

Friday Night.

The Swedish quartet made its first appearance at the Vienna Prater yesterday afternoon. Every number was enthusiastically encored, and one selection received no less than four recalls. Manager St-phany has made a great hit with his latest addition to the musical charms of Kaiser Franz Joseph Hall. The members of the quartet are attired as Swedish peasant girls and sing their national ballads with wonderful power. A musical critic remarked yesterday that the deep soprano has a voice like the mellow notes of a church organ.—San Francisco Call.

The Swedish ladies quartet is, perhaps, the most taking feature of the performance. They are by far the best ensemble of female voices ever heard in Seattle. Six encores were demanded before the audience would allow them to retire. With tonight's performance the company will close their engagement.—Seattle Post Intelligencer.

Without a doubt a great hit of the evening was the Swedish ladies' quartet. Their opening number, a Tyrolian song, absolutely electrified the audience, and they were called out not less than six times. In response to the fifth encore they sang the "Suwanee River."—San Francisco Chronicle.

The Swedish Ladies' Quartette Concert proved to be a most delightful musical enjoyment. The singers, who are just completing their tour through Europe were preceded by a more than ordinary fame, which made us put forth great claims on their ability. And we were not deceived in our expectations.—London, England, Times.

Those who have heard the quartette are in raptures to hear them again. And the Press of Europe and America has sounded their praises everywhere. Tillamook music lovers have a rare chance.

A majority of the coasters are greatly excited over the expected tidal wave. One night forty people slept in Mr. Fletcher's barn being afraid to stay on the beach. Some of the Salem people have moved tent from Slab Creek to the Bay where they expect to see the fury of the wave but escape its ferocity.

J. M. Terwilliger, one of the city council of Portland, has been spending his vacation on Nehalem beach.

The new tariff bill gives us free lumber, thus casting another damper on the lumber industry of the country and putting us in competition with British Columbia and Canada, countries that welcome Chinese and cheap labor.

The Big Church meetings in the court house have attracted considerable attention, and good sized congregations were in attendance. C. E. Reynolds is deacon and T. B. Handley and W. F. D. Jones are class leaders. The county court has been petitioned to prevent such meetings being held in the court house, it being feared that a thunder-bolt will be sent against it. However, it is thought there is no danger, as God swiped one of his churches here out of existence two years ago and knocked another off its foundation, leaving two saloons and a bagnio standing, unaffected by the wind. the editor of the HEADLIGHT blew the bagnio away later on, and it is thought Mr. Handley will get away with the saloons.
