going out via Wilson river. They were here eight years ago, and express great surprise at the wonderful change that has taken place in the way of improvements in this county.

Tillamook has one of the best fitted livery and feed stables in the country. Jones Bros., the proprietors, keep better turnouts than ever, and are accommodating to everyone. Travelers and coast tourists will find good accommodations for their horses at their feed stable, and the prices charged for boarding horses are very reasonable.

J. H. Bridgeford of Bay City, Grand Patron of the Eastern Star, was in the city Tuesday on his way to Dallas to reorganize a lodge of this order. He was assisted by Mr. M. P. Cooper, treasurer, and Mrs. C. W. Talmage, associate matron. Mr. Bridgeford is a brother of our townsman, T. J. Bridgeford. —Yamhill Reporter.

A deaf mute came into this town a few weeks ago, riding a fine bicycle. He sold it to Louis Johnson, taking \$20 and a gold watch. A few days ago the chief of police of Salem telegraphed Sheriff Jackson to hold the bicycle, and he has it in the jail now, awaiting further orders from Salem. It is claimed the wheel was stolen by the mute.

Deputy Prosecuting Attorney E. E. Selph went to Woods last week to look after the drowning accident. Frank Wilehart was arrested and taken before Judge Linton. He waived examination and was bound over to appear before the grand jury, in the sum of \$500. The charge against him is manslaughter, through criminal negligence.

Last Tuesday a wagon load of campers from Salem, consisting of C. T. Doty and wife and three children, were backed into the Little Nestucca river by a balky horse. One of the children was in the

water several minutes before being rescued, and but for the presence of Dr. McNary, of the state insane asylum, who resuscitated the child by vigorous measures, there would have been another drowning to chronicle. The accident happened near Martin Mau'itza's place.

A law passed by the legislature in 1893 requires that the clerk of the court exact from the plaintiff or moving party at the time a suit, action, or proceeding comes on for trial or hearing upon a question of fact or law involved therein, unless referred to a referee, and except upon demurrer, the sum of \$12.00, which must be paid before any such trial shall be had therein. So, if you are going to law, you will save time by bringing your \$12.00 along.

Persons who petition for roads hereafter should remember that it is the duty of the petitioners to notify the viewers and surveyor of their appointment by the county court, as viewers and surveyor, and also of the time and place at which they are to meet, at least five days previous to the time set by said court for such view and survey. Heretofore the clerk has been doing this and putting in his bill to the county for the same; but the law should be followed and it is likely that the present clerk will leave it to the proper parties.

The Swedish National Ladies' Quartette, noted as sweet singers in Sweden, and who have recently made a successful tour of the United States, singing at the Midwinter fair, and filling various engagements in San Francisco, are now spending a vacation with one of their Swedish friends, Dr. Svensen, in Portland, and are thinking of spending a few weeks at Netarts, and after being strongly solicited, have consented to sing for one night in this city, the date of which will be given later. They have fine press notices from the London papers, and also from the New York and San Francisco papers. In Sweden they often sing for the Royal family, and have filled engagements in the leading theaters of America. There is a strong effort to make suitable arrangements for them here, and the people of this town will be enabled to enjoy a musical treat, seldom to be had in a place so isolated. Further particulars will be given later.

Netarts.

A correspondent of the Polk County Itemizer says:

We are here at the head of Netarts bay near the base of Cape Lookout and at the foot of this cape or promontory there are two wonderful caves. One of them is over 300 feet long. Rev. Gardener, of Canby, says he has seen great many caves of note, but never saw any more magnificent than these. Then we can go upon this cape or promontory and see Sand Lake and the mouth of the Columbia river with a glass. Bears and cougars are plentiful on the cape. There is an abundance of crabs, clams and oysters to be had here. We can also see Cape Meares light house every night that is not foggy. Coasters are plentiful this year and G. M. Cobb is getting a good share. Hay pasture, milk and butter of the best kind can be had cheap. Boat riding and fishing a specialty. We had preaching and Epworth League last Sunday in this camp. There is also a good place for surf bathing and, a beach drive for seven miles from the cape to the mouth of the bay. We often see whales spouting water in and evenings the sea going vessels can be seen almost every day and sometimes three or four. The bay is full of seals and very frequently dead sea lions and seals are thrown ashore by the tide. There is a tanner living down on the peninsula between the bay and sea who tans the sea lion hides and makes shoes of them.

Ripans Tabules: standard remedy.
